FOR DELEGATE
TO
CONGRESS,
GEO. Q. CANNON.

NEWS OF THE DAY.

.....Serbia-Turkish war news.
.....A Russian squadron is ready to convey 95,000 troops from the northern to the western shores of the Black Sea.

.....Persia, on invitation of Russia, sends troops to the Turkish frontier.

.....Russia places 20,000 horses on a war footing.

.....Odessa is full of Russian troops, and transports are waiting to take them to the Black Sea.

.....Spanish Protestants anticipate mobbing.

.....British bark lost at sea, captain drowned.

.....Eastern situation critical.

.....France demands punishment for the massacre of a Catholic priest in China.

.....Polish emigrants present President Grant with an address and medal.

.....Martinez Campos sails for Cuba. He may try to buy off the insurgent leaders.

.....Prefect of Madrid resigns.

.....The incendiary of St. Hyacinth escapes from jail.

.....The Washington safe burglary.

.....Good Templars in Kentucky and British disaffection.

.....Squads of soldiers roaming around in South Carolina.

.....Martin P. Tupper, the "provincial philosophy" man, in New York.

.....New Hampshire day at the Centennial.

.....Pacific Mail Steamship Co. taxes.

.....Rev. T. De Witt Talmadge resigns editorship of the Christian at Work.

.....Purchasing rate of silver.

.....Political nominations.

.....The elections—both sides disappointed.

.....Woodward safe for a long term.

.....Unoccupied fortifications in the Basque provinces to be destroyed.

.....Lots of Spanish troops for Cuba if needed.

.....Recruits for the Third Cavalry.

.....R. R. collision at Randolph. Loss of life.

.....Montenegrins defeat the Turks.

.....A special commission is to visit the Nez Perce Indians.

.....Von Arnim's sentence—what it involves.

.....Turkey's creditors have seized 292 Krupp guns.

.....W. C. Telegraph Company election.

.....The Porte refuses the peace conditions.

.....The monetary commission.

EDITORIAL NOTES.

.....The Omaha Herald ventures the following: "The baby shown proved to be one of the most attractive features of the Kansas City industrial exposition. There were twenty-nine of them on exhibition, and after the award, twenty-eight of the angriest mothers in the entire city and vicinity. The judges were ladies, and after the decision they fled to the police for protection from the fury of the twenty-eight indignant mothers who failed to obtain the recognition which they sought for the babies."

.....California papers are complaining of the ravages of worms, insects, mould and phyloxera among their fruits and grape vines.

.....Grace Greenwood says, "I hold that an English gentleman of to-day, at the opera or dinner party, is the best dressed man in the world. Next to him comes the American, and then the Frenchman."

.....A reckless engineer, at Tatesville, on the Ohio and Susquehanna R. R., recently ran over and killed a printer named W. J. Lee. The engineer excused himself by saying that he thought the printer and two other men were waiting on the road to rob the pay car attached to the engine. The idea of a printer robbing anybody!

.....The London Examiner says, "So long as Englishmen prefer the chance of twenty per cent. to the certainty of five per cent., so long will there be periodical times of trouble, and political economy must remain a dreary science while its teachers pretend that they can juggle away these facts by the manipulation of pieces of paper." A hint of this kind might be useful in this country.

.....Many religionists recollect the very pious English tract entitled the "Dairyman's Daughter" (Elizabeth Wallbridge). So popular has it been, that it is said to have been translated into sixteen different languages, and to have attained a circulation of 4,000,000 copies.

.....T. W. H., in the Woman's Journal, says his impression is that "Nature is endeavoring to take a new departure in the American and to produce a race more sensitive, more pliable, and of more nervous energy; that this change of type involves some risk to health in the process, but promises greater results when established." This is a pretty good idea, but is there not ground for fear that in this change of type, so far as it has gone, one essential ingredient is lacking—a saving degree of honesty? It is to be hoped Nature will not forget that.

.....A hen shot a man at Pains Hill House, near Cobham, England. The loaded gun was on the top of a corn bin in the stable. The hen got on the trigger, the gun exploded, and an old man named Collins was shot in the face, losing one of his eyes.

ENCOURAGEMENT TO SUBDUED THE DESERT.

