OGDEN, UTAH, - APRIL 12, 1901.

### LIVELY CHASE AFTER THIEF

Farcical Arrest of Hobos and Vagrants - Light Fines Imposed.

Distric Court Notes - Obsequies of Mrs. Triplett and Fireman Higman - Children's Concert a Success.

Deputy Sheriff Bailey had a merry chase yesterday after a petty larceny thief from Farmington named White. The man had stolen a wagon cover and a pair of horse blankets from Bishop Secrest of Farmington, and in company with his wife and children drove in a wagon to Ogden. Mr. Bailey saw the man and told him to drive in front of the court house, but instead of him stopping his outfit where he had been told to he drove up the hill. Mr. Bailey got in his buggy and caught him and told him he was wanted at the court house. The fellow turned his team around and drove quickly down the hill, turned along Washington avenue north, and the deputy started after him again, for nearly a half mile White was chasing down the street as fast as his team could run, but he was again overtaken and this time Mr. Bailey did not trust to his coming back but took him to the jail. He soon produced the stolen articles. Sheriff Abbott came to Ogden and turned the man loose. Mr. Secrest refusing to prosecute, but the stolen articles were returned. White said he was going to Shelby, Idaho.

### FARCICAL ARREST OF HOBOS.

A dozen hobos and all around vagrants were arrested late yesterday afternoon by Officers Brown and Hutchins for rushing the groveller and begging from the people on lower Twenty-fifth street. The men were marched over to the police station and immediately given a hearing before Justice Hall, who sentenced five of them to two days on the rock pile and turned the others loose. Two of the men had been previously sentenced to five days imprisonment and had escaped, and now that they were re-arrested two days was their punishment.

Many people are beginning to wonder what justice there is in such sentences either to the officers who do their duty in arresting violators of the law or in give such a small sentence to worthless hobos.

Last evening Mr. D. Leasenger and E. M. Phelps, representatives of some California capitalists, left for Fossil, Wyoming, to examine the oil fields there, with the purpose in view of buying up more land in that section.

### COURT NOTES.

Before Judge Rolapp in the Second district court.

Charles Layfield and George Bennett, charged with burglarizing Rackham's store at Wilson and Hawk's store at West Weber, were arraigned and given until Saturday afternoon, the plea being not guilty. The plea was entered in the case of Olson vs. Oregon Short Line Railroad company, the defendants moved for a non-suit and argued the same, the court took the matter under advisement.

Mitchell vs. Union Pacific Railroad company, court granted an order to open and publish depositions.

In the case of Suggs vs. Suggs, hearing on complaint for divorce was continued for the term.

### FUNERAL SERVICES.

The funeral services over the remains of Mrs. Anna Triplett were held yesterday afternoon at the home of her sister, Mrs. Ezra Huntsman, on Wall avenue. Gilbert Torgerson, of the Third ward, officiating. Very interesting and comforting remarks were made by President C. F. Middleton and Bishop's Counselors Anderson and Torgerson. There was a good attendance of sympathizing friends. The remains were interred in the city cemetery on the family burial grounds.

### THE JUVENILE CONCERT.

Last evening the Ogden Tabernacle was filled to overflowing with an appreciative audience, who listened to the excellent program rendered by some of Ogden's finest vocalists and the chorus of 400 children. The affair was a thorough success. Saturday afternoon, April 13, at 2 p. m., the same program will be rendered, and the parents should surely have their children attend as a rare treat is assured both young and old.

### BRIEFS AND PERSONALS.

Corey Brothers have almost completed the brick work on their new live-barn.

The Healy building is being rushed to completion. The brick work is going up very rapidly.

### A Testimonial from Old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life. She has been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." It is a great pleasure to the manufacturers of Chamberlain's Cough Remedy to be able to publish testimonials of this character. They show that great good is being done, pain and suffering relieved and valuable lives restored to health and happiness by this remedy.

"I have been troubled with indigestion for ten years, have tried many things, and have spent much money to no purpose until I tried Kodol Dyspepsia Cure. I have taken two bottles and gotten more relief from them than all other medicines taken. I feel more like a new man. I have been in twenty years' Anderson Riggs of Bunnys Lane, Tex. Thousands have testified as did Mr. Riggs. F. C. Schramm.

### PROVO.

#### ASYLUM BOARD MEETING.

##### New Buildings Will be Pushed - Sentenced for Stealing Junk.

Special Correspondence.

