

n consequence of her husband's determination to continue his fast against her wishes. Livingston hurried home and found his wife in convulsions. He summoned a physician, who could not discover that Mrs. Livingston had taken any poison and concluded it was only a device on her part to get her husband home.

Over 700 emigrants arrived yesterday. The steamship *Nevada* arrived in port last night with 347 souls to increase the Mormon population in Utah. The majority were from the Scandinavian provinces and the minority from Germany.

The *Herald* says: The committee appointed from Tammany Hall to make arrangements for a grand ratification meeting on Thursday next, waited last evening on Hancock, with a request that he would review the procession. The General informed them he would carefully consider the matter and communicate his decision to the chairman.

John R. Fellows, who has just returned from Maine, told a *Herald* reporter the republicans were using the canvassing boards to the very best advantage of their candidates, but admitted that the democratic party in Maine, animated by what they felt was certain victory in November, contributed more freely to the campaign fund than for years past.

AUGUSTA, Me., 16.—Returns received from 519 towns, a considerable part official, gave the following vote: Davis 70,965; Plaisted, 69,057; Nye, 174; scattering, 255; Davis ahead 1,479. There are yet 81 towns and plantations to hear from which voted last year as follows: Davis, 2,427; Smith, 1,758; Garcelon, 1,982; the fusionists more than Davis, 1,313. If these 81 towns and plantations have voted the same as last year Davis is elected by a majority of 166. The constitutional amendments are doubtless both accepted.

SAN FRANCISCO, 16.—A dispatch from Monterey says: The Presidential party arrived in Monterey about 5 p.m. yesterday and were escorted to the Hotel Del Norte, where preparations had been made for their accommodation. A ball was given at the hotel in the evening.

The President, Mrs. Hayes, General Sherman and others of the party were in attendance, the President, however, not joining in the dance. At 10.30 o'clock this morning the party was escorted into town by the reception committee. At the intersection of Pearl, Alvarado and California streets where a triangular triumphal arch was erected. The Monterey brass band played Hail to the Chief, the President and party passing under the arch with uncovered heads. At that point a number of native Californians on horseback joined the procession. Arriving at Colton Hall the President was greeted with a shower of bouquets at the hands of a number of school children dressed in white, formed as a living arch on the steps of the hall above the President.

Captain Brown introduced President Hayes, referring to Monterey, both ancient and modern, and attributed the sleepiness of the town to the fact that when Gen. Sherman, in 1847, lived in Monterey, he tried to make a huge punch bowl out of the Bay. The President then responded, eulogizing the people of the town, referring also to the beauty of the surrounding scenery. He then made mention of San Jose, which place he had passed yesterday on his way, saying it was the handsomest place he had seen since he had left New Haven and Cleveland. Governor Ramsay was introduced and delivered an appropriate speech. Gen. Sherman referred to the time when he was in command of the Americans in 1847, and the hospitality of the people who resided here in those days. The General was frequently applauded. He thanked the assemblage for the reception they had given the President. The school children then sang "Marching Through Georgia," the General joining in the chorus with spirit. Mrs. Hayes was next introduced and was heartily cheered—she bowing acknowledgments. The party were re-seated in their carriages, passing through Alvarado Street, towards the Hotel del Monte.

The Presidential party concluded to remain here until to-morrow morning at 10 o'clock, at which hour they leave and proceed direct to Menlo Park, as guests of Senator Sharon. The entire party were driven to Pacific Grove, Point Cypress, Carmel Mission and other places of interest, all express themselves highly pleased with their visit. General Sherman will have a

reception this evening at the Hotel del Monte. He has invited all of the old pioneers to assemble there, where he will meet them, and, as he says, "have a tussle with them."

Panama, 16.—The steamer *Clyde*, which arrived at Aspinwall from New York on the 2d, reports on August 27th she encountered a severe gale from the southwest, and was compelled to lay to twenty-two hours. Her port guard aft and cabin bulkhead were slightly damaged.

Dr. Quenez, president of the republic, is expected to visit Panama about the middle of the month. He comes with a further body of troops to be stationed in this city.

The president of Honduras has issued a decree convening the National Assembly to meet at the capital on the 1st of September.

The government of Salvador has entered into a contract with J. F. Medina for the establishment of a bank in that republic. The head office is to be in the capital, with branches in different towns wherever most required.

