# A SLAUGHTER-HOUSE FOR ALIENS

Senator Patterson Declares One Is Being Prepared for Them On the Isthmus.

MR. TILLMAN TAKES ISSUE.

Colorado Senator Should Consider that In the End American Laborers Pay For Canal.

Washington, Feb. 9.-Almost the entire session of the senate today was devoted to the consideration of the urgent deficiency appropriation bill, which was passed practically as it was reported from the committee on appropriations. The only discussion in consection with the bill was over an amendment suggested by Mr. Patterson to strike out the provision relieving allen workmen on the canal from the operations of the eight-hour law.

Mr. Patterson contended that to require men to labor more than eight hours a day in the tropics was inhuhours a day in the tropics was inhuman, and argued that the requirement
would do injustice to American labor.
Several senators on both sides of the
chamber controverted the position.
The amendment was voted down
without resorting to a roll call.
What it all means, in plain, brutal
English, is that there is being prepared
on the isthmus a slaughterhouse for

entiles, is that there is being prepared on the isthmus a slaughterhouse for allers, and that the canal is to be built at a fearful cost not only of money, but of life, said Mr. Patterson, in persisting in pressing the amendment upon the senale.

Mr. Gallipper, called attacks

Mr. Gailinger called attention to the statement of the canal officials that smitary conditions on the isthmus were much improved, and Mr. Patterson replied that these statements did not correspond with the testimony given by senators.

Mr. Tillman also took issue with Mr. Patterson saying that "when the Color.

Mr. Tiliman also took issue with Mr. Patterson, saying that "when the Colorado senator makes an appeal for alien abor he would better look a little closer home and consider the American laborwho in the end must pay for build-

ment he had offered and offered another faing the limit of a day's labor on smal work at 19 hours instead of eight.

# HEALTH IN THE FOOD

Every one knows that Royal Baking Powder is absolutely pure. The housewife uses it with confidence, and she is justified in so doing.

But how few realize that Royal Baking Powder is a direct product of the healthful and delicious grape! The product of the grape, crystallized and ground, is the cream of tartar which forms the active principle of every pound of Royal Baking Powder.

Fruit properties are needful for the healthfulness of the body, and the grape as used in Royal Baking Powder is the most valuable and healthful of all.

### JUDGE DIEHL LENIENT.

Violators of the Expectorating Ordinance Let Off the First Time.

Violators of the ordinance against expectorating on the sidewalks are to be rigidly prosecuted, says Asst. City Atty. Daly. Judge Diehl expressed himself yesterday as being thoroughly in sympathy with the endeavors of the police to stop the evil, and while he was inclined to be lenient with the men who were before the city court yesterday afternoon for infraction of the law in question, the judge took occasion to give warning to those who have been in the habit of treating the law lightly.

law lightly.
Of the 18 who were arrested, all but of the 18 who were arrested, all but two appeared before his honor, and after receiving a reprimand, they were discharged. The other two forfeited the \$5 bail which had been posted for their appearance in court, and unless they can give good reasons for their non-appearance, the amount will go into the city treasury.

## CASE LANDS THE JOB.

Chief Engineer of Joint Building-Harold Mounteer His Assistant.

The deadlock over the appointment of a chief engineer for the city and county building to succeed Engineer John Lawrence, whose resignation takes effect on Feb. 15, was broken at the meeting of the committee on control yesterday afternoon and Eber S. Case was chosen as chief engineer and Harold Mounteer as assistant engineer. The county commissioners secured the assistance of City Councilmen Black and Hobday and by entering into an agreement with them succeeded in landing the positions of chief engineer and his assistant for two Vepublicans. In return for that they will allow the American members of the committee to discharge Josiah Lees, the nightwatchman, and appoint an American in his place. Mr. Lees is given until March 1 to resign. Hobday favors B. H. Nickerson for nightwatchman but Mayor Thompson favors James Veitch.

an American party worker, and the fight will be between those two. Mr. Case, the new chief engineer, has been assistant engineer under Mr. Lawrence at the building for 10 years past and has been a capable and efficient man. His selection is a good one as he is the only man in the city who is acquainted with the workings one as he is the only had in the city who is acquainted with the workings of the heating and electrical apparatus connected with the building and hence is able to go right along with the work. Mr. Mounteer is an engineer of much experience as he was engineer at the Commercial block for 10 years and has recently been employed in a similar capacity at the Warm Springs.

## **ELKS EXCURSION** OFF AT MIDNIGHT.

Fully 700 of Antlered Herd and Their Friends Expected To Go.

MANY PLEASANT SIDE TRIPS.

Secretary Raybould Receives Invitation from Chamber of Commerce And Lodge at San Diego.

The first annual excursion of B. P. O. Elks, lodge 85, begins tonight when about 700 of the antiered herd and their friends will board special trains on the San Pedro, bound for Los Angeles and other California points. It will take three trains to carry the merry bunch to the land of sunshine and flowers, and that they will have the time of their lives is practically assured. If they do not it will certainly not be the fault of Exalted Ruler G. R. Cleveland and Secretary A. W. Raybould, associated with the committee. These gentlemen have worked day and night for many weeks to make th excursion a success.

As an indication of the interest taken in the big trip, it only needs to be stated that Elks are coming in from all parts of the state and from other states.

More than 200 tickets were sold yes-

More than 200 tickets were sold yesterday, and this morning Secy. Raybould said that he expected to dispose of about 100 more today. These will be sold to the Elks coming in from Idaho, Montana, Colorado and Wyoming. It is confidently predicted that the excursion will be the largest ever run from this city.

The committee in charge of affairs has requested that the excursionists be at the depot as early as possible tonight in order to avoid confusion in being assigned to their respective cars and sections. All the passengers are provided with white buttons and badges.

The three trains chartered for the trip will leave several minutes apart. The two sections of the specials will leave at midnight promptly, and the others will follow far enough apart to

Thomas Homer and 10 assistants will have charge of one section and Kenneth C. Kerr of the Salt Lake Route will be aboard to render his services.

A great time awaits the herd when it reaches Los Angeles. Immediately upon reaching that city, the pilgrims will be driven to the new hotel Alexandria, which will make its opening on that day. Special rates at this magnificent hotel have been secured, and the Elks will be well taken care of.

(Pacific Coast Manufacturer's Journal.)

It is amazing that in this intelligent age there should be an almost certain specific for Bright's Disease and Diabetes, yet but few know of it. The promoters are trying hard enough to tell the people, but patent medicine men, have, with their testimonial bureaus, so imposed upon the people as to create general distrust. The innocent are now suffering with the guilty, for who can pick out the honest from the dishonest statements?

Let it be recorded for thoughtful people that these diseases are no longer necessarily fatal; that with care and proper treatment they yield almost to a certainty, and that the specifics that thus do what nothing else in the world is known to do are known as Fulton's Compounds. I will see that parties desiring it are sent literature. This item is not written by a subordinate but by the editor of this publication, and I speak by the card. I had Diabetes myself.
