There are few allments so uncomfortable as piles, but they can easily be cured by using TABLER'S BUCK-EYE PILE OINTMENT. Relief follows its use, and any one suffering from piles can not afford to neglect to give it a trial. Price 50 cts. in bottles, tubes 75 cts. Z. C. M. I. Drug Dept.

FRANK HURLBURT LIKES THE BOERS

Dislikes "Damnable Sovereignty of British Rule."

SAYS BOERS WILL WIN FIGHT

And that Britain Has Met Her Waterloo Among Brave and Obstinate People.

William Ochs of 1636 Welton street. says the Denver News, has received a very interesting letter from Frank T. 10 Cents Hurlburt, formerly of Denver, but now of Kimberley, South Africa. Mr. Hurlburt's letter was written October 27, and many of the affairs he mentions Printed in heavy Lithographed Covers, 4 have since been brought prominently Colors, Profusely Illustrated Besides conbefore the world by the war. Hr. Hurlburt was well known in Sait Lake. He

"We are simply having a come-easy and go-easy old time over in this country, and while I often wish I were back Colorado, a diversion of patriotic nativity comes over me and I enjoy the scenes of warfare and jubilant successes now being achieved by a peaceful and prosperous people, fighting to a finish for their independence and res-toration to freedom from the oppression and damnable sovereignty of British rule. I realize the extenuating sym-pathies of Americans in the result of this war-freedom and independence of a prosperous and yet aggressive people against the oppression and overbearing influences of a covetous nation like the

"A signed article on The Original Manuscript of the Book of Mormon by President Joseph British, who have for years presumed to rule the seas and colonies of the world. The Boers are standing up be-fore them now demanding a free and unmolested government, an open and defiant chance for the materialization of cultivation and progressive methods Prize article on "Utah's Undeveloped Reof civilization and intelligence in what has been known for years as the 'dark, barbarous and uncivilized continent,' a condition that would always exist in the colonial states of Africa were the

British to forever control it.
"The tide of oppression and suzerainism is now being brought to its ebb by the resisting influences of a civilized, prosperous and educated class of peo-ple, called Boers, none other than the true blood of Holland Dutch, such as wrought prosperity, wealth and indus-try to the Mohawk valley in our own country. That they will win this rebellion is only a matter of time. It is not for conquest, but for liberation from the oppressive influences, monarchical dictates and discriminating orders of a nation that overbearingly and persistently has claimed virtual reign over the

world. "They have now substantially met their Waterloo among a few brave and obstinate people, who are determined to wade through a cloud of strangulating powder smoke rather than be asphyxiated by the government of 'gas.' The German and Irish elements of America, as well as the Americans throughout this country, I know, wait in suspense on the ultimate termination of this warfare, favoring the Boers. And from all appearance to me now, the Boer people, under command of Oom Paul, have by many odds the best of the outcome; in any event England alone can never conquer the Boers, irrespective of ultimatums and international compromises. Long before you have received this letter you will hear of many victories creditable to the Boer armies, as they have the open field and are prepared for a long and persistent warfare. "The English press and Associated

Press reports from London have great-ly underestimated the courage and in-telligence of the Boer people. This, as a misguiding influence, has created the widespread impression that they are of the lowest class, cannibalistic in nature, illiterate and improvident in warfare. There are hundreds of this class of people now employed about the mines of the Transvaal country and in no instance have I discovered any illiteracy or disagreeable among them, while one-fifth of the British or English born people are too illit_rate to sign their own names or read vouchers and pay-rolls. They allow themselves to be subjected to oppression or drudgery, while the German or Boer classes, from the native gardener to the practical miner, are far above the native English element in intelligence and self-reliance. They are a Christian-like, law-abiding people, peaceful in nature, subservient to the interests of their employer and very loyal to the interests of their country which, under their influence and advancement, are becoming very prosperous and gradually the 'dark continent' theory is being slowly and permanently wiped off the map. Under British rule it would never recover from the old conditions and the gold and diamond fields would today only be a sacred form of production of the precious minerals and jewels to the hoggish and passionate desires of an

overbearing, egotistical and grasping nation. 'I write you strongly upon this subject, so you may know the exact condition of affairs in this country, and long before the Boer-British war is silenced, these struggling people will have asserted their independence, influence and civilized attributes. So far as I am personally concerned, I like the people of this country and am perfectly satisfied to remain among them and enjoy their prosperity, both as a growing country in the industrial pursuits. as well as mining interests.

"I am now located at Kimberley, engaged in mining under the protectorate, and have a very good chance to judge the outcome of this insurrection. The British cannot break down the armies or conquer the Boers until they have killed or imprisoned the very last bat-talion of their forces. The mines of Kimberley and Johannesburg are working just the same, but no one knows at what time they will be closed down.

'Keep me posted on Colorado developments and in turn I will write you often regarding actual results of war in this country. May God help the Boers, is my earnest prayer. With best wishes to my Colorado friends, I

am, yours, as ever, FRANK T. HURLBURT."

PUBLIC SCHOOL LIBRARY. Dr. John R. Park Working Steadily

on a Substantial Nucleus. While the fact is not generally known throughout the State, there is in this ity, connected with the office of the State superintendent of public instruction, a library and reading room, known as the Utah State Library and Reading room. While there are books and cur-rent periodicals which go with all libraries, its purpose is not confined to furnishing news, and popular reading matter, but samples for examination to school workers, teachers and librarians of such books and periodicals as are most suitable for the public schools, including supplemental moderate cost for school use moderate cost for school use. Ing Grove Park, the hunting preserve, There are now 3,000 volumes in the is near by.—Review of Reviews.

library and it is the purpose to build from this nucleus a library that will be a credit to the State, throughout which its usefulness will be felt.

