

BRITISH GUESS AT BOER LOSSES

Claim that it was 1,100 Killed and 600 Wounded.

BULLER IS FIGHTING NOW.

Boerism is Being Reinforced—Meat is Scarce in South Africa—England Must Coal.

London, Feb. 3.—An undated dispatch from Ladysmith says the Boer losses in the last week's fighting were eleven hundred killed and six hundred wounded, the former being five field companies.

A dispatch from Ladysmith, undated, says the Boers are being reinforced by the Orange Free State, in a force of 1,100 men, and that the Boers are being reinforced by the Orange Free State, in a force of 1,100 men, and that the Boers are being reinforced by the Orange Free State, in a force of 1,100 men.

London, Feb. 3.—Heliograms flashed from Ladysmith, three days ago, say that the Boer investment lines then were being reinforced, and that the besiegers were moving in force toward the Tugela river, indicating that a collision was imminent. This intelligence, however, was not confirmed.

There is no official news from Gen. Buller's headquarters, and the only information which has reached London is that the Boers are being reinforced by the Orange Free State, in a force of 1,100 men, and that the Boers are being reinforced by the Orange Free State, in a force of 1,100 men.

London, Feb. 3.—The Boers are being reinforced by the Orange Free State, in a force of 1,100 men, and that the Boers are being reinforced by the Orange Free State, in a force of 1,100 men.

hospital work, and constantly passing to and fro under shell fire.

The correspondent of the Times at Ladysmith, telegraphing yesterday, says: "Crowds of military stockmen are still landing here. During the last two days more than 100, described as suspicious, have arrived in German steamers. These include a number of smart men, evidently officers, and a great many of them are low-class adventurers. This morning some twenty of the better sort left for Pretoria. Many of them were riding and carried field-glasses. They were accompanied by a Transvaal 'President' Steyn, addressing the burghers in Natal, accused Great Britain of coercing the Boers into war. He said that England had already drunk deep of Boer blood, but was still unsatisfied. Had not Sir Alfred Milner, he asked, said that the Afrikaners must be annihilated?

"This is the grand, final object of the war," he exclaimed, "but God will never permit the subjugation of the Afrikaners. Let not the burghers imitate the barbarian-like looting of which the enemy are guilty, but let them struggle as Christians. If we do so unitedly, our contest for life and the destiny of our race must end in victory."

New York, Feb. 3.—Very little news of the situation in South Africa has been given out in London during the past 24 hours. Much work is in progress on the southern frontier of the Free State, but the details are being held back until results can be reported. It is the impression made by such dispatches as are allowed to come through the North London and French's camp near Galesburg. The report that the Boer losses at Spion Kop, on Wednesday last, exceeded one thousand dead, although unconfirmed, has created a favorable impression and very few are disposed to discredit it.

The Morning Leader believes that General Buller has begun a movement toward Ladysmith. The article says: "General Buller probably engaged soon after yesterday (Friday) all his artillery and munitions had come up. In any case, his orders were definite for an advance at the latest this morning."

There is no reason to suppose that the direction in that the Boers' reconnaissance toward Hagersburg, Port, close to Bethany, although some cavalry and horse artillery may go by that way, so as to operate on, or perhaps beyond, the Action Homes road.

We are inclined to believe General Buller means to pound out of existence any Boers or any works lying on the river near the junction of the little Tugela. If he succeeds in establishing himself there on the northern bank, he will virtually have turned the Boer positions at Onederbrook and Groblers' Kloof, overlooking Culeen. This would mean the splitting of the Boer forces on the south of Ladysmith. The Boer General White would be able to help the effort by occupying with energy the containing bodies of the enemy."

There is no actual news to support the statement of the Leader, but several of the London morning papers profess to believe that General Buller is pushing toward Ladysmith.

Warren's troops on Wednesday were still resting south of the Tugela, while General Lytton's brigade held its position on the northern bank. General Buller has gone to the Boer camp on the upper Tugela, an apparent indication that he expects another attack on his right.

The Boers are exhibiting considerable anxiety in regard to the movement of the British flying column, which started through Zululand in the direction of Vryheid about the time that General Buller began his move toward Springfield. The Boers have been hurried back to protect their lines of communication northward.

