## Special Notices.

Have You Ever Heard of It? Then in-  
quire at once at your grocers for DOOLEY'S  
CHEMICAL YEAST BAKING POWDER, the  
only strictly pure and harmless baking powder  
in market, from which good, sweet, palatable  
biscuits, rolls, cakes or pastry can be made  
uniformly with the same success. This article  
has been steadily increasing in demand and  
public favor, and stands to-day the most reliable  
baking powder now in use. Ask your grocer  
for Dooley's Baking Powder?

Burnett's Articles have extended their repu-  
tation everywhere, and they give the utmost  
satisfaction.—Frank Leslie's Newspaper.

Prejudice Vanquished.—Burnett's Cologne  
Water is admitted to be equal to the foreign  
brands.

Burnett's Florida has none of the peculiar  
sickening sweetness so common in French Ex-  
tracts.

Burnett's Preparations are sold in Europe and  
patronized by the Nobility.

Burnett's Extract of Lemon imparts a flavor,  
equal to the fruit itself.

That thirlt might follow fawning."

Statement Blanks for sale at this Office. See  
advertisement in another column.

Having lately received extensive additions  
to our already large and varied stock, in the  
shape of type, presses, &c., &c., our facilities for  
executing all kinds of Job Work in the best and  
most improved styles have been greatly in-  
creased. Co-operative and other establishments  
can be supplied with plain or tinted Order and  
Receipt Books, Certificates of Stock, and every  
kind of work. Orders from the city and the  
country settlements are respectfully solicited.

We have received one of the latest improved  
ruling machines, and are, therefore, prepared to  
do all kinds of ruling according to order, on the  
shortest notice.

WARRANTEE DEEDS for sale.—The citizens of  
this Territory are now in possession of all the  
rights and privileges accruing from the enjoy-  
ment of the Pre-emption and Homestead Laws,  
and hereafter all transfers of titles to land will  
have to be effected by means of Warrantee  
Deeds, instead of the Quit Claim Transfer  
Deeds heretofore used. In view of the demand  
for such documents, we wish to inform the pub-  
lic that we have them on hand, at this office,  
in legal form, and are prepared to sell them  
singly, or otherwise, at very low rates, to suit  
purchasers.

### GENERAL.

Two undertakers are in a quarrel as  
to who shall bury the corpse of a  
woman, named Sutton, who died on  
Saturday; one was sent by the coroner  
who investigated the case, the other by  
the woman's relations. The police were  
called in and the matter was referred to  
Commissioner Walling, who referred it

to the public administrator. In the  
meantime the body remains unburied.

The Herald's Washington special  
says the movement alluded to, some  
time ago, favoring the modification of  
the laws affecting incomes, has assumed  
a more formidable and general charac-  
ter. The plan proposed is to increase the  
tax on whiskey to a dollar a gallon,  
which, it is claimed, will realize eighty  
million, if the means now within reach  
of the revenue bureau for the protection  
of fraud be adopted. From tobacco  
there will be at least thirty millions;  
from fermented liquors, ten millions;  
from licenses ten millions, and from  
the modified income tax there will be  
but fifteen millions required to make a  
total of a hundred and thirty-five mil-  
lions, an amount equal to Secretary  
Boutwell's estimate of the expenditures  
for the present fiscal year. The plan is  
to confine the income tax to the tax on  
the interest paid on the national debt,  
at five per cent., to be deducted when  
the interest is paid. This will realize  
\$6,255,000, without a dollar of expense  
incurred in collectors. The balance it  
is proposed to raise by taxing incomes  
derived from surplus property, embraced  
in stocks, banks, railways and other  
corporations, and from interest paid  
on the bonds of such corporations.

A dispatch from Camp Supply, Indian  
Territory, says the peace commis-  
sioners, on Saturday, had a most important  
meeting with the Cheyennes and Ara-  
pahoes; a large number of chiefs were  
present, and full two thousand men,  
women and children were outside. The  
council lasted two hours; the result is  
considered most favorable.

New York.—The weather and crop  
reports from leading localities in the  
South-west and East, generally, say the  
weather is hot and dry, which in some  
sections has been greatly prolonged.  
All accounts represent that the corn and  
tobacco crops are generally injured, and  
will give only from a quarter to half  
of the past year's yield. In most of Vir-  
ginia there has been but little rain for  
80 days. In Louisiana the crop prospects  
are reported good. Accounts of drouth  
are reported in some sections, but on the  
whole the cotton crop reports are favor-  
able.

Jackson, Miss.—General Ames has is-  
sued an order to the commanders of  
military posts in the State, directing  
them not to obey, in future, any writ of  
habeas corpus issued by a U. S. District  
or Circuit Court, or the order of any  
such court for the release of prisoners;  
also directing them to report by tele-  
graph the service of such writ or order.

