# THE STATES OF TH MINING, BUSINESS AND STOCKS.

THE THE PARTY OF T

canvassing the situation with a view to

an early consolidation. The control of both companies is held by the manage-

ment, so that a consolidation would

not be a difficult matter, but it is de-

sired to effect an amalgamation or terms equitable to all interests, Mr. Rr.

D. Evans has as large an interest in Centennial Eureka as in United States

Mining, and he procured an equal in

in the interest of one property to the detriment of the other. An examina-

tion of the mines is now in progress for the purpose of arriving at the ex-

tent and value of the ore booles in order to arrive at equitable terms for a consolidateion. The amalgamation of these two companies has always been in contemplation, and the time for its

consummation is now considered ob-

Of Interest to Locators.

# THE WEEK ON THE EXCHANGE.

Most Important Feature.

STOCK STRONGER TODAY.

Tesora Makes a Sharp Advance-Yankee Con. Climbing - Mammoth Active.

The week's business on the mining exchange closed with the sale of 39,650 shares for \$17,503,50. The sales for the week, including those of the regular morning call and the open call in the afternoon, amounts to 287,054 shares, which changed hands for \$145,708.44. Some rather violent fluctuations are recorded in some of the stocks, but on the whole the market is little changed and stocks are in fair demand at good prices. The most serious decline this week took place in Grand Central when the news that a new trial had been granted in the famous jawsuit, Early in the week the stock stood at \$7.40, but with the above announcement the stock fell to \$6.20. It reacted to \$6.80 today with the sale of 50 shares. Mammoth was quite strong today at \$2.54 as compared with \$2.45 a few days ago. Lower Mammoth was active at \$4.45, as compared with \$4.54 on Mon-day. A big drop occurred in Star Con., which sold around 57 in the beginning of the week. Sales have since been made at 44 though the stock is a little stronger today around 49. Tesora, which has been lagging for several days, put on a spurt today and sold up quite strong. Over 10,000 shares changed today between 2814 and 30. Gold. en Eagle was active for the first time in months at 2. Boss Tweed advanced to 12¼ and Ben Butler moved up to 12¾ today, as compared with 10¾ last Monday. Martha Washington is practically unchanged at 18¼, while Little Chief stands around 14. Con Mercur sold up to \$8.35 today though a 1,800-bare block was afterwards released. share block was afterwards released at \$3.29. Daly-West fluctuates between narrow limits, while Ontario, though not very active is firm around \$10.00, Ajax has fallen off about 9 cents a chare this week while Dexter has weak-ened under \$1.00. May Day has sold to 72 though it stands today about the same figures as on Monday.

The closing figures were posted as

## EXTRA TRAIN TO OGDEN,

RIO GRANDE WESTERN RAILWAY.

Daily, April 5th to 8th inclusive, the t. G. W. will run a special train leaving here at 5:30 p. m. and reaching Og-den at 6:30 p. m., making intermediate stops. Other daily trains depart for Ogden at 9:45 a. m., 1:90 p. m., (lunch on Dining car) and 11:90 p. m., (after

An ounce of prevention is worth pound of cure, and a bottle of BAL-LARD'S HOREHOUND SYRUP used in time is worth a staff of physicians with a drug store or two included. Price, 25 and 50 cents at Z. C. M. 1.

# ANOTHER BIG BINCHAM DEAL.

Fluctuations in Grand Central the Col. E. A. Wall Disposes of the Yampa and Other Claims.

PRICE WAS NEARLY \$400,000

Consists of Stock in Tintic Mining & Development Company, and \$130,\* 000 in Cash-Items from Camps.

The second big Bingham mining deal during the present week, was consummated today by the payment of \$150,000 in cash with other valuable considerations to Col. E. A. Wall, of this city. The transaction was completed shortly after noon today at the Commercial National bank. The purchasing party is the Tintic Mining and Development company which was organized several years ago under the laws of West Virginia with a capital of 300,000 shares fully paid and non-assessable. The property transferred consists of the Yampa, Mercer, Mercer No. 2, Key fraction and portions of the Mercur No. 3 and Key lode claims lying westerly eastern end line of Mercer No. 2 claim.

