## Special Notices.

"Astonishing, but True," that Dooley's Chemical Yeast Baking Powder is not only the best but the cheapest in market. It is entirely free from any deleterious substances, and compounded with such scrupulous exactness that the contents of each box are the same, and will produce the same every time. It is unequalled for making biscuits, rolls, cakes, pastry, etc.—at once healthy and nutritious. Grocers everywhere keep it. w241

Having lately received extensive additions to our already large and varied stock, in the shape of type, presses, &c., &c., our facilities for executing all kinds of Job Work in the best and most improved styles have been greatly increased. Co-operative and other establishments can be supplied with plain or tinted Order and Receipt Books, Certificates of Stock, and every kind of work. Orders from the city and the country settlements are respectfully solicited.

We have received one of the latest improved ruling machines, and are, therefore, prepared to do all kinds of ruling according to order, on the shortest notice. s&w tf

WARRANTEE DEEDS for sale.—The citizens of this Territory are now in possession of all the rights and privileges accruing from the enjoyment of the Pre-emption and Homestead Laws, and hereafter all transfers of titles to land will have to be effected by means of Warrantee Deeds, instead of the Quit Claim Transfer Deeds heretofore used. In view of the demand for such documents, we wish to inform the public that we have them on hand, at this office, in legal form, and are prepared to sell them singly, or otherwise, at very low rates, to suit purchasers. d&w

JAMES MILLER, formerly of Hamilton, near Glasgow, Scotland, arrived at New Orleans, by the ship Zetland, in the Spring of 1849, accompanied by his sister Jane, who had been married to a man by the name of James Wright. The last he saw of his sister was in St. Joseph, Missouri, in the Spring of 1851, where he left her, expecting she would follow him to the Valley the next year. Any information respecting her, directed to Christopher Williams, Third Ward, will be thankfully received. d199 l s47 l w241

## Correspondence.

WESTFIELD, STOKES CO., N. C.,  
July 3, 1869.

Editor Deseret News:—Dear Brother:—After an absence of two years and two months, Elder Coray and I are released by President John Brown, to gather up all the Saints we can in our field of labor and take them home with us.

Since we commenced our labors in Virginia and North Carolina, there have been nearly two hundred baptised, and organized into four branches of the church. The Surrey County, (N. C.), Branch numbering nearly 100 members.

In this labor Brother H. K. Coray has been with me from the first, and has been a faithful helper, honoring his calling as an Elder and a Latter-day Saint.

The advice our beloved President gave us in his discourse of instructions to the Elders going abroad on missions, delivered the 14th of April, 1867, we have tried to follow out. We did truly come forth weeping, bearing precious seed, and, in fulfillment of the promise he then made to the Elders, the sick have been healed, the lame made to walk and the blind to see, and no question has ever been asked us that we were not able to answer,—no necessity for counsel or advice has occurred which has found us unprepared to give it, with a blessing following those who adhered to it; and the wicked that have opposed the work here have been confounded and put to shame.

In our reflections upon the blessings of the Lord to us in our labors on this mission, we are not only full of joy to overflowing, but we are made to feel humble, and our spirits contrite, and you know how pleasant it is to feel this way and that our Father in heaven, by His spirit, is directing our way before us.

With this letter I send you a list of the names of the North Carolina and Virginia company of Saints, with which we expect to start for home the 12th of July, via New York city, to reach Ogden city about the 21st.

Please remember us with a prayer for our safety on our homeward bound trip.

Brother Coray joins in love to you and all. As ever your brother and friend in the great work of the last days.

HENRY G. BOYLE.

## CORRESPONDENCE ON SERICULTURE.

Editor Deseret News.—Dear Sir:—The facts and statements contained in the following note are too interesting to be passed over in silence, therefore please publish them in the columns of your most valuable journal.

SPANISH FORK,

June 28th, 1869.

Brother Bertrand.—Dear Sir:—Knowing the interest you feel in the progress of sericulture, I take the liberty of opening a few lines to you to ask some questions, and to tell you what I have done in silk raising.