General Charles Tucker, who came from India to command the seventh division, has been ordered to Modder River. This seems to indicate that the troops of that division which are now arriving at the Cape will, as well as those of the sixth division, under Kelly-Kenny, be utilized along the northern bank of the Modder river, and take part in the prospective invasion.

The reported activity of Colonel Plumer's force near Crocodile, Pools, more than ten days ago, is a good sign that the Boers are still being made him to push through to Mafeking, which has evidently been relieved at the time the Boer advances so stated.

ARE YOUR KIDNEYS SICK?

Here is an Easy Way to Find Out.

Be sure you need medicine before you take it, but having once found out that you need it—have no time in getting the best. If it's for the Kidneys, Liver, Bladder or Blood, Rheumatism, Dyspepsia, Chronic Constipation, or the Stomach, to woman, the best is Dr. David Kennedy's Favorite Remedy, and a very simple way to find out if you need it, is to put some urine in a glass tumbler and let it stand 24 hours; if it then has a sediment or a milky, cloudy appearance; if it isropy or stringy, pale or discolored, you do not need a physician to tell you that, you should take Favorite Remedy at once. It speedsily cures such dangerous symptoms as pain in the back, frequent desire to urinate, especially at night, burning, scalding pain in passing water, the staining of linen by your urine and all the unpleasant and dangerous effects, then produced on the system by the use of whisky and beer. All druggists sell Dr. David Kennedy's Favorite Remedy at \$1.00 a bottle, or 6 bottles for \$5.00.

By special and particular arrangement with the manufacturers, our readers can try this grand medicine absolutely free. By simply sending your full name and postoffice address to the Dr. David Kennedy Corporation, Rondout, N. Y., mentioning Life Paper, when trial bottle of Favorite Remedy, together with a pamphlet of valuable medical advice, will be sent you by mail postpaid.

The publishers of this paper guarantee the genuineness of this medicine.

from the reproach of incapacity in the management in the administrative details. The opposition press has persisted for weeks in exaggerating the resources of the Dutch and minimizing the British strength, whereas the Boer army has already passed its maximum point and is declining and wearing away, while the British reinforcements are steadily arriving. The truth is now known that the British force is more than double that of the Dutch and superior to it in number of guns. Public opinion has been greatly invigorated by this practical evidence of the efficiency of the mobilization scheme and the energy of the administrative services.

The most sensational episode of last night's debate in the commons was Sir Edward Clarke's proposal that Lord Salisbury should take charge of the colonial office and that Lord Rosebery should be sent to the Cape as a substitute for Sir Alfred Milner. It was received with jeers by the ministerial party and the Irish members hardly knew whether to express approval or condemnation, for Lord Rosebery is not their candidate for any office, angry as they may be with Mr. Chamberlain.

The first batch of wounded belonging to the naval contingents serving in South Africa has arrived in England. They are mostly skilled gunners. They say that the Boer Maxim-Nordenfleders one-pound, quick-firing guns have a most demoralizing effect on the British. These guns are made in England, but they are not supplied to the British troops.

A dispatch to a London paper from Pietermaritzburg says: "The appearance of the flying column of scouts in Zululand has created some uneasiness among the Boers over the border. A number of Boers have been hurriedly withdrawn from the border, and Dundee and Vryheid to protect that place and oppose any British advance. The Boer force there is about 1,000 strong, with three guns."

New York, Feb. 3.—Important information has just been received by the state department at Washington, from Consul General Storey at Capetown, under date of December 7th. The reports upon the meat situation are of especial interest at present owing to a possible shortage of the meat supply there as a result of the South African war. The Consul General Storey says: "The recent action of the prime ministers of Cape Colony and Natal in suspending the duty on frozen and slaughtered meat, the same being four cents per pound, has thus far conferred no benefit on consumers, particularly those at a distance from the seaports and cannot unless the duties on canned meat are suspended as well. Canned meat is, perhaps, the most important article of export from the United States to the country. The suspension of the duty on frozen meat should help the exporters of the United States, but I regret to say the lack of ships with cold storage space prevents us from capturing any of this great trade. Over 4,000,000 pounds of frozen meat were sent to this country in 1898, not a pound of which came from the United States. The exportation of slaughtered stock should be given prompt attention. The consumers (which are at the seaports) obtain no advantage from the cheapening of frozen or chilled meat. There should be on the water a large supply of slaughtered stock."