The Costa Rican government denies the report that it had concluded a secret treaty with Peru.

Work on the Costa Rica railroad from the capital, San Jose, to the Atlantic is progressing satisfactorily.

The Republic of Nicaragua boasts that it has no foreign debt.

NEW YORK, 16.—Shooting began at Creedmore this morning for the international prizes. There were six entries for 200 yards. The following was the score: Connecticut, 341; Military Division of the Atlantic, 334; Military Division of the Pacific, 334; New Jersey, 333; Military Division of the Missouri, 342; Pennsylvania 334. The weather was fine and clear at 10 a.m. and wind favorable.

At the 500 yards, out of a possible 420, the score stood as follows: Connecticut, 337; Military Division of the Atlantic, 364; Military Division of the Pacific, 348; New Jersey, 322; Military Division of the Missouri, 364; Pennsylvania, 431; shooting at 600 now.

The international military match resulted in the team from the Military Division of Missouri winning the first prize, with a score of 1,025 out of a possible 1,200, and the Military Division of the Pacific taking the second prize, with a score of 1,014.

The bark *Eringh* from Pont de Paix, Hayti, was towed in here today, the whole crew having been taken down with yellow fever. Two men died on the passage.

SAN FRANCISCO, 16.—A dispatch from Empire City, Oregon, says: The steamer *Quickstep* went ashore yesterday during a thick fog, at the mouth of Coquille River. It is supposed she is a total loss. No lives lost.

PORTLAND, 17.—Thirty-four towns not received, gave last year, Davis, 635, fusionists, 1,207, scattering 80; a fusion majority of 572. If they come the same as last year, Davis will have left 303 plurality. Adding the scattering to that received, we have 416, so that Davis will not get a majority without a further gain of 114. The total vote to hear from is 1,922, which, if increased five per cent. like the rest, will bring the aggregate up to 146,800, as per Tuesday night's estimate, and 300 more than predicted on Monday night. It will, however, be divided the other way, namely, Davis, 73,330, Plaisted, 73,050; scattering, 420; subject of course to further gain or losses on either side. The twelve Aroostook towns to come, gave last year, Davis, 157, Smith, 70, Garcelon, 481; a total of only 708, so that their changes cannot very well vary the result.

NEW YORK, 17.—At the republican headquarters last night, Col. Hooker received the following dispatch:

Augusta, 16.—Davis is elected unless the French towns on the northern border overwhelm us by illegal votes. Official returns are not yet received from them. We have gains enough from other towns to overcome their majorities of last year, and several hundred to spare by expert returns.

(Signed) J. SMITH,
Secy. Repub. State Com.

At the democratic national headquarters the report was 364 towns, Plaisted, 65,995; Davis, 67,828.

The obelisk was safely towed from Staten Island to the foot of 96th St. last evening.

Eugene Casserly, of San Francisco telegraphed to Hancock yesterday: "Maine is redeemed and a new star in the east shines brightly. Its name is Hancock. Bayonets are not fit instruments for collecting

freemen's votes." Well spoken high chief."

Hancock in return said: "The result on the Atlantic front is very encouraging. May it be equalled at least on the Pacific Coast, to which I am identified by early associations and whose interests in any sphere of life I would always endeavor to promote."

S. O. Smith, secretary of the Main republican State committee, telegraphs the national committee that the French plantations and all towns now heard from Davis has a plurality of from 500 to 600. This will probably give him a majority of between 150 to 200.

NASHVILLE, Tenn., 17.—The *American's* Guthrie, Kentucky special, received here at 1 a.m., says that the mob which started for Springfield last night to lynch the six negroes still supposed to be in the Springfield jail, halted at 7 o'clock at the place where Bell and Jameson were hanged, where they were joined by 100 more. They had about concluded to go to Springfield for the prisoners, when a messenger arrived announcing that the negroes had been removed to Nashville. This infuriated them almost beyond control. The other part of the mob, when they left Sadlersville, went in different directions, about 50 passed through Wadensville at 11 o'clock, the others going toward Clarksville. It is said four counties and two States were well represented there last night. It is rumored that the other negro charged with complicity in the crime, was captured near Adams' Station to-day, and will be tried by the lynchers to-night.

