SUNDAY SCHOOL CONFERENCE.

Important Change in Program Made at Last Union Meeting.

WILL BE HELD QUARTERLY

And Hereafter Form an Integral Part of the Regular Stake Conference—Program for Sept. 24.

Quite a surprising change in the program of the Salt Lake Stake Sunday school conference was made at the meeting of the Sunday school Union Monday evening, Aug. 20.

At the meeting of the Sunday school Union Monday evening, Aug. 20, the meeting was well attended, the fourteenth ward assembly rooms being filled to overflowing.

At the meeting of the board it is customary for the chair to read all communications ahead before acting upon them. When this was done the correspondence referred to was read and instead of the letters being read aloud they were passed around and read by the members in silence.

MR. DOOLY'S LETTER. Mr. Dooly's letter to the engineer was as follows: Salt Lake City, Aug. 14, 1900.

"P. C. Kelsey, Esq.—At an adjourned meeting of the board of public works, held on the 14th inst., an order for pipe of the 1 1/2 inch size was considered.

"Sixteen-inch pipe, thickness of shell 3/8-inch, weight of 12 feet length, 1,500 pounds.

"Specification March 29, 1899. Moran contract, is in part as follows: Sixteen-inch pipe, thickness of shell, 13-16 of an inch, weight 12 feet length, 1,450 pounds.

"Specification June 21, 1899, for general use in city: Eighteen-inch pipe, thickness of shell 1/2-inch.

"The board is at a loss to understand the necessity of ordering 15-inch pipe for use in the portion of the city covered by the Moran contract 1-16 of an inch thicker and 19 pounds per length heavier than for the City Creek extension.

"Will you kindly explain the seeming inconsistency and oblige.

Yours very truly, "BOARD OF PUBLIC WORKS," J. E. Dooly, Chairman.

MR. KELSEY'S REPLY. Mr. Kelsey's reply, addressed to the chairman of the board was as follows:

"In reply, I will state that the reasons for the difference in the weight of pipe are several, the principal being that when the proposed improvements for bringing in the Cottonwood water are carried out the upper portion of the 15-inch main on Fifth South street will be taken up and the pipe relaid where the pressure is greater.

"I will further state that if the chairman of the board would devote as much energy in discharging the duties of his office and forwarding the city work as he does in meddling with affairs in the engineering department and trying to stir up something against the city engineer, the completion of the distributing reservoir and other important city work would not have been delayed as it has been.

"If you have any complaints to make or criticism to offer, go to the proper officials with them. I do not desire to have any controversy with you over this or any other matter, and request that hereafter you confine your communications to me strictly to the business between the departments.

"Yours respectfully, "P. C. KELSEY," "City Engineer."

After Mr. Kelsey's communication had been passed around to the members Mr. Dooly was heard to say that the city engineer had walked nicely into the trap prepared for him.

HERE'S ANOTHER. Another communication from the city engineer was also kept in the back ground. This letter was in reply to one received from Chairman Dooly in reference to a request from Contractor A. G. Glinque, asking that he be allowed to make certain changes in the laying of the work of pipe-laying.

"I am informed that the clerk prepared two letters this morning embodying the action of the board, and that said letters were returned from your office without signature or comment. It would have been in much better taste when returning the letters to have stated some reason therefor than to do so without assigning any reason whatever. If the letters referred to above are unsatisfactory in form, please prepare two others and send to the office of the board of public works.

"JOHN E. DOOLY, Chairman.

The engineer's reply was as follows: "Replying to your letter of August 18th, regarding the application of Mr. A. G. Glinque for permission to tunnel, will state that the contractor has applied to this office for such permission. The letters from the board being the first notice received that it was desired. Before I had time to look into the matter, the clerk of the board asked that the letters be returned, which was done.

"Your suggestion as to what constitutes good taste in such matters is sufficient and very amusing, coming from such a source. Very respectfully, "P. C. KELSEY," "City Engineer."

OTHER BUSINESS. "Clerk Whitaker submitted shaned specifications for 5,000 feet of six-inch water pipe for which the board proposes to advertise bids. These specifications were approved.

"City Engineer Kelsey sent his specifications for the pipe, but they were not approved by the board. Mr. Kelsey says the specifications were changed by the board without his consent for the purpose of meeting the views of bidders.

BIDS CALLED FOR. Clerk Whitaker was directed to call for bids, without an advertisement, as authorized by the City Council, on July 25th, for laying that portion of the pipe for the stand-pipe system of street sprinkling to run from the canal on North East street west on Fourth South to Third West street.

The Rocky Mountain Bell Telephone company submitted plans for putting its telephone wires underground. Referred to city engineer. The street mentioned in

DOOLY AND KELSEY WRITE LETTERS.

Warm Correspondence Between Two City Officials.

COMMUNICATIONS IN FULL.

City Engineer Tells Chairman of Board of Public Works to Pay Attention to Business.

Last evening's meeting of the board of public works developed the fact that there had been some warm correspondence between Chairman John E. Dooly and City Engineer Frank C. Kelsey which the former wanted kept quiet.