In addition to the cash consideration Col. Wall receives 50,000 shares of the Tintic Mining and Development company's stock. In order to make the purchase the company proposes to inrease its capital stock to 600,000 shares, treasury to provide a working fund None of this stock is to be sold at less than \$5 per share. The company, as is already well known, owns the Sloux-Ajax tunnel at Tintle-now more than 4,000 feet long-together with a large area of mining ground covering several thousand feet in length of the rich mineral zone upon which is situated the Uncle Sam, Carisa and other heavy producers. The company has about \$125,900 in the treasury besides a great deal of machinery, including a large Rand air-compressor of improved design which was originally intended for use at Tintic. This eight-drill compressor is now at the depot and will be forwarded to the Yampa at Bingham as soon as possible

For upwards of a year Col. Wall has worked the Yampa and in that time he has done a great deal of work in a lower tunnel which was started on the Yampa Extension. This tunnel has been extended on the vein nearly 400 feet inside of the Yampa lines and its face is in solid ore similar in charcter to that of the Highland Boy and Bingham Copper and Gold companies. As the tunnel approaches the place where a change is expected the ore continues to improve in quality. The vein varies in width from eight to twenty feet and no one who has examined the property during the past two months has any doubts that another million-dollar mine is being developed in the Yampa. Since March 1st the property has been in charge of William Crais who has been acting for the purchaser and who is responsible for the flatter-ing developments recently made in the tunnel, which is about 400 feet below

#### WILL SOON SHIP ORE. A Foot of High Grade Copper Ore

on 575 Level of Shoebridge. The most encouraging news that has

been received from the Shoebridge-Bon-anza for some time reached the office of the company today in a letter from Supt. Carruthers. About ten days ago the "News" recorded the fact that ore was encountered on the 575 level as soon as the crosscut tapped the vein. The streak, which was then small, has since been followed 46 feet, and today's re-port states that a foot of high grade ore is now in sight, which assays around 25 per cent. A continual im-provement is noticeable on the lower level and a big ore body is confidently on the 525 level the management enountered nothing but iron pyrites, and the change to high grade copper in 50 feet of depth is noted with much satisfaction by the management,

## ITEMS FROM BINGHAM.

Option on Last Chance Given Up -St. Joe Plant-Mystic Shrine Ore.

It its weekly review of the "Old Recamp the Bingham Bulletin says; Yesterday the last of a carload of devices for the Telluride Electric Power company was delivered at the transformer house, main canyon. Andrew Kolander haz sold his three-sixteenths interest in the Montezuma

mine to W. J. Strickley for \$1,200, The Copper Boy company will build a road from Pine canyon to its main tun-nel-about 2,000 feet-as soon as the snow is off. The company is planning to do a large amount of development vork this spring and summer.

Developments are progressing on the Pine Tree group, with good results. Since Major Grant has been made captain in the regular army, his place as manager of the Pine Tree will doubtless soon pass to other hands. Captain Grant will have his headquarters in

New York city. Stuart Crosdale, who has been working the Last Chance mine under option for the past three months, discontinued

operations on the 30th of March and turned the property over to Charley Hodge, the owner, We have not learned what plans Mr. Hodge has in view.

The St. Joe people expect to have their compressor plant installed and drills working in the long tunnel by May 1st. A contract to extend the type. May 1st. A contract to extend the tun-

May 1st. A contract to extend the tun-nel 1.500 feet, using the company's drill plant, has just been let and contractor has option on additional 1.000 feet. Manager Young of the Mystic Shrine was Tuesday showing some fine speci-mens of galena or new opening up in the Mystic Shrine. There is between and three feet of the truck, nearly solid, and indications are excellent that a young bonanza is being opened up. Markham guleh still continues to keep

good is promises.

The Dewey mill has orders for over 4,000 tons ahead, and as soon as the roads are fairly good will probably be

roads are fairly good will probably be run by three shifts. Its full capacity is about 125 tons per day.

Ore shipments from Bingham are now averaging between 700 and 800 tons. daily, and when the Bingham C, & G, smelter starts its third fire ought to run close to 1000 tons. run close to 1,000 tons.

### More Consolidation Rumors.

Reports from the East point to the consolidation of the Centennial Eureka and United States properties. The Bos-

purpose of embracing and including discovery vein and all other veins apexing within the free and unappropriated ground within such location lines, and the ground itself as well, and of defining and securing extra lateral underground rights upon all such So that controversy is settled until reversed by the supreme court of the United States.—Denver Post, Yankee Con. Patent. Provo, April 6.-The Yankee Consolidated Mining company has received a United States patent for the Yankee No. 3, the Yankee No. 2 and the Yankee lode mining claims situated in the Tintic mining district.

The Louise S. to Ship. L. H. Outzen of Richfield expects to go to Bingham tomorrow to examine the Louise S., which has developed into a shipper during the past few months. About eight feet of good ore is said to be in sight in the upraise from the tun-nel, and the management expects to put ores on the market as soon as some changes are made to enable it to ship

#### MINING NOTES.

The Ophir Hill reached the market today with nine cars of concentrates. Thomas Roscamp of the California Mine at Park City reports the property improving.

