

# TAFT EXPLAINS HIS MISSION

Its Purpose is Solely for Uplifting of the Fallen Republic.

HE IS WINNING HIS WAY.

His Various Acts Have Done Much to Ingratiate Him with the Cuban People.

Havana, Oct. 1.—Gov. Taft's acts today have gone far to win him a home place in the hearts of the people whose destinies have been placed in his hands.

Presiding this morning at the opening exercises of the University of Havana, he declared his mission here was solely for the purpose of uplifting the fallen republic and restoring it to the path of prosperity, an announcement which was received with demonstrations of delight by an audience representative of the highest society in Havana.

## SECT. TAFT'S ADDRESS.

Following is Secy. Taft's address before the Havana university:

"I count it a peculiar honor, in my temporary representation of the executive of Cuba, to participate in the exercises of this great university. This is especially interesting to me because when exercising the executive function in the Philippines I took part in a similar ceremony in a university founded by the same order, but more than a century before this university was founded.

"Those of us who have come close to Spanish civilization have been impressed with the consciousness that the Anglo-Saxons have much to learn from the intellectual refinement, artistic temperament, poetic imagination, high ideals and courtesy of the Latin-Spanish races. Spain has exerted a tremendous force in civilization and progress, but nations, like men, suffer reaction. The civilization of Spain and all her institutions were founded on the idea of the control of the state by one man or a few men. That idea has ceased to have force. The Anglo-Saxons have brought to the front the idea that a people who are sufficiently educated to know what their rights were could more safely be trusted to determine how these interests should be preserved than one man or a few men, and because in the development of this idea we have the advantage of 200 years' education in self-government, we unreasonably plume ourselves with superiority in the knowledge of government, which only circumstances have given us.

TASK OF UNITED STATES.

"It has recently fallen to the lot of the people of the United States, who have struggled along the road to popular government and fallen down and picked themselves up again, to aid some countries who have not had that experience in coming to the enjoyment of the benefits of popular government. The republic of Cuba has progressed so rapidly in the last four years as almost to intoxicate the believers in popular government. It was like the growth of a tropical plant, which needed cutting in order that the stalk might gain strength. It is perhaps necessary that the Cubans should be warned that the foundations of self-government must be broad and solid rather than high and precarious. It is necessary for me to be called to Cuba, and still sadder to the president, who is so identified with her liberation, that we are here at the time of a stumble in Cuba's progress toward popular government, but it has given us an opportunity to assure you in the name of the president and the American people, that we are here only to help you. With our arm under your arm, we are lifting you again on the path of that wonderful progress you have traveled. We shall, I am certain, be able to point with pride to the fact that the United States is not an exploiting nation, but that she has such deep sympathy with the progress of popular government as to be willing to expend her blood and treasure in making the spread of such government in the world successful.

CUBA'S DIFFICULTY.

"Your difficulty was that you were

### Spice Perfection

Sold on Merit

Always the Same

## J.A. Folger & Co.

San Francisco

### SOZODONT TOOTH POWDER

a delicious dentifrice. Free from acid and grit. Just the thing for those who have an inclination for the niceties of every-day life. Ask your dentist.

when 25 years hence a sympathetic stranger comes here, he may not find a political class, a commercial class and the sciences and professions all divided, so that you do not lack the benefit of a mixture of all to form that combination without which a successful republic is absolutely impossible.

"Nobody ever achieved a high ideal without failing two or three times, and failures must be made vehicles to success. Each failure ought to teach avoidance of that particular danger. When everything goes smoothly and you are on the high road to success, then is the most dangerous time. Humbled by the lessons of disappointment you are in a proper spirit to win success.

"Viva the Republic of Cuba."

Following this it became known that Gov. Taft and Asst. Secy. of State Bacon had cabled for their ways to join them here, a step which cannot but be most agreeable to the Cuban people, and which will strongly cement the bonds of affection between them and the American provisional administration.

Still another act of Gov. Taft's is warmly commended as illustrative of his thoughtful consideration of the humbler classes. Learning that many poor families occupying the temporarily disused barracks at Camp Columbia were about to be summarily evicted by order of the Cuban authorities in preparation of the occupation of the quarters by the brigade of marines, Gov. Taft directed that these people remain undisturbed in their homes for a period of 15 days. In the meanwhile a portion of the marines will remain under canvas. The order for the eviction had been issued in the name of the provisional government. Learning that the plight of the present tenants of the barracks, Gov. Taft went to Camp Columbia in an automobile, explained that he had not been aware of the conditions and rescinded the order. He left the camp amid cheers and warm expressions of gratitude from the people.

The news of this act of humanity spread rapidly and received the highest praise. These evidences of American good will have earned such general favor and esteem that the landing of the battalion of marines which will constitute the garrison here causes hardly a ripple of excitement.

Much of the governor's time today was occupied in receiving officials of the various departments, and judges of the courts. With the members of the supreme court Gov. Taft held a prolonged conference concerning the drafting of a proclamation of general amnesty. This decree is of the utmost importance, in view of the fact that on many points on the island, notably in the center of the island, the law is awaiting the disposition of political charges.

