

FOOT AND MOUTH DISEASE BREAKS OUT

New York and Pennsylvania Are States Affected and They Have Been Quarantined.

WILL BE RIGIDLY ENFORCED

Canada Places Embargo on Cattle From Them—England Also Takes Action.

Washington, Nov. 20.—Alarming results following the outbreak of the contagious foot and mouth disease in New York and Pennsylvania causing those states to be quarantined against interstate shipments of cattle etc., were shown today in advices which reached Secy. of Agriculture Wilson, stating that four children in Danville, Pa., had contracted the disease.

A rigid investigation is in progress to determine whether other have been similarly affected. The officials believe that the spread of the contagion will be checked, although admitting that the situation is grave.

Vigorous efforts will be made by the department of agriculture to stamp out the dreaded contagion and communicable ailments among cattle known as foot and mouth disease, which have been discovered to exist among livestock in Pennsylvania and New York states, and as a result of which Secy. Wilson yesterday issued an order quarantining those two states. During the existence of this quarantine the interstate or foreign transportation movement, trailing or driving of cattle or sheep, other ruminants or swine from the two states is prohibited. The order issued by the secretary yesterday, which became effective immediately, makes the quarantine exceedingly rigid. It even goes so far as to require that "no railroad cars or boats, within the area quarantined, which have carried livestock, shall be moved interstate until the said cars or boats have been cleaned and disinfected with a 5 per cent solution of carbolic acid."

Shipments of dressed carcasses of calves, sheep or other ruminants, interstate, or to foreign countries, ports prohibited unless the hides or skins and hoofs are removed.

PENNSYLVANIA ACTIVE.

Philadelphia, Nov. 20.—All the resources of the state of Pennsylvania will be drawn upon if necessary to stamp out the foot and mouth disease among the cattle of the state. The government, it is said, may find it necessary, inasmuch as the source of the disease has not yet been learned, to quarantine every cattle state.

CHICAGO AROUSED.

Chicago, Nov. 21.—The reports that the entire states of New York and Pennsylvania had been placed in quarantine by the secretary of agriculture, was at first received here with indifference but a digest of the situation has roused some apprehension among Chicago live-stock dealers. The ports of New York and Philadelphia have been closed and no cattle can be exported from them without a thorough inspection. This means that all exporting from these ports will now be shut off until the lifting of the quarantine. Shippers who usually export stock through the quarantined states in order to avoid the delays and expense of re-inspection will now be obliged to di-

Stomach Gases and Torpid Livers

Give Way Before the Peculiar Purifying Power of Stuart's Charcoal Lozenges.

A Trial Package Sent Free.

The foul gases of the stomach and the torpid action of the liver are easy victims for charcoal to overcome.

This great natural cleanser and absorbent will most certainly be relished by a system afflicted with gaseous or sluggish tendencies.

Charcoal has long been known as a great absorbent of gas. A painful of charcoal will positively purify a room filled with foul odors and decay. Its absorbing ratio is one hundred times greater than its own volume.

The ancients gave charcoal for many human ills successfully. The North American Indians used it for snake bite, poison from eating wild herbs and cured what they called "stomach bad medicine" with it.

Willow charcoal seems to be the best product for human use, and no doubt the peculiar curative property of the willow is represented in a chemical quality in its charcoal.

Stuart's Charcoal Lozenges are pure willow and sweet honey blended by tremendous power and compression into a form which is most likely to overcome through its contact with impurities.

They cleanse the stomach and intestines, bring purity and sweetness out of fermentation and decay and aid digestion by allaying gas. They will aid you and your stomach. The beneficial effects are made evident after each meal when you use charcoal as Stuart prepares it. To allay gas at night they are excellent and one arises in the morning without that terrible nauseating bad breath which destroys appetite and renders one miserable.

All druggists sell Stuart's Charcoal Lozenges, price twenty-five cents, or send us your name and address and we will send you a trial package by mail enclosed in a letter from Stuart, 200 Stuart Bldg., Marshall, Mich.

vert their shipments to other channels.

EMBARGO IN CANADA.

Ottawa, Ont., Nov. 20.—The embargo placed on cattle and hides from Pennsylvania has been extended to the state of New York, where it is reported the foot and mouth disease is existing.

ACTION IN ENGLAND.

London, Nov. 20.—The board of agriculture this afternoon was informed officially of the existence of the foot and mouth disease among cattle into the state of New York and have issued an order prohibiting the importation of cattle, hay or straw from either New York or New Jersey. The prohibition of the importation of the product from Pennsylvania was announced yesterday.