The Michigan, Baltimore and Ohio  
Railroad has arranged to carry flour  
from Indianapolis and Cincinnati to  
Baltimore, without breaking bulk, at  
twenty cents a barrel, being cheaper  
than the rates to New York; it is also  
proposed, by saving dock handling, etc.,  
to make the rates of flour from these  
places to Liverpool, thirty cents a barrel  
cheaper than via New York.

Philadelphia.—Not a drop of rain has  
fallen since August 4th, the night of  
the great whisky fire. There are no  
accounts of any rain in the interior.  
The corn crop of the State is greatly  
damaged by the drouth. There was a  
special meeting of the city council to-  
day to consider the water famine. Twenty-five thousand dollars were ap-  
propriated for the families of the desti-  
tute canal boat men, and to those upon  
the Schuylkill. Power was given to the  
chief engineer to take any measures  
proper to raise water into the basins.

Gettysburg, Pa.—Gov. Geary, and  
other participants in the war, will ar-  
rive to-morrow; only one ex-confederate  
officer, Col. Waller Harrison, has yet  
arrived. General Lee, in acknowledging  
the invitation to be present, says his  
engagements will not permit. He  
adds it is wisest not to keep open old  
sores, but to follow the example of  
those nations, who try to obliterate the  
marks of civil war and consign them to  
oblivion. The press of New York,  
Philadelphia, Washington and other  
cities, is represented. A meeting of the  
officers was held to-night, and ar-  
ranged the programme of proceedings,  
which simply designates the various  
positions and points for each day's  
survey.

Washington.—The estimated savings  
to the Government, as the result of the

reduction of the forces in the Treasury  
Department, is fifty thousand a month.  
Several more removals will be made  
upon the return of Secretary Boutwell.

Railroad freights west, to-day, advan-  
ced to 38 cents to Chicago.

General Larach, the Haytian Minis-  
ter at Washington, who has been trying  
to purchase some iron-clads of the Gov-  
ernment, is negotiating to cede, as part  
payment, the harbor of Cape Nicholas la  
Malle.

Hartford.—George Hills, a dissipated  
young man, at East Hartford, was ar-  
rested on Monday, charged with burn-  
ing his mother's barn, it is supposed out  
of strife, because his mother and sister  
locked him out.

New York.—The profit of one year's  
scavenging of the public streets, un-  
der the present contract, amounts to  
\$33,500.

The undertaker's quarrel over the  
dead body of Mrs. Sutton has been con-  
cluded by the interposition of the po-  
lice, who gave the body over to the un-  
dertaker, selected by the coroner, who  
buried it.

Chicago.—An entire editorial in the  
London Times on the international boat  
race, has been telegraphed. It thinks  
the Harvards don't receive a disadvan-  
tage in accepting a coxswain and says  
they have gradually assimilated their  
style of rowing to the English, and it is  
plain the race will not be a test of the  
relative merits of the distinct national  
style of rowing, but will decide which  
of the young men rowing happen to be  
the best article. It flatters the Har-  
vards for their chivalry in meeting the  
English crew on their own course and  
on their own terms, and assures them  
of a fair race, and hopes the best man  
may win.

Several prominent Wall St. operators  
are arranging to present Mrs. Vander-  
bilt with a silver service.

Several prominent New York Demo-  
crats have been invited to take the  
stump in Ohio. Hutchins, Tweed,  
Garvin and Pomeroy will probably ac-  
cept.

There is fears of water scarcity unless  
rain falls soon; the water in the Croton  
lake is lower than ever known before.

London, Mass.—From the details re-  
ceived of the condition of the growing  
grain crops recently published it  
seems the general impression is that the  
continued late, dry, cool weather has  
been of immense service to the country.  
Much of the corn is already gathered.  
Another fortnight like the past and the  
crisis of the harvest will be over. The  
copious rains which fell some time ago,  
though they delayed, did not damage  
the corn; a favorable change in the  
weather stopped the advance in corn,  
but great fluctuations are still expected,  
as the crops throughout Europe, with  
the exception of the interior of Russia,  
promise to be light.

The annual picnic of the Fenian  
brotherhood at Jones Wood to-day was  
attended by twelve thousand persons.  
The best order was maintained.

Philadelphia.—Owing to the stoppage  
of the paper mills at Manyunk which  
were run by water, the price of paper  
has advanced two and a half to three  
cents per pound. Some manufacturers  
are arranging to put in steam mills; these  
make fifteen tons of paper a day.