ONE of the resolutions of the late Territorial Convention held in this city was to the effect that Congress be invited to make grants of land to irrigation companies, under proper restrictions, with the view of encouraging the reclamation of what are now waste lands, owing to the aridity of the climate.

For nearly thirty years the people of this Territory have been busily employed in reclaiming portions of this region, for it may all be classed as once waste land, for the reason that it was generally believed to be uncultivable, and for the further reason that even now but very few and small portions of it can be satisfactorily cultivated without being subjected to artificial irrigation. During all this thirty years, nearly a third of the most progressive country in the history of the world, the settlers of these valleys have done all this work at their own expense. In making all the miles and miles of costly canals and ditches, the dams and sluiceways, the pay therefor has come out of their own scantily lined pockets. Not a dollar has been appropriated by Congress and not an acre of the millions thus redeemed from sterility has been granted to the sturdy and enterprising pioneers who have made a Territory, and a State almost, out of a region once considered a barren and irredeemable wilderness.

This ought no longer to be. Public benefit ought to be acknowledged, and assistance rendered where necessary, or advisable. This is one of those very instances. There are yet many thousands of now waste acres in this Territory that could be made largely productive by the judicious use of waters available, though at considerable expense, for irrigation. Farms and gardens and towns and cities could be where they are not, and thousands of comfortable homes could be made and supported by means and labor applied in this direction. It is a noble enterprise, a laudable ambition, worthy to be encouraged and fostered by the Federal Government. The way proposed would not cost the Government a single dollar beyond ordinary government expenses. By the simple granting of a portion of the lands thus expensively reclaimed, other and adjoining government lands, in like manner reclaimed, would be made saleable and valuable, and the prosperity and the income of the General Government would be thereby materially increased, instead of lessened.

By Telegraph.

PER WESTERN UNION TELEGRAPH LINE.

TO-DAY'S DISPATCHES.

EASTERN.

WHEELING, W. Va., 13.—Ohio county gives a democratic majority of 150 on the vote for governor. The returns from the interior are coming in slowly. They generally show an increased democratic majority. The State will probably go 12,000 democratic.

Collision of Trains and Loss of Life.

BOSTON, 13.—The steamboat express train, from Fall River for Boston, came in collision, this morning, with a local freight train at Randolph. Two engines of the freight train, with baggage and cattle cars, were completely wrecked. One fireman was killed, and engineers Deever and Crosby, and passengers John Male and James Watson, of Boston, were severely injured. The train was made up of twenty cars, filled with eastern people returning from Philadelphia. The freight train should have been on the siding and was backing up to take its proper place at the time of the collision.

Arrived.

NEW YORK, 13.—Martin F. Tupper, poet and philosopher, arrived yesterday, after a stormy passage from England.

American Mining Board Transactions.

The transactions at the American mining board this morning amounted to 4,450 shares.

Alta, 45; Calaveras, 10; Chollar, 5; Excelsior, 7 1/2; Grant, 4 1/2; Gould & Curry, 15; Indian Queen, 12 1/2; Justice, 19; Merimac, 38 1/2; Ophir, 48; Savage, 13 1/2; Yellow Jacket, 26.

Tupper's Friend Woodward.

ELBERT A. Woodward has been removed from the cell in Murderers Row, where he was first placed upon his arrival in the Egyptian monument yesterday, as a now occupies cell 92, on the third tier, where he can at least obtain a glimpse of sunshine. His prison is being plainly but comfortably fitted up. Already there is a good bed and table. His stay in prison promises to be long, for should the forgery indictment fail, he will be promptly remanded on the civil suit to recover six millions dollars, with bail fixed at three millions, an impossible amount to furnish.

The Monetary Commission.

The United States monetary commission has sent to the bankers, merchants and others of the city, a circular requesting the persons to whom it is sent to forward an answer to the series of questions detailed therein, as to the causes of the changes in the relative value of silver and gold, what percentage of that change is attributed to the fall of silver, and what to the rise in gold, with reasons for such reductions, what the present condition may be throughout the country of trade, commercial or financial, the calling of the person answering the questions, with such statistics as would show comparison with former years, should there be a depression, the causes, whether local or general, and if the latter, what foreign causes might have led to it, and also such other information as would aid the commission in arriving at a clear idea of the facts necessary for the carrying out of the work for which it has been appointed.

