## LOCAL AND OTHER MATTERS.

**MEETING TO-MORROW EVENING.**—At a meeting of the land owners of the 7th Ward pasture, held about two weeks since, a resolution was passed by those present, to have a fence erected at the entrance to that pasture, with a double gate and lock affixed, to effectually shut out the cattle that have up to the present had free access to the meadow land there. This work, we understand, is completed, and another meeting of persons owning land in that pasture will be held at the 14th Ward School House to-morrow—Saturday night, for the purpose of taking further measures for the protection of their hay from the stock roaming at large there, as also from the thieving, predatory efforts of those persons who still persist in effecting an entrance there with their stock, to eat up and destroy that which they know does not belong to them, and which they have no rightful claim upon.

**ACCIDENTS.**—We regret to learn that Bishop Brown, a venerable and highly respected citizen of the Fourth Ward, met with a very serious misfortune yesterday about noon. While engaged at work in his orchard, he fell, and striking his thigh against the hard ground, fractured the limb near the hip joint. Dr. Anderson was immediately called and adjusted the fracture. Brother Brown is doing as well as can be expected to-day, but, owing to his extreme age, it will necessarily be a long time before he will be able to be about again.

While some of the students of the Deceased University were engaged in their gymnastic exercises, in the yard adjoining the building this morning, one of them, a little fellow, ten years of age, named John Spencer, son of the late Daniel Spencer, fell from the parallel bars, and broke his arm between the wrist and elbow. He was immediately taken home for surgical assistance. Dr. Ormsby, upon examination, found both bones of the arm broken square off. He set them, and Johnny is at present doing well.

**"KEEPAFTERTHIS."**—This lively little sheet is again out, and judging from the smiling faces on the street, No. 9 is appreciated. It will doubtless see up a great deal of mirth that should have been reserved for the 4th.

"A little nonsense now and then is relished by the best of men."

**CHURCH AGENT AT NEW YORK.**—Many inquiries are made about the address of the Agent of Emigration at New York—Elder Wm. C. Staines. It is Box 3867 Post Office, New York city.

**DIED,** this morning, in child-bed, Mary T. R. Davis, wife of Dr. M. L. Davis, aged 39 years. The funeral will take place at residence, 7th Ward, to-morrow (Saturday), at 1:30 p.m. Friends are invited to attend.

**SEVENTH REPORT FOR JUNE.**—Males 13, Females 13. Of these, adults 10, children 16. Causes of death as reported: Measles 3, lung complaints 4, brain diseases 2, rheumatic fevers 2, paralysis 2, old age 2, still born 2, cancer 1, dropsy 1, drowned 1, albuminuria 1. Total interments 26. J. E. TAYLOR, Sexton.

**DIXIE ITEMS.**—Bro Joseph Birch of St. George, Southern Utah, reached this city last night, having left his home about ten days ago. He reports that the grape yield at St. George is the best ever known. The wheat put in last fall did well, and a larger crop than usual has been raised. The corn and sugar cane will be short on account of the failure of the waters of the Santa Clara. The wheat crop was mostly harvested when he left.

At Washington the crops of fruit and grain were never so good. Kansas will raise more crops of wheat, corn and potatoes. The people of St. George and Washington are aiming to go into the manufacture of cotton and wool. They have formed themselves into a co-operative association for that purpose, and have purchased from Young's cotton factory, and are adding an upper story to the building, in which to place woolen machinery and additional cotton machinery, which Bro. Birch is going east to purchase.

**THE MUSEUM AND MENAGERIE.**—The Museum and Menagerie are an institution. It is becoming more interesting every day, as more novelties are being added. The arrangement of curiosities in all departments is much better than formerly, and the gentlemen in attendance are ever ready to do the agreeable to visitors. They were visited yesterday afternoon by the 14th Ward Sunday school, in full force, under the direction of Superintendent Thomas Taylor and his assistant, Geo. H. Taylor. The scholars, numbering 275 in all, spent a very agreeable time there, riding on the camel, witnessing the antics of the bears and other animals and looking at the curiosities and wonders generally. Bro. Barfoot, in the geological department, explained things in such a manner as to make it very interesting for the children, who, after making a good long stay, left highly delighted with what they saw.

