EDITORIAL NOTES.

The sowing of forest pine seeds has been begun by the Shakers at Enfield, Connecticut, and the State authorities are considering plans for encouraging this needed industry.

The London Times says: "If everything else fails, force will have to be used in Ireland. "Great guns!" Have the people of the United as Widow Bedott would exclaim, States merited the favor of God so what does the Times call the metaods now in use in unhappy Erin? If killing peop e, prodding them with bayonets and locking them up In prison is not force, what kind of persuasion does the Times call it?

The return of the comparative acreage under flax in Ireland in 1880 and 1881 has just been r ceived from the British Registrar General, and it shows that there is this year a decrease in the Iri-h flax crop of 10,recovery would be an interesting 455 acres, as compared with the study, it we could read motives as acreage under flax in 1880, or a little God discerns them. PRAYER AND THE PRESI-DENT'S DEATH.

THE Pacific Christian Messenger does not seem to take Talmage's Antonio special says: The jury con-victed Wm. Petry of stage robbery, and fixed the penalty at 99 years in contended that the prayers offered up for l'resident Garfield's life bad

been "triumphantly answered." The Messenger says:

"For nearly three months the "For nearly three months the united petitions of God's people as-cended morning, noon and night to a throne of grace to spare the life of the President. The petition was not granted. This has led to much dis-cussion in the pulpit and the papers as to the efficacy of prayer. Burely if God answers prayer at all, it is said, he would have answered this united, long-continued and carnest points, the freight blockade being removed. The Southwestern Rate Association, to-day, agreed to form a pool for Colorado business, including that shipped south of Kansas City and that via Council Bluffs. There and that via Council Bluffs. There seems to be a hitch in the New York Central fast train, and it may even yet be abandoned. The diffi-culty is that this road's line is 964 miles long, while that of the Penn-sylvania Road is only 912. This would require them to run each mile in a minute and 30 seconds, accord-ing to their fast time schedule, not including stors. The Pennsylvania united, long-continued and earnest supplication of his children, and many are discouraged."

It is claimed by some of the rellglous papers that this failure to obing to their fast time schedule, not including stops. The Pennsylvania would of course be able, with their superior equipment and shorter dis-tance, to eclipse anp time made by the Central, and publicly announce their intention of doing so. The Michigan Central also protests against being left out in the cold as it would necessarily be if fast trains were inaugurated. tain the desired answer to prayer has been the cause of an increase of skepticism in the land, and that "many Christians question whether the promises to hear and answer prayer are sure."

"It appears to us the hight of folly and presumption for short-sighted

and presumption for short-sighted mortals to imagine that the Almighty is bound to do as they desire, simply because they pray for what they wish. We do not so understand the promises of God in relation to prayer.