Election of Officers of W. R. Tel. Co.

At a meeting of the directors of the Western Union Telegraph Company, to-day, the following officers for the ensuing year were elected: President, W. C. Orton; vice-presidents, Augustus Schell, Norvin Green, Harrison Durkee; secretary, A. R. Brewer; treasurer, R. H. Rochester; executive committee,

Wm. Orton, Jas. H. Banker, Alonzo B. Cornell, Harrison Durkee, Norvin Green, Joseph Parker, E. D. Morgan, Augustus Schell, W. K. Thurn, C. Vanderbilt and Frank Work.

A Special Commission to Visit the Nez Perce Indians.

WASHINGTON, 13.—Many of the Nez Perce Indians have been parties to any treaty, and serious difficulties having arisen between them and the white settlers of Idaho and eastern Oregon, the Indian Bureau is now preparing to send a special commission to them, with the view to settling all questions in dispute, and avert further trouble. The commission will consist of General O. O. Howard and Major H. Claywood, his adjutant William Steele, secretary of the board of Indian commissioners, D. H. Jerome, of Saginaw, Mich., and probably A. C. Burston, of Providence, R. I., the latter two being also members of the board of Indian commissioners. General Howard leaves Washington to-day, and the eastern members of the commission will rendezvous in Chicago on Monday next.

Recruits for Fort Russell.

The superintendent of the general recruiting service is ordered to forward 150 recruits to Fort D. A. Russell for the Third Cavalry.

Indiana Election.

CHICAGO, 13.—The Journal's Indianapolis special says Indiana has undoubtedly given Williams 4,000 to 5,000 majority, while the republican gain of five congressmen makes it a drawn battle, with a prospect of a magnificent fight between President and challenger.

The democrats are exultant, and the republicans are far from despondent in that State.

The Journal's Columbus special says the republican majorities are continually increasing and the strongest candidates will have over 10,000 majority while Barnes will get nearly 7,000.

FOREIGN.

GREAT BRITAIN.

War Items.

LONDON, 13.—A telegram from St. Petersburg says it is stated that the Czar is preparing another autograph letter to the Emperor Francis Joseph, in consequence of a change in the political situation.

The chief topic of the war, the correspondent says, is the Russian attitude.

The Standard's Berlin reporter says there are now assembled at Levadia, the Czar, Prince Gortschakoff, the commander of the Black Sea squadron, the ministers of war and finances, and the Czarovich. Russia's reply to the Turkish proposal is under consideration.

A Times' Berlin dispatch says the old reports are revived that the Czar thinks of abdication if the war is decided upon.

The Russian residents in Austria and Germany, who are liable to serve in the army, have been ordered home.

The Black Sea squadron is ready to carry 60,000 men from the northern to the western shores of the sea. A detachment of officers have been sent to equip these vessels.

The Persian Government has been asked by Russia to co-operate. Persia, in obedience, is sending troops to the Turkish frontier. A reserve is being called out in some of the western provinces of Russia, and troops have been moved toward the northern and eastern frontier of Galicia. Twenty thousand horses have been placed on a war footing in Russian Poland. These measures are believed to be intended to force Austria and Turkey to co-operate in the independence of the southern Slavonians without war.

The Belgrade correspondent of the Daily News says the proposal of Turkey goes to St. Petersburg, thence to Livadia. The Russian reply will go to St. Petersburg and London, hence ten days must elapse before definite action can be taken. During that time military events may change the entire situation.

Stocks.

Consols, 95 1/2; bonds, 65's, 106; ex-coupons, 67's, 105 1/2; new 5's, 109; ex-coupons, Erie, 9 1/2.

The Turks Suffer Another Defeat.

A dispatch from Bagusa, yesterday says: After the capture by the Turks of the hill of Visakia on the ninth inst., Dervish Pasha advanced in the direction of Danagrad on the 10th and 11th. He defeated various small detachments of Montenegrins. In one of these engagements, the Montenegrins lost 80 men. On the 11th inst., several bands of Montenegrins attacked and almost surrounded Dervish Pasha, and simultaneously attacked Podgoritz with five battalions. Dervish Pasha was compelled to retreat with heavy loss. The fighting continued between Dervish Pasha and the Montenegrins. The former is unable to make any forward movement.