Australian stock is arriving as well as shipments from the Argentine Republic. Not one head of cattle, horse or stock on the hoof, out of the several thousand received in 1898, came from the United States. Frozen meat from Australia is sold cheaper than the meat of the colony, which is rapidly disappearing even with the duty of four cents per pound in force. The suspension of the duty ought to put the price down to a point that will enable the poorest to supply themselves. The trade, however, prefers the slaughter stock at this time.

The act that provided for the suspension of the duty also provided for the issue of loans for cold storage plants, to be built by any one. The suspension of duty has a limitation, but the cold storage provision will continue. The trade in chilled meat is in the hands of a monopoly. I wish to call the attention of our cattle and sheep raisers to the fact that, while the United States has no refrigerator ships, plenty of ships can be chartered to bring good slaughter stock here. Horses and mules, which come here in large numbers, reach this port in excellent condition, without loss of weight, and it is to be presumed that the same would be true of slaughter cattle."

MILLION TONS OF COAL

There is a rumor current to the effect that the British government has contracted with the Philadelphia & Reading Railroad company for 1,000,000 tons of coal. At the New York sales department of the Philadelphia & Reading Coal & Iron company, Mr. John Edwards, sales agent, said that he had heard the rumor but he had no official verification. "Why such a contract may have been made," he said, "is no one in this city connected with the company who could speak authoritatively on the subject."

GOES RIGHT AHEAD.

President McKinley Looking for a Philippines Commission.

New York, Feb. 3.—According to the Washington correspondent of the Tribune, President McKinley has decided not to wait for Congress to act on the matter of replacing the military government by a civil administration in the Philippines, recognizing that much time will be consumed in deliberating over details before any comprehensive plan for the government of the islands can be adopted, and that more than a month will be required after that time for the officials to reach their stations. It has been decided, therefore, to send out three, or at most five, commissioners to establish provisionally the form of territorial government recommended in the report of the Philippine commission sent to Congress.

According to present intentions, the head of the new commission is eventually to become the governor of the Territory of the Philippines; its secretary will become the secretary of the Territory, and a third member is to be selected with a view to his qualifications to becoming the presiding justice of the territorial supreme court when it is established.

Among the men who have been all ready canvassed for membership of this commission are Gov. Roosevelt, President Schurman, Robert P. Porter, Col. Denby, Gen. Frederick D. Grant and ex-Minister Barrett. It has been found that Gov. Roosevelt and President Schurman cannot be induced to accept, and various objections have been raised to the others as possible governors of the Territory. Gen. Grant is said to be the most favorably regarded at now, but it is desired to choose a civilian military man. The leading candidate for the secretaryship of the Territory is said to be John R. MacArthur, secretary of the present commission.

The President has given his hearty approval to the recommendations of the Philippine commission, especially as to the advisability of immediately suspending martial law in those portions of Luzon and the other islands which have been effectively pacified, in which the inhabitants are not only capable of some measure of self-government, but are bitterly opposed to all forms of militarism.

Big Cement Company.

Battle Creek, Mich., Feb. 3.—The Monolith Portland Cement Co., limited, has filed articles of incorporation with a capitalization of \$2,000,000. The company will erect and operate a gigantic Portland cement plant at Bristol, Ind.

Saved My Life.

Mr. P. W. Hebebrand, Pres. Ohio Pipe Covering Co., Cleveland, Ohio, says: "I am satisfied Dr. Miles' Nervine saved my life. I was a nervous wreck and unable to attend to my business. Doctors failed to benefit me and I decided to try Dr. Miles' Nervine. It gave me prompt relief and finally effected a complete cure. I am in good health now and have gained several pounds in flesh."

Dr. Miles' Nervine

is sold by all druggists on guarantee, first bottle gratis or money back. Book on heart and nerves sent free.

FIGHTING UNDER AMERICAN FLAG.

Yaqui Indians in Terrific Combat With Mexicans.

TORRES REPORTED KILLED.

