

thing that the storm struck. The Shaw House, a large brick hotel, was demolished and the inmates were buried in the ruins. Horses and stock of all kinds in the track of the storm were swept off the face of the earth. A train load of citizens of Lexington, arrived to render aid, and physicians from all the surrounding towns have been summoned to give medical attendance to the wounded.

ST. LOUIS, 2.—The Times has additional specials from Richmond, Mo., which say: The cyclone, yesterday, was the color of steam, at times a funnel-shaped cloud would break or open in places, emit what appeared like black smoke, then gather together again, and with increased force, continue on in its march of destruction. At first it approached slowly; not faster perhaps than a man could walk, then moved faster, levelling everything in its path with the ground, producing almost complete devastation. The sound produced was infernal, resembling that of a great cataract. The debris of the city has been found fourteen miles away. A perfect panic prevailed for a time, but order and comparative calm was restored, and the killed and wounded were provided for. The unharmed houses of citizens were thrown open for the reception of the homeless sufferers, and every attention possible given to them. The funeral of several of the victims took place this morning. The remains of Captain Jacobs were found this morning buried in the ruins. Judge Donaldson, who was reported wounded last night, is dead, making, so far, 15 deaths. The death of several others is momentarily expected. At least 40 persons are seriously or mortally wounded.

Advices from the county, on the track of the storm northward, are that the growing crops were badly injured, trees prostrated, stock killed, and bridges blown down, but no houses are reported destroyed or lives lost.

CHICAGO, 2.—A telegram received, at the military headquarters, from the department of the Pacific, states that the Bannock Indians of Big Camas Prairie are out upon the war path, with 200 well-armed warriors. Two settlers have been wounded. About 60 lodges have been joined to them, and all have gone into camp. United States troops have been sent to protect the settlers.

CHEYENNE, Wyo., 2.—General Bradley's command, consisting of five companies and the headquarters of the Third Cavalry and four companies, left Fort Laramie, yesterday morning, for the Little Missouri River, where they will establish a summer camp, and scout the country north of the Black Hills. The Third Cavalry is commanded by Colonel Carlton, Lieutenant Capron, Quartermaster. The command is accompanied by a wagon train consisting of 70 wagons and a pack train of 120 mules. General Bradley will be joined by the Arapahoe scouts while en route. Baptiste, who recently had charge of the Sioux Indian soldiers at the new Red Cloud agency, will act as chief scout, guide and interpreter.

General Merritt's command, consisting of eight companies of the Fifth Cavalry, will reach Fort McKinney to-morrow, and will inaugurate a summer campaign therefrom, and at once establish a new post at a point not yet determined. The four men who robbed the United States train a few days ago, were captured, to-day, by Sheriff Rankin, in a cañon near where the Medicine Bow empties into the North Platte, and are now at St. Mary's station, on the U. P. railroad, their names are John Thomas, Wm. Henry, D. H. Hill, and W. A. Gibson.

WASHINGTON, 2.—Cool-headed republicans, to-night, are taking a much more cheerful view of the nature and effects of Anderson's testimony before the Potter investigating committee than was prevalent yesterday. They find, upon comparison, that a number of yesterday's statements are directly contradicted by the testimony given by him before the Louisiana returning board, and also before the Senate committee, of which Howe was chairman. They also claim that the only thing in Anderson's testimony inconsistent with this theory of Sherman's purpose is Anderson's unsupported statement that he told Sherman in a public restaurant that his protest, previously filed, was false. This they denounce as improbable and

unworthy of belief if met by Sherman's denial. On the other hand many republicans are of the opinion that the present state of the case wears a very damaging aspect for Secretary Sherman and Senator Matthews, and that they will find great difficulty in clearing up their connection with Anderson, and Louisiana affairs generally, to the satisfaction of the public mind. Upon Anderson's own showing, however, the action of the returning board was legally justified, and hence no progress has yet been made towards overturning Hayes' legal title to the presidency.

NEW YORK, 3.—A letter from Caracas, says: Jose Miguel Barcellon, president of the House of Representatives of Venezuela, was shot dead by Eduardo Scanlon, editor of the *Tribuna Liberal*. A dispute arose between the two men in consequence of a political difference. Shortly after the dispute Barcellon met Scanlon in the street and fired at him several times without effect. Having emptied his own revolver, he borrowed that of his friend, Gen. Juan de Marta Gusman, and fired again. Scanlon then fired two shots, both of which took effect, and Barcellon died that evening.

BOSTON, 3.—A party of eight young men went down the harbor in a sail boat yesterday afternoon, and when off Thompson's Island, the boat capsized. John and Stephen Lovering, brothers, and Stephen Crabb, were drowned.

FOREIGN.

LONDON, 1.—According to a telegram dispatched by Rear Admiral Balsch, from Folkestone, 183 men were saved. Most of the estimates give the *Grosser Kurfurst's* crew at about 500.

A report, resting upon the authority of the Sandgate coast guard, says 255 were saved. The coast guard, however, state they are informed that the *Grosser Kurfurst's* crew was nearer that number than 500.

It is reported that 22 of the rescued have since died from exhaustion.

Witnesses state that the *Grosser Kurfurst* had starboarded her helm, intending to cross the bows of the merchantman, and the *Koenig Wilhelm* ported, apparently to pass the stern of the same vessel. The *Grosser Kurfurst* having somewhat lost in turning, they thus met.

The Admiral states that the *Grosser Kurfurst* sank quicker than the officers of the other vessel deemed possible. It appears that the *Grosser Kurfurst's* officers also underrated the damage, as they commenced an attempt to turn the vessel's head shoreward. Some spars fell at the time of the collision, probably preventing the launch of the boats, one of which was filled with men, hanging from the davits when the vessel sank.

A special from Copenhagen reports that Russia has purchased the fast Swedish steamer *Meotala*, to be used as a cruiser.

A dispatch from Vienna says: Austria intends to concentrate troops on the River Save.

The *Daily News*, in a leader, says: "We have reason to believe that early next week Parliament will be informed that arrangements have been concluded for the meeting of the congress."

The *Standard* gives a similar assurance.

The *Times*, in a leading article, does not fully endorse the sanguine statements of the *Daily News* and *Standard*, and considers that a number of details remain in which an understanding may be well thought desirable.

It is probable that Lord Beaconsfield will be the chief British representative to the congress.

A Vienna correspondent says: The Turkish people and the army, especially the latter, are greatly irritated by the reinstatement of Mahmoud Damad Pasha and other reactionary signs.

A St. Petersburg dispatch says: The public are semi-officially warned not to believe the various reports concerning the concessions by Russia. The people, nevertheless, fear they are too great.

The *Agence Russe* says: The congress will hold only one session, during which the basis of peace will be settled, and the final treaty signed. The congress will also make arrangements for the execution of the treaty and for the organization of the various local commissions to supervise the same.

The conference of ambassadors at Constantinople will supervise the operations of these commissions.

The iron clad *Koenig Wilhelm* has arrived at Portsmouth. She will go into the dock for repairs. Her forward compartment is full of water.

LIVERPOOL, 2.—The Williams & Guion steamer *Idaho* went ashore on Saturday in a fog, near Koningberg light ship, on the coast of Ireland, and afterwards foundered. The crew and passengers were saved.

BERLIN, 2.—While the Emperor was taking a drive, this afternoon, some shots, apparently proceeding from a house in the Avenue Unter Der Linden, were fired at him. The Emperor was wounded in one arm and on the cheek by buckshot and small shot. The would-be assassin is a Dr. Nobeling, occupying apartments at No. 18, Unter Der Linden. When his door was forced open he fired upon and wounded the hotel-keeper, and tried to commit suicide, but was secured. The Emperor's personal attendant jumped into the carriage and supported the Emperor until the carriage reached the palace. The Emperor was conveyed to bed, and several grains of shot were extracted, causing great loss of blood. The Emperor suffered great pain, but never lost consciousness. At 7 o'clock this evening, no serious apprehensions were felt as to his condition.

LONDON, 3.—In consequence of Dr. Nobeling's attempt to assassinate the Emperor of Germany, the crown Prince Frederick William and wife have started for Berlin.

It is announced that Count Schouvaloff started for St. Petersburg last night. From there he will go to the congress. Papers, usually credited with official information, state their belief that government intends to announce to Parliament to-night that an understanding relative to the congress has been reached, and the invitations been issued.

The Post announces that Lords Beaconsfield, Salisbury and Odo Russell will represent England. The two former intend to embark on Thursday, probably in a man-of-war, with an escort.

The officers of the German *Koenig Wilhelm*, declared that the collision was caused by the failure of her steering gear.