GOV. CHAMBERLAIN.

Oregon Union Republican Club Takes

Up Fight Against Him for Senator.

Portland, Or., Nov. 20.—The Union Republican club, the most influential Republican club in this state, last night, through its executive committee, endorsed the fight that is being made against Gov. George E. Chamberlain, popular nominee for United States senator, and passed a resolution endorsing the movement to circulate for signatures among the voters of the state documents relieving members of the legislature who signed the statement No. 1 pledge to vote for Gov. Chamberlain.

The resolution of the Union Republican club is generally considered to mean that the fight has been taken up and will be pressed by the Republican party organization in this state.

TWENTY MEN TAKEN FROM STOPE

Those Rescued Say That at Least Sixty-Four Miners Are Still in the Depths.

TWO ARE KNOWN TO BE DEAD

Seems to be Little Hope for Those Entombed—Fire in Northwest-Mine, Mont., Cause.

Butte, Mont., Nov. 20.—Twenty men have just been rescued from stope No. 2 of the Northwestern mine in a critical condition. All will recover.

Tonight it is stated by the rescued miners that at least 64 men are still in the depths and in the most dangerous part of the mine, and it is impossible for the rescuers to get near them.

Fire at about 10 o'clock this morning in the fourth drift east from No. 2 company's mine at Red Lodge, in the southern portion of the state, has caused the death of six miners and the probable death of many more. About 20 miners and 50 volunteers then started the work of rescue and within half an hour the skips were running with rapidly down the fourth entry.

The known dead: Samuel Gaspers, John Maston.

Seven men were taken from the workings at 1 p. m. in a half dead condition and are now in the hospital. One hundred men were rescued amid the wildest excitement. The fire department members and 50 volunteers then started the work of rescue and within half an hour the skips were running with rapidly down the fourth entry.

Those rescued declared that there is little hope for the greater number of those entombed, but this belief is not shared by the mine officials.

Pit Boss William Haggerty, when carried up in one of the skips, was almost overcome, but was restored by the attending physicians. He remained bravely at his post until the very last in an endeavor to save his men, and after recuperating made frantic efforts to go back into the mine.

Everything within the vicinity of the mine is in the wildest confusion, and it is an impossibility to get a check on the members from the pay roll, so that no estimate can be made at this time.

The fire is terrific, judging from the immense volume of smoke and fire which is being emitted from the second entry. Coal cars and lumber are ablaze and the damage to property will naturally be heavy. At 3 o'clock this afternoon iron pipes are being laid into the mines and by night it is expected there will be a flow of water playing on the flames.

The fire itself is said to be confined to a small area, but the gases and smoke have spread to various workings and it is believed that a number of men have been caught.

The company operating the Red Lodge mines is one of the largest concerns of the kind in the west. The officers of the Northern Pacific control the company, which supplies that road with fuel. Most of the miners employed are of foreign birth.

A similar disaster at this property in 1906 cost the lives of eight miners.

CALL FOR MEETING OF DEMOCRATIC CLUBS

New York, Nov. 20.—Col. William C. Liller, chairman of the National League of Democratic Clubs, in a statement issued here tonight calls for a meeting of representatives of all the Democratic clubs and Democratic organizations throughout the country to be held at Washington on Dec. 8, 9 and 10 next. It is the purpose of the league to maintain intact the organization now existing and to strengthen the league at the beginning of each campaign.

The Democratic party, while disappointed over the result of the election, has cause for much elation," said Col. Liller. "The party is more organized than at any time since 1892. Its recent defeat has not dampened the enthusiasm of its members, but has awakened them to proper organization necessary. The organization of clubs will be pushed everywhere from now on."

JUDGE TAFT SAYS HE HASN'T SELECTED CABINET

Hot Springs, Va., Nov. 20.—A general discussion of affairs with Senator Scott of West Virginia this morning and a visit this afternoon from Senator Henry G. Davis of the same state, who four years ago was the Democratic candidate for vice president, were the only demands made today on the time of the president-elect. The talk with Senator Scott resulted later in expressions by him of pronounced optimism as to the business future the Taft administration would bring.

Senator Fulton of Oregon today wired Mr. Taft that he was on his way to Hot Springs for a conference regarding Oregon affairs.

"I wish you would just say that my cabinet is not made up nor slated. No one has been decided upon for a place in it, and no effort of any cabinet position has been made to any one."

This was the response of President-elect Taft today to the statement from Minneapolis that Frank B. Kellogg had been invited to become attorney-general in the Taft cabinet.