The Taylor-Brunton sampler reported 9 cars of ore from Stockton and 7 cars of ore from Tintle today. L. H. Outzen, who came up from

Richfield last evening, reports the Dal-ton of Marysvale to be looking well. President Holbrook of the Grand Central came up from Provo today. He reports things looking about as usual in the King William claim.

In spite of the advance in Boston Con. stock in the East the local office denies the story that any remarkable change has taken place in the mine. M. D. Murphy, who is directing work at the big drain tunnel of the Dalton & Lark reports the tunnel in 375 feet. It is the intention to instal machinery in the near future,

James Andrus of St. George, celebrated the final payment of \$55,000 on the Dixie sale, by sending a 10-gallon keg of the nnest Dixie wine to the office of W. F. Snyder.

Superintendent W. H. Nutting of the Bingham Copper and Gold company's new smelter, who came up from the plant last night, reports the new stock ready to be blown in next week.

An assessment of 1/2 cent a share has been levied by the Sea Swan Mining company of Silver City. Work will shortly be resumed under the manage. ment of George Paxman. The South Swansea of Tintic had 7

more cars of ore on the market today. making a total of 19 cars sampled this week. Part of this heavy shipment is the result of a clean-up of the dump, which was the property of the old South Swansea company. Hailey Times: D. B. Smith and Eliza

J. Smith, his wife, of Salt Lake, have for \$200 sold to George Q. Cannon, Robert S. Campbell, and Le Grand Young, their one-half interest in the Bull and Gray Bull Extension lodes.

Elko Independent: The local oil company at Elko yesterday made a contract with W. F. Aldrich of Clear Labe, Utah, to sink a well to a depth of 1,000 feet on their property. Mr. Aldrich left last night for Utah to load the left last night for Utah to load ship his drilling machine to Elko

with all possible dispatch. Mr. O. P. Posey of the Bingham Copper & Gold company, who arrived from the east quite unexpectedly yesterday afternoon, is reported to have said that the Mammoth and Grand Central mines will pass to the Bingham company if the present examination proves satis-

factory. P. J. Donohue, the well known expert, returned today from a journey through central Nevada, in search of bonanzas Eastern clients. He brings along about 50 pounds of samples upon the returns from which he will base a re-Some very good properties were risited but prices are said to run quite

high. The southern part of Colorado, particularly the division between Colorado Springs and Pueblo, is said to be wild center was located in Routt county While the fever is on there is plenty of money for investment in such ventures where the field is any way promising.

# MORE POINTS OF CAIN THAN LOSS

Trade Maintains the Even Tenor of Its Way,

BUILDING BUSINESS GOOD. terest in each so that in a consolida-tion he could not be accused of working

> No Lessening Demand for fron and Steel-Commercial Failures for the Month of March.

New York, April 5 .- R. G. Dun & Co.' Weekly Review of Trade tomorrow will say: "While the general business world cators of mining claims, "Can we, in defining the course of our lode" and has looked with amazement at the performance of the stock market, trade has claim, set our stakes upon an adjoin-ing patented claim?" While the right maintained its even course and there are many more points of gain than of loss, to do so was denied by the commis-sioner of the general land office, an with even a slightly steadier tone in the dry goods market. Though some sellers have withdrawn offers at recent low prices, though buying is small as yet, location lines of a lode claim may, if established openly and peacably, be collections are unusually prompt, and in the building trades contracts have been entered into sufficiently to furnish decided impetus in allied lines during the spring season.

"No sign of a lessening demand is noted in any branch of the iron and steel industry. Mills are accepting contracts for the closing months of the year, and there are indications that the year 1901 will surpass all others in the country of his iron consumed by manuquantity of pig iron consumed by manu-facturers. Though capacity has been wonderfully enlarged during the pas five months, there are still many extensions and new plants contemplated It is also probable that the customary It is also probable that the customary summer repairs of furnaces and mills will be accomplished within a shorter period than usual, as contracts call for heavy deliveries right through the season. Permanence of prosperity in this industry is becoming more certain as there is little evidence of inflated prices. Regular quotations have not altered, except for bars and foundry pig iron, although all sorts of premiums are paid although all sorts of premiums are paid where prompt shipments are required Although fewer ovens are active in the Conneilsville region than a year ago, the output, is much larger, and about 30,000,000 tons were made during the