The governor today appointed Maj. Eugene F. Ladd and Alexander Gonzales a committee to audit the accounts of the treasury.

Joseph J. Montenegro and Carlos Hernandez, members of the dramatic commission, left here tonight to receive arms from rebels at Santa Clara, Sagua la Grande, Esperanza, Cienfuegos and other points in the center of the island. The laying down of arms by the rebels in the vicinity of Havana will begin tomorrow, when the men will be entrained for their homes.

### THE HOPE OF CUBA.

"The hope of this country is in its educated youth. While I do not want to jar or make uncomfortable those youths who are entering active life, I must speak the truth. There are one or two traditions still persisting in this civilization. The first of them is that the learned professions are the only pursuits worthy the graduates of this university. This is a great mistake. University education is not an obstacle to success in commercial life. I am afraid that young Cubans are not sufficiently infused with that mercantile spirit of which we have too much in the United States.

"What you need is the desire to make money, to found great institutions and carry on the country's prosperity and young Cubans or rather most of them ought to begin in business. There would be no trouble in forcing yourself ahead in the next generation, so that the banks, commercial houses and shipping interests of Cuba would be in Cuban hands instead of in the hands of foreigners. You must have foreign capital, and the debt of gratitude this country owes that great man, Estrada Palma, is that he realizes more than other Cubans the necessity of bringing in capital and convincing the world of the conservative character of your government in order that foreign capitalists might depend on its security. But the right of property and the motive of accumulation is the basis of all modern success and civilization, and until you have a community of political influence and control which is affected by the conservative influences of property ownership, successful popular government is impossible.

## ADVICE TO YOUNG CUBANS.

"Therefore I urge the recipients of these diplomas, if they have Cuban estates, to devote themselves to the betterment of their estates, and that other enter commercial pursuits, so that

## COAL PRODUCTION.

Washington, Oct. 1.—The geographical survey made public statistics on the production of coal in the United States in 1905, from these it appears that in quantity and value the production surpassed all previous records in this country. The output amounted to 339,919,451 short tons, which had a tonnage of \$476,756,932, compared with 1904, the output in 1905

exhibits an increase of 41,102,943 short tons, or 11.7 per cent in quantity and of \$22,225,742 or 7.3 per cent in value. The total production of this country last year was nearly 50 per cent larger than that of Great Britain, which, until 1902, was the leading coal-producing country of the world. The largest part of the increased production in 1905 was due to the great activity in the iron industry.

## TO SAVE THE FORESTS FROM DESTRUCTION.

San Bernardino, Cal., Oct. 1.—The people of San Bernardino, through the board of trade, have appealed to President Roosevelt to have the big forests of this county from destruction at the hands of timber cutters. A resolution has been adopted and forwarded to the president, asking him to incorporate in his next message to Congress recommendation of a law to conserve the forests. It is urged that the government should exercise the right of domain and acquire all private and corporate holdings of land that are now being denuded of timber. Nothing short of government ownership, says the language of the petition, will serve to stop the timber cutting. It is pointed out that the destruction of the timber has already seriously affected the rainfall, and consequently the water supply of the region. The uselessness of government expenditures for forest propagation while wholesale destruction of timber lands is going on by private parties is also pointed out.

## THE NEW BULLET.

Army Will Soon Adopt the Long Pointed One.

Washington, Oct. 1.—The army will shortly adopt the new bullet which was recently tested by several of the target experts at the national rifle meet at Scarsdale and found to be satisfactory by several of the target experts. The new bullet is a long tapered point and is also about one-third lighter, weighing about 150 grains. The new bullet has a greater velocity up to 2,000 yards, a greater energy up to 1,400 yards, a flatter trajectory up to 2,000 yards, and a little better accuracy up to 2,000 yards. The new bullet is a slightly tapered point, the chamber in the rifle, but this can be readily effected in pieces now under manufacture, and the necessary changes can be made in the pieces now in use with but comparatively small expense.

## THE U. S. TRANSPORT SHERIDAN FLOATED.

Honolulu, Oct. 1.—The United States army transport Sheridan, which ran aground on the reef at Kalahele, was floated today with the assistance of the transport Buford. Both vessels are on the way to this port.

The Kimmell's relatives declare the man is not Kimmell, and that Kimmell has not been heard from since his mysterious disappearance Aug. 1, 1898, and that they believe him to be dead.

## AMBASSADOR LEISHMAN.

His Official Reception by the Sultan Has Again Been Postponed.

Constantinople, Oct. 1.—Ambassador Leishman's audience of the sultan which was to have taken place Oct. 2, after a number of postponements has again been postponed. The ambassador has been informed that, in view of the fact that the sultan's birthday is celebrated Oct. 2 and is always succeeded by a religious festival, his reception will be postponed until Oct. 5. The audience, however, is a mere formality and in no wise affects the relations between the embassy and the government, which are normal and friendly.

## THE MEAT DEALERS.

Many Are Without the Pale of the Inspection Law.

