learn of my death. It was all due to kidney trouble, for which I could secure no relief. I was under the cars of my family physician for a number of years, but he was unable to do me any good. I also consulted two noted specialists on kidney diseases, but they were unable to give me more than temporary relief. I had already made application to join the army, but was turned down on account of my bad physical condition.

"I was advised to try that greatest of all remedies-SWAMP-ROOT. "I wrote to Dr. Kilmer & Co., at

Binghamton, N. Y., for a sample bottle, and its effect upon me was so noticeable that I went immediately and bought a supply from my druggist, with the result that in a comparatively short time I had entirely recovered and be came the man you see me now.

"I served a number of years in the army, and for the past four years I have been connected with the Philadelphia Fire Department. My work, both in the army and fighting fires in Philadel phia, has been of the most arduous, and work that I could not do, did I not have a strong physique.

"I do not know what the words "Kidney Trouble" mean now, and do not expect to. I cannot speak too highly of Swamp-Root. A few bottles of this great remedy did more for me than a dozen physicians could." (Signed) UUGO HUTT 2223 Vine St., Philadelphia, Pa. A ND this is only one man's

Washington, May 7.-The army board which has been for months past consider-ing the merits of the new service rifle, or musket, has finally declared in favor of a weapon with a barrel only 24 inches in length, using a ,30 ball. The new gun is a remarkable weapon, according to the ordnance officers, for while it is six inches shorter than the Krag and only two inches longer than the carbine, it is more powerful than either, with a higher initial velocity and flatter tra-jectory. It can easily penetrate 24 one-inch pine planks. It is a pound lighter than the scrvice rifle, which is a consid-eration in the tropics.