Shipments of boots and shoes from Boston are steadily increasing, the last week's movement being 94,453 cases, as week's movement being 54.75 ta against 92,975 in the previous week and 89,034 a year ago. Quotations are steady, but it is expected the recent declines in leather and hides will make it possible for the small shoe manufacturers to cut prices when they are compelled to seek new business. An unexpected demand has appeared for russet shoes, equaling last year's business, despite the fact that the lines were considered less pop-

The circular of Coates Bros. on April ist made the average of 100 grades of wool 17.99 cents, a decline of nearly a cent since March 1st, and 5½ cents compared with April, 4900. During the past two weeks, however, the market has steadiedj and there is much more trad-Moderate buying is done by wors-

'After declining within a sixteenth of condition of the speculative market was chiefly responsible, and southern dis-patches gave support by statements of unfavorable planting conditions, plies were against any pronounced rise in price, however, and conditions con-

tinue extremely depressing.
"Aggressive manipulation of corn forced prices to an unreasonable point, from which the fall was severe, and wheat also weakened, although exports from the Atlantic coast continued lib-eral. Pork products did not show the usual sympathy with corn when it refor Chicago operators absorbed offerings readily.

"Commercial failures in the first quarter of 1901 were 3,335 in number, and \$31,703,486 in amount of defaulted habilities, of which 710 were in manufacturing, for \$12,504,222, and 2,468 in trading, for \$14,552,906, with 157 others, not probably included in either class but that owed \$4,646,358. Banking defaults numbered 21, with liabilities of \$3,441,389. While exceeding the same three months of last year in number failures were much smaller in amount commercial and financial insolvencies together showing a decrease of \$21,532, 180. Only two years of the last twenty made a better showing either in aggregate or average indebtedness to each failure, while the proportion of \$26.74 to each firm in business and \$1.09 to each \$1,000 of solvent payments through clearing-houses are records that were surpassed but once in two decades. For the month of March total liabilities were much smaller than in the corresponding month of any year since monthly statements were first pub lished. These figures indicate most un-deniably that the new century has opened with business on no uncertain foundation.'

## SUCAR COMPANY MEETING

Report of the Vice President for the Past

He Says Indications Are Exceedingly Bright for the Coming Season.

The annual meeting of the stockholders of the Utah Sugar company is in progress this afternoon in the Templeton building. The hearing of the reports for the past year and the election of a new board of directors are the main items of business to be transacted. From the report the "News" has been permitted to make the following ex-

The annual report of the company submitted by Vice President Thomas R. Cutler, in the absence of Prest. Geo, Q. Cannon, states that the past season had not been a very profitable one for beet farmers from an agricultural standpoint, on account of the scarcity of water, the snowfall during the winters of 1899 and 1900 have been extrem? ly light. Although the farmers made every effort possible to obtain water, it was only in the most favored localiaverage tonnage being a fraction over eight tons per acre while many crops ran below five. Not only was the crop reduced in tonnage, but the drouth caused a corresponding reduction in the sugar in the beat, the average being only 14.1 per cent, against 15.88 per cent for the year previous.

The board of directors, realizing the losses sustained by the farmers, authorized the manager to remit the whole charge for seed and planting where entire failures occurred, and one-half of the seed and planting expense, where the tonnage was below 5 per acre. The farmers were quite grateful for this concession. The cost to the company was about \$4,000.

A partial loss of the hay crop, says the report, and the consequent high prices for hay, caused an unprecedented demand for pulp with the result that the company had to limit the amount sold to each farmer. We also fed about 1,000 head of cattle ourselves with very The remodeling of the Lehi plant, the

putting in of the Bingham Junction cut-ting station and pipe line were com-pleted in time to handle the crop and we could have easily worked up 50 per cent more beets than we did if we could have secured better results from our total expenditures at

Springville and Bingham Junction during the past two years have been \$651,-534,49, which now gives us a magnificent system capable of working at least 1,000 tons of beets per day. When every-thing was running smoothly we have frequently run as high as 1,200 tons of beets per day.

It was demed advisable in view of the possibilities in the vicinity of Provo

to put in a cutting station at that point. Land has been purchased at a point about three miles north of the Oregon Short Line station at Provo. and we shall build and equip a Provo plant in time to handle the crop of the com-ing fall. It will be connected with the main pipe line running to the Lehi fac-tory, and this will obviate the diffi-culties which we have been under at Provo in obtaining cars for transport-

ing beets to Lehi.
While Utah has suffered from the light crop, the loss was small compared with conditions in California in the beet sugar industry. Generally speakbeet sugar in the United States is not very marked. There have been a numher of failures the past year in fac-tories erected, and the Louisiana sugar cane crop was quite poor owing to the excessive moisture.