Washington, Oct. 1.—At least 75 meat dealers and packers throughout the United States are without the pale of the new meat inspection law, which became effective today, according to a statement by Secy. Wilson today. Twenty-five of these already have had inspections but it was found that their plants were not in shape to permit them to engage in interstate business. Fifty others, many of them in New York, have notified the department that they have just heard of the extent of the law and asked for inspection.

## RUNAWAY STREETCAR.

Child Killed and Score of Men and Women Hurt.

New York, Oct. 1.—A child was killed and a score of men and women injured, five or six dangerously, tonight, when a runaway car of the Yonkers Street railway dashed down the steep incline of McAlpine avenue and jumped the track at a sharp turn at the foot of the hill, turned over, burying the passengers in the wreckage. The accident was due to the breaking of a chain attached to the brake.

## SOCIETY WOMAN ROBBED.

Chicago, Oct. 1.—Mrs. Ellen Nagle, a prominent society woman of Canton, Ill., was robbed of \$2,800 in cash and diamonds at the Saratoga hotel today. The gems and cash were taken from a dresser in her room while she slept. The police are searching for a bell-boy who has disappeared.

## LONG DISTANCE RUNNERS.

Chicago, Oct. 1.—Thirty-three long distance runners made their way to Ravinia park, about 20 miles north of this city, for the start of the 40 kilometer Marathon race of the Illinois athletic club. The initial gun was scheduled to be fired at 1 o'clock this afternoon.

## PUBLIC DEBT STATEMENT.

Washington, Oct. 1.—The monthly statement of the public debt shows that at the close of business Sept. 29, 1906, the debt, less cash in the treasury, amounted to \$24,545,103, which is a decrease for the month of \$16,122,190. This decrease is accounted for by a large increase in the cash on hand, due to interest-bearing debt, \$925,159,200; debt on which interest has ceased since maturity, \$10,126,375; debt bearing no interest \$309,125,713. Total, \$1,334,459,288.

This amount, however, does not include \$1,507,325,889 in certificates and treasury notes outstanding which are offset by an equal amount of cash on hand, which is held for their redemption. The cash in the treasury is given as follows:

Gold reserves, \$150,000,000.  
Trust funds, \$1,067,323,869.  
General funds, \$19,949,387.  
In National bank depositories, \$124,619,828.  
In treasury Philippines islands, \$5,314,734.  
Total, \$1,544,307,373, against which there is a demand for \$1,175,054,873, which leaves a cash balance on hand of \$371,252,506.

## INTERESTING INSURANCE CASE.

St. Louis, Oct. 1.—The trial of an interesting insurance case was begun today in the United States circuit court to determine whether or not the Kinney, former president of the Farmers' State Bank of Arkansas City, Kas., is dead or is a maniac confined in the Mottewan asylum in New York. The

# SKIN ECZEMA IN WORST FORM

Black Splotches All Over Face—Produced Severe Itching—Year's Treatment by Physicians Did No Good and Became Despondent—Affected Parts Now Clear as Ever—Alabama Lady's

## CURE BY THE CUTICURA REMEDIES

"About four years ago I was afflicted with black splotches all over my face and a few covering my body, which produced a severe itching irritation, and which caused me a great deal of annoyance and suffering, to such an extent that I was forced to call in two of the leading physicians of my town. After a thorough examination of the dreaded complaint they announced it to be skin eczema in its worst form. They treated me for the same for the length of one year, but the treatment did me no good.

"Finally I became despondent and decided to discontinue their services. Shortly afterwards, my husband in reading a copy of a weekly New York paper saw an advertisement of the Cuticura Remedies. He purchased the entire outfit, and after using the contents of the first bottle of Cuticura Resolvent in connection with the Cuticura Soap and Ointment, the breaking out entirely stopped. I continued the use of the Cuticura Remedies for six months, and after that every splotch was entirely gone and the affected parts were left as clear as ever. I have not felt a symptom of the eczema since, which was three years ago.

"The Cuticura Remedies not only cured me of that dreadful disease, eczema, but other complicated troubles as well; and I have been the means of others being cured of the same disease by the Cuticura Remedies, and I don't hesitate in saying that the Resolvent is the best blood medicine that the world has ever known." Lizzie E. Sleight, 540 Jones Ave., Selma, Ala.

Oct. 28, 1905

Suit involves the payment of a \$5,000 policy.

The man in the asylum says he is Kimmell. The Kimmell's relatives declare the man is not Kimmell, and that Kimmell has not been heard from since his mysterious disappearance Aug. 1, 1898, and that they believe him to be dead.

GIVEN EIGHT-HOUR DAY.

New York, Oct. 1.—Nearly 1,000 printers and others employed by the Methodist Book concern in this city and Cincinnati, will work on an eight-hour day basis beginning Nov. 1. This announcement was made today by Eaton & Mains, agents for the company.

## DOCTORS SAID HE WOULD NOT LIVE.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me, if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately began to use it. After taking three bottles I began to get better and continued to improve until I was entirely well."
