Mr. Eccles Says Eastern Interests Will Not Participate.

MORRELL SAYS THEY WILL.

Mr. Eccles Says the Amalgamated Experts to Build in the Lewiston District.

A new and interesting turn to the proposed sugar factory at Lewiston, Utah, has been imparted by the visit of Hon. David Eccles, president of the Amalgamated Sugar company, to New York.

Mr. Eccles was asked what would happen if Mr. Nibley went on with the Lewiston factory in spite of the withdrawal of the eastern parties.

WHY HARRIMAN IS SELLING OUT

Some Reasons Why He is Relinquishing 2000 Miles of Track.

OREGON SHORT LINE WRECK

Passenger Train Near Caliente Yesterday Hit a Bull and Was Promptly Ditched.

Now that the San Pedro-Short Line deal is the chief topic of speculation in local railroad circles it is interesting to note that since the commencement of this year the Harriman interests have been negotiating to unload about 2,000 miles of track.

The reasons for the sale of the Texas properties is attributed to the interference of the Texas legislature with the economical operation of all Texas railroads, and especially the Harriman lines.

Another light is also thrown upon the situation when it is stated that it is the intention to concentrate an effort on the east and west traffic for the Southern Pacific, practically under the management of the San Pedro line.

The Oregon Short Line passenger train No. 1, was wrecked 15 miles north of Caliente at 4:30 yesterday afternoon owing to a bull dislodging the right-of-way from the locomotive.

The wreck occurred during the time that intersection was being paved and it is alleged that plaintiff stumbled over a surveyor's stake which had negligently been placed in the street by the paying company.

DISAPPROVED BY THE MAYOR

City's Executive Takes Exceptions To Proposed Reservoir Plan.

HIS IDEAS ON THE MATTER.

Thinks Such a Large Public Enterprise Should be Financed by Raising Bonds.

Mayor Thompson today disapproved of the plan adopted by the city council in constructing the Parley's canyon storage reservoir by "piece-meal." The mayor was notified by City Recorder Nyström of the action of the council on the matter at its special session held last Thursday night.

The mayor's disapproval of the proposition is addressed to the council and is as follows: "I hereby disapprove of your action of July 2, 1903, in relation to the proposed reservoir dam in Parley's canyon, for the reason that the method proposed by the council does not accord with my ideas of the proper financing and handling of such a large public enterprise."

These are approved. Mayor Thompson today approved the contracts with P. J. Moran for the laying of the iron and wooden pipes and connections for the new isolation hospital water supply from Emigration canyon. He also approved the franchise granted to the Consolidated Railway & Power company for double tracks from North Temple and Ninth West streets to Fourth North and Twelfth West streets; the appointment of James Maxwell as special policeman for the city and county building grounds; and the granting of a license to Frank Maltese to run his Palace of Illusions at the Salt Palace on Sundays.

Plans Agreed Upon but No Action Yet Taken.

No action was taken on the plans for the new jail at Bingham Junction at the meeting of the board of county commissioners yesterday afternoon. Chairman Anderson stated that plans had practically been agreed upon, however. The jail will be built on the county's lot just south of the consolidated railway and light brick structure, 26x36 feet in dimensions, and will cost about \$10,000. There will be two stories, the first floor to be used as jail rooms. The steel cell will accommodate eight prisoners while the other rooms will be used as offices and a courtroom. The jail will be supplied with a bathroom and closet and a water supply will be constructed to supply the water. The plans and specifications will be considered in detail at the meeting of the board on next Monday.

Police Serve Subpoenas.

Trouble Over Securing Jury in Hack Driver's Case.

Some trouble arose in the police courtroom yesterday afternoon when Judge Tanner handed Officer Roberts a venire for a jury in the case of Ed Gallagher, the "volcanic" hack driver. As the officer was leaving the courtroom to serve the venire on Gallagher, he was stopped by a police officer serving the venire on the ground that he would likely bring in a prejudiced jury. Judge Tanner decided at once that the venire officers were the ones to serve the writ and it was therefore served today by officer Sparty.

Social and Personal.

Mrs. C. S. Burton gave a charming party last night in honor of Col. William Young and Misses Hattie and Claire Young, who are visiting here from New York. Music, recitations and refreshments made up a delightful occasion.

Yesterday the sewing school, conducted under the auspices of the education committee of the Federation of Women's clubs, opened in the museum building of the university, the attendance being so large that the class had to be divided into two sections, to meet respectively on Monday and Wednesday mornings at 9 o'clock. Madame Helen Root is the instructor, which insures the most efficient training of the class.

