Provo, Aug. 12.—The registration for the Uintah Indian reservation lands, which has been conducted here for the past 12 days, and closes this evening, has not been so large as was expected by some, and has exceeded the expectations of others. With the close of yesterday's registration 18,081 had signed their applications for a farm with the representatives of the government, who are here for the purpose of receiving such applications, and it is probable that when the office closes this evening at 6 o'clock, the number registered will reach close to 20,000.

INFLUX OF STRANGERS.
The influx of strangers has made Provo a busy town for the last 12 days. Some things have not occurred just as they were expected. There was great solicitude in certain outside quarters for the accommodation of the visitors before the rush commenced. It was proclaimed that Provo would not be able to care for the crowd in the way of feeding and lodging the people. This prediction has proved entirely untrue, as no one has been unable to get board and lodging, and that at very reasonable prices. In fact no rates have been advanced by any regular caterer to the public, and the many temporary places of entertainment have followed the same plan of reasonable prices. This is a matter that has been believed the ordinances for elicited much favorable comment from visitors, and one of which Provo may reasonably feel proud. But the surprise has not all been on the side of those who feared—or hoped—that the strangers would lack entertainment. Many of our citizens, forming their opinion from reports of other Indian land openings, believed that a large crowd of toughs would follow the crowd coming to register. Preparations were also made by the city authorities to take care of them, should they come. But they have failed to put in an appearance.

QUIET AND ORDERLY.
The city has been exceptionally orderly. The police records will scarcely show a greater number of arrests than for a similar period under ordinary conditions, and the arrests have been for trivial offenses, over indulgence in drink refreshments being the principal offense against the ordinances for which arrests have been made. The people who have come to register have been an exceptionally fine class of people. They are from nearly every state in the union, the south having the smallest representation. One reason for so many people from distant states registering is the heavy travel for the Lewis and Clark exposition, a number

of excursionists stopping over on the trip to file their application for a home-land. Many and most of these are not people who are really homeseekers, but the temptation to "take a chance" and the opportunity to see a Utah town and Utah people could not be resisted. The farmers and working people, who have applied for land, and who will go to the reservation to make homes if they draw favorable numbers are of a class that will make valuable citizens of the state and assist in its development.

MUCH PUBLIC SPIRIT.
The Commercial club, city council and other public spirited citizens are entitled to great credit for their efforts to take care of the strangers. As soon as it became known that a registration office was to be established in Provo, and the drawing conducted here, committees were organized by the city council and the Commercial club to arrange for feeding and lodging the strangers, directing them to camping places, etc., and they entered upon their work with a determination to make it a success. With the co-operation of the people generally they soon had matters arranged so that a much larger crowd could have been entertained. Temporary restaurants and eating booths were opened in central places and have been maintained through the period of registration. The question of sleeping accommodations was the most serious, because while the people responded quite liberally to placing rooms and beds at the disposal of the committee, it was feared that this would not be sufficient, and the committee was determined that no one should leave town and be able to report that he had been unable to find a place to sleep. It was decided to provide tents and cots for such of the strangers as could not find accommodations in the hotels and private dwellings.

THE TENTED CITY.
One gentleman who had contemplated the erection of tents for this purpose, concluded the expense would be too great, considering the uncertainty of the returns. Senator Smoot and Col. Leosa then became the financial backers of the project, and with Manager of the Provo, Z. C. M. L. as the business manager, soon had tents and cots provided to accommodate about 500 people. Mr. Taft was told to go ahead and if the venture proved successful, he would be able to report that he had been unable to find a place to sleep. It was decided to provide tents and cots for such of the strangers as could not find accommodations in the hotels and private dwellings.

THE NOTARIES WERE MANY.
About a hundred notaries and agents opened business in tents on the sidewalks and travelers in addition to the regular offices, and the incoming trains, have been met by these gentlemen in such numbers, and the people in passing from the trains to the registration office have been invited to have their affidavits prepared with such frequency and persistency that there is no room to complain on the score of being unable to get notarial work done. The notaries have quite general complied with the agreement entered into with Commissioner Richards to only charge 25 cents for taking the affidavits of applicants, and through this requirement on the part of Commissioner Richards thousands of dollars have been saved to the applicants.

