

# BEET SUGAR CONCESSIONS

Utah Men Have Secured Exclusive Privileges From the Mexican Government.

GRANTED TWO WEEKS AGO.

Promoters Will be Permitted to Select Public Lands Free of Charge — Terms of Agreement.

Utah men have secured a concession from the Mexican government that will enable them to build a sugar factory in the sister republic under very favorable circumstances. The exclusive right to manufacture beet sugar in Mexico has been granted to them, with a provision that for the first 10 years of the factory is working it shall be entirely free from taxation, and the machinery for the building of the same shall be admitted into the country free of duty. The structure is to be completed within five years after the plans are submitted, and two years are given in which to perfect the plans and specifications. The plant is to cost \$500,000.

The promoters will be permitted to select public lands, free of charge, not otherwise appropriated, and for the concession the company agrees that if the republic desires to purchase the output of the factory, in whole or in part, they shall be allowed to do so at a price 10 per cent less than other purchasers are required to pay.

## TERMS OF DEAL

The company pays to the government the \$2,000, which sum is to cover the expense of inspection, and \$5,000 is to be deposited in the National Bank of Mexico as a guarantee of the fulfillment of obligations on the part of the company.

The enterprise is enthusiastically endorsed by the Mexican Herald, and considers it a benefit to the government as well as to the company. Beet sugar is not manufactured in Mexico to this time.

## C. THORESEN RETURNS.

Hon. I. C. Thoresen of Hyrum, Utah, has returned from Mexico, where he has spent considerable time in the interests of the proposed company. He brings word that the concessions were granted on July 4. The company to be formed is composed of Colorado and California capitalists, with a goodly sprinkling of Utah people. Among the latter are Mr. Thoresen, W. M. Roylance and others. Prominent Mexicans who have become interested in the project are Atty. Adolpho Fenochio, an English capitalist named William Thompson and Nicholas M. Suarez, a Mexican capitalist.

## SPLENDID OUTLOOK.

A report on the proposed sugar plant, Mr. Thoresen says:

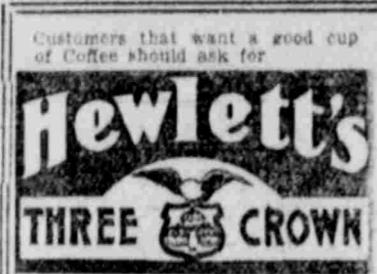

"The following advantages in favor of the successful operation of the beet sugar industry in Mexico are very apparent. The soil and the climate of the upper valleys are all that could be desired for the growing of beets. They can be planted and harvested during any month of the year, hence factories can be run the year round. The native labor in these valleys is well adapted for beet culture with proper supervision, and the 'peon' in these parts is more permanent and localized, and does better work for less money (average farm labor costs from 20 to 50 cents per day and half the amount for boys) than in the lower altitudes of the republic."

The water supply is ample. Fuel, however, is more expensive than in the United States, but the by-products from the factory will bring a much higher price. The percentage of sugar in the beets and their purity far exceeds the average in the United States or Europe. The general government, as well as that of the states and cities, is very favorable toward the establishment of the industry and will give it all the encouragement and aid within its power."

## GREEK'S NOVEL SCHEME EXPOSED

Charles Gulamena Endeavors to Get Rival Throw Into a Dire Dungeon.

## "ALL'S FAIR IN LOVE AND WAR"

Villain Frustrated While Hero Escapes To Greece to Marry His Own True Love.

In order to secure the arrest of his cousin to prevent him from going back to the old country for the purpose of marrying the girl with whom both men were in love, Charles Gulamena, a Greek residing at Murray, yesterday tried to induce Assistant County Atty. Job P. Lyon to issue a complaint against Salvator Kassopolis so that he could be arrested and prevented from taking his trip. After considerable questioning the attorney learned the true motive which prompted Gulamena in his action and refused to issue the complaint. Consequently Kassopolis left last night for Greece to join his sweetheart.

According to the story told by Gulamena he sent \$75 to his cousin, Kassopolis, last Christmas to be sent to the old country and instead of sending the money, it is claimed that the cousin appropriated it to his own use.

Gulamena learned yesterday that Kassopolis is going back to the old country to marry the girl whom they both loved so he called for help from his Greek friends to devise some way to keep Kassopolis here. He finally thought of the money matter and when he told his friends of it they advised him to consult the county attorney and have Kassopolis arrested.

He called upon Mr. Lyon and told his story but after so long a time the attorney got at the bottom of the affair and discovered that Kassopolis did not want his cousin punished, but merely wanted him kept here. The attorney therefore refused to issue the complaint and Kassopolis is now on his way to his native land.

## SUMMER'S HOTTEST DAY.

Mercury Reached 93 Degrees at 2 p.m. Today and Still Soaring.

This is the hottest day of summer thus far. At 2 p.m. the mercury reached 93 degrees and was still climbing. The air was extremely close and oppressive as well. At 5 o'clock yesterday afternoon the temperature was reaching the 93 mark.

## ARRESTED HERE.

William Moser of Ogden Behind Bars of County Jail.

William Moser of Ogden was arrested last night at the request of Sheriff Seeling of Weber county. The arrest was made quite by Deputy Sheriff Sharp and the man was held in custody pending the arrival of Sheriff Seeling who will take him back this evening. Moser is accused of improper conduct with a 16-year-old girl named Annie Newton of that place. The complaint was sworn to by F. B. Newton, the father of the girl.

