Transshipment Lines Likely to Encounter Weekly Problems in Booking the Feeder-Township Rates.

A consolidation of railroads, to include the principal growers and handlers of live stock in the entire West is being talked of as a solution for the problems which confront the shippers as a result of the action of the Transshipment railroads in threatening to abolish the freight-transit privilege.

The plan is to form an association for the new purpose of the railroads into one line on the matter of the matter to be placed in their hands with authority to contract for the shipment of live stock.

It will be in the power to alter the rates of transshipment in the Western States in one week. The matter is not yet settled.

It is believed that they will be able to do so. The Transshipment lines have a great deal to say in the matter.
