The motion of the plaintiff in the case of Hamer vs. Howell, to retax the costs of \$28.15 in the action, was heard and granted. The reduction amounting to about \$15. This will no doubt be the end of the hotly contested election case, wherein Daniel Hamer sought to have the election of J. A. Howell as judge of the Second district district judge set aside on a recount, but lost both on the hearing before Judge Morse and on the appeal to the supreme court.

The divorce suit of Lulu S. Jones vs. Fred W. Jones was heard, and a decree entered in favor of the plaintiff. The grounds were desertion and failure to provide. The parties were married at Ogden in March, 1902.

H. H. Goddard vs. Brier Kulehlein was granted, the cost not having been paid.

## BOY BURGLARS CAUGHT.

The Salt Lake officers arrested three Provo boys yesterday, on request of Sheriff Harmon on suspicion of being the burglars who visited Harry's grocery store in this city Wednesday night, and the suspicion proved to be correct. The boys failed to come home Wednesday evening, and in the morning the parents notified the sheriff, who connected the boys with the burglary and asked Salt Lake officers to look out for them. They had \$150 of the amount taken, which Mr. Perry says, is from \$175 to \$200, but no greater sum than about \$20 can be accounted for as having been spent. The culprits were brought back last night by Sheriff Harmon and turned over to Judge Kellogg of the juvenile court today, as the oldest is only 13 years of age. They are intended to come back to Provo after day or two. For the sake of their parents and because of the tender age of the youngsters their names are not published.

## PINTSCH GAS PLANT

Inspected by Eastern Representative And Will be Enlarged.

Ogden, Dec. 1.—The Pintsch Gas company's plant in this city was inspected yesterday by W. A. Rivuletto, a representative of the company from New York. In company with local Superintendent George Lochland, Jr., he thoroughly examined the plant with the view of determining the enlargement in the same so as to be able to supply the great demand made on his company for gas at this point. He was much pleased with the condition of the local plant, though recognizing the inability of the plant to supply the demand for gas. He will return to New York and recommend extensive improvements among them being the enlargement of the plant to about five times its present capacity, which would give it a daily output of 240,000 cubic feet. The contemplated enlargement will cost about \$50,000, and will be made under the direction of local Supt. Lochland, who is one of the most capable men in the west in the construction and connecting of such a plant. Just as soon as the management has passed on the proposed improvements, work preparatory to making the same will be commenced, so that by spring the new plant can be built.

The Pintsch Gas company furnishes all the gas for lighting purposes on all the railroads running in and out of Ogden. The great increase of traffic on all the lines has made it impossible for the company with its present plant to supply the demand. At the present time there are 14 men employed at the gas plant which number will be greatly increased when the new plant is built.

## A CHRISTMAS DINNER.

How a Dyspeptic School Ma'am Prepared and Ate One.

A Christmas dinner means "good cheer" to all but the person who can't get it or can't eat it after it's got.

A young lady school teacher had dyspepsia so bad that her stomach was full of little round worms. Her Christmas dinner was a good one.

"Teaching in the Rural Districts for 10 years compelled me to board in homes where I was served with poorly cooked food and cold lunches. As a result it seemed my stomach was completely worn out. I could only retain the most delicate food and that had to be eaten slowly and a reclining position. Vomiting in the night was a frequent occurrence, and medicine had no effect as it would always be ejected. Severe heart-spells and female trouble marked their appearance."

"Ten days before Christmas, I said, 'I think I'm doing my last day's work.' 'My landlord said he would get a box of Grape-Nuts. I replied 'If it is half as good as we read, it may do me a little good.'"

"This precious food was brought home. I ate and retained it. It was strengthening from the very first."

"On Christmas day I prepared and ate roasted chicken, mashed potatoes, sauerkraut, and cranberry pie."

"I am not exaggerating my improvement one iota. Grape-Nuts must have the credit, for I hadn't taken a day of medicine. I can now eat just what I wish, have firm muscles, but I always have Grape-Nuts on the table—should call it medicine and food put up in the same box. My heart is rapidly getting well."

"I know of one case besides myself, that of a three year old child, of almost a blue complexion and flabby muscles. By the use of Grape-Nuts, changed to a rosy-checked boy, full of vitality. Grape-Nuts cannot be praised too much." Name given by Postum Co., Battle Creek, Mich. Read the famous story in "The Road to Wellville" in pkgs.

"There's a reason."

Torrey, Wayne Co., Nov. 27.—It has been snowing here nearly every day since the 20th. When the storm broke away on the 23rd, two feet of snow had fallen, which settled down to 14 inches at present writing. It is warm and snowing hard, with promise of a heavy fall, as the storm is coming from the east, which indicates heavy snow in this part. Just one year ago Torrey had 20 inches of snow fall, which covered the ground for four months.

The mother, hearing the screams of her child, ran to the house and found the little one in flames. She tore the burning clothes from her child, burning her own hands to a blister to save the child. The clothing was nearly all burned off the child before her mother could reach her. While the little one is in a critical condition, there is hope for her recovery.

The district school started today, with Ray E. Hanks as teacher. The school board was not able to secure the services of a teacher until now.