In the year 1866, Bishop A. K. Thuerber brought some eggs from London, which he distributed amongst five or six persons, but all except myself were unsuccessful in raising any worms from them. I had about fifty eggs, and of that number twenty-five matured and were about to spin, when a cat destroyed nine worms, leaving sixteen

which spun, but there were only three female moths. These produced about five hundred eggs. Some of my neighbors thought it a trifling business, but I persevered and last year I had about 60,000 eggs. As I had only one mulberry tree four years old I resorted to the Osage orange for feed. I lost but very few last year. This year I am feeding about 5,000 worms, and have not seen one dead up to the present time. My neighbors are now quite interested in silk culture, about thirty are raising a little silk and I find that those who have fed their worms on Osage orange have invariably had good success, but those who have fed on mulberry have not had such good success. Some have fed on lettuce, some on cabbage, and one person fed on pigweed or wild spinach. I have sent a sample of cocoons to President Young, the production of worms that have been fed exclusively on Osage orange two seasons. I presume they will be forwarded to you for inspection. I would like to have the quality of the silk tested, also to know if the worms I have are worth propagating. I have distributed eggs through most of the settlements in Utah County, also San Pete and St. George. Will it be best to allow my worms to produce eggs this season? they will produce more than I can keep next year, and there will be no sale for them in this county. Can I sell them in any other place? If I destroy the chrysalis what can I do with the cocoons? What is the best kind of paper for the moths to lie on? Where can it be obtained.

A great many mulberry cuttings were sold to the people here by Brother G. D. Watt, but they have proved almost an entire failure, creating quite a disappointment. Several have expressed to me a wish to procure seed of the mulberry the coming season from you. Can you tell what the price will be per pound?

If it will not intrude too much upon your time, an answer to the above questions will greatly oblige your Brother in the covenant of peace.

S. CORNABY.

My answer to the above.

President Young's Cocoonery,

July 5, 1869.

Dear Brother.—Being too busy at the present time in raising a numerous lot of silkworms, I will merely say that I do not believe in the efficacy of the Osage orange for producing a good article of silk. The facts stated in your note are certainly very curious, but every experiment which has been attempted in various countries to feed the *Mori Bombyx* has triumphantly established this fact,—that the mulberry leaves are exclusively the natural food of that most precious insect. The mulberry has been appointed by God to produce the silk; every attempt to substitute any other kind of food for the worms will prove abortive. Therefore I humbly advise you to start a mulberry nursery as soon as convenient. With your experience, you will be richly rewarded by your future success in sericulture.

I have not seen the cocoons which you have sent to President Young. As Bro. Geo. D. Watt has got a nice reeling machine, you would do well to send him all the cocoons of your present crop in order that they may be fully tested. The silk proceeding from them will doubtless be very inferior to the raw silk of the mulberry fed worms. I do firmly believe that your worms are not worth propagating. Any kind of paper is good enough for the laying of eggs; but, in my estimation, the best is printing paper, of the quality used by the DESERET NEWS.

The prices of the various mulberry seeds are generally variable in the French markets. Mine will be prepared expressly for myself by the growers, and will be sold here at fourteen dollars (in gold) a pound for the *Moretti*, and twelve dollars for the *Morus Alba*, or white mulberry. The retail price will be one dollar (in gold) an ounce.

The worms being extremely hungry, I am compelled to close this communication.

In haste, your brother in the Gospel,

LOUIS A. BERTRAND.

P. S. In establishing his magnificent plantations of mulberry trees, and in

building up his beautiful and important cocoonery, President Young has done more for his own interests, and for Utah in general than the discovery of the richest gold mine on this continent. After the example of our own far-seeing leader, let every friend of social progress start a mulberry nursery on his farm.

## Died:

In St. George, May 7th, 1869, Schuyler Ellis, son of Schuyler and Rachael Everett, aged seven months and eleven days.

In this City, on the 12th inst., of debility from old age, at the age of 74 years and two months, Richard Rankin. Deceased was a native of Glasgow, Scotland; he was baptized in 1840, and came to this country in 1860. He died as he had lived, a true hearted and faithful Saint, and a good husband and father. He leaves a wife and three children to mourn his loss.—COM.

In this City, on the 10th of July, 1869, of lung fever, Blanche, daughter of Allen and Anne Hilton, aged one year, three weeks and three days.

At Tooele City, July 11th, 1869, Bro. Edward Rowberry, in the 34th year of his age, at the residence of his brother, Bishop John Rowberry, after a lingering sickness of 15 years, caused by the dislocation of the hip joint by rheumatism. He has scarcely seen a day during that time that he has been entirely free from pain. He was born June 27th, 1835, at Bishopsfrome, Herefordshire, England. He emigrated to Nauvoo in 1841, since which time he has always been numbered with the people of God. He bore his sickness with patience. Previous to his affliction he was a young man of much promise. He has been devoted to his religion. He filled several offices of trust in the County with honor, and his course had been such as to secure the confidence of all who knew him. He died in the full faith of the Gospel, and it can truly be said that he fell asleep in peace, surrounded by his friends, who administered to him every possible comfort during his long affliction.