CHICAGO, 17.—St. Julien's escape from great peril and what might easily have been his destruction as a fast horse, is described by the *Inter-Ocean's* Kalamazoo special: The train bound east due here at 2.30 a.m. was unable to use its air brakes, and consequently rushed on an open switch. The engineer and fireman jumped when they saw they could do no better, and the train was badly smashed up and derailed. St. Julien was in the second car from the engine with two attendants. The car was thrown partly over so that one side rested on the ground, the horse was thrown down, but strange to say, neither horse nor men were hurt. He was quickly gotten out and evinced no symptoms of fright or distress.

RICHMOND, 17.—The conservative committee has been in almost continuous secret session considering the readjusters' proposition providing for a primary election to settle the electoral ticket question. At 12.30 last night they sent a communication to the readjusters' committee, in which they agree to the primary election plan, but propose modification of the details so as to provide that only white democrat voters shall be allowed to vote in the primary. This proposition, after brief consideration, was rejected by the readjusters, who desire to adhere to their original proposition, which provides that all registered voters, whether they have paid the capitation tax or not, who may pledge themselves to support Hancock and English, shall vote at the primary election.

Chicago, 17.—Gorham of California, just returned from stumping Maine, was interviewed yesterday. He believed the result, although not equal to what was expected by the republicans, would inspire them to work. He ascribed the republican defeat to the lavish expenditure of money by the democrats and to the fact that the latter supported the greenback nominee without any assurance from him that he was at all in sympathy with the democratic party. Plaisted he described as a republican who had accepted the greenback nomination because he felt he had been slighted in the distribution of offices in his own party. He felt certain that neither Weaver nor Plaisted would do anything that would be likely to let the democrats gain any electoral votes in Maine, as they are republican greenbackers.

New York, 17.—The following was received this morning at the headquarters of the National Democratic Committee from Portland: The returns from 408 towns gave Plaisted 70,019, Davis 70,980; republican majority, 679, with 58 towns and plantations to be heard from, yet which in 1876 gave 34 democratic majority, and will give now more than 1,000. Republican papers pretend to claim a majority for Davis, and are trying to confuse the returns to assist the attempted fraud, but there is no doubt of Plaisted's election.

SAN FRANCISCO, 17.—A Virginia City, Nev., dispatch, states: An accident at the Con. Imperial mine, last night, resulted in the death of nine men, one being dangerously hurt. The three o'clock shift were coming off the cage, and with 10 men on it started for the surface, when the cable broke, precipitating them down the shaft 300 feet, 1,400 feet of rope piled upon them. Three men have been taken out, two of whom are dead and the other is not expected to live.

Later.—The following are the names of those killed in the Con. Imperial mine last night: John Roach, Patrick Murphy, Dick Ryder, Thomas Meager, Matthew Winnie, Joseph Hannahan, Wm. Corbett, Geo. Farnham and Jerry Sullivan. Most of the bodies are terribly mangled. The men were got out at four a.m. Roach talked rationally when found, but died when coming up the shaft. Frank Smith, the only man saved, is resting easily. The cable broke at the reel, and for some reason the safeties did not catch. The cable was the best English make, four and a half by half an inch, in use only three months. The shaft was in charge of Ryder. The pump men and the pump shift were changing at the same time with the other shift. Ryder was on the under cage on which was found an axe with the helve broken eight inches from the poll. The only explanation of the accident is that this axe handle caught the timbers causing a strain which broke the cable. The engineer on duty says, however, that everything appeared to be running smoothly when the cable broke.

BRIDGEPORT, Conn., 17.—A terrible explosion occurred this afternoon in a small wooden building occupied by the Union Metallic Cart-ridge Company as a fulminating building, situated some distance from their main factory. At the time of the explosion five persons were at work in the building, and all are supposed to have been killed. No one has been seen since, and four bodies have been found in the building completely blown to atoms. The debris was blown a great distance. A small lake, some distance from the building, was literally strewn with the fragments of the building. Six of the bodies were found in the lake, one with head and arms gone. The cause of the accident is not known.