Provo, Utah Co., April 12.-All the members of the board of insane asylum commissioners were in attendance at the regular monthly meeting yesterday, and transacted the following business:

Appropriations for March were made in the following amounts: Salaries, \$1,387.40; current expenses, \$1,656.61; sundry charges, \$45.00. Total, \$3,089.01.

The treasurer made the following report:

Received during the month..... \$6,713.02

Overdraft March 1st, \$3,243.29

Disbursed during the month..... \$3,139.13

Balance on hand April 1st..... \$3,606.39

The treasurer was authorized to draw on the auditor for \$3,089.40, expenses for March.

R. C. Watkins was employed as architect and superintendent of construction for two cottages or detached wards to be erected here in the summer. It is the intention of the board to advertise for bids for the building of the cottages as soon as the plans and specifications are approved, and building will probably be commenced by the middle of May or the first of June. The cottages will be built back of the wings of the main building, and will be arranged to accommodate from 25 to 30 patients each. The cost will be from \$5,000 to \$7,000 each.

The following table shows the movement of patients for March:

	Male	Female	Total
In asylum Feb. 28th.....	167	159	326
Admitted during March.....	6	4	10
Under treatment.....	173	163	336
Discharged.....	3	0	3
Died.....	3	0	3

### SALT WORKS CASE.

The case of William B. Clark vs. Bliss, Payne, et al, is being heard here by Judge Hart today. This action is brought by the above plaintiff repre-

senting a salt company to restrain the defendants from trespassing upon the company's land, formerly owned by the Adams & Kiesel Salt Works, and from manufacturing salt therein. It seems that through a difference in surveys made in the section where the defendants have their works located, a portion of the latter works are situated on land actually owned by the plaintiff, and the plaintiff now seeks to permanently enjoin the defendants from not only manufacturing salt in these ponds, but from going on their land to remove the salt already manufactured and piled up.

The plaintiff occupied the forenoon in introducing testimony, principally as to the location of section lines, and with reference to the meandering line of Salt Lake in the vicinity of the disputed premises.

The conclusion of this testimony the defense moved to dismiss the cause, on the ground that plaintiff's testimony did not show facts sufficient to constitute a cause of action. Their contention being that, although the cause of action, it was an action of ejectment, a remedy at law, rather than injunctive, or equitable relief. The motion was denied, and the defense introduced evidence.

Thereupon the defense moved to dissolve the existing temporary injunction, until at least, after they had been given a full and complete hearing on the merits of the case. This motion was denied.

Saturday was set as the day upon which the court would decide the whole matter.

### SPRINGVILLE.

#### Beet Planting Campaign - Social Given by Y. M. C. A.

Special Correspondence.

Springville, Utah Co., April 11.-The beet drills are going in every direction planting the beet seed as fast as the farmers prepare their ground which is done with great care and the fields look as smooth as a billiard table.

The nights are quite cool and the spring is backward.

The first ward Y. M. C. A. closed their season's work by giving a grand social to their members, and to the young ladies who continue their work during the summer months.

J. M. Dalton and wife, from Idaho, former residents of Springville, are here visiting friends.

"I had piles so bad I could get no rest nor find a cure until I tried DeWitt's Little Early Bitters. They cured me. I feel like a new man. I have been in twenty years' Anderson Riggs of Bunnys Lane, Tex. Thousands have testified as did Mr. Riggs. F. C. Schramm.

### GRANTSVILLE.

#### Reunion of the Barrus Family - Saloon Kept Out of Town.

Special Correspondence.

Grantsville, Tooele Co., April 11.-On the fifth anniversary of the reunion of the Barrus family took place at the residence of Owen H. Barrus, in honor of the late Emory Barrus, who died on the 6th of October, 1890. Seventy members of the family sat down to a fine banquet, after which the evening was spent in singing sacred songs and social chat.

Emory Barrus was born April 8, 1830, at Hanover, Conn. He was educated in the common schools of his native state, and in 1850 moved to Missouri, and the following year to Nauvoo, Ill., where he bought a city lot, cleared the timber off and planted it to fruit trees, and moved to Grantsville, where he resided until his death. In 1858 he was again called to leave his home, which he prepared to leave, and then let it be the husband of two wives, and his descendants number twelve sons and seven daughters, eighty grandchildren, and great great grandchildren. He was for many years a Patriarch in the Church, being 90 years old at his death, and had been a subscriber to the Desert News for 45 years.

