CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-line in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE DRAWING ROOM and SLEEPING CARS, elegant DINING CARS providing excellent meals, and—between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Fayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

EVENING NEWS.

Thursday, - - April 28, 1887.

ATHEISM AND MODERN "CHRISTIANS."

This is said to be a Christian nation, and nearly all concede that the founders of our government were Christian men, but it is painfully apparent that very little of the element from which real Christians are made, is manifest to-day among leading men in America.

It has become fashionable to be irreligious; and to have pronounced ideas in favor of any religious code, is, to a large extent, regarded as fanatical and unworthy of educated people. Atheism is making gigantic inroads upon religious sentiment everywhere. The dark fiend—infidelity—assuming the fascinating form of the "god of reason," like Satan appearing as an angel of light, is daily and hourly seeking to allure the children of men. He commenced by insidiously sowing the seeds of a universal unbelief in Holy Writ. This was largely accomplished by garbling the Scriptures, and promulgating for Biblical doctrine, some of the most inconsistent of the sectarian theories, for instance, such as the oft-repeated assertion "that the earth was made" "out of nothing," instead of from the elements which always existed. Much capital was coined from the inference that the creation only lasted six of our days, instead of six periods, which, according to Biblical language, were each a thousand years in duration, that being the length of a "day with the Lord."

The atheistic reasoner took the meanest advantage of sectarian misconceptions in regard to the statements of Scripture. And the uninformed or superficial debater was at once silenced by these misleading statements, coupled with the assertion of some scientific theory that appeared to conflict with the "doctrine" cited. This slandering of the Scriptures was carried on until many of the more ignorant people were actually imbued with a distrust of the inspired writings. And although many excellent works have been published, to show the inconsistency of such false premises, once the confidence of people was shaken in the Scriptures, it was difficult to get a patient consideration of their divinity. And many now grope in darkness on these points, through their unwillingness to consider an intelligent presentation of the facts, or of arguments to sustain them. Sometimes, however, the atheist meets his match, and an opponent rises who contends against such dishonest advantages. Instead of allowing manufactured theories to be set like skittles, which the wily reasoner is ready to knock down with his scientific shots, the solid student of Scripture insists on holding him to the "law and to the testimony."

But the atheist is not easily defeated; when he fails in argument, he descends to ridicule. When his sophistry falls short, he supplements it with sneers. Then he grows angry. He profanes the name of God and slanders His servants. Prophets of a past age are held up by him to the derision of the scoffer of modern times. And he disputes the declarations of the departed Saints, because they are dead, and don't answer from their graves in his unjust presence to substantiate their testimony.

Now the various ministers who as shepherds of their respective flocks, preside over their pastoral fields in Utah and elsewhere, will doubtless endorse to some extent at least the views above expressed; and the truth of the picture drawn as against the atheist will be acknowledged. But will the same learned gentlemen look askance upon the one now about to be presented?

About sixty years ago, a young man announced to the religious world in all soberness, that he had been visited by an angel, who had delivered to him certain plates to be translated by the power of God. This was the sacred record of an ancient people who have lived on this continent, and whose descendants lingering under a curse, are now roaming as Indians upon this land. The voice of unbelief was at once raised in denunciation of the inspired record, so presented to the world. Misrepresentations of its contents, disputations as to its authorship, and denial of its divine revelation poisoned the public mind everywhere. Garbled statements concerning its discovery and production in print, were freely published by press and pulpit, and feelings not only of distrust in the record itself, but of animosity against believers in its divinity were incited among the people while its translator was assassinated for his prophetic utterances.

With tongues dipped in the very gall of bitterness, the clergy who had so unjustly suffered at the hands of the atheists, turned the force of their solemn maledictions upon the believers of the Book of Mormon. Infidels had maligned and derided past prophets because they were dead and did not arise and set the seal of personal testimony upon their inspired writings. But it was left for "Christians" to revile the Prophets of our own day, because they were alive, and had the temerity to declare that they too were called of God, and could and did testify of Him, as living witnesses.

Malignity, vindictiveness, derision, sneers—these have all played their parts in the great drama of opposition to the divine things, bestowed for man's redemption in our day. And "Christians" have positively vied with atheists in the work of stirring up such antagonism as would, if possible, ensure the rejection of the sacred truths revealed. In short, atheism commenced the work of fighting inspired writings and "Christians" are trying to complete it. Even now the religious elements in Utah "melt with fervent heat," in their zeal to uproot and destroy the Church founded by the modern prophet. Their priestly ardor was never more aroused against any atheistic "son of Belial," than it is against these believers in both ancient and modern revelation. And the wickedness and malice of opponents of the Scriptures, never reached a lower depth of trickery and meanness than have "religious" infidels, in their efforts to destroy the reputation and influence of a people who conscientiously receive as divine the revelations through the latter-day Prophet.

Where is the consistency in this course? Where the world is teeming with corruption through unbelief, and rebellion against God, why should so-called religious people, and especially their shepherds, persecute and unfairly oppose a church, because it believed in more divinity than they do? Let the people and their shepherds answer!

A HATER OF THE "THUMBSCREW."

A Tandem Unicycle.

Our local wheelmen will be interested in learning that a new cycle has been invented. It is described as follows:

The wheel is 54 inches, of full roadster weight, but with tangent spokes, great strength and rigidity being necessary. Around the wheel extends an elliptical frame, which is adjustable upon the axle much in the manner of a "teeter totter." One rider is seated on the front and the other on the rear end of the frame, and the difference in weight equalized as much as possible by the adjustment of the frame on the axis. The riders sit facing in the same direction, each one pedaling. The pedals being connected with the wheel by adjustable gearing chains. The machine is geared for a rapid pace, for it will be necessary to maintain great speed in order to keep the wheel erect. There is no steering attachment whatever to the wheel. The guiding will be done by the riders swaying their bodies to and fro.

During the performance of a tragedy a baldheaded gentleman looking up into the gallery said: "My dear madam, I respect your emotion, but the truth is you are shedding tears on my head."—His remark was as much out of place as himself. His tier was next the footlights.

"The average American eats fifty-six pounds of sugar a year, against the Englishman's sixty-seven." Despite this fact, however, the average American girl is much sweeter than the English lassie. Probably because she is given more "taffy" than the English girl receives.

Chicago Editor (to reporter).—In your report of the fire, you refer to the building as having been gutted."

"Reporter—Yes, sir.
