## BREVITIES.

A consolation for the ladies—This world abounds with him-perfections.

Why is innocence like an umbrella? Because, when we have once lost it, we may never hope to see it back.

The ladies say that all the bustle that is made about the Grecian bend is newspaper stuff.

A Brooklyn young woman hasn't had any sleep or any victuals in five years. She is not corpulent.

In writing a hymn don't be too particular about the matter you use—it's hymn-material.—*Louisville Cour. Jour.*

Speaking of apples, it is remarkable that the first apple in Paradise should have turned out a "pair."

"Will you have me, Sarah?" said a young man to a modest girl. "No, John, but you can have me if you will."

The fastest judicial time on record has been made by Judge Dowling, of New York. He put through forty-three cases in ninety-five minutes, one day last week.

Charley relating his boarding school experiences: Clara—And when do you have breakfast? Charley—Just as soon as the parson gets through reading the contract over the hash. Clara—Grace-ful.

A "reliable gentleman" tells how he picked up two dead water-snakes which had partially swallowed each other. Each snake had commenced swallowing the other's tail, and they continued the operation until their heads met.—*Ex.*

"Nasby" is engaged in writing a picture in which he narrates the experiences of an Apache Indian sent out by the tribe as a missionary to raise the American people to their moral standard.

A stranger meeting a man in the streets of Boston, a few days since, roughly accosted him with, "Here, I want to go to the Tremont House!" The deliberate cry was, "Well, you can go, you won't be gone long."

When a distinguished American said a shrewd and sarcastic observer not long ago, "his admiring friends and countrymen immediately resolve to build him a magnificent monument, and then—they don't build it."

The editor of a western paper in his obituary says: "We cannot exist any longer on firewood, maple sugar and cheap prints. We bid our patrons good-bye and offer for sale two hundred bushels of seed potatoes, slightly frost-bitten."

Visiting St. Andrew's College shortly after that institution had made itself infamous by selling its honors, Dr. Johnson asked the provost how the college was prospering. The provost complained that it was poor. "Well," said Johnson, "you have only to keep on as you as you begun, and you will be rich by degrees!"

A legal gentleman in Bethel, Me., on the morning of the late earthquake was visited by his neighbors as he went into the village if he had whipped his dog that morning. Last year, after the earthquake, the poor dog got a whipping for breaking a plate which it was afterwards proved was broken by the earthquake.

A colored member of the Texas Legislature was met upon the street with a large roll of greenbacks in his hand looking at his pile, and was cackling aloud that he attracted the attention of a bystander, who said to him, "What are you laughing at, Jim?" Jim replied, "You see that money?" "Yes." "Well, Boss, I just got that for my vote; I've been bought four or five times in my life, but dis is de fust time I ever got de cash myself."

"Ma, has Aunty Jane got bees in her mouth?"

"No, my son; why do you ask such questions?"

"Because I heard Mr. Briggs tell her that he would take honey from her lips, and he was so long about it I wondered he didn't get stung."

Appropriate names—for a printer's wife, Em; for a sport's wife, Bet-ty; for a lawyer's wife, Sue; for a General's wife, Sally; for a teamster's wife, Carrie; for a fisherman's wife, Net-ty; for a shoemaker's wife, Peg-gy; for a carpenter's wife, Mat-tie; for an auctioneer's wife, Bid-dy; for a chemist's wife, Ann-alize; for an engineer's wife, Bridg-et; for a farmer's wife, Gerusha.

A short time before his dissolution, an eccentric individual expressed a desire that his remains should be deposited in the sea without ceremonies. This was done. The reason of his request was from a determination to disappoint the intentions of an affectionate wife, who had repeatedly assured him in their domestic squabbles, which were numerous, that if Providence permitted her to survive him, she would revenge her conjugal vexations by sensationally dancing on the turf that covered his grave.

### WASHINGTON.

**Appointment.**

WASHINGTON, 2.—The President has appointed J. H. Taylor postmaster at Bozeman, M. T.

It is thought that executive measures will soon be taken for ordering Kansas squatters, who have settled on a portion of the Indian Territory, to vacate it under certain penalties, the land having been set apart for the sole use of the Indians.

### NEW YORK.

**More Corruption.**

NEW YORK, 2.—The Republican journals publish a statement of the rents paid for the city armories, from which it appears that fourteen armories are rented at the yearly cost of $190,600. It is declared in the most liberal estimate, that the places are actually worth but $44,600. It also appears that $85,500 are yearly paid out for armories that are not occupied at all.

**Conkling is for Grant.**

TROY, 2.—A letter from Senator Conkling to J. H. Griswold is published today, in which the Senator says the Republicans of the State are not divided upon any principle at stake or upon any practical measure. He asks if the Republicans will desert their cause merely because the loaves have not come to their baskets or fishes to their nets? He declares his willingness to labor side by side with any or all Republicans, and announces for General Grant because, aside from his personal friendship for him, he believes he has made a better President than he or any who voted for him had a right to expect. With him as a candidate success is assured; while with any other success is not certain.