Mrs. D. S. Spencer and children left this morning for Santa Barbara, where they will spend the summer with relatives.

Mrs. Thomas Kearns had returned after a few days' visit in Park City.

Frank Berstuch of Chicago is the guest of his sister, Mrs. Sam Porter.

Mrs. F. S. Richards is visiting her father in Blackfoot, Idaho.

Mrs. Geneva Jennings Baker is visiting her parents, Mr. and Mrs. Jennings, at the Fifth East hotel.

One of the most enjoyable affairs connected with the Fourth of July was the canyon trip of a party of young Salt Lakeers, consisting of the following named persons: John Mitchell and Clara Noel, James Noel and Estella Margrett, Edward Roberts and Marion Shill, Alonzo Earl and Mattie Shill, Richard Summerhays and Eliza Sterling, and Louis Mitchell. They left for East canyon on Friday, the 3rd, and arrived home Sunday evening. The crowd was a jolly one and everything that could be desired went to make the trip a success.

TINNERS ARE HAVING TROUBLE.

One Firm Decides Upon a Lockout, Cutting Off Sixty Men—Object to Being Dictated to by Unions and Walking Delegates—Places Where "Peace" Reigns.

The feature of the labor union imbroglio today was the lockout of the tinner, the number of men affected being about 60. By water & Groo, tinning contractors, stated this morning that their action in shutting off their men was in order to hasten a settlement of the uncertain condition prevailing in the Salt Lake labor market. At present, they said, there was such uncertainty in taking contracts that contractors were all out, and could not tell whether they would be able to fill their agreements. Their men were liable to quit on them without any warning, on the orders of a walking delegate, and it had become unbearable. The gentlemen said they had no objection whatever to union labor—in fact, rather believed in it, but they did not propose to have any walking delegate dictating to them when they should employ what wages they should pay, what hours they were to keep, where they should buy their raw material or with whom they should have business dealings. So it is "all off" with the tinner until they know just where they are at and what relations are to be with their employers. A meeting of the journeymen was to have been held this afternoon or evening, to try and clear up the situation.

WHERE "PEACE" REIGNS. Everything is on "the dead quiet" at the Holmes terrace, the Judge building on west Third South street, and on one or two other jobs, and Contractor Curley and those of the contractors who are standing with him will wait before resuming work until they can gain some idea of what the unions intend to do, and this, it is believed, will be found out later in the week when the various unions shall have held their meetings. The walking delegates and leaders will do their best to keep the unions in the Federated Trades council, and "present a solid front" to the contractors. But there are mutterings everywhere among the men at this loss of valuable time, and over so small an issue as the dictum of 25 hoodlums, and the fact that these same hoodlums are ready to work for the street railway company at \$1.75 and 44 for eight hours from building contractor, is causing a great deal of growing among the other unions. Moreover, contractors say they propose to be relieved from these so-called sympathetic strikes which come without warning and upset calculations.

FEDERATED TRADES DOOMED. Contrary to expectations, some of the carpenters have returned to work at June amounting to \$302.25 were ordered paid. The fines received by the librarian for the past month amounted to \$37.71 which was turned over to the library fund. The city auditor reported a balance on hand to the credit of the library fund of \$4,529.80. An order was made by the board that the furniture where valuable books from the library are found in houses infected with contagious disease the people of the house shall retain the books and shall pay the library the full value of them.

AMUSEMENTS. Last night the Salt Palace opened the vaudeville season inaugurated by Manager Myers. Owing to the blustering weather and the very cool atmosphere, the house was not so large as it should have been, nor doubtless as large as it will be when the merits of the vaudeville performance became known.

OLD MAN'S BAD CONDUCT.

William Evans Charged With Enticing Little Girl From Home.

William Evans, aged 62, a baker of this city, will probably be taken to Logan this evening in the custody of Sheriff Rigby of Cache county. Dr. Sheriff will also have in charge little Eliza Jones, of Logan, a fourteen-year-old school girl and the alleged victim of Evans. The baker and the girl were arrested last night by Officers W. H. Gardner, on information forwarded to the police department by Sheriff Rigby. The charge against Evans is that he enticed the girl to leave her home, and brought her to this city for the most infamous purpose. The girl is the daughter of Mrs. John Jones of Logan, a widow employed at the Hanks hotel. That Evans was able to throw some fascination upon the girl seems to have been well understood by the mother, for as soon as she discovered yesterday morning that her daughter was gone, she immediately informed the sheriff and was anxious as to where the girl had gone, well grounded in the belief that the girl's arrest together with the arrest of her would-be destroyer followed almost as soon as she arrived in this city.