**THE UTAH PRIZE CANDY BOX.** is manufactured only by H. Wallace, confectioner, East Temple St. The manufacturer, in offering these boxes of candy to the children of Utah, is actuated by a desire for their welfare, knowing that much of the imported candy contains poisonous or injurious ingredients, often causing sickness to the children who eat it. The candy, put up in the "Utah Prize Candy Box," is warranted to be made of pure sugar only. Each box contains as much, by weight, of candy as these which are imported, and, in addition, also contains a prize—a ring, studs, or other pleasing toy for children, to the value of at least half the price charged. This is a new enterprise here, and from the above facts it will be seen that the same amount of candy sold will be the most profitable to the manufacturer should be liberally supported. We believe he will be, for all would sooner give their twenty-five cents and get the full value in pure home-made material, than for the same amount of an adulterated foreign-made article. Remember Wallace, confectioner, East Temple St.

**GRASSHOPPERS.**—It seems the "hoppers" have been pretty heavy on the crops at Plain city. Bro Wm. Geddes, writing from there on the 27th says: "Some of our people here feel almost disheartened over the destruction of their crops by the grass-

hoppers; nearly all of our crops of small grain have been taken. We have planted three times and it has as often been taken. Still we are planting, and shall keep on doing so for some time. There is scarcely a green leaf left on our fruit trees. You will think this rather bad news, but it is only too true. From the reports we hear from there we think they have not been so severe in other parts of Weber county as in some places the crops are looking tolerably well. We learned, last evening, that the grasshoppers had reached Logan, flying northward. We trust, though, that they will pass on as they do here at present, without injuring the crops.

**GRASSHOPPERS VS. POLYAMY.**—The New York Herald, noticing the grasshopper plague in this Territory, says:

"The regular locust plague has returned to plague the Mormons. There is danger, too, if some efficient means for their extermination be not adopted, that these grasshoppers or locusts will, before many years are over, abolish Mormon polygamy by starving it out; but, as this will only be one nuisance abating and taking the place of another, we hope that the Mormons will abate the grasshopper nuisance, and that Congress will abate in some quiet way, the polygamy nuisance of the Mormons. It would be a national disgrace to leave Mormon polygamy to the chance of the grasshoppers, and to prevent a general famine some day in the far West from those swarming millions of grasshoppers, the government should offer premiums for their destruction, for we believe that modern science can destroy them."

Queer, we never thought of that. Though we have been troubled by the grasshopper pest a great deal, we never noticed that the matter affected our religion in any way. Indeed we think the forebodings of the Herald in regard to the end of polygamy are groundless, for it is not at all probable that we are going to starve out just yet. We are used to going short allowances, and it does not trouble us a bit. We have noticed in times of scarcity, in years past, the people seemed to feel just as well, and think as much of their religion as in times of plenty.

**CALL AND GET THEM.**—There are messages at the Deseret Telegraph Office for Wm. H. Dams, and W.W. Mottingsham.

**ARRIVALS AT THE SALT LAKE HOUSE.**

## ELGIN WATCHES!

MANUFACTURED BY  
The National Watch Company

All the grades of the Elgin Watches

INCLUDING THE

"LADY ELGIN"

READY FOR

SPRING TRADE.

The company also call the attention of Watch buyers to the fact that the Elgin Watches now offered have an added improvement over all others, in a new

PATENT DUST EXCLUDER

so constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection.

The company feel confident, after having had their watches three years in market, and selling many thousands of them in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS

In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of Mailways, including the Union Pacific and the Pennsylvania Central, and officers of these lines, with other prominent R. R. officials, endorse them as the best watches for the use of R. R. employees and travelers yet introduced.

The following are presented as specimens of these testimonials:

**TESTIMONIAL.**

UNION PACIFIC R.R., OFFICE OF GEN'L SUPT. OMAHA, Dec. 16, 1869.

Hon. T. M. AVERY, President National Watch Co., Chicago, Ill.

Dear Sir:—During the month that I have carried one of your "E. W. Raymond" Watches I have not failed to keep time with so much accuracy as to leave nothing to desire in this regard. For accuracy in time keeping, beauty of movement and finish, your Watches challenge my admiration. Watches are my pride as an American, and I am confident that in all respects they will compare successfully in the markets of the world, with similar manufactures of other nations. They need only to be known to be appreciated.

Yours most respectfully,

C. G. HAMMOND, Gen'l Supt.

OFFICE OF THE HUDSON RIVER RAIL ROAD, Gen'l Supt., New York, Jan. 17, 1870.

T. M. AVERY, Esq., President National Watch Co.,

Dear Sir:—The Watch made by your company which I have carried the past two months, has kept excellent time. I have carried it frequently on engines, and have been on the road with it almost daily. During this time it has run uniformly with standard clock.

Truly yours,

J. M. TOUCHEY, Gen'l Supt.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the company have advertised them, as better finished, more correct and durable, than any in market at similar price, and that they have great confidence in recommending them to the public, on account of their general merit.