Washington.—The records of the  
State Department show the following  
regarding the action of the States on  
the fifteenth amendment: Complete  
ratification from North Carolina, West  
Virginia, Massachusetts, Wisconsin,  
Maine, Louisiana, Michigan, South  
Carolina, Pennsylvania, Arkansas,  
Connecticut, and Florida; twelve de-  
fective ratification, Kansas, and Mis-  
souri; two; rejected, Delaware and  
Kentucky.

The thermometer to-day stood 98 de-  
grees in the shade. There have been  
several cases of sunstroke.

Memphis.—Two negroes were hung  
for murder to-day. One confessed to  
the ravishing of a beautiful white girl  
during the war for which an innocent  
negro was hung.

Cincinnati.—The tobacco manufac-  
tory of John A. Robbins seized a few weeks  
ago for the alleged use of counterfeit  
stamps was released to-day by order of  
Commissioner Delano. The examina-  
tion of the stamps at Washington pro-  
ved them to be genuine.

Gettysburg.—At a meeting of officers  
held this morning, Colonel Bachelder  
was invited to take charge of the exer-  
cises to-day. The party then proceeded  
to the field for the purpose of definitely  
fixing the position of the troops on the  
first day's battle. The principal points  
of the field, the roads by which the op-  
posing troops advanced, and retired,  
and the places, where prominent offi-  
cers fell, were studied. The work to-  
day was confined to the ground covered  
by the troops in the first day's fight in-  
cluding the seminary ridge. The exami-  
nation was conducted in a spirit of  
fairness, the desire being to settle the  
contradicted points.

On the Reading Railroad this morn-  
ing two coal trains collided and a  
third train run into them, demolishing  
a hundred coal cars and killing two  
men.

Worcester, Mass.—The Democratic  
State convention met to-day. The  
Hon. Chas. Live, of Woodbury, presi-  
ding. In his opening remarks he ad-  
vocated the immediate freedom of the  
Canadas and Cuba from their European  
subjugation, looking to their ultimate  
annexation to the United States. The  
Hon. John Adams was nominated for  
Governor and S. O. Lamb, Esq., of  
Greenfield, for Lieutenant Governor.  
Resolutions were adopted denouncing  
the prohibitory laws and condemning  
the Legislature for not granting char-  
ters to certain labor organizations, also  
that they recognized the duty of acqui-  
escing in the results already arrived at  
in national affairs. The convention  
was in the main harmonious.

Washington.—Governor Senter, Co-  
lonel D. M. Nelson, General Mowbray,  
and Colonel Brownlow, of Tennessee  
are here en route to New York. Gov-  
ernor Senter will return in a few days for  
the purpose of calling on the President.

New York, 25.—A delegation from the  
Congress of the National Labor Union  
waited upon the venerable Cooper,  
yesterday afternoon at his mansion in  
Lexington avenue. Speeches were  
made by the Chairman, Gen. West, of  
Mississippi, Pratt, of Massachusetts,  
and other members of the committee, to  
which Cooper responded, endorsing  
their platform and principles.

Buffalo.—Much indignation has been  
created among the printers of this city  
at the reported charge to the grand  
jury at Erie yesterday, by Judge Vin-  
cent, in the case of the Erie Republican  
vs. the Typographical Union. The  
charge is considered as unfair and one-  
sided; funds will be raised here to as-  
sist the Erie printers to test the case.

Albany.—The Inspectors of the State  
prisons held a consultation with a com-  
mittee from the Prison Association yes-  
terday, as to the proper mode of punish-  
ing refractory convicts; in view of the  
recent revolt at Sing Sing. A desultory  
conversation took place on the various  
methods of punishment suggested.  
Without taking any definite action  
on the subject, the meeting was ad-  
journed till October, when it will be  
held at Sing Sing.

The Oneta passenger train by the  
Susquehanna Railroad, due here at 9  
o'clock yesterday morning, ran over a  
span of horses a mile from Emlats  
station. The horses were killed and the  
entire train thrown from the track.  
The locomotive was badly damaged,  
also the baggage car. None of the pas-  
senger cars were damaged, nor were any  
passengers injured. The track has  
been cleared so the trains arrived on  
time last evening.

New York.—The meteor which as-  
cended vertically, and descended over  
the same course as seen at Philadelphia  
and Washington last evening was not  
observed at the naval observatory be-  
cause none of the astronomers have yet  
returned from their expedition to ob-  
serve the solar eclipse.

Scranton, Pa.—The striking miners  
have held a meeting, when they voted  
to accept the terms offered by the own-  
ers. They will resume work before  
September. The agreement is the work-  
men shall receive the same high prices  
as the miners employed by the Pittston  
Coal Company.

Late on Monday evening, Patrick  
Maley attempted to light a fire from a  
can of kerosene which exploded burn-  
ing Mr. and Mrs. Halsey and two child-
