

## BARLOW ACCEPTS UNDER CONDITION

As Chief of Police He Insists That He Must Receive \$3,000 Per Year.

### NEW ORDINANCE GOES OVER.

Two Weeks' Delay in Consideration of Councilman Stewart's Measure—Discuss City Purchases.

S. M. Barlow yesterday accepted the appointment of chief of police, after Mayor Bransford had agreed that the accompanying salary should be \$3,000 a year, but up to the present time the salary is still \$2,100 because Councilman Hall gave notice of the reconsideration of the ordinance which made the raise in the chief's salary, after that measure had been adopted by the council under suspended rules.

During a morning conference in the office of Mayor Bransford, the acceptance of the appointment was made by Mr. Barlow, under the understanding named, and before the council met there was a caucus of nearly all the members, at which the agreement of the mayor with Mr. Barlow was concurred in, so that when the council members filed into the council chamber last night it was a well understood program that was to be carried out.

**STEWART'S ORDINANCE.**  
Councilman Stewart introduced an ordinance raising the salary of the chief of police from \$2,100 a year to the required \$3,000, and under its reading at once moved that it be placed upon its final reading under a suspension of the rule.

Councilman Wood found reason to object to this measure, and in the course of his objections, introduced an amendment, which he said, "The police men were increased from \$88 to \$100 a month. This amendment, generally referred to as a rider, by other members, was strenuously objected to, by almost the entire council, and was finally withdrawn by its mover, whereupon the original measure was passed, although it met with serious opposition from Councilman Hall, who, in stating his objections, said that the whole matter of salaries for the police department had been gone into very carefully about three months ago, and that this present measure was only to meet a newly arisen contingency, and intimidated his belief rather pointedly that he believed the measure was proposed to meet the requirements of an individual rather than those of the city or the department.

**MEASURE OBSTRUCTED.**  
When the vote was taken on the passage of the ordinance under suspended rule, Councilman Hall voted favorably, but immediately upon the announcement of the result, he moved for the adjournment of the council.

### CRYING FOR HELP.

Lots of It in Salt Lake City, But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed. Not one so important to health. The kidneys are the filters of the blood. When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble. It is the kidneys' cry for help. Heed it. Doan's Kidney Pills are what is wanted. Are just what overworked kidneys need. They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

David John, vice president of the Brigham Young University, and living at 287 south Academy street, Provo, Utah, says: "Doan's Kidney Pills are the best remedy I ever used to keep me free from pains caused by my kidneys. I have used this preparation for years whenever I have felt that my kidneys were out of order and I have never failed to get the desired relief. I can certainly recommend Doan's Kidney Pills in the highest terms and do so hoping my endorsement may be the means of benefiting some other kidney sufferer."

announcement of the vote of 11 to two favoring the measure, he gave notice of reconsideration which prevents the activity of the ordinance for at least a week.

Owing to the peculiar conditions obtaining through the acceptance of the appointment by Mr. Barlow, and the agreement that he should receive \$3,000 a year salary, and the realization of that appointment by the council, he has become head of the police department at a salary of \$2,100, which cannot be raised excepting by ordinance, and since he is already in office, the ordinance which forbids the increase of official salary while the official is in office, and the only way the salary of the new chief can now be raised is by the passage of still another ordinance, before which he must resign the office to be again appointed after the passage of the ordinance giving him the coveted increase.

Viewing from this angle, the ordinance blocked by Councilman Hall last night, is worth nothing but the history it makes, and the obstructive reconsideration notice of the objection to the ordinance which forbids the increase of salary of last night.

**TWO WEEKS' DELAY.**  
The passage of the liquor license ordinance, about which it was expected there would be some rather interesting developments, was delayed for two weeks, being laid over for that length of time, owing to a decided hesitancy on the part of many to go into the matter last night.

After something of a debate, a moving picture show license was granted to Max Florence, at 41-43 east Third South. The debate was raised by Councilman Hall on the ground that the license called for a prohibition which would be a violation of the ordinance which forbids the granting of licenses. The ordinance was conveniently delivered the knock out blow in this particular case by an opinion from City Attorney Dineen, and, anyway, as was stated by Councilman Stewart, the council had already shot the prohibitive measure all to pieces in several other instances so this one was allowed to go with the bunch.

### DIFFERENCE OF OPINION.

Councilman Hall moved the passage of a resolution on the drafting of an ordinance by the city attorney, under which the council could appoint a general purchasing agent for city supplies, urging the passage of the resolution on the ground that the city was paying thousands of dollars more for supplies every year than would any private corporation doing a far smaller business. The resolution was objected to by Councilman Wood, on the ground that there was already in the possession of the city the machinery which would obviate the conditions argued against. He contended that the department heads had neglected to use their call-for-bids-blanks in their several offices, which were taken from those in use by the purchasing department of the O. S. L. He was supported in this contention by Councilman Black. Councilman Hall further urged the passage of his resolution on the ground that it would take the purchasing of goods out of politics, and the argument was at once met by Councilman Wood, who held opposite views, citing the fact that Pittsburg is today in the hands of its purchasing agent, who not only buys supplies for the city, but attends to its politics, naming the officers from the mayor down.

### IT WON'T WORK.

Councilman Fernstrom came to the aid of the mover of the measure, and in admitting the presence of the machinery for the elimination of the evil complained of, said: "There is the machinery in the hands of the heads of departments and it is good machinery, but it doesn't work."

This statement was admittedly obvious to all, but the fact that the council is not yet ready to appoint a purchasing agent was also made apparent by the fact that the measure was killed.
