Plot Was Primarily Directed Against The Manchurian Dynasty-Gunboats of Other Nations Assisted.

Washington, April 13 .- Quick action and common sense treatment of a critical situation by an American naval officer in China recently saved the foreign residents in the province of Quong Tung, on the east bank of the Canton river, from failing victims to a plot, which, while directed primarily against the Manchurian dynasty, inevitably would have culminated in an attack on the foreign population. While this attack was averted by the precautionary measures taken by Commander F. J. Drake, commanding the United States ship Monterey, with the assistance of the English gunboats Sandpiper and Britonmart, the French gunboat Avalanche and the German tug Shameen, the qoalition known to have fermented the trouble extends to several provinces, and official advices received at both the state and navy departments show that reactionary measures on a scale far larger than is admitted either by foreign representatives of the Chinese government, have been planned by the rebels.

Hearing that a force of rebels led by Hung Chun, a native of Wachow, had planned an attack on the viceroy and Chinese officials of Canton during the celebration of the Chinese new year during the nights of Jan. 28 and 29, Commander Drake prepared to defend the foreign residents. An armed force of 3,000 men had entered Canton surreptitiously several days before he learned the news and were hiding with sympathizers.

As most of the foreigners and official representatives of the nations resided in Shamen, Commander Drake first completed his plan of defense and then, to allay the excitement which prevailed, he officially informed the con-be pursued in case Shamen Island was attacked. The foreign commanders of-fered to meet any trouble that developed, whether on the island or on the water Instead of visiting the holy temple in the inner city at midnight to offer incense, the viceroy and officials, con-trary to long custom, remained in their yamens securely guarded. Around the viceroy yamen alone assembled 4,000 armed troops. By 7 o'clock the gates to the city were closed and the streets stripped for action. Many arrests were made that night and large amounts of stores were seized in houses and shops n Fong Chung and Fates, opposite Belvidere, N. J., April 14 .- Patrick Many other indications of the intended attack were found and the officials agreed that the rebels abandoned their plot only because of Commander Drake's discovery and his prompt ac-tion and that of the foreign commanders in taking ample precautionary mea-sures. The landing of an armed force from each of the foreign warships had en agreed on by the American, Eng. lish and French commanders at the first evidence of attack.