Yaquis Repulsed, and Town of Guaymas Saved—Losses of Mexicans Particularly Heavy.

Chicago, Feb. 3.—A special to the Tribune from Bisbee, Ariz., says: A dispatch was received here last night from Guaymas conveying news that Gen. Lorenzo Torres, commander of the Mexican forces in the Yaqui war, had been killed in the Bacatete mountains. The report is lacking in detail, and has not been confirmed.

Advices are also received that a battle was fought between the Yaquis and Mexicans on January 25th, the Mexicans then being under the command of Gen. Torres. The fighting occurred on the Guaymas desert, fifty miles east of Guaymas.

The Yaquis withdrew and were not pursued. The number engaged was 2,000 on the Mexican side and 3,000 on the Yaqui side. Nine Yaquis, thirty-one Indian women and twenty-six Indian children were taken captives by the Mexicans.

Gen. Torres lost eighty-nine killed, 210 wounded and fifty-nine missing, while the Yaqui loss is put at ninety killed and wounded.

The Yaquis still held the mouth of the Yaqui, and the line of steamers between the river and Guaymas is not in operation. Santa Teresa, who is with the Yaquis at that point, has there 3,000 fully equipped men.

The Guaymas desert, in which General Torres repulsed the Yaquis, is 25 miles wide, its western limit being within 25 miles of Guaymas. The desert consists mostly of bad lands. There is no sand, vegetation or water, and this is the only time in the year when the desert can be crossed with safety owing to the fierce heat. It is impossible to make progress on horseback on it owing to the slipperiness of the sand.

The Yaquis, who expected to cross the desert before the Mexicans got a start and then fall on Guaymas, were handicapped by their horses and did not get far before the noon hour. The Mexicans were in the desert before the Yaquis had gone eight miles across it.

The Mexicans made good progress, as they had no horses to lead, coming up with the Yaquis in the middle of the desert, where the battle was fought at 8 o'clock on the morning of January 27. The Yaquis, under Tenebante, stood their ground by presenting a regular front, extending from bowlder to bowlder and placing parties on the projections. The horses were kept in a bunch away from the fire.

The Mexicans suffered heavily, while advancing upon the Yaquis, and then came a hand-to-hand fight, for which the Mexicans were better equipped than their enemies. The conflict lasted three hours.

The horses of the Yaquis stampeded, but the Indians fought on. The Yaquis got far across the desert, then withdrew and started back toward the Bacatete mountains.

At Guaymas the Mexicans are expected to return to the Bacatetes after a rest.

If the Yaquis had succeeded in crossing the desert, Guaymas would have been at their mercy. Four hours' delay saved the town.

The Yaqui Junta here is said to be maneuvering for the issue of bonds. Members of the provincial government believe that an issue of \$2,000,000 would be successful in the United States and Sonora.

The Yaqui trouble has gone so far that "Yaqui" buttons have appeared. These buttons contain American colors, with the words "Yaqui must live," in Spanish, printed on them.

American colors are used because the rebels have no flag.

College Sold Diplomas.

Columbus, O., Feb. 3.—Attorney General Sheets has instituted quo warranto proceedings in the Supreme court to annul the charter of Mount Hope college, at Rogers, Columbiana county. The attorney general states that the action came a hand-to-hand fight, for which the Mexicans were better equipped than their enemies. The conflict lasted three hours.

The horses of the Yaquis stampeded, but the Indians fought on. The Yaquis got far across the desert, then withdrew and started back toward the Bacatete mountains.

At Guaymas the Mexicans are expected to return to the Bacatetes after a rest.

TAYLOR GOES TO FEDERAL COURTS

Asks an Injunction on Actions on Other Side.

VIOLENT CLASH IMMINENT.

This Morning Opened with Grave Uncertainty as to Events in Kentucky.

Chicago, Feb. 3.—A special to the Times-Herald from Louisville, dated February 3rd, 3 a. m., says: "Having been refused help by the federal government, William S. Taylor has decided to appeal to the federal courts."

"The Republican gubernatorial claimant will this morning ask Judge Walter Evans to issue a writ of injunction restraining William Goebel from acting as governor."

"This course was decided upon here early this morning, at a conference of Republican attorneys called to consider what line of action to adopt."

