WEBER STAKE IS DIVIDED IN THREE

Change Effectuated in Stake Conference Sunday—Organizations to Follow.

PURCHASE OF WATERWORKS

Important Matter Before City Solons—Old Folks Outing to Lagoon—Opening of Suburban Road.

Ogden, July 20.—The crowded conditions of the conferences and general meetings of the Latter-day Saints in Weber stake are now to be a thing of the past and in the future the members of the Church will attend meetings in their immediate locality. This condition was remedied by the quarterly conference that was held in Ogden Sunday. Two overflowing meetings were held in the Weber Stake academy and the stake tabernacle, at which the division of the Weber stake was announced. At the tabernacle Elder D. O. McKay explained the division while at the academy John L. Herrick made the announcement.

The three new stakes will be known as Weber, Northeast and Northwest. The two latter names will be used only until other names are selected. The Weber stake will comprise all that district of Weber county south of Twenty-fourth street and south of the south line of West Weber and Wilson. The Northwest stake will be north of the south line of Wilson and West Weber and north of Twenty-fourth street and west of Washington avenue. The Northeast stake will include all north of Twenty-fourth street and east of Washington avenue, which includes Ogden valley.

Next Sunday the organization of the Northwest stake will be completed and the following Sunday the Northeast stake will organize, while on the third Sunday hence the Weber stake's reorganization will be effected.

At the morning session in the tabernacle Bishop James W. Henshaw, President John Watson, Elders John Henry Smith and David O. McKay, and B. H. Roberts were the speakers. At the afternoon session President L. W. Shurtliff, President Oleen N. Stohl of the Boxelder stake and Elder D. C. McKay were the speakers. The report of J. V. Bluth, clerk, for the last quarter, showing the stake to be in excellent condition, was read.

The speakers at the morning session at the Weber Stake academy were Presidents C. P. Middleton and L. W. Shurtliff of the Weber stake, and President Joseph E. Smith, who urged the members to study the works of the Church and make themselves efficient and capable workers for the Church.

At the afternoon session Elder B. H. Roberts and Elder John Henry Smith addressed the assembly.

At all the meetings special music by the choir under the direction of Prof. Ballantyne was rendered. In the evening a meeting of the Mutual Improvement association was held in the tabernacle at which was a very large attendance. A number of addresses were made and the choir rendered a number of selections.

WATERWORKS QUESTION.

Ogden, July 20.—The purchasing of the Ogden waterworks system by the city of Ogden is one of the important matters that will undoubtedly be considered by the city council at its regular weekly session this evening. During the past week the subject has been freely discussed by prominent citizens and public officials and all are unanimous in the opinion that the city should purchase the system.

None of the officials of the waterworks company have made any statement in regard to the reported sale to the city other than to say that the system has been offered at a certain price. It is also indicated that the price which is set upon the system at the present time by the company is very much lower than what it will be in the future.

Another report is current that if the city does not signify its intention to purchase the system that an offer will be considered from another source, which is reported to be none other than the Harman system, which is also anxious to purchase the streetcar system of the city, which is owned practically by the same stockholders as the waterworks.

The outcome of the meeting of the

OPENING OF SUBURBAN LINE.
Preparations are being made for an informal opening of the Salt Lake & Ogden railroad next Saturday when it is reported that the last gap in the two steel threads which link Ogden and Salt Lake will be completed and the trains of the interurban road will run into this city.

The formal opening of the road is scheduled to occur on Tuesday, August 4, when the Press club of Ogden will give its first annual outing to the lagoon. Arrangements for that day are being made. A feature of the day will probably be a game of baseball between teams from the Press clubs of Ogden and Salt Lake and other contests between the pencil pushers of the two cities who have as yet never met on a big "session" when "scoops" will be the last thing thought of.

OLD FOLKS AT LAGOON.
Ogden, July 20.—Bright and early tomorrow morning the old folks of Ogden and Weber county will assemble at the Union depot, where they will board waiting trains and be taken to the Lagoon for their annual outing. Everything on that day will belong to the veteran and pioneer builders of the state regardless of creed, color or race.

The excursion is for all those of 70 years of age and over who are invited to join in the trip. Badges

SHOPMEN ON FULL TIME.

For the first time since Jan. 1 the employees of the Southern Pacific shops in Ogden did not have their Saturday vacation. The force at the shops has been gradually increased since the first of May, on account of the increase in the amount of work. Since the increased amount of traffic in both freight and passenger departments a great amount of work has been piled up in the shops and yards, so that men are working full time now and do without the Saturday vacation.

PROTEST AGAINST ROAD TAX.

A petition was presented to the county commissioners signed by 25 taxpayers of Slaterville precinct, asking the board to set aside the special road tax election recently held there, when 28 votes were cast favoring the tax and 24 against it. The petitioners claim that the judges at the election prevented many from voting on the proposition. The matter was referred to Chairman Matson and County Attorney Harris.

Mr. Northrop is an expert in his line, and says the fruit industry in the east is gradually on the decline, the reason being a lack of interest. He can see a greater falling off this year than ever before. It is even a variety to find eastern grown fruit on the large markets. Fruit growing in the west, he says, is correspondingly on the improve with eastern decline. There will be no trouble in finding good markets for all fruit when the many young orchards begin to bear.