The SALOON KEPT OUTSIDE CITY LIMITS.

Last week an attempt was made to open up a saloon inside the corporate limits of our city, and about 200 feet from the district school. Our Bishop and others made a vigorous protest and started a petition asking the city council not to grant a license to that particular locality. The petition was laid before the council and the council of course refused the license on the ground that it was too close to the school, and would be under the immediate observation of the children, and would have a bad effect. So the proprietors moved the affair just outside the city limits. This is the second attempt to start a saloon in Grantsville, and failed.

Skin troubles, cuts, burns, scalds and itching quickly heal by the use of DeWitt's Itch Hazel Salve. It is indicated. Be sure you get DeWitt's. F. C. Schramm.

### BEAVER.

#### Arbitrary Action of Health Board - Death of Mrs. Mackrell.

Special Correspondence.

Beaver City, Beaver Co., April 10.-Mrs. Mary Ambrozine Mackrell, wife of Fred Mackrell, of this city, has recently died, under the most distressing circumstances. Some five years ago a

perintendent spent most of yesterday inspecting the work of our schools, and conferring with County Superintendent Moynaux.

Last evening Prof. Nelson gave a public lecture, which was an intellectual treat to the intelligent audience which filled every available seat in the new meeting house. The writer has heard Superintendent Nelson many times before, but the lecture last evening was one of the best of the kind that he has given, and it will be long remembered by those who were fortunate enough to hear it. His subject, "Make the most of your opportunities," was specially directed to the great class of prospective graduates.

### A BOAT RIDE DOWN GRAND CANYON.

At 3 o'clock yesterday afternoon a party, consisting of Judge Johnson, Supt. Nelson, District Attorney Livingston, Court Stenographer Iverson, Supt. Moynaux, the male teachers and the trustees of Moab district, and a few others, took a ride several miles down Grand Canyon to Dr. Williams' ranch. Buggies conveyed the party to the mouth of the creek at the head of the canyon below town. There a large boat was in readiness to take all, excepting the teamsters, for a most delightful ride on the river between the perpendicular cliffs that in many places rise a thousand feet out from the water. We landed near the great water wheel, which the doctor has had constructed to bring water from the river up onto his farm. This wheel in and of itself is a wonder, as by the force of the current the wheel is turned, and a good stream is raised some twenty feet above the bank and then conveyed by means of a canal into the farm.

After spending a couple of hours among the cliffs near the farm examining the curious picture writings on the rocks, there are thousands of examples of these hieroglyphics here-we re-crossed the river to where our teams were (they having come down the road), and then started for home.

A goodly number of the party were two beautiful white tailed deer bounded from the rocks just at the side of the road-but we were not prepared for deer.

The excursion was a decided success. Judge Johnson is an excellent hand at the oars, so the two Norwegian oarsmen, G. A. Iverson and Enoch Jorgensen, had no trouble in exhibiting their strength and skill in "pulling" with the judge.

Supt. Nelson started for Salt Lake City this morning.

### OUR NEIGHBORS.

#### STATE OF IDAHO.

##### Snowfall Up to March 31 - Live Stock and Crop Conditions.

Boise, Idaho, April 8.-The weather bureau of the United States department of agriculture, Idaho section, has just issued a bulletin showing the snowfall in that state up to March 31, 1901.

It appears that the snowfall during the month of March slightly increased over the Snake river watershed, decreased slightly over the Bear river and Bear lake drainage area, remained practically stationary over Wood river, decreased somewhat in some sections of the Boise basin and probably remained stationary over the Snake river watershed; over a large district of the State embracing the Salmon and Clearwater river watersheds considerable snow fell.

From a comparison of the state of snowfall in Idaho on March 31, 1901, with measurements made on March 31, 1900, it is learned that the total depth of the snowfall in Idaho on March 31, 1901, was 10.5 inches, compared with 10.5 inches on March 31, 1900, in the Snake river watershed and Wood river and the Columbia river watershed. In all other sections of the State the snowfall has undoubtedly been less during the winter of 1900-01, compared with that which fell in 1899-1900, and less than the average.

