JAPANESE SEAL RAIDERS KILLED

They Were Slaughtering Seals on St. Paul Island. Off Pri-biloff Group.

THEY REFUSED TO SURRENDER

Raid Believed to Have Been Concerted Affair—No International Complications Likely.

United States Will Offer No Apology Or Further Regret Than That Sent To Ambassador Wright.

New York, Aug. 7.—A special to the Tribune from Washington says:

"A report of the killing of five Japanese fishermen and the capture of 12 Japanese prisoners on Attu island, the westernmost of the Aleutian group, the prisoners having been taken by the revenue cutter McCulloch, commanded by Capt. J. C. Cantwell, was made to the department of commerce and labor today by Edwin W. Sims, solicitor for the department, who is in Alaska to enforce the law prohibiting all persons not citizens of the United States from fishing in Alaskan waters. The Japanese killed were shot by Americans on Attu island before the McCulloch arrived.

"Lawrence O. Murray, acting secretary of commerce and labor, promptly turned the cable dispatch over to Robert Bacon, acting secretary of state. Mr. Bacon will immediately communicate the information he has received to the Japanese ambassador, and will express regret that the Japanese poachers were so summarily dealt with by the Americans on Attu island.

"Because of the encroachment of Japanese fishermen and sealers in Alaskan waters Congress was obliged during the session just ended, to enact two laws calculated to encourage the fishing industry of Alaska among Americans and to prohibit Japanese and other aliens from engaging in it.

"The cable dispatch from Mr. Sims does not make entirely clear the character of the Japanese raid, but it does show that the officers and crew of the McCulloch were in no way responsible for the killing of the fishermen, and that those who were captured were trespassers on American territory, having come ashore probably to raid and cure their catch.

"There is no reason to expect international complications as a result of the incident today reported to Washington, but there is a question as to the situation in the Aleutian islands, and especially as it affects the Japanese is a delicate one, and that numerous difficulties are certain to be encountered in enforcing the laws protecting American citizens and their rights."

DETAILS OF THE AFFAIR.

New York, Aug. 8.—Further details of the killing of five Japanese poachers in the Pribiloff islands, is contained in a special cable dispatch dated Dutch Harbor, Alaska, July 26, via Seward, Alaska, Aug. 7, which says:

"Five Japanese were shot and killed on the island of St. Paul, off the Pribiloff group. The raid was the work of the department of commerce and labor on July 17, as the result of a raid by four Japanese schooners on the seal rookeries.

"The revenue cutter McCulloch reached here today from St. Paul with 12 prisoners, two seriously wounded, who were turned over to Deputy Marshal Harmon.

"The raiders were discovered lying near Northeast Point, St. Paul, by native lookouts of the North American Commercial company, which leases the seal privileges from the government. Word was telephoned from the patrol station near the rookeries for the raiders were aiming and shooting at the sealers. The Japanese, on duty in the Pribiloff islands, arrived on the spot as the Japanese reached shore. He ordered the boat crew to surrender, which they did.

"On climbing the promontory at the end of the cape, overlooking one of the large rookeries, a schooner was seen close in shore. Looking straight down over the cliff, the patrol saw a dozen or more Japanese skinning a number of seals, which had been slaughtered indiscriminately.

"The raiders refused to surrender when Lempe reached the scene and tried to make off with their booty in small boats, several of which were drawn up on shore. The agent then ordered his guard of natives to open fire. The Japanese offered no resistance, being without firearms.

"Three of the raiders fell dead on the beach, a fourth was seen to be thrown overboard from one of the boats that escaped, and a fifth body drifted ashore later in another boat. The men had killed more than 200 seals, many of them cows. Those who escaped carried away about 120 skins.

"The raid is believed to have been a concerted effort by the Japanese, who have been hanging around the island for months and giving the revenue cutter much trouble.

"The Tokwa Maru, a schooner, was overhauled by the cutter Perry on July 5, off the new volcanic island which rose near Bogoslof, 40 miles from here, last March. She was crowded with Japanese, but no seal skins were found aboard. Suspicious of Capt. Duxwood, of the Perry, were aroused and he proceeded to the Pribiloff at once, but a dense fog set in and lasted until the Perry returned here on July 16.

"The McCulloch reached the islands on July 20 and took charge of the prisoners.

"Besides the Tokwa Maru, the schooner Bosso Maru is known to have been in the raid last autumn. Japanese were found fishing and trading with the natives on the island of Adak, the westernmost in the Aleutian chain, and were routed by the Perry.

"The raid is the most serious that has occurred in the troubled history of the rookeries. The last attempt to rifle the island was made about 10 years ago by a schooner flying the Mexican flag.

"She was intercepted by a cutter before carrying out her purpose.

"The raid was supposed to have been planned by Alex McLean. He was known to be in Victoria, B. C., last winter, but left there for parts unknown in the early spring.

"Officials and company men on the seal islands are considerably excited, although no further raids are expected, as the patrol of the Bering sea by the cutter Perry seems to have been successful in capturing even schooners known to have taken part in the raid unless found in the three-mile limit or in open violation of the law.

