

## MINING, BUSINESS AND STOCKS

### BIG STRIKE AT DEEP CREEK.

The Ledge for Which the Tunnel Was Being Driven in Lucy L. Encountered.

### BIG BODY COPPER ORE EXPOSED

Uprise Will be Made to Upper Workings and the Vein Will be Then Developed.

The great ledge for which the big tunnel has been driving for weeks past has been broken into at the Lucy L. Deep Creek. A letter to Manager Wilson to that effect reached the local office last evening and additional word today. The ledge was encountered 200 feet from the opening and has been penetrated so far 20 feet without finding a wall. Foreman Cobbledick who is in charge of the mine during the absence of Supt. Clyde Wilson in this city, says that the ore is of the same character as that opened on the vein at the 150 foot level. Word has reached the office that the ore is growing in value with every shot. This is as Merton and Associates expected.

The strike was made 250 feet on the dip of the vein which gives a big amount of steeper ground. As soon as the foot wall is reached an uprise will be made to the workings above to insure good air and development will be then proceeded with.

#### ON THE EXCHANGE.

Market Steady and a Good Business Done at the Call.

Trading was fairly brisk on the exchange yesterday morning, 12,270 shares changing hands, average \$8.65.50. Daly entered the active list and was dealt in at 2.00 and 2.05 per share. Daly-Judge was weak as might be expected and sold down to 4.10 per share, but closed at figures between 4.50 and 4.60 per share. Uncle Sam was also active and passed out 2,000 shares at about the full figure, the last sale being at 4.25. Mrs. Murray, too, was something of a feature and brought 8%, while New York sold at 1.50 cents. Daly-West was held at 35.00, with a dollar less offered. Grand Central was held at 4.00 and Con. Mercur could not be got for less than 99 cents. But little change in the other stocks was noted and closed as follows:
