POREST PRESERVATION.

which minimum of adiata now go use to other sections.

This metter of timber supply not only interest this flats, which mered andly interest this flats, which mered was bountinly supplied, but many oblice and rishes takes which formerly were well student with forced growth, but have soffeed by the diministic therein of resent years. One of these is New Yorn, where the similation was of sufficient importance to result of the supply the supply the supply the superiously and states in a supply the spectrosty in such forced, either through to illumer land, sither through the supply of its most variety of its most variety was forced, in the religion of the supply the spectrosty in raise, and the world is to deficient and partially destroyed. Every element of emoney and forced, the waste to outraged by this cutter, or the supply the superiously intrinsic bark taken a winding of the states neglect until of the entire Administrate region, constituting of more than 3,000,000 acres, the sine was a supply the su

It is then to adjust and the parties the danger of a journey tries the less the to associate with mean tening adder the efficient and the strings adder the efficient and the strings againly they have not yet seen with to overgome. They are add to take no little pleasure in somety, and prefer to the meant and self-time.

sorrely, and prefer telliment and children.

The off saying that Semiliarity trings and only series to refilled to the increasing and the increase the frame similarity state. From similarity increases from the property of the rest of their kind of the saying the saying and the saying and the saying the saying and the saying the saying and the saying the saying

INTRODUCING BILLS.

An amorem registers in habe to think that the more bills he can infro-due the more bills he can infro-due the more bills he can infro-due the commitments whereas the set is that the introducer of many bills is marty always a missione be the bridge of which he is a member. These will unlong are wasted in con-cidential and printing his affailure, which, or examination, order or dis-vocated to be either unless or dauger-us.

dering and printing his effective, which on examination, other are discussed to be either under the desire of dauget one.

At the present session of the Urab Legislante the printing author of fally who persists in inflicting his production upon the horizontal printing his production of the control of the propose appealing to the extent that for printing approximation or inflining his printing his production of the propose and the propared, by a commission, a buff or quite a complete code of laws, and that emmission his given thereogh and intelligent coded of laws, and the emmission his given thereogh and intelligent coded of laws, and the subjects of which legislation is necessary heard spirited with his on those subjects will be law.

The code bill it understood to experimental will of the subject to the code hill be understood to experimental at if when the hills in the subject in the provisions therein, but it is not the end of individually and the printing his his supplemental printing his his supplemental printing his prin

ameniments proposed by the legisla-tors.

The chief danger to be approbanded at this ression is that the code and at this ression is that the code and might be restood through without grouper circulatarities, hence every check upon resty acritor regarding it, and every possible measure Josting to the perfection better first pessage, should be adopted. The one proposed wealth be and in that direction, since it would require measures its examine-tic would require measures its examine-ties code commissions to examine the code commissions operation are laft what we in it reporting a subject isfure making any proposition upon the same. The code full will fill two guad-code velocines—fact which gives some loss of the labor involved in the control of the labor involved.

RESTRACTON DIPLOMACT.

with the government nearest engages for the State by Governor Wells, and State and business of the State by Governor Wells, and State and business of the State by Governor Wells, and State and business of the State by Governor Wells, and State and business of the State is a serious drawning but the means at absorbing it in weath and beauty of this region in the arbitrary of the state of the state and business of the state of the s