At the registration office the best of order has been maintained. Except the first day, yesterday and today the crowds have not been large, and it has not been necessary to form lines. But when lines have been found there has been no attempt to cut ahead and the time spent in waiting has passed in pleasant talks on Utah county farming, etc. Inside the office the efficient corps of clerks brought here by Commissioner Richards, with W. H. Lewis in charge, have done business in a most expeditious and cautious manner, registering a person each every minute. The work is done so rapidly that some of the applicants can hardly realize they are through when the clerk remarks "that's all," and some of them have moved on to the next clerk, expecting they would have to pass along the line and do some part of the business with each clerk.

WAS A HEAVY DAY.
Yesterday's registration was heavier than any day since the first day, the number registered being 2,505, with a total registered in the Provo office of 18,081 up to last night. A number of people came in on the trains last night after the office closed and prepared for registration by having their applications made out.

MRS. FRED DUBOIS HURT IN RUNAWAY

Wife of U. S. Senator of Idaho Thrown from a Carriage in Manila

SHE SAVED THE BABY'S LIFE.

At the Peril of Her Own She Seized Dr. Stafford's Infant and Protected It from Harm.

Manila, Aug. 12.—Mrs. Dubois, wife of Senator Fred T. Dubois of Idaho, one of the party now visiting the Philippines with Secy. Taft, was thrown from her carriage during a runaway, and was taken to the hospital in an ambulance, where she lay for three hours unconscious. Her injuries are not dangerous. An examination shows that she is badly bruised and jarred, and the accident will probably interfere with her going on the southern trip with the Taft-Roosevelt party.

On the return trip north of Manila, the party will meet with an ovation at every place where a stop is made.

Mrs. Dubois, who was the guest of Dr. and Mrs. Stafford, was out driving with the Staffords, their one-year-old baby and his governess. When the runaway occurred, she seized the baby and saved its life at the peril of her own.

Dr. Stafford is the superintendent of the civil hospital here. Mrs. Dubois is now fully conscious.

Diamond Hunt in Hoboken.
New York, Aug. 12.—A diamond hunt is going on in the ruins of the Lackawanna railroad terminal at Hoboken. There was a vast quantity of baggage in the building at the time of the fire and none of it was saved.

Among other things consumed was a trunk, said to have contained \$15,000 worth of diamonds owned by a wealthy New York woman. Private detectives are watching the laborers engaged in clearing away the debris but no trace of the diamonds has yet been discovered and the railway officials refuse to confirm the story of their loss.

TO STAMP OUT TYPHOID.

Stringent Measures Taken by New York Board of Health.

New York, Aug. 12.—Stringent measures are being taken by the health department to stamp out typhoid fever, which has become almost epidemic in some quarters of the southern section of Brooklyn. It was said last night that Bathing in Gravesend bay from Fort Hamilton to Ulmer park, including Bath beach and Bensonhurst, will be prohibited unless there is an immediate decrease in the number of new fever cases. If such an order is found necessary, the police will be called upon to aid the department of health and all bath houses will be closed and all beaches patrolled. The sanitary inspectors declare that sewage has contaminated the entire bay front at the places mentioned.

For the week just ended the health department reports 72 deaths from typhoid in greater New York, 44 of which were in Brooklyn, as compared with 50 deaths in July a year ago, 25 of which were in Brooklyn.

RESERVATION MAPS.

Being Rushed to Provo for the Drawing on August 17.

(Special to the "News.")
Washington, D. C., Aug. 12.—A corps of clerks and messengers of the general land office are to-day working like beavers in the endeavor to get into tonight's mail to Provo, Utah, 6,000 maps of a portion of the Uintah reservation, which is to be opened to settlement. With these maps, there are circulars of various character relating to opening and methods of drawing, etc.

These packets are to be sent in bulk to Provo, where drawing for these lands occurs on Thursday, Aug. 17, and each person who may draw an opportunity to start a homestead will be given a map and accompanying circulars to guide him in making his selection. Should a person who has been lucky enough to secure a chance, not be upon the ground, a map and accompanying instructions for his guidance will be immediately mailed to him.

SIX ARE INJURED IN A CENTRAL PARK RUNAWAY

New York, Aug. 12.—Three women and three men were hurt last night in a Central Park runaway accident. Two of the women sustained fractured skulls and one probably will die. Two carriages were in collision with a trolley, and the trolley was thrown overboard. The accident caused much excitement on the verandah of the Inn. The diners rushed to the drive and dragged the victims from the wreckage. Two of the women were found badly injured, but all the others are expected to recover.

