EFFECTS OF AN EXPLOSION.

TWO MEN SERIOUSLY AND ONE BOY SLIGHTLY INJURED.

From Brother Wm. M. Stuart, of Draper, we have information of a serious accident which occurred at that place the day before yesterday. Thomas Stokes, George Terry and a boy named William Terry, son of Jacob Terry, were at work together on the ditch that runs along the base of the mountain. A blast had been prepared and the fuse ignited, which burst out without an explosion, taking place. They then proceeded to drill out the charge, the boy being engaged pouring water on the powder to keep it wet, to prevent it exploding. This precaution proved insufficient, as an explosion took place, shattering the rock and injuring all three of the parties named.

Thomas Stokes, who held the drill had his hand all torn away excepting the thumb, the bone of which was broken, as well as several other bones of the wrist. George Terry was thrown down with great violence and severely injured about the face. It was thought for some time that he was killed. The boy was struck in the abdomen with a fragment of the rock, and knocked down but not seriously injured.

As soon as the explosion occurred, Stokes ran away from the scene of the disaster, holding the detached hand in the sound one, presenting a pitiable spectacle. Somebody met him and told him that Terry was killed, when he at once wheeled around and returned to the place where the accident occurred, being pleased to discover that his companion was alive. Dr. Benedict happened to be at Sandy on the day the accident occurred, and being called to attend to Mr. Stokes, he amputated the injured member about four inches above the wrist. We understand the patient is doing well.

It is stated that the sight of one of Mr. Terry's eyes is destroyed, but this is not confirmed. He came up to this city for treatment on the next train after the accident from Draper. Since the above was written, we have learned from Dr. Romania B. Pratt, who is attending Mr. Terry, that the ball of the injured eye is not destroyed. It is severely ruptured, and a cataract has grown upon it which almost entirely obscures the sight. The organ is, however, in a fair way of healing, and it is not deemed advisable to have the cataract removed at present, as the operation might endanger the existence of the eye.

Conclusion of the Inquest.—The inquest over the remains of William Kennedy, whose body was brought from Park City on Wednesday, was concluded last evening. Deputy Sheriff Milton Thomas was the only witness examined. His statement was, in substance, that a fight occurred on Monday night in front of a saloon, and deceased was found dead the following morning at six o'clock in a little cabin a short distance to the rear of the establishment. A woman who runs the saloon had stated that Kennedy passed out of the place an hour before the fight, and was at that time apparently all right. A man named Ingraham had been arrested at Park City on a charge of having caused the death of Kennedy by kicking him, but was released for want of evidence. Dr. McCall stated that deceased came to his death from a blow to the head, the effects of which were fatal. Elia Johnson, a man named Foley and another (an Italian) by the name of Castro participated in the fight, the latter having been arrested and fined the following day for his share in the affair. Foley had been badly kicked by Ingraham, who subsequently boasted that he had kicked another party, supposed to be Kennedy. The deceased had been drinking before the fight occurred.

After hearing the evidence of Mr. Thomas, the jury returned a verdict to the effect that William Kennedy came to his death at Park City on the night of the 10th or morning of the 11th of July from the effects of violence inflicted by parties to the jury unknown. It has been demonstrated by the investigation here that a brutal crime has been committed, by which the life of a human being has been taken. It remains to be seen whether the local officials will bring the matter up until it is brought home to the perpetrators.

Bishop Miller Prostrated.—We were pained to learn, this morning, that Bishop Reuben Miller, a much respected member of the community, was stricken with paralysis, on Thursday, and now lies prostrated at his residence from that cause. He was at the County Court House all day on Monday, at the session of the Court, of which he is a member, and appeared at that time in his usual health.

Th Third Bicycle Race.—The third bicycle race for the gold and silver medals will take place at Calder's Farm on the 24th inst. All entries for the race must be recorded at a meeting of the club to be held next Monday evening.

RETRACTORS.
When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical; but proof of its merits by actual trial has dispelled all doubts, and to-day the discoverers of "that great medicine," Hop Bitters, are honored and blessed by all as benefactors.