NEW YORK, 17.—The Academy of Music was crowded to overflowing to-night on the occasion of the republican mass meeting, and the police were obliged to close the doors to keep the throng from overcrowding the corridors. Thousands went away unable to gain admittance. On the stage among prominent men were Hon. Edward Pierrepont, Judge Cowan, Gen. Anson McCook, Postmaster James, Collector Merritt, Gen. Graham, Gen. Carr, Hon. Thurlow Weed and others. About 7 o'clock Gov. Cornell entered the Academy and was escorted to a private box amid three cheers. Gen. Arthur and Hon. James A. Varnum accompanied the Governor. Shortly before 8 o'clock Senator Conkling arrived, accompanied by Hon. Hamilton Fish, Hon. Loyd Aspinwall, Hon. J. Jay, ex-Gov. Denison, of Ohio, and Hon. Levi P. Morton and as the party advanced upon the stage there was simultaneous cheers from every part of the house and hand clapping, and hats were waved in the air. The excitement subsiding, Aspinwall advanced to the footlights and said: He had been requested to open the meeting by reading a letter from Gen. Grant. (Prolonged applause.) (This letter has been published heretofore.)

Hon. Hamilton Fish was elected chairman and in a brief speech introduced Senator Conkling, who was greeted with cheer upon cheer as he came forward.

[He made a lengthy speech, which we have not room for this evening.—ED.]

Republican journals say no such meeting or enthusiasm has been seen since 1860 as the republican demonstration last night.

SAN ANTONIO, 18.—Grierson telegraphs from Fort Concho that Victoria's main camp is still undisturbed in the vicinity of Lake Guzman, Mexico. Col. Teravas with several hundred Chihuahua state troops, expects to reach the line by the 27th.

CHICAGO, 18.—Hendricks and Thurman to-day addressed an immense mass meeting of the democracy at Hicksville, Ohio, three miles from the Indiana border. The *Tribune's* New York special says: Another mining exchange is about to be established. J. H. Haverly is prime mover in the enterprise.

FOREIGN.

LONDON, 15.—Havana dispatches say: Rev. Mr. Merino, the newly elected President, took charge of the government of Santo Domingo September 1st. In his inaugural address, referring to foreign relations, the President declares that he will endeavor to enter into as intimate a union as possible with the Spanish American Republics, and will exert all his power to attain to such a union. Regarding the relations with the Vatican he says that as President he will especially seek to be head of the people which, professing most advanced doctrines, considers it at the same time its highest glory to be essentially Catholic, and having constantly lived in the union of the Church, has never varied in its sentiments of profound adherence to the Sovereign Pontiff. No allusion is made to the United States. President Merino has formed the following cabinet: Ulysse Huerreaux, Minister of War and Marine; Billini, Minister of the Interior and Police; Elyse Grovillon, Minister of Justice and Public Instructions; R. Boscowetz, Minister of the Treasury and Commerce.

The Oldham cotton spinners have resolved to run their mills only four days a week.

Owing to continued depression in the Irish linen trade, the flax spinners will after October 4th, reduce the working days to four per week. An upward movement in raw cotton is threatened.

Instructions to all commanders of the international fleet except the French state that in case operations which may have political consequences becomes necessary, British Vice-Admiral Seymour must confer with his colleagues, but that neither he or they will be required to refer to their governments before resolving on whatever course may be expedient. This liberty of action extends even to the bombardment of Dulcigno.

Florence.—Larkin G. Mead, sculptor, has just shipped to America the two remaining bronze groups for the Lincoln monument at Springfield, Ills.

The Albanians continue resolutely to oppose the cession of Dulcigno and are hastening thither *en masse*. It is asserted they have resolved to kill Riza Pasha, who is at Kalockol with only 1,500 men. The Albanians have forwarded a fresh threatening address to the Porte.

MR. C. W. CARTER, Photographer to His Excellency President R. B. Hayes, will, on receipt of 25cts. mail a fine Stereoscopic picture, taken at General Smith's, Fort Douglas, of President R. B. Hayes and Suite, or of the Artillery preparing to salute the President, or any of the eight views of the 24th of July Procession, interior or exterior of Assembly Hall, Bathing in Salt Lake, the Standing Monument, or any of my 1000 Views of Utah, Stereoscopic, 3 for 25cts; Album Size, 15cts. or 2 for 25cts. These are also on sale at J. Dwyer's or W. F. Raybould's, Salt Lake City.