The Post, in a leader, says: Affairs have been so far agreed upon in principle that it is estimated that congress can conclude its labors in eight sittings. These, with the necessary intervals for drafting minutes, would occupy about three weeks.

The Post's Berlin special states that 30 shots have been extracted from the body of the Emperor.

A Pera correspondent states: That the Porte has informed England and Russia that it has agreed that Thessaly, Epirus and Crete shall be annexed to Greece, and that all the Turkish provinces shall be made autonomous. A Turkish officer has gone to San Stefano to demand an explanation of the recent suspicious movements. All the Turkish commanders have been ordered to be in readiness to resume hostilities.

A Pera special says: Boatloads of troops and material are arriving daily from Shumla.

A Vienna dispatch says: The Russians have arranged for a mutual withdrawal from the vicinity of Constantinople as far as England is concerned, but stipulated that the Turks must evacuate Shumla and Varna, and not advance beyond the lines of Tchataldania.

BERLIN, 3.—The following is taken from official accounts and bulletins published in regard to the attempted assassination of the Emperor. Nobeling fired twice with a double barreled gun. The Emperor received about thirty small shot in the face, head, both arms, and back, but last evening his general condition had improved in a satisfactory manner. An immense crowd, from all parts of the city, thronged into the Avenue Unter Der Linden upon the news becoming known. The assassin is Carl Eduard Nobeling, a native of Kollno, near Birnbaum, aged 32 years. He is a resident of Berlin, a doctor of philology, an agriculturist, and habitué of the democratic socialist clubs. A quantity of arms were found in his apartment. He fired on the persons attempting to arrest him, with a revolver, and then inflicted severe wounds on his own head. He confesses the crime, but obstinately refuses to state his motives. He is at the Molkenmarkt police district, at-

tended by his mother and daughters.

A strong escort of mounted police barely sufficed to protect Nobeling from the mob when going to the hospital. There was a rumor current that the assassin's name was Ludwig, and that he was a religious fanatic. This, however, seems to be based on the fact that a pile of the Ultramontane journal *Germania* was found in his room.

A later telegram says Nobeling confessed that he cherished a murderous design for eight days because he considered the Emperor's removal would be a public benefit. He declared that he favored socialism, and had attended socialist meetings. Some accounts say that Nobeling is supposed to be dying. It is known that a few days ago Nobeling unsuccessfully applied for government employment.

VIENNA, 3.—Count Andrássy has informed the Hungarian delegation that he had received positive communication that the congress would assemble on the 11th of June. The fact that Germany had issued the invitations was a favorable sign that the basis on which the congress had been summoned was already accepted by Russia and England.

CONSTANTINOPLE, 3.—In consequence of the failure of the Porte's commissioners to pacify the Mohammedan insurgents, the Russians and Bulgarians have attacked their positions, but have been everywhere repulsed except near Ortrakeni.

The Porte has prepared a memorandum for the congress declaring that it was hurried into signing the San Stefano treaty by the Grand Duke Nicholas at each pause of the negotiations, threatening to advance on Constantinople.

HOUSEWIVES, read the advertisement of M. B. Sowles, in regard to the Howe and Singer Sewing Machines. The expiration of the patents by which colossal fortunes have been made out of the American public, opens the way for the manufacture of those machines, with all the improvements, by other firms, and, naturally, the old patentees feel sore about it. But the public gain the benefit, and so there is not much general mourning. Read what Mr. Sowles has to say and form your own conclusions.

Harvesting Commenced.

The Osborne Self Binder at work in the field.

LOS ANGELES COUNTY, Cal., May 11, 1878.

M. Ayers, Esq., San Francisco, California:

DEAR SIR: Having to-day tried one of your Osborne Self Binding Reapers in a field of barley that was badly tangled and fallen, I find it a perfect success, not failing to bind a single bundle. After trying it to my entire satisfaction I have purchased and paid for it and cheerfully recommend it to any one having grain to cut.

Yours respectfully,
E. W. WORSHAM.
P. O., Norwalk, Los Angeles Co., Cal.

A. J. Johnson, Salt Lake City, is the General Agent for these celebrated machines. He has already secured orders for a good number of them, from the most prominent farmers throughout the Territory.

Farmers, by their use you save time, you save grain, you save money, and an endless amount of toil and trouble.

Send for price list and circular.