Near the upper end of the park, there a big crowd was dining the runaway carriages collided with a trolley, and the trolley was thrown overboard. OBEYED HUSBAND DROWNS HIMSELF.

Chicago, Ill., Aug. 12.—Joseph Garrison returned home intoxicated yesterday, and his wife told him to jump into the lake and drown himself. "All right," said Garrison, "I'll just do that."

He did, and though he was alive when taken from the water he died in the hospital two hours later. In the pocket of his coat was found this note: "This is to certify that my wife, Maggie Garrison, told me to leave the house and go to the lake and drown myself. Goodbye, and I forgive her."

Mrs. Garrison became hysterical when informed of her husband's act, and hurried to the hospital, but she arrived a few minutes after his death.

"I was only joking," she said, as she knelt at the side of the bed where lay the body of her husband. "I never thought he would take my words seriously."

FREE TOBACCO AND SUGAR FROM ISLES

Attitude of Leaders of Opposition Has Materially Changed on Dingley Tariff.

TAFT PARTY GOES ON RECORD

Most of the Members Favor an Amendment of Cooper Bill After Viewing the Conditions.

Manila, Aug. 12.—Now that the Taft party has been in the islands for over a week, a consensus of opinion of the majority of its members on the free admission of Philippine island products into the markets of the United States has been obtained and it can be stated without fear of contradiction, that the attitude of the leaders of the opposition to the policy of a reduction of the Dingley tariff, on sugar and tobacco, has materially changed, since their arrival here.

SILL AND DUBOIS.

Representative E. J. Sill of Connecticut, one of the leaders of the house of the opposition to the further reduction of the tariff on tobacco, declares himself in favor of the free admission of cigars and tobacco from the islands into the United States. Senator F. T. Dubois, leader of the opposition to the Cooper bill, in the senate, has also stated that he will not oppose free trade, while other members, erstwhile of the opposition have convinced themselves that sugar and tobacco from the islands will in no wise injure the like products of the United States.

SHIRLEY ALSO.

Representative Swagart Shirley of Kentucky, an American growing tobacco growing district, says he will favor the free admission of island tobacco, being convinced that cigars from there will not compete to any appreciable extent with those manufactured in America.

WILL BE AMENDED.

It can be stated, upon no less authority than Representative C. H. Grosvenor of Ohio, that the Cooper bill, which was favorably reported upon by the house committee at the last session of Congress, will now be amended, providing for free trade, instead of the proposed reduction of 25 per cent on the prevailing Dingley rates.

S. E. PAYNE TO DO IT.

Representative Grosvenor says: "An amendment will be offered by Representative S. E. Payne of New York, chairman of the committee on ways and means, provided for the free admission of Philippine products and the outlook for its passage is very favorable."

JOY OVER TAFT'S SPEECH.

Secy. Taft's speech defining the political status of the islands and the possibility that their independence will be deferred for a generation at least, and probably longer has strengthened the administration on all hands, and local export merchants are greatly gratified at the attitude taken by the administration, in respect to the present and future government of the islands.

ALAN W. WOOD ILL.

Son of Pittsburgh Steel Magnate At Point of Death.

New York, Aug. 12.—Alan W. Wood, son of V. D. Wood, the Pittsburgh steel magnate, lay at the point of death last night in Roosevelt hospital. Taken violently ill on Thursday afternoon he was operated on that night. Though hope is held out to the members of his family that he may recover it is admitted that the chance is extremely slight.

It was supposed that he was suffering from an attack of appendicitis, but the operation revealed the fact that one of his intestines had been ruptured. The operation was extremely difficult and unusual, and it was feared Mr. Wood could not survive it, but he rallied from its effects and was still alive last night.

He had not been feeling well for several days but as his health has been excellent up to that time, he paid little attention to his illness until it suddenly became so acute that he was

HURRIED TO THE HOSPITAL.

His condition has so far been so critical that not even his wife or the other members of the family have been allowed to see him.

Mr. Wood retired from active business about four years ago and came from Pittsburgh to make his home in New York.

Great surprise was occasioned when announcement was made last February that almost a year before Mr. Wood had married a well known show girl. The woman was 55 years old and is well known in the higher business circles here and in Pennsylvania.

Colorado Springs, Colo., Aug. 12.—Mrs. L. M. Cadwall and two sons, Roy and Ray, aged 15 and 10 years, of Des Moines, Ia., went through the thrilling experience of being struck by lightning on the side of Pike's Peak, and lived to complete the trip to the summit and back.