**Rumored combination of Railroad and Steamboat companies.**

NEW YORK, 2.—Rumors have been circulated in business circles to the effect that a consolidation of the Pacific Mail S. S. Co., the Union Pacific and Panama Railroad Companies has been agreed on by the managers, subject to ratification by the directors, who are to meet next week. Well-informed parties say these rumors are incorrect, and that the only ground for them is the fact that the Pacific Mail and U. P. companies have for some time had under consideration the subject of the adoption of a uniform tariff for freight.

**Indictments for Manslaughter.**

The indictments found against the President and Superintendent of the Staten Island ferry company and the engineer of the *Westfield*, are for manslaughter in the third degree. The indictment against James K. Matthews, United States inspector of boilers, is for manslaughter in the fourth degree. There is a great deal of speculation already as to whether trials will be actually had, the probability of the plea of guilty being made by the accused being strongly talked of.

**The Municipal difficulties.**

The joint committee of the board of supervisors and aldermen, believes that all the gentlemen designated as coworkers in the examination of the city accounts will consent to serve. A meeting is promised to take place at an early date.

One of the bills rendered to Charles H. Marshal & Co., by the quarantine officials, in the case of the ship *W. F. Stover*, foots up the sum of $2,940 for boarding patients in hospital and miscellaneous medical attendance. This account does not include the expenses of towing or charge of maintaining the crew and 250 passengers, during ten days, nor the charge for meat, for which five hundred dollars was paid out at one time.

### PENNSYLVANIA.

**The Defaulting War Claim Agent.**

PHILADELPHIA, 2.—The *Evening Telegraph's* Harrisburg special says, a criminal requisition for Evans, the alleged defaulting war claim agent, was sent last night to New York. Last night the proper affidavits were made before the Governor, that Evans was an embezzler and a fugitive from justice, and Governor Geary at once issued the requisition.

### MICHIGAN.

**Railroad accident.**

DETROIT, 2.—Two emigrant cars on the Detroit and Milwaukie R. R., were thrown from the track this morning, near Linden. One woman was killed and seventeen emigrants were more or less seriously injured.

## PACIFIC COAST DISPATCHES.

**Miscellaneous News.**

SAN FRANCISCO, 2.—The San Joaquin and King's River Canal and Irrigation Company, with a capital of ten million dollars, has been incorporated, the object being the construction of canals from San Joaquin and King Rivers, and their tributaries, and also from Tulare Lake and other waters for the transportation of passengers and freight, and water power, irrigation, providing water for mining purposes, dealing in real estate, and furnishing cities and towns with water.

J. Breton, the French Vice Consul at Sacramento, was arrested here to-day on an indictment for managing the California Emigrant Aid Lottery, in Sacramento. He gave bail to the sum of $2,500.

Englerke, shot by Patten at Oakland, is reported to be improving, though the wound was at first supposed to be fatal.

DEEP CREEK, 2.—John H. Emery, deputy sheriff from Eureka, arrived here yesterday in search of Robert Hamilton, who stole $4,000 from Mr. Evans at Eureka on the 24th. Learning that Hamilton would pass through the cañon twelve miles east of here during the night, he went with three men armed with shot guns. About one o'clock Hamilton came along. Emery ordered him to halt and throw up his hands. His horse started forward, when eight shots were fired. Hamilton's horse threw him and neither shot took effect. He escaped into the mountains and was captured by sheriff Emery to-day. Only seven hundred and fifty dollars were recovered.

### LOUISIANA.

**A Bribery case.—Sanitary condition of New Orleans.**

NEW ORLEANS, 2.—The name of U. S. Senator West figures in the water works bribery business, in the city council; and prominent State officials are reported largely interested in the scheme.

Dr. Russell, secretary of the board of health, states in an official note, that there is not a case of yellow fever in the city. The *Picayune* says a providential interposition perhaps has kept sickness from our doors. The health of the city has been preserved in the face of the most utter disregard of sanitary precautions. The canals are stagnant with impurity, and vegetation, green and rank, covers their surface, and decays and festers beneath the hot rays of the sun. Pools of fetid water, the receptacles of dead animals and the sweepings of the levee, are scattered over the Batture property, filling the air with sickening odors.

## FOREIGN NEWS.

### PRUSSIA.

**Germany and Austria.**

BERLIN, 2.—The Cross *Gazette* states that the intention of sending to the diplomatic representatives of Germany abroad a circular communicating the character of the results arrived at in the negotiations has been relinquished. Reassuring explanations will be sent only when disquietude is expressed

### FRANCE.

**Communists sentenced**

PARIS, 2.—The court-martial at Versailles has sentenced Brissy, the communist leader, to death.

VERSAILLES, 2.—Quertier states that the third installment of the war indemnity, amounting to half a milliard of francs, has been paid to the Germans. He implored the Assembly not to adjourn until it had provided ways and means for meeting the financial demands of the government.

The court martial has been deliberating with closed doors since six o'clock this morning, and has just pronounced the following sentence on members of the Commune brought before it for trial: Ferre and Lullier to death; Urbain and Trinquet to imprisonment for life at hard labor; Assi, Bellivary, Champy, Regere, Grousset, Virdure and the Ferval deputation to confinement in the Fortress of Jourde; Rastoul, the Sunple deputation, and Courbe to six months' imprisonment and a fine of five hundred francs; Clement to three months' imprisonment; Des Camps and Pareut are acquitted.