The plan is to establish libraries both district and county wherever it is possible to do so, a portion of the books to be handled by what is known as the traveling plan. The exchanges will be made from Superintendent Park's office. which will be the headquarters.

Superintendent Park is desirous that all the school workers of Utah visit this library and avail themselves of its benefits. In addition to books already mentioned there are also valuable works of

reference and many publications by the government which are not in general

STILL AFTER THE JOB. Physicians on Board Pass Compulsory Vaccination Resolution.

The State board of health met in the Atlas block last evening with only two absentees, Dr. Pike of Provo and Dr. A. F. Doremus, both of whom are decidedly in favor of vaccination as the best means of preventing the threat-

ened epidemic. After disposing of the usual business, the board began the discussion of the subject, and the final result was that the board was one in the opinion that there may be a serious epidemic of smallpox throughout the State, at any There were now over fifty cases of varioloid, the direct result of the single case at Sterling, Sanpete county, last month, and three new cases reported yesterday from Spanish Fork. The board will do everything possible to arrest the disease before it spreads

After canvassing the conditions and outlook, the board drew up and adopted the following resluctions:

"Whereas, Many cases of smallpox exist in different localities in the State and the disease is daily extending and a general epidemic is threatened, and "Whereas, It is the unanimous opin-

ion of the State board of health that vaccination of all unvaccinated school children should be immediately effected in the localities where the disease prevails; therefore, be it

"Resolved, That the secretary shall advise the proper authorities of each town where the disease exists to immediately enact rules requiring that all children who cannot show signs of successful vaccination, shall be vaccinated before they shall be allowed to enter any public school; also that said local authorities shall compel the vaccination of all other persons whom they have reason to believe have been or may be directly exposed to the disease. It is

"Resolved, That the State board of health recommend that said local authorities shall provide for the free vaccination of all persons who may desire to avail themselves thereof.

"Resolved, That the authorities of the different State educational institutions shall be advised to prevent the return to their homes, during the holidays, of the students who reside in the localitles where the disease prevails."

PATIENTS AT PEST HOUSE IM-PROVING.

Health Commissioner Keogh said last evening that Dr. C. N. Ray and F. M. Samuelson, the smallpox patients at the pest house were in as good a condition as could be expected. He expects no backset in their convalescing and should the malady spread, the patients who are almost well could nurse the

In speaking of the complaint raised by Councilman Siddoway relative to the health commissioner changing his rubber suit in the public building after inspecting smallpox cases reported or un-der treatment, Dr. Keogh said, that the precautions taken by him and his aides were so thorough that there was no danger of catching the germs in the city and county building.
However, to quiet the rising fears of

some people, Dr. Keogh says that here-after he wil change his clothing and dis-infectant articles of wear in the health department's milk-testing room adjoining the boiler house on Second East street.

MATHEWS MEMORIAL SERVICES.

The faculty and students of the University held memorial exercises in the art room of the main building this afternoon at 3 o'clock in honor of Prof. George R. Mathews. The proceedings were very touching, and clearly opstrated how near the dead professor was to the hearts of all who knew him. The exercises contained a beautiful address by Professor George M. Marshall, a companion and ardent admirer of the deceased, whose tribute to his late friend's character and work was a masterly effort. The Rev. Clarence T. Brown also delivered an address. He had been a college companion of Prof. Mathews, whom he regarded as the purest man he ever knew. There were a number of other interesting numbers, an address by President J. T. Kings-bury, in which was portrayed the high esteem in which that efficial held the late professor.

A SURE CURE FOR CROUP. Twenty-five Years' Constant Use without

a Failure. The first indication of croup is noarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years'

constant use without 'a failure. In sluggish liver, HERBINE, by its beneficial action upon the biliary tracts. renders the bile more fluid, and brings the liver into a sound, healthy condi-tion, thereby banishing the sense of drowsiness, lethargy, and the general feeling of apathy which arise from dis-orders of the liver, Price 50 cts. Z. C. M. I. Drug Dept.

For morbid conditions take Beecham's

For broken limbs, chilblains, burns, scalds, bruised shins, sore throat, and sores of every kind, apply BAL-LARD'S SNOW LINIMENT. It will It will give immediate relief and heal any wound. Price 25 cts. and 50 cts. Z. C. M. I. Drug Dept.

The disposition of children largely depends upon health. If they are troubled with worms, they will be irritable, cross, feverish, and perhaps ly sick. WHITE'S CREAM ly sick. WHITE'S CREAM VERMI-FUGE is a worm expeller and tonic to make them healthy and cheeful. Price 5 cts. Z. C. M. I. Drug Dept.

Picturesque and Sportsman's Paradise. Mount Pocono, a charming spot in the highest part of the Pocono Mountains, from which the Delaware Water Gap and the Delaware River may be seen. is reached by the Lackawanna Rall-road. Firs and pines cover the mountain sides. The climate is said to be extremely healthful. People suffering from asthma or hay fever go there. There are several hotels, of which the suitable for the public schools, ing supplemental reading and works of standard authors at a such or such as a such of standard authors at a such frequented by sportsmen.