They started to walk to the summit, and at Windy they were overtaken by an electrical storm, when a sudden flash of lightning sent them to the ground unconscious. They were found by a man walking down the cog road and taken to a nearby house, where they remained for the night.

The women was about the lower limbs, but was able to complete the walk to the summit, and returned here by train.

Chicago Widow Mourns Loss of Husband's Insurance Money.

Chicago, Aug. 12.—Mrs. Mary Genders, a widow 21 years old, has lost \$2,000 from her safe deposit box in the Illinois Trust & Savings bank, and yesterday she swore to a warrant charging Charles C. Hammit with the theft. The money was paid her by a life insurance company after the death of her husband, Hammit, who had been friendly with the Genders advised Mrs. Genders to put her money in the safe deposit vault until a good opportunity for investment was offered, and told her that he had better keep one of the keys, as she might lose her key. When Mrs. Genders went to the safety deposit vault yesterday her money was gone.

"He is the last man in the world I would think would do such a thing," said Mrs. Genders last night. "Why, he actually knelt down and prayed at his husband's grave before he stole the money." The police have traced Hammit to Cincinnati.

THREE CAME BACK.

Shanghai, Aug. 12.—The governor reports that the rising at Pu Chou Pu in the province of Chansi is purely local. Of 143 soldiers sent out, only three have returned; the remainder having probably deserted. The officials at Tai-Yuan-Pu are sending a large force with artillery, to the scene of the disturbance.

JAPANESE AT WORK.

The Russian and Japanese peace plenipotentiaries reached the naval stores building from the Westworth hotel at 8:30 o'clock and at once proceeded to conference.

The conference adjourned at 10:40. Ten minutes after adjournment the two plenipotentiaries left the navyyard in their automobile. The Japanese remained in their suite of private offices. Today the Japanese assistants went to the navyyard in launches,

JAPANESE WILL RESPOND TODAY.

Have Agreed to Let M. Witte Have Their Answer to His Reply this Afternoon.

BUT BRIEF SESSION WAS HELD.

Mikado's Representatives Carried Dress Suit Cases Filled With Documents And Records.

ARE WORKING IN THEIR SUITE.

On the Other Hand the Two Russian Plenipotentiaries Left the Navy Yard Promptly.

PORTSMOUTH, N. H., Aug. 12.—

The Japanese plenipotentiaries have agreed to make their response to the Russian reply at 3 o'clock this afternoon or at the same time tomorrow.

Portsmouth, N. H., Aug. 12.—The meeting of the peace conference this morning, as indicated in these dispatches last night, was brief. It lasted a little more than an hour. The Russian reply was delivered by Mr. Witte and the meeting was adjourned to give Baron Komura and his colleagues opportunity to examine the document. Mr. Witte indicated courteously that he would expect the same expedition in the Japanese responses as had been observed in the preparation of the Russian reply and this was readily assented to. The Russian plenipotentiaries immediately returned to the hotel, while the Japanese remained at the Navy yard.

OFFICIAL STATEMENT.

The official statement regarding this morning's session was given out by Mr. Sato at 11:15 accompanying it with the explanation that it was an official statement to which both sides had agreed. It is as follows:

"In the sitting of Saturday, Aug. 12, their excellencies the plenipotentiaries of Russia have handed their reply in writing in reply to the note handed them on Thursday by the plenipotentiaries of Japan. It has been decided that the next meeting will take place after the Japanese plenipotentiaries have examined and studied the reply received, which will be at 3 o'clock this afternoon or tomorrow at the same hour."

The Associated Press is in a position to state that the Japanese believe the Russians have been laying the foundation of the claim that responsibility for a rupture, if one comes, will have been due to their intransigent attitude. They have decided in case of a break to take steps to disprove any such claim.

The action of Baron Komura in replying immediately upon the delivery of the Russian response, that the Japanese would be prepared to meet the Russian plenipotentiaries again at either 3 o'clock this afternoon or 3 o'clock tomorrow produced an unfavorable impression. To fix the time of meeting in advance of an examination of the reply was interpreted as evidence that the Japanese were making up their minds to make concessions as they were prepared to make had been agreed upon in advance and only remained to be formulated. Mr. Witte, however, is believed to have practically outlined the reply in presenting it so that when Baron Komura made his announcement he knew the substance of the Russian answer.
