"Yes," I said, "why don't they take them to Newport or Ashbury Park? Infatuat d mothers, not to hie to the mountains and the seashore. It prob-ably never occurred to them. Suppose we stop and suggest it." "No," said Nione. "They seem to be ill. It might be smallpox." "Nonsense. It's the prickly heat. This however, is only the population of the plain of Tempe. The ruins,still uncovered, but traced by unmistaka-ble surface indications,extend through the foot-hills into the mountains, over them, and across the next valley, and again across another range, and into a third valley. In the mountains the buildings a tre of stone instead of the bottom of the support themselves, and sell 9,000,000 "Weil, I want Are all forest tr "Weel, I want "Weil, I want are all forest tr "Weil, I want are all forest tr "Have you bo "Yes." "Gi' me 'The Bounds to place the the ancient popu-state of the foot-hills into the mountains, over a stat the bottom. "Why do they the bottom of the They live in ovens, ill-ventilated, ver-min infested—many of them disease-saturated They do not get water enough. They gasp for air and they break out all rver. Taeir cries go up from thousands of dwellings. Their mothers are worn out and cross, their tathers work hard and must rest when they come home. Thea the family ad journ to the cooler street for self pro-tection. Es. ex Street suddenly empties north-satisfied into a the fields are terraced and divided by low stone walls. Mr. Cashing is satisfied that these unins erand Colorado, and throughout all the plains and valleys of Arizons, as far est as the Rio Grande, and South in-ta her part of the town people went indoors for protection; here they came outdoors for it. The streets that cross the avenue the woole Pacific slope from Alaska to chall. The streets that cross the avenue the whole Pacific slope from Alaska to Chill.
The ruins of Los Muertos are being thoroughly examined, because they have been souried, and therefore protected from the ravages of time, tourists and tranchers. Tweaty-two large hlocks of buildings have been unacovered, and three car loads of relics have been sent three sections. These relics consist of pottery, implements and skeletons. The toole walls are 300 feet long, and many of the building is a pyrait. Connaected with each building is a pyrait to function the base of which are the function of the base of which are the function the base of which are the concrete remaines through divided into a great number of small rooms, indicating a large population to each block. The roofs were of congret that have disappeared atterly.
Ti s evident that these clics were of congretation of timbers. The tools were of the section have fallen in Here and there the concrete remains in position, retailing an impression of timbers. The indication is position. The addition is a pyrait to an any thim could escept that they disappeared atterly.
The sevident that these clics were of congretation the there the concrete remains in position. The roofs were of congretation in the section have the stable is there the concrete remains in position. The roofs were of the section have the there the concrete remains in position. The roofs were of the sect are all alike. Narrow ditches between usending rows of tenements six and seven stories high as far as the eye can travel. As you look down them totravel. As you look down them to-wards the river an intense picture of life reveals itself. Une sees what looks like dense myriads of people choking the sidewalks and roadway. A wild jargon comes to you, for these roadways are the playgrounds of count-less children. The parallel walls of the buildings on either side show every window with a human figure hanging out and watching the mob be-low. A babel of costermongers, or-gan-grinders, juvenile baseball clubs, prize fighters and the unending ven-dettas carried on by the clans of an-tagonistic neighborhoods deafens you. To get brough with a carriagewas slow and perilous work. The driver was assailed with tematoes, Dirty urchins cimbed into the vehicle benind and ran under the borse's feet. The warn-ing voices of mothers came at us con-tisually when the coschman tried to tisually when the coachman tried to plet his way through the groups. At the corner of Avenue B and Seventeenth Street there was an in-At the corner of Avenue B and eventeenth Street there was an in ipient fois, and spoleceman came and sked us if we were looking for any hing. It turned out that the boys were only teasing a Chinese laundry mas. We drove over some of bis lines as we passed. On the set is block we were stopped by the people and found ovrseives is a crowfol curicus and under the statism outward. Thus and women. Thus detained we had an opportunity of studying the situation at close quarters. The intense life of the painet we system the situation at close quarters. The intense life of the painet we system the situation at close quarters. The intense life of the painet we system the situation at close quarters. The intense life of the painet situations in points. "Yes," said the policeman; "it's aw-fully rough on the little ones. You ought to come down here at high tang see 'sem aleeping on the walk.