## HEALTH STATISTICS.

The Utah state board of health publishes today the June bulletin. The total number of deaths from all causes in 18 districts of the state reporting amount to 266, the number of districts reporting being 18. Seventy-one localities are reported to the state as having no death being 18. Deaths from communicable diseases—Scarlet fever, 26 cases, no deaths; smallpox, 36 cases, 6 deaths; diphtheria, 23 cases, 1 death; typhoid fever, 11 cases, 3 deaths; whooping cough, 11 cases, 6 deaths; pneumonia, 21 cases, 4 deaths; consumption, 9 cases, 6 deaths.

## BARBERS' BOARD TAKES ACTION

Administered a Gentle Shakeup In Ogden Among Tonsorial Artists.

## ENDORSED BY THE GOVERNOR.

Good Work Productive of Written Congratulations—Warrants for Insurgents to be Issued.

Dr. C. M. Benedict and Perley A. Hill of the state board of barbers examiners have returned from Ogden, where they went yesterday to enforce the law regarding the renewal of licenses of barbers operating in that city.

The result of the visit was that all except eight men out of 54 practising barbers in Ogden renewed their licenses. Those who refused and stated that they would test the constitutionality of the law were W. M. Blodgett, Lafe Farley, Adam Barber, E. S. Morris, H. G. White, J. H. Redfield, P. A. Gysin and W. McDonald. Each named was accordingly summoned to appear before the board in Salt Lake on Tuesday next and show cause why his license should not be revoked, and it is expected that in case he failed to appear the board would revoke his certificate.

## WARRANTS TO ISSUE.

The members of the board interviewed County Atty. Hulaniski in regard to the three men now in Ogden who had refused to apply for licenses and were running a shop. He promised the hearty support of his office in sustaining the law and directed that warrants issue against the men today.

## TWO SHOPS CLOSED.

As an indication of the work that comes under the jurisdiction of the board, a case of impetigo, a loathsome skin trouble contracted in dirty barber shops, was unearthed. It is known that the man had shopped in two shops on Twenty-fifth street. Action was taken at once. Both shops were closed and thoroughly fumigated while the man suffering from the skin trouble was placed under quarantine.

## FIFTY-FOUR BARBERS.

The board found that there are 54 practising barbers in Ogden and 6 apprentices. Twelve of the 54 are working on permits and are to be examined at the next meeting. In all 35 have renewed their licenses, while the remaining eight, as before stated, are determined to fight the issue and bring a test case into court.

## STRENUOUS TIMES.

Dr. Benedict and Mr. Hill had a most strenuous day yesterday in company with W. W. Piggott of Ogden, the president of the board, when they visited every shop in the city. As it is one of the rules that the board shall listen to every complaint, there were some hot old arguments and debates entered into by both sides. That the board is heartily endorsed by the better class of barbers, however, was apparent from the start.

## GOVERNOR CONGRATULATES.

That it is also doing good work was demonstrated this morning on the receipt of the following letter from N. P. Nelson, secretary to Gov. Cutler, addressed to Dr. C. M. Benedict:

"I am directed by the governor to congratulate the members of the state board of barbers' examiners on their active work in enforcing the law. The Ogden correspondence in the Salt Lake papers say there is general revolt among the barbers of that city to pay the annual fee and being subject to the regular inspection of the state board."

"The governor is decidedly in favor of the law, and if it is found to be unconstitutional or faulty in any particular, it is well to have that fact tested now, so that the incoming legislature can remedy the defect. The public is entitled to the protection given under the state law, and you may count on the support and influence of the governor in carrying its provisions into effect."

## REASONS FOR REVOLT.

Refusal to pay the fee is made on several grounds in Ogden. In the first

place the barbers maintain that where as the law is applicable only in five of the largest cities of the state, it is discriminatory legislation and consequently unconstitutional. Another ground on which they base their refusal involves the history of the board. Organized, the barbers were compelled to pay a fee of \$5, which entitled them to practise if they passed the examination. The board decided that the certificates needed to be renewed each year, and this without the necessity of passing a yearly examination. Since then the barbers have paid a yearly fee of \$1 for the renewal of their certificates. They object to this on the ground that one certificate of proficiency ought to be sufficient for any number of years.

When you present a box of Confectionery, let the height of your esteem be portrayed by the high grade of the gift.

TODAY'S MONEY MARKET.

## PRODUCE.

### CHICAGO.

Chicago, July 20.—The wheat market opened easier today chiefly because of clear weather in the north which caused a slight diminution of damage by hail. Trading was very slow. September opened 14 1/2¢ lower at 75 1/2¢ and sold around 75¢.

September corn opened 1¢ to 1 1/2¢ lower at 70 1/2¢ and held around 70 1/2¢.

September oats opened 1¢ to 1 1/2¢ lower at 73 1/2¢. September soybeans opened 1¢ to 1 1/2¢ lower at 73 1/2¢ and sold around 73 1/2¢.

Provisions were quiet and steady. September pork was unchanged at 17 1/2¢; lard at 9 1/2¢; bacon at 9 1/2¢; ham at 17 1/2¢.

Provisions rallied somewhat near the middle of the session. September advancing to 75¢. Later, however, the market became very weak and September declined to 74 1/2¢. September was weak with some fluctuations.

Corn—The market became weaker as the session advanced, September declining to 49¢. The close was very weak and near the bottom price. The final quotation on September was 13 1/2¢ lower at 49¢.

Wheat—Wheat—No. 2 red, 76¢/75¢; No. 3 red, 75¢/75¢; No. 2 hard, 75¢/75¢; No. 1 northern, 76¢/75¢; No. 3 spring, 76¢/75¢.

Barley—No. 2, 74¢/75¢; No. 3, 74¢/75¢.

Flax—Nothing doing.