WOULD PREVENT ALL REFERENCE TO EMPEROR

Berlin, Nov. 20.—Acting upon the advice of Chancellor von Bülow, Count von Stolberg, the president of the reichstag, will endeavor to prevent all reference to Emperor William for the present in the reichstag discussions. This course has been decided upon in order to quiet public feeling and lessen the opportunities for agitation. The chancellor will speak at the end of the month on the question of his responsibility and the meaning of his recent audience with the emperor.

Prince von Bülow is reported today to be nervously depressed and more than even disposed to resign from office when a good opportunity arises. He is more easily tried now than before his recent illness. Princess von Bülow, on the occasion of a reception to the women of the diplomatic corps a few days ago, remarked several times that she hoped she and her husband soon would be able to go away. The prince laments that his official duties allow him no time for indulging his personal tastes. He has no opportunity for resting, for art, or for the pleasures of unofficial social life. He is always in the position of having to hold back his personal opinion of

events and individuals; he longs for retirement, and he looks forward to the pleasures of private life in good company and the cultivation of his personal tastes.

THE STEAM TURBINE.
Spirited Argument as to Infringement of Patent.

New York, Nov. 20.—A spirited argument between Rear Admiral Francis T. Bowles, retired, and W. J. Powell of the Cramp Shipbuilding company, which followed the reading of a paper by Mr. Powell on "The Steam Turbine," was the feature of the second day's session of the general meeting of the Society of Naval Architects and Marine Engineers. Mr. Powell, after a brief mechanical description of the steam turbine, pronounced it "the best prime mover in the wide field of action." Admiral Bowles followed and declared that he believed that the use of certain turbines was an infringement of patent rights of a company which he represented in this country, and he intended to take action against all users of that turbine on torpedo boats or otherwise. Mr. Powell replied hotly and concluded with the remark that as the matter would be decided in the courts anyway, it would be useless for them to discuss it at this time.

PROSPERITY FOR NEVADA.

Divorce Mills Are Now Running on Full Time.

Reno, Nev., Nov. 20.—Mrs. Minnie Lister of Hoboken, wife of George T. Lister, a wealthy financier of Paterson, N. J., and a heavy stockholder in the Vacuum Renovating company of New York, filed an answer this afternoon to her husband's suit for divorce. She admits the marriage of her husband in 1890 and admits the issue of a son, now 16 years old, but denies all the charges of extreme cruelty. Lister alleged that his wife accused him of infidelity, threatening to kill him and herself, all of which he claims made him miserable and resulted in a complete nervous breakdown. By stipulation of attorneys, Judge Pike ordered Lister to pay his wife \$30 and counsel fees pending the action, also that Mrs. Lister's deposition be taken at Hoboken for use in the trial.

Alleged infidelity, and that his wife, Florence M., is now living in New York with R. C. Leven, who is named as co-respondent, are the grounds on which George Farewell filed a suit for divorce here late yesterday afternoon. They were married in New York in 1895. Farewell asks for the custody of their 1-year-old daughter, Eliza.

VAN VLISSENGEN'S FORGERIES AMOUNTED TO \$1,345,000

Chicago, Nov. 20.—After an examination of the various documents in the office of Peter Van Vlisengen, convicted forger of mortgages, notes and trust deeds on his own confession, William C. Niblick, vice president of the Chicago Title & Trust company, receiver of the Van Vlisengen property, declared the forgeries amounted to \$1,345,000. Only a thorough examination of all the papers, which included loans No. 201 to 234, inclusive, will disclose to the receiver and the creditors how many have been taken up by Van Vlisengen, who is now a convict in Joliet prison. Since

the confession of guilt, which started the business world and preceded his sentence only by a few hours, Van Vlisengen has stoutly asserted that \$250,000 would cover the forged paper which he disposed of.

HIS TEETH GREW UP INSTEAD OF DOWN

New York, Nov. 21.—Herbert Cosman's teeth grew up instead of down and for that he is a patient in St. Luke's hospital here today. An operation has been performed, however, which is believed to have been successful and Cosman's rapid recovery with his mouth restored to its normal condition is expected. Cosman is 21 years old.

Twelve years ago three teeth in his upper jaw—two molars and a bicuspid—were removed, but strangely no new second teeth appeared and the cavities remained. As the years passed his jaw began to pain him and later grew unmanageable. The pain finally became so severe that he decided upon an operation. The surgeons located the contrary teeth by means of the X-ray.

LIVES WITH BROKEN BACK.

Newark, N. J., Nov. 21.—Elmer Dresel, 17 years old, is living with a broken back. He was injured while diving in August last and since that time has
