AMERICAN.

WASHINGTON, 25.—The cause of the disaster to the *Huron* was thick weather and a fresh gale directly on the shore. The fore and aft sails were set, the reef foresail and main sail were carried away; the jib and stay were bent; the fore storm stay sail was struck. Between 1 and 1:30 o'clock a.m. the boats were washed from the boat davits; lowered the first cutter, which was swamped; about ten minutes later Lieutenant Palmer was drowned, also about the same the captain. The living saved themselves by swimming ashore. There was no aid from the shore except when near the beach. The men-of-war *Powhatan* and *Svatarra*, and the brig *Fortune* are anchored abreast of the wreck. Flag communication was opened with them through the steamer *B. & J. Baker*. No assistance can be rendered from the steamer as the surf is still very heavy. The survivors go to Norfolk this evening.

The signal service observer, at the scene of the wreck, reports that at 5:25 p.m. the surf boat of the wrecking steamer *B. & J. Baker*, in attempting to land, was swamped with nine men on board.

Secretary Thompson has telegraphed to the naval authorities at Norfolk to send the surviving officers of the *Huron* to Washington. They will probably reach this city on Tuesday morning.

The boat *Chowan* has arrived at Nag's Head, and furnished food and clothing to the survivors. The officer in charge of that boat telegraphed that he will leave there this evening, for Norfolk, having on board thirty-four survivors and eight dead bodies. They are expected to reach here early on Monday morning.

The commissioner of Internal Revenue says, in his annual report, after considerable attention to the question of changing the rate of taxation on spirits and tobacco, he has come to the conclusion that the interests of Government and manufacturers and dealers will be subserved by allowing the rates of taxation to remain undisturbed. Nor would he recommend a change of law in respect to the tax on fruit brandy. The collections for the past fiscal year were \$118,870,997, and for the months of July, August, September, and October of the present fiscal year, \$3,772,833. A grand total of \$157,643,840 has been collected since the beginning of the last fiscal year. The commissioner says the subjects of relieving banks and bankers from the payment of taxes now imposed by law on their capital and deposits, or relieving bank checks from the impost of two cents each now placed upon them, and also of taking off the tax from matches, have received a considerable share of public attention. If the financial interests of the government would warrant so great a reduction in its revenue, it seems to me these would commend themselves strongly to the law-making power.

FOREIGN.

LONDON, 23.—So far from being weakened, the Czarowitch's army now consists of eight infantry and four cavalry divisions, numbering from 80,000 to 90,000, and though it must cover the line from the Danube to the victory of Timova, it would not be easy for the Turks to make much impression upon it, since the Russians, by forced marches can concentrate three or four divisions on any given point in a single day.

A Cettinje dispatch says the wounded Montenegrins arriving here report that on Sunday night divisions of Plemenez moving toward Scutari, found the Turkish forces entrenched near Annamallite, behind three lines of breastworks, extending from the hills to the Boyana. An assault was made by 600 volunteers, who carried the first two lines, but on attacking the third found themselves opposed to a much superior force of Turks, and were beaten back with a loss of between twenty and thirty killed and 100 wounded, when the attack was abandoned. This affair shows the statement that the right bank of the river is entirely in possession of the Montenegrins is unfounded. The locality of the battle is about half way between Antivari and Scutari.

A contradiction is published of the statement that Austria is about to issue a diplomatic declaration defining her interests in the eastern

question. The ministerial *Premdenblatt* says Austria has no occasion to make such a declaration.

The Montenegrins are bombarding Lesnoria and the fortified island at the northern extremity of Lake Scutari. The Turkish ambassador at Vienna has sounded Count Andrássy on the subject of mediation. The Count said mediation was inopportune and would be disadvantageous for Turkey.

Mehemet Ali telegraphs from Orhanie, to-day, as follows: We arrived here to-day. The Russians sent one regiment of infantry and one of cavalry from Vratza against Nevesich. These were overwhelmed, and the cavalry regiment, except six men, was destroyed. We also captured two guns and a number of prisoners.

A special correspondent at Giergevo sends the following under date of Thursday. "I have been shown a telegram from the Russian headquarters, requesting contracts to furnish 70,000 bags of biscuit instantly for the besieged in Plevna, as Osman Pasha had opened negotiations for the surrender of that place."

LONDON, 24.—The works for the new locks at Liverpool have been so damaged by the late gales, that it is feared 2,700 men will be thrown out of work for three weeks.

A Tiflis dispatch says the Dion corps will shortly attack Batoum with heavy artillery.

The Caucasian insurrection increases. The insurgents stormed the fortified town of Kussar, on the 12th instant, and captured the garrison.

CONSTANTINOPLE, 25.—A doubtful rumor was current on Saturday night that Osman Pasha had forced the Russian lines. All recent rumors relative to mediations are false.

Layard, the British minister, has received instructions not to take the initiative in the matter, but wait until England's mediation is requested.