### LIVE STOCK AND CROP CONDITIONS.

The present crop season suffers in comparison with that of 1900. The first weekly climate and crop bulletin of the season of 1901 notes the pre-eminence of general blooming of forward turning of the favorable conditions have been met in the past year. Crop reports for April 8th says there is absence of bloom on the most forward of fruit trees, except in exceptionally warm spots near the foothills, and protected from the winds began to show some bloom about the 25th of March, but the general condition of the season is cold with much cloudiness, has resulted in suppressing bloom; scarcely any progress has been made since the first of April. Trees are in excellent condition in places well protected in isolated places will not affect the prospects of the crop.

Plowing and seeding has been general throughout the southwestern counties and much plowing has been done in the southeastern counties, but in sections of Fremont and Bingham counties snow on agricultural lands has delayed farm work. Winter wheat is looking well, but where it has been exposed, some winter wheat lands will require reseeded.

Stock has wintered in exceptionally good condition, but recent inclement weather is causing the loss of many lambs. In some southeastern sections there is scarcity of hay for feeding purposes and in poor condition, in consequence of continued cold weather that checks the growth of grass.

Spring and summer crops are specially dangerous unless cured at once, serious results often follow. One Minute Cough Cure acts like magic. It is not a common mixture but is a high grade remedy. F. C. Schramm.

### WOODRUFF.

#### Educational Lectures - Other News Notes.

Special Correspondence.

Woodruff, Rich Co., April 10.-It has been very cold and stormy in this part of Utah for over a month and it has snowed from 5 to 10 inches but the most of it has melted and gone into the soil so when it does come warm weather people can put in their crops and the range will be the finest in years.

Elder Cyril C. Tingey returned home from his mission where he labored for twenty-three months in the State of South Carolina. A grand reception for him will be tendered in a few days.

Elder Willis Call and wife were married in the Salt Lake Temple on Sunday, April 4, and went to Bountiful to visit friends and are quarantined for smallpox.

Prof. J. E. Hickman, from the B. Y. academy, Provo, brother to our district school principal, George P. Hickman, lectured here in the evening of April 2 on the subject of "Character." It was a grand treat. He is a fine speaker. He is traveling in connection with the interest of educational matters.

A baby girl appeared at the home of William B. Eastman this morning at 7 o'clock. All doing fine.

### MOAB.

#### Educational Lecture by Supt. Nelson - Boat Ride in Grand Canyon.

Special Correspondence.

Moab, Grand Co., April 8.-State superintendent of schools, Prof. A. C. Nelson, and Judge Jacob Johnson, came to Moab, Sunday afternoon. The superintendent spent most of yesterday inspecting the work of our schools, and conferring with County Superintendent Moynaux.

### BASEBALL SEASON OPENS TOMORROW.

#### Salt Lakes vs Railways Here - Park City vs Ogden, at Ogden.

##### EXHIBITION GAME MONDAY.

##### Railways Produce a Crack Pitcher at the Eleventh Hour in the Person of Ben Beville.

The first game of the season in the Intermountain Baseball league is scheduled to take place in this city tomorrow afternoon at Walker's field, between the Salt Lakes and Railways.

At Ogden the season will be ushered in with a contest between the Lobsters and Jack Melnecke's warriors of Park City.

All four teams are composed of the very best players available, and it is a foregone conclusion that the contests will be snappy, for rivalry has already been sharpened to a keen edge. Each team is determined to begin the season with a percentage of 1.000, and as all cannot possibly obtain that standing the events are sure to be hummers.

The local teams here have been practicing all this week for tomorrow's battle, and the boys are all in fairly good form. The only doubt entertained by the fans is in relation to the weather, and if the "man in charge" will look with favor upon the proceedings and withhold for a few days any downpour that might mar the occasion, the boys will receive the blessings of the fans and all will be well.

The game here will begin at 3:30 p. m., and it will be ladies' day, the fair sex will be admitted to the grounds free, judging from the amount of interest taken throughout the city, a large crowd of enthusiasts will be on hand to root for their favorites.

The Railways sprung a mild surprise yesterday afternoon when it was announced that Ben Beville, a crack twirler from California, had arrived and was ready to go in the box against the Lobsters of the Salt Lakes. Beville was down to the ball grounds yesterday afternoon, but did not have much time for practice because he did not arrive until quite late. He is a large man, and to all appearances will send the sphere across the plate with the speed of a rifle ball. Last season his fielding average was .879 out of fifteen games, while his "stick work" shows a percentage of .260.