(Special to the "News.")

This conference is in continuation of the general policy of holding annual meetings of the principal engineers of the reclamation service for the purpose of discussing matters of administration and economics of work. The bringing together of these engineers and prominent citizens of the west makes possible an interchange of views and the discussion of data leading to results of very great value in furtherance of the purposes of the reclamation act.

Each of the engineers, experts and specialists in various lines will submit a brief paper embracing some point of general interest, such as detailed methods of cost of keeping, of designing, of construction, or of operation. Owing to the advanced condition of many of the irrigation projects now under construction it is expected that this conference will be of more than usual interest and importance.

DENVER FRANCHISE CASE.

City Tramway Co. Is Refused a Stay Of Proceedings.

Denver, Aug. 8.—Justice Geo. W. Bailey of the state supreme court today refused the writ sought by the Denver City Tramway company to stay proceedings in the franchise election contest in the Denver county court. Sheriff Alexander Nesbit, thereupon peacefully took possession of the ballot boxes which the city election commission had refused to surrender last night on the order of County Judge Ben B. Lindsey, and the hearing was resumed in the county court.

The corporation had applied to the supreme court for a supersedeas, alleging that the county court was without jurisdiction over the contest. Judge Bailey said: "It is contrary to the practice of the supreme court for a single judge during the vacation of the court to interfere in such a proceeding by writ of prohibition or supersedeas."

DUKE NICHOLAIEVICH TO BE COMMANDER-IN-CHIEF.

St. Petersburg, Aug. 8.—Notwithstanding the improvement in the situation, the Novoe Vremya today announces that it is still the intention of the emperor to place Grand Duke Nicholas as commander-in-chief of the command of the whole army, concentrating the direct authority over the troops composing each separate corps and division in his hands. The paper says the announcement of his appointment may be expected in a few days, and adds that this will not make the grand duke a dictator as the administrative functions will remain in the hands of the minister of war. M. Rudiger, minister of war, is understood to have protested vigorously against the step, and this led to the report that he would be succeeded by Gen. Theppoff, but it appears now that Gen. Rudiger will probably remain in office.

MUTINEERS OF THE LANCASTER

Five Marines Are in Double Irons And Ten Sailors Under Arrest.

THE MEN GOT ON A BIG TOOT.

Got Intoxicated, Tried to Leave Navy-yard, Attacked Corporal and General Flight Ensign.

Philadelphia, Aug. 8.—It became known today that five marines are in double irons on board the receiving ship Lancaster at the League Island navy yard and 10 sailors are under arrest as the result of a mutiny on Monday night in which two of the mutineers were badly injured.

A boating party, consisting of Privates Burnett, Kenney, Haggerty, Alderson, Erbe and Newland left the navy yard. They went to Gloucester, and it is alleged, sold their uniforms. With the money thus obtained, beer was purchased, and when the men returned, they had two half barrels of beer in the boat. They smuggled into camp, and about a score very soon under the influence of the intoxicant.

While in this condition the men attempted to leave the yard, and when they were discovered, the corporal, the alarm whistle was sounded, and the men of the Lancaster quickly responded. A general fight ensued, during which several shots were fired. Burnett, one of the ringleaders, had his throat cut, and Kenney, right arm, was fractured. Alderson nearly lost a leg, and the mutineers were subdued and the principals placed under arrest.

Chief Boatswain Garrett, who was the officer of the deck when the alarm was sounded, summoned all hands and in a few minutes, 40 men, marines and blue-jackets, were on the scene of the mutiny. Burnett attempted to shoot Garrett, but he was bayoneted by Trumpeter Hess and overpowered. The remaining mutineers endeavored to escape into the marshes surrounding the camp, but all were rounded up.

Yesterday Capt. Miller of the Lancaster, ordered Burnett and Kenney to be confined. The trial was quick, and although the findings were not made known because the commandant of the yard must pass on them, it is said that sentences varying from one to five years in the naval prison at Chelsea, Mass., will be pronounced.

Haggerty and Erbe, who while not taking active part in the outbreak, were in the boating party, were given 10 days in double irons in the brig on bread and water, with a full allowance of beer every fifth day.

Today Alderson and Newland were before a summary court-martial board, and the probabilities are that they will be given 30 days in double irons, with their liberty restricted for six months. The blue-jackets will probably be sentenced to 10 days in double irons, with confinements in the brig.

Boatswain Garrett, Sergt. Kibby, Corp. Shay and Trumpeter Hess, as well as the others who helped to quell the outbreak were commended by Capt. Miller.

New York, Aug. 8.—The game scheduled to be played in this city between the New York and Chicago teams of the National American baseball league, at Polo grounds, was postponed today because of the trouble at the Polo grounds yesterday.

President Pulliam, of the National League, gave out the following statement today:

"The New York-Chicago game, scheduled for today, stands in the line of orders as forfeited to Chicago by a score of 9 to 0, and said result has been tabulated and entered upon the action of the umpire absolutely, and I am not sustained by the National league board of directors. I will not only resign my position as president of the National league, but I will quit professional baseball forever. I am a National league man through and through, and will never serve another league.
