NEW YORK CENTRAL.

Plan to Merge the Big Four Railroad Into the System.

New York, Jan. 14.—The Tribune says: The interests in control of the New York Central have under consideration a plan for merging the Big Four railroad into the New York Central system. The ownership of the Big Four is vested absolutely in the Vanderbilts. The plan is to merge the properties has been contemplated, but it was not until recently that the plan took definite shape. It has been known for a long time that it was at the disposal of Vanderbilt interests and its manifest destiny was to become an integral part of the New York Central. It is said that the New York Central will be helped to a marked degree by the merger. Upon just what basis the absorption will take place cannot be stated, but the plan is to exchange stock for a 3 1/2 per cent New York Central bond.

Another step in line with the railroad mergers and consolidations now going on was taken Saturday when the control of the Cincinnati, Portsmouth and Virginia railroad passed to the Norfolk and Western. The Norfolk and Western is merged into the New York Central-Pennsylvania combination. These two systems jointly purchased the property, as they did the Chesapeake and Ohio. By this purchase the Norfolk and Western is merged into the New York Central-Pennsylvania combination. It is said the present terminals of the property in Cincinnati will be greatly enlarged and improved and much traffic is expected to be diverted to the Norfolk and Western. By this combination a clear line is secured for the New York Central and Pennsylvania combination from Chicago and St. Louis to the Atlantic coast. The two systems forming this line—the Norfolk and Western and the Big Four, are controlled absolutely by the Pennsylvania-New York Central combination.

CONFERENCE OF THE YOUNG MEN

Very Interesting Session Held in the Tabernacle.

FINE MUSICAL PROGRAM.

Members of the General Board Give Valuable Instructions—Growth and Influence of Associations.

The afternoon session of the quarterly conference of the Y. M. M. I. A. of the Salt Lake Stake, held in the Tabernacle yesterday, was very largely attended, the lower floor being filled almost to its capacity.

President R. R. Lyman presided over the session which was opened by the hymn "Come let us anew." The opening prayer was offered by Elder T. A. Clawson.

The meeting was continued by the choir singing the anthem, "Let the Mountains Shout for Joy."

The names of the officers of the M. I. A., both general and local, were presented by Secretary Jesse B. Higgs, and were unanimously sustained.

Horace S. Ensign then gave a fine rendition of the beautiful solo, "A Dream of the Future."

The solo was followed by Elder Geo. A. Smith, who made a few happy remarks upon the mutual improvement work. He explained that it was found very necessary to have a mutual improvement organization among the young men and women, that would partake of an educational nature. Out of that necessity grew the Mutual Improvement Union, which as its name implies, is established for the benefit and blessing of the young men.

Elder Smith said that the organizations were growing in numbers and in membership constantly. Meetings are held one night in every week to study lessons that are outlined in the Manual.

Elder Smith said there are over 1,400 members in the Salt Lake Stake, and he is encouraging those who were not identified with the work to speedily join the association and have a part in the glorious work.

The voice of Miss Arvilla Clark was heard to excellent advantage in "Oh, Eyes That Are Weary."

Elder Briant S. Hinckley a member of the general board, followed with a fine rendition of the beautiful solo, "The Light of the World," by Lemare, on the organ.

The next speaker was Elder B. F. Grant, also a member of the general board. He said that he realized that the associations were doing a great and noble work, but there was much work yet for them to do. One very deplorable thing in the present time, which is the failure of the parents to attend the meetings of the organization was to teach the young men the full significance of the words, "The Light of the World," to give them an abiding faith in the Gospel which their fathers loved so well; to teach them to love humanity and the right, as God gives them light to see it.

Prof. McClellan, then rendered the beautiful "Andantino," by Lemare, on the organ.

HEALTH BOARD DENIES PETITIONS

Some Earnest Discussion Indulged In Before Commissioners.

DR. BEATTY STATES WISHES

Would Like to Have Every Man, Woman and Child in Utah Vaccinated—Question of Amusements.

As stated in Saturday's issue of the "News," the county board of health met and was in the midst of its deliberations when our report closed. The cause of the board's meeting was the filing of two petitions, one sent in from the principals of the county district schools, and the other signed by John H. Walker, and forty-four other residents of the county. These petitions in effect asked the county board of health to modify or change its order sent out asking the school children to be vaccinated.

The question then arose as to whether the county board could change or modify its order if such modification would in any way vary from or be contrary to the order of the State board of health. The State board's order was read and compared with the county board's order, which County Attorney Christensen said were exactly the same.

tention was called to Speckman, who was indulging in some pretty strong and loud sentiments. Smith told Speckman to shut up. The latter told the officer to go to. Then Speckman dared Smith to arrest him. He said the officer could catch a cold, couldn't track an elephant in the snow, etc. Finally Smith made a grab for Speckman, but the latter got first grab and pulled Smith's nose. The melee was terminated by the officer holding a right hook on Speckman's jaw, putting him out.
