police are working on the case and hope to recover the property. Attorney P. L. Williams went to Brig-ham City the other day as a member of the committee appointed by the Bar as-perred against Attorney Ricy H. Jones. The latter was represented by Attorney T. D. Johnson of Ogden and the charges grainst Jones were thoroughly gone over with a view to ascertaining whether of not the gentleman should be disbarred. The committee made a trip to the home of Mrs. Nichols to get her testimony in the case, and while there Mr. Johnson raised the point that if his client were guilty of a felony as charged, he should be in the custody of the United States marshal rather than in the enjoyment of his fMI liberties. Mr. Williams is said to have seen the point and for the time being was perfectly nonplussed. be due to a severe blow on the head state calling attention to the matter received several years ago. Fasting as a treatment for disease l

state calling attention to the matter and telling them how to prevent the fraud. The letter is as follows: "With reference to the state bounty act, as amended by the last Legislature, the question has arisen as to whether or not persons are entitled to the in-crease bounty on coyotes on and after May 10, 2003. I learn that in some cases persons are witholding the skins reasing as a treatment for disease is likely to become a fad, in consequence of the success of the Van Meter experiment. Now Mrs. Jennic Kervin is trying to cure herself of indigestion by a prolonged fast, and has abstained from food for 20 days. She has begun taking liquid nour-ishment, and seems to have escaped from the horrors of indigestion. She was a large, heavy woman, and is greatly re-duced in weight from the fasting. cases persons are witholding the skins of these animals until the 10th of May, expecting to receive a bounty of \$1.50 under the new law. Section 1 of the

duced in weight from the fashing. Laying ralls began yesterday on the Ma-had valiey rathroad, running nearly 18 miles from Corinne to the sugar factory. Re-ports from that section are that the im-mediate future is very bright, and there will be lots of heets. A recent issue of the Denver Post has a cartoon of the entire help of the Denver Cotton mills rushing from the confining, exhausting labor of the mill to the sugar beet fields, which are now being largely extended, over the valley of the Platte in Colorado. new bounty law provides that 'there shell be paid, us thereinafter provided, for the killing within the boundaries of this state, of animals hereinafter named, the following bountles, to-wit: For each coyote so killed, \$1.50,' Section 2 provides as follows: 'Any persons killing within this state, after the passage of this act, one or more of

the above named animale,' etc. "You will observe from the above over the valley of the Platte in Colorado. The lime kilns in the neighborhood of this city are being operated under "tush orders." and al present the output is about 1,200 hushels of hime per day, a woo-bits per bushel. There are 14 1,400s altogether, and when all are going the capacity is 1,500 hushels dally. The pres-ent rush is due to the fact that a good deal of work delayed and laid over from late last fail has been taken up with the advent of spring and pushed to comple-tion. However, there will be most of the work infahed and out of the way short. Consequently, the kilns will not be so busy in a week or two. "You will observe from the above quotations from the bounty act that the increased bounty on coyotes can-not be applied to animals killed prior to the date the new law becomes ef-fective, which is May 10, 1903. I would suggest that for a period of sixty days after the new law becomes effective you include in the affidavit made by the claimant, where the increased bounty is demanded, a clause stating that said animal or animals were killed subsequent to May 10, 1903. I would also call attention to the fast that the fee of 5 cents, provided for under the old law, has been eliminated."

busy in a week or two. A three-roomed hullding has been crect-ed at Murray for the Bell Pelephone com-pany, which has set up a fine switchbear there for the local service. The company put in 76 new telephones during April at Ogden, and 150 in Salt Lake Cuy. The company has also ordered an additional section of main switchboard for the Salt Lake Central station. General Manager Murray thought in November last, when the new board was put in, that it would be another year before any addition was meeded, and here it is only six months before the addition is found necessary. The increase provides for 300 extra lines, or 500 telephones. "One of Dr. King's New Life Pilla each night for two weeks has put me in my 'teens' again," writes D. H. Turner of Dempseytown, Pa. Fight With Bare Fists.

New York, May 6 .- Midshipmen Wygant and Wallace of the battleship Kearsarge, who had been at odds ever since their ship left the southern drill grounds for this port, have settled their differences by a pugilistic encounter. Shortly after the Kearsarge dropped anchor off Tomkinsville the midship-men got shore leave, it is stated, and clad in their civilian's clothing, called a closed carriage and drove to cluded spot off Staten Island. were no seconds, the battle was fought in the darkness with bare fists and it is not known which was victorious, On their return they both exhibited faces badly bruised. They appeared to have reached an amicable settlement. And as a result of the battle the "mid-

dies" are conduct to their rooms. Ac-cording to their brother officers they are on sick list, but it is asserted that "sick list" is a mild term for computsery confinement.