As soon as the members present had read the communication from Engineer Kelsey to Chairman Dooly, the latter slipped it into his pocket.

At a meeting of the board it is customary for the chair to read all communications ahead before acting upon them. When this was done the correspondence referred to was read and instead of the letters being read aloud they were passed around and read by the members in silence.

MR. DOOLY'S LETTER. Mr. Dooly's letter to the engineer was as follows: Salt Lake City, Aug. 14, 1900.

"P. C. Kelsey, Esq.—At an adjourned meeting of the board of public works, held on the 14th inst., an order for pipe of the 1 1/2 inch size was considered.

TEMPLE NOTICES.

Manly, Utah, June 11.—The Mand Temple will close for vacation on Friday, July 21, and reopen Tuesday morning, September 10th.

TO FIX UP BUILDING. The board decided to fix up the piece of property known as the old sixteenth ward school building and grounds acquired by the city from the board of education as a store place, instead of the lot at North Temple and State, on which the board of education is going to erect a new school building, and will recommend to the Council that such be done. Chairman Dooly said the Oregon Short Line Railway company, at his request, laid out a spur to the new place free of cost.

GEORGE SIMPSON KILLED. President of the Newsboys' Union Falls in the Philippines.

George N. Simpson, a corporal in Company E, Thirtieth regiment, formerly president of the Newsboys' Union, was killed in Luzon on August 14th last. His name appearing in the list of casualties for the week ending August 13th, called by Gen. MacArthur, Simpson was in New York when the war with Spain broke out and enlisted with the Seventy-first. He went to Cuba with that regiment and returned to it when it was mustered out. He then came home, spent a few restless months, and found his way back into the army. He went to the Philippines, and even there he chafed under the discipline for the very last letter written by the boy to his mother expressed the hope that his regiment would be sent to China where there was some "doing." On the very day of this "doing," he died at Olanokan, Luzon. His mother is now in Oakland, California.

Simpson was 29 years old on the 14th of last March.

ALASKA A GOOD COUNTRY. If You Cut Out Cape Nome—So Thinks Horace Andrews.

Horace Andrews returned to the city Sunday night, after prospecting through Alaska for four months. He studiously avoided Cape Nome, and wandered about in the interior, where he found some rich soil. He will return to it next season. He visited Prince Edward's Island and saw the properties of the great "Treadwell" company, and also the coal fields that have been secured by Dixon, Morgan & Co. He heard of good findings in other sections of the country, and has returned with such a strong conviction that he is going back there next season.

FINE IDAHO LAMBS. They are Shipped to the East by J. E. Clinton of Salt Lake.

Rexburg (Idaho) Journal: J. E. Clinton, Jr. of Salt Lake, pulled out on our depot Monday evening for Chicago behind fifteen cars of the fine lambs as ever come from a western range. Expert judges asserted that several hundred could have been selected that would weigh from five to six hundred pounds and long wooled rams and were lambing as early as February and March in sheds constructed for the purpose on the Carter ranch near Rexburg. Since they have ranged on the mountains to the east and both ewes and lambs came in a condition of flesh that speaks highly for the range as well as the ability of the men who have had the hands.

Mr. Clinton intends going to Canada from Chicago, where he will make a purchase of about 400 registered rams which he will send home in charge of W. J. Brown, a child he takes a run down to Boston. He expects to return by Sept. 10th.

INDIAN FAMINE FUND. It is pleasant to see that the appeal of the "News" in behalf of the starving people of India is meeting with some response even though the amounts are small. They will be non the less thankfully received. Keep in mind that even 5 cents may prolong the life of some victim of the famine for a day or more.

Today's mail brought the sum of \$19 from Manly, gathered up by two generous-souled ladies, Mesdames Eva Hill and M. J. Hayward, and sent in a can with the consent of the mayor.

Following is a list of the donors: Mrs. M. Probstgaard, \$2.00; Mr. Alvin and Leonard Probstgaard, .75; Mrs. Sarah Hill, 3.00; Jacob Filakstad, .25; Alex. Tensland, 1.00; H. J. Brown, 1.00; Mrs. Agnes Heggen, .25; Susan Heggen, .25; Martha E. Harmon, .25; Anna Ware, .25; Mrs. J. E. Brown, .25; Mrs. Shomaker, .25; C. Gortat, .25; Ellen R. Matheny, .25; Edna Matheny, .25; Thos. L. Kettling, .25; P. A. Poulsen, .25; Otto Nielsen, .25; Lucy Cox, .25; Mrs. J. E. Brown, .25; N. T. Talbot, .25; Albert Thomsen, .25; Geo. Davis, Logan, .25; Previously acknowledged, .48.80. Total, \$49.80.

Good Medicine for Children. If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or any other ailment of a small child. Dr. P. M. Holliday, of Downing, Ind., who has an eleven months' old child, says: "Through the months of June and July our baby was sick and took a running off. The bowels and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once."

THE DESERT MUSEUM. The Desert Museum is closed to visitors for the present and will remain closed until further notice.