SPAIN.

Takes Leave of the Garrison.

BARCELONA, 13.—Gen. Campos has taken leave of the garrison. Jovellar retains the Captain-Generalship of Cuba under orders of the General Campos, Commander-in-Chief. It is believed Campos will induce the insurgents to accept terms, and then the more energetic leaders will leave the island for pecuniary purposes.

Fortifications to be Destroyed.

Thirty thousand soldiers will, if necessary, follow the 15,000 who start for Cuba on the 20th inst. General Quesada has ordered the municipalities in the Basque provinces to immediately destroy all the fortifications not occupied by the Spanish troops.

GERMANY.

Krupp Guns Seized—Arnim's Title.

BERLIN, 13.—The creditors of Turkey have seized 292 Krupp guns which were being shipped from Antwerp for Turkey.

Count Von Arnim's sentence of five years imprisonment in the fortress of Custritz has been commuted to that of three years, on condition of his forfeiture of his title and possibly his property.

TURKEY.

The Porte Refuses the Peace Conditions.

CONSTANTINOPLE, 13.—It is stated that in addition to the note proposing the conditions on which the Porte grants the armistice, the Porte, yesterday, delivered to the ambassadors a note justifying the refusal to entertain the peace conditions submitted by the Great Powers, especially the autonomy proposed for Bosnia and Herzegovina.

The Small-pox in Ogdén.

There is quite a scare in town about the small-pox. The wildest rumors are in circulation and much anxiety is felt in all parts of the city. It is a fact that the dread disease has once more obtained a foothold among us. But its attacks

are greatly exaggerated, and much needless alarm is created. The facts are three of the children at the pest house have died, and twenty persons in Ogdén have all the symptoms of the malady.

It is quite probable that many there may be attacked, and unless some precautions are immediately adopted, serious consequences will ensue. We hear of persons coming from the pest house without a change of clothing and of members of the afflicted families mixing with the public as though there was no danger of infection. This should be stopped at once. If any person employed to visit or attend upon the sick at the pest house comes to town with unchanged clothing, we call such conduct criminal carelessness. He ought to know better. Infection can be carried about in the clothing and communicated to others, although the person carrying it might be exempt. To take the small-pox, the blood must be in a condition favorable for its reception, and thus an individual may escape infection himself, while he becomes the medium of its communication to others.

Until some civic regulations can be adopted, we suggest that a yellow flag be hoisted at every residence of the afflicted, that the members of smitten families who are not seized with the disease, keep secluded until danger of communicating it is over; that schools and public entertainments be discontinued; that children be kept as near home as possible; that all physicians, attendants and others visiting the patients, change their clothing before mixing again with the public; that personal cleanliness be rigidly observed by the people of all ages and both sexes; that attention be paid to diet and food favorable to fever be avoided; that infected clothing be buried but never burned; and that everybody seek to preserve a calm and equable frame of mind, giving no need to sensational rumors and scares.

As a preventive, which has been tried with wonderful success in the old world, we can confidently recommend the following: One ounce epsom salts; two ounces cream tartar; one lemon, sliced. Pour over one quart of boiling water. Dose for an adult—a wineglassful, cold, every morning on rising.—Ogdén Junction, Oct. 12.

MARRIED.

In this city, Oct. 12, 1876, by Prest. D. H. Wells, Mr. James H. Pouton and Miss Sarah A. Fardos, both of this city.

In this city, Oct. 12, 1876, by Hon. John Taylor, David J. Taylor and Miss Julia A. Clark.

Our Maker bids increase; who bids abate? But our destroyer, foe to God and man?

DIED.

At Oak City, Millard County, Oct. 3, 1876, of inflammation of the bowels, after an illness of two days, CHRISTIAN ANDERSON. Deceased was born February 10, 1833, in Vermont. He was a strictly honest, upright man, and in full faith of the gospel. He leaves a wife and two children and a large circle of friends to mourn his loss.