About 25 per cent of our sugar output

from last season has been marketed on the Missouri river, and the increase in the number of factories in Utah necessitate a very large per cent of our sugar being carried east in the future. We have already made contracts for about 7,000 acres of beets for the coming season. This may be very material ly increased; we are now assured lenty of water for irrigation so that I regard our prospects as exceedingly bright for a large crop during the coming season. During the run of 1900 the greatest amount of beets worked in one day

of beets worked in one day was 1,196 tons as against 536 in 1899. We paid for beets in 1900, \$242,244.61, in 1899, 247,742.04; paid for fuel in 1900, \$36,303,-65; in 1899, \$36,571.82; paid for line rock in 1900, \$5,674.30; in 1899, \$4,773.74; paid or manufacturing material and bags 1900, \$37,213,56; in 1899, \$32,583,14. Our pny roll in 1900, \$48,662.89; in 1899,

#### WILL MEET THE CONDITION. L. D. S. College to Receive Young University Site.

At the meeting held yesterday afternoon between Apostle Brigham Young and the trustees of the Latter-day Saints' College, the latter readily consented to comply with the condition on which the Young University property on A and First streets will be giv to the Latter-day Saints' College. Th condition is that one of the buildings to be creeted with the proceeds from the sale of the above mentioned propthe sale of the above mentioned property shall be known as the "Brigham Young Menorial Building," and that it shall be so construct, as to distinguish it from the other college buildings. This brings the transaction

## An Excellent Combination,

The pleasant method and beneficial effects of the well known remedy SYRUP OF Flos, manufactured by the SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO, illustrate the value of obtaining the liquid lazative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the costs and agree table to the section. thate and acceptable to the system. It is the one perfect strengthening larative, cleansing the system effectually, dispelling colds, headaches and fever gently yet promptly and enabling ora to overcome habitual constipation per manently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidners. liver and bowels, without weakening or irritating them, make it the idea

In the process of manufacturing age are used, as they are pleasant to the taste, but the medleinal qualifies of the remedy are obtained from seams and other aromatic plants, by a method known to the California Fig Street Co. only. In order to get itsbenefical effects and to avoid imitations, please remember the full name of the printed on the front of every package,

within the pale of things that are most likely to happen. The transfer will all be deferred long enough to give a lawyer time to clear the title from a legal kinks, so that no complicates can possibly arise in the future. It is believed that the action taken by the Young University trustees will be applauded by the people generally,

### LUNCHEON TO COL. WINDER

Oniet and Informal Testimonial From Directors of the D. A. & M. Society.

Colonel John R. Winder was the guest of the officers and directors of the D. A. & M. society at a quiet little luncheon in the basement of Beards. ley's Tavern at noon today. There were fifteen present, including the venerable guest. The luncheon was given as a slight testimonial to the venerable guest that on retiring from the presidency of the society he leaves with the best wishes of his former associates. The affair was wholly informal no invitations were given out, the guests being confined exclusively to the officers

## CLEARING HOUSE REPORT.

and directors.

Today's clearings amounted to \$20,. 154.22 against \$455.428.55 for the same day last year. The week's clearings in comparison with the clearings for the same week last year are as follows: 

## ORE AND BULLION REPORT.

McCORNICK & CO. The ore and bullion receipts for today amount to \$60,406, distributed as follows: 

T. R. JONES & CO. Ore .....\$7,000 Bullion ..... ...... BAMBERGER & McMILLAN. Bullion .... \$1.595

During the week \$542.74 in ore and bullion was received by the banks in Salt Lake as follows: 

B. H. ROBERTS' NEW BOOK Which have been in course of presi-

for delivery. "THE RISE AND FALL OF NE V00." An invaluable work for Mutusi is

provement associations, price ILE "MISSOURI PERSECUTIONS" The first supply of which was et hausted, is now again on sale. Pris \$1.25, Special terms to classes, quorus Sunday schools and Mutual impres-

ment associations. Nearly every person needs a total medicine at this time of year to brast up and invigorate the nervous system. to cleanse the bowels, liver and as neys. HERHINE is the best and safes remedy to do this, as it will cure os-stipation, regulate the liver and estable the blood, Price, 50 cents at Z. C. M.L. Drug Dept.

# Conference Visitors

If you have any sickness in your family, don't fail to investigate the "Oxygenor" while in Salt Lake City. It is a natural and positive cure for nearly all ailments. . . . . .