"William O. Bradley, whom Gov. Taylor succeeded as governor, will probably lead in the argument before Judge Evans for the desired writ."

"It is expected that the petition for the writ will contain these chief points:—First—That Gov. Taylor undoubtedly had the majority of votes at the late election, and that political opponents officially called upon to pass upon said election have so decided."

"Second—That any attempt of the Democratic legislature to unseat him is usurpation of power, and unconstitutional."

"Third—That the declaration for Mr. Goebel made by the Democratic legislature is void, as he (Taylor) had adjourned the legislature until next Tuesday, and any legislation in the interim is illegal."

"Fourth—That he had the power so to adjourn the legislature, as he deemed an insurrection existed, and he alone, as governor, was the judge of said insurrection."

Frankfort, Ky., Feb. 3.—The first clash between the executive and judicial powers of the State occurred today. A still greater clash is imminent tomorrow, and beyond the possibilities of tomorrow lies a sea with skies so lowering and of so stormy an aspect, that no politician of either party can predict where it will carry the Kentucky ship of state. There can be no longer any concealment of the fact that affairs in this State are bordering upon conflict in arms, and the beginning of the crisis is at hand.

The clash of today came when an officer of the circuit court of Franklin county was arrested by the military while attempting to serve notice of a legal proceeding upon Gov. Taylor. The clash of tomorrow may come when the officers of that court attempt to enforce the ruling of its presiding judge.

Behind this judge the Democrats will have tomorrow, for the first time, an active executive hand in the person of Acting Gov. Beckham, and from the Democratic standpoint, a regularly appointed adjutant general, whose orders the troops now encamped around the capitol building are bound to obey. If they decline to obey the new adjutant general, the Democrats claim he will have the power to organize military forces of his own and proceed against all people who defy the authority of his office and that of the governor of the State, whom he represents.

On the other hand, the Republicans are fixed in their attitude that there is an insurrection in the State; that Beckham and his actions, his adjutant-general and his orders are those of people acting in opposition to law. They believe that they alone are in the right, and as there can be but one right, and all else wrong, those who show resistance to the proclamations of Gov. Taylor are in rebellion against the commonwealth. They will resist any attempt of any kind to remove them from their position around the capitol, resisting force with force; and that means civil war.

Found on the Skin

Phosphate

Direct from the Brain

We know that active brain work throws out the phosphate of potash, for this product is found in the skin after excessive brain work, therefore, brain workers, in order to keep well must have proper food containing phosphate of potash to quickly and surely rebuild the used-up tissue. That one can obtain such food has been proven in thousands of cases among users of Postum Cereal Food Coffee and Grape-Nuts.

Both contain phosphate of potash in minute particles, just as it is furnished by nature in the grains.

This product makes from albumen the gray matter that builds the brain and fills the nerve centers.

In no way can this gray matter be made except by the action of phosphate of potash upon albumen, and this mineral should be introduced to the body as it comes from nature's laboratory, and not from the drug store. The system is more or less fastidious about taking up the needed elements, and as might be suspected, it will favor the products of Mother Nature rather than the products of the drug shop, however valuable they may be for certain uses.

Athletes, lawyers, journalists, doctors, ministers, business men and others, who earn their living by the use of the brain, are using both Postum Cereal Food and Grape-Nuts Food. Both products are manufactured for a reason. They were originated by an expert, and the regenerative value of both the Postum Cereal Food and the Food has been demonstrated beyond question. All first-class grocers sell both Postum and Grape-Nuts, and the Postum Cereal Co., Ltd., manufacture them at the Battle Creek factories.

Her Only Regret

Mrs. Peabody Had Passed Through the Most Trying Experience of Her Life Before She Found a Remedy for All Women's Ills.

Nobody who sees Mrs. Mary M. Peabody, of 42 Water Street, Haverhill, Mass., to-day will find it easy to believe that she has passed her 63d year and has endured more suffering than comes to the ordinary lot of women. How she regained health and happiness is best told in her own words. She says:

"Last winter and spring I had the grip which left my system all run down. I also suffered from female weakness and troubles peculiar to women. I had no strength and no ambition. My friends did not think that I would live and I was afraid that I was going into consumption. I recalled the benefit that Dr. Williams' Pink Pills for Pale People had done me in a former illness, and last July I began taking them. They did not disappoint me. I used several boxes of them and from a total wreck I was made a healthy woman. My only regret is that I did not know of Dr. Williams' Pink Pills for Pale People when I had the change of life. I am now enjoying the best of health, eat heartily and sleep soundly—all due to Dr. Williams' Pink Pills for Pale People."

"There are many facts about my case that I do not care to have published but I will gladly answer any woman who cares to write me about the subject."

MARY M. PEABODY.

Subscribed and sworn to before me this first day of September, 1899. THOMAS W. QUINCY, Justice of the Peace.

Dr. Williams' Pink Pills for Pale People are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatitis, neuritis, dysmenstruation, the after effects of smallpox, grip, palpitation of the heart, pain and salivary complications, and all forms of weakness either in male or female.

Look for this trade mark on every package.

Sold by all druggists, 50 cents per box; six boxes, \$2.50.

Palmistry and Clairvoyance.

There is life after death, Dr. L. Harriden, Clairvoyant, Life Reader, Occult Palmist.

Without asking a question he tells what you have come for, who you will marry, gives name of person, date, place, union lovers, causing a speedy, happy marriage to the one you love, guides you to health, success and happiness with a certainty higher than human power; positively removes all evil influences, locates lost persons, articles, Mines, Buried Treasures. Distinctly a Clairvoyant.

DR. HARRIDEN TEARS AWAY THE SCREEN OF FUTURITY, AND, PEELED INTO THE GREAT BEYOND.

Gives Positive Proof of Spirit Return.

He is the living connection between the unseen existence and this world. He can see the present and future as in a mirror and by his mysterious power can tell how to avert evil, succeed in business and obtain good fortune. DR. HARRIDEN is distinctly a clairvoyant, giving help to the weak, aid to the sorrowful, restoring sick to health, giving safety, progress, success, justice, love and protection to all. In matters of law, speculation, investments, love, marriage and divorce his predictions are infallible.

Restores Sick to Health.

DR. HARRIDEN diagnoses cases by merely touching the patient, instantly locating the seat of trouble, and by his wonderful power of OCCULT SCIENCE removing the cause; a speedy cure is the result in all cases. Those who were unfortunate have been started on the road to success. They are now enjoying health, peace and happiness, being brought from poverty to prosperity. REMEMBER DR. HARRIDEN HAS SEVEN DIPLOMAS testifying to his talent and worth. His honorable dealings have won for him the good will of the press, clergy, medical fraternity and public. His parlors are visited by reputable business men anxious to know the outcome of future investments, and ladies of high social standing. He has thousands of testimonials, many from the highest in the land.

"The power of Dr. Harriden is simply miraculous."—Minneapolis Tribune.

"He is able to convince the most skeptical."—Washington Post.

"This man has certainly supernatural power."—New York World.

HE IS EVER READY TO ASSIST THOSE WITH CAPITAL TO FIND A SAFE AND SURE PAYING INVESTMENT.

Special offer for one week by mail only. To accommodate those in the country or neighboring cities, or any who may wish to call, Dr. Harriden will make \$1.00 readings by mail. Mail \$1.00 and 2-cent stamp for reply, giving date of birth, and you will receive by return mail full life reading, neatly written. Office hours, 9 a. m. to 9 p. m. daily and Sundays. Satisfaction guaranteed in all readings, positively no fee accepted.

References, principal banks, 1 and 2. Charge reasonable. Weak mediums developed. Parlors 1, 2 and 3. Charge reasonable.

244 South State Street, The Swan Apartments, Salt Lake City.

Cordova Saponifier.

Nothing else adds so much to the charm of the drawing room as the Cordova Saponifier. It will contribute more to the artistic success of the interior than any other article. The most elaborate furniture for sale is made in vain unless it is accompanied by the Cordova Saponifier. It is the most delicate line in all colors and is sold everywhere.

STANDARD OIL CO., and sold everywhere.

Pennsylvania Saponifier is the original and old reliable Concentrated Lye for family soap making and general household use. It has been used for generations to produce the finest quality of soap. It is sold in all colors and is sold everywhere.

Ask your grocer for it and take no other.
