EVENING NEWS.

PER WESTERN UNION TELEGRAPH LINE.

FORTY-SEVENTH CONGRESS.

SENATE.

WASHINGTON, 5. — Van Wyck presented a petition for pensioning legless and armless soldiers, said: "The pensions committee will probably report on it Tuesday, or soon after."

Platt said he hoped so, but was not confident.

Ingalls presented a petition for the admission of Dakota, remarking that the opposition thereto was wholly malignant and partisan.

Vest denied this, and said republicans as well as democrats opposed it, basing their objections on facts.

Garland said Hale made the first objection on account of the manner in which Yankton county handled its creditors.

Hale said he did object because the Territorial Legislature had sanctioned Yankton's repudiators.

The bill was passed making appropriations for a survey to ascertain the practicability of uniting the upper affluents of the Missouri and Columbia rivers by a canal.

Vest, from the committee on territories, submitted a report in relation to the Yellowstone Park, and said he would call it up at an early day.

Beck reported from the committee on finance a bill relating to the exportation of tobacco, snuff and cigars in bond, free of tax, to adjacent foreign countries, with an amendment that the bill shall apply to exports whether transported by vessel or otherwise. The bill passed the House on the 2d of January.

At 2 o'clock the Presidential succession bill came up. Garland advocated the bill. He said the practical objection to the present hybried system created by the law of 1792 had been strikingly illustrated at the time of President Garfield's death; and after the 4th of March next, unless Congress should legislate upon the subject in the meantime, the life of the President would be the only one standing between us and anarchy. On the other hand, one advantage of the system proposed by this bill was, it devolved the duties of the Presidency in such cases upon the Secretary of State. No inferior man was ever nominated for that office. Under existing laws the President of the Senate would become, in a certain contingency acting President. This provision rendered the character of the Administration very uncertain. For instance, when the Senate met after the death of President Garfield, the Senator from Delaware (Bayard) was chosen President of the Senate, and if he had become President of the United States, the Chief Executive office would have been filled by a member of the party defeated at the polls. But as if by magic, Bayard was deposed, and the Senator from Illinois (Davis), put in his place, the distinguished Senator belonging to no party, but walking in an atmosphere of his own, above all parties, cerulian, ethereal or what not. (Laughter.) If he had been called to the Presidency by the death of President Arthur, what verdict of the people would have approved him or his party? Garland, in the course of his remarks expressed the opinion that the President's term of office ought to be six years.

Morgan moved to amend to provide that the officer succeeding to the acting Presidency, shall hold the office until the President's disability is removed, or until the vacancy is otherwise lawfully filled, instead of until the end of the regular term, as provided in the bill.

Edmunds moved that the bill be recommitted to the committee on judiciary, with instructions to report such measures as soon as may be, to further regulate the succession to the Presidency of the United States by the President of the Senate *pro tem.*, and the Speaker of the House of Representatives respectively, in case of the vacancy in both the offices of President and Vice-President of the United States, and for the administration of the duties of President of the United States, in cases in which there shall be for the time being neither President of the Senate *pro tem.*, nor Speaker of the House of Representatives.

Edmunds said this motion presented clearly the alternatives of either perfecting the system devised by the fathers, or departing entirely from that system, as proposed in the pending bill.

Blair offered an amendment providing that the cabinet officers (named in succession) instead of acting as President in the cases contemplated in the bill, shall so act until Congress can come together and provide by law for filling the vacancy.

Jones, of Florida, offered an amendment providing that no cabinet officer shall succeed to the acting presidency who would not be eligible for election as President.

Without acting on these amendments, the Senate went into executive session and soon afterwards adjourned.

HOUSE.

WASHINGTON, 5.—Randall said he was unavoidably absent from the House yesterday. Had he been present he would have voted for the passage of the civil service bill.

Singleton, of Illinois, didn't hear his name called; he would have voted against the bill.

The House then in committee of the whole took up the District of Columbia appropriation bill. It appropriates $6,443,847, being $81,642 less than the estimate. The bill is substantially the same as the present law.

Discussing the appropriation for lighting the District; Klotz charged that the Washington Gas Company controlled Congress, and that the company has been in the employ of the Ring who kept them informed of measures introduced affecting the gas interests.

Hiscock suggested a resolution of inquiry.

After some discussion the amendment of Klotz, making the appropriation $22 per lamp, was adopted.

An amendment was also adopted leaving it in the discretion of the District Commissioner to substitute other illuminating material for gas in lighting the District. The bill then passed.

Ford, of Missouri, characterized as unqualifiedly false a dispatch to the St. Louis *Globe-Democrat* describing him as a crank, and charging him with obstructing the business of the House.

Adjourned.

AMERICAN.

Wired from Washington.

WASHINGTON, 5.—The President has nominated Gustavus Goward, of Illinois, Secretary of Legation to Japan.

The Treasury cattle commission estimate that $2,000,000 are necessary to stamp out the lung plague among cattle, and recommend the appropriation.

The House committee on war claims to-day agreed to report favorably Roseeran's bill allowing the State of California $25,000 for money paid by the State on account of expenses in Indian wars, and authorizing the Treasury Department to settle.

The Director of the Mint reports the gains in metallic circulation by coinage and imports during the past six months at about $24,000,000 in United States gold coin and about $14,000,000 in silver coin.

The House judiciary committee, at the suggestion of Knott, tabled his bill declaring all the Northern Pacific land grants forfeited.

Delegate Post has prepared a bill for the protection of the Yellowstone Park, which he will present to his committee and endeavor to have reported by next Monday. The bill provides for placing the park under the jurisdiction of the adjoining county of Gallatin, Territory of Wyoming. He proposes to forbid killing under any pretext, of all antelope, deer, buffalo, elk, otter, beavers, and other fur-bearing animals, as well as all kinds of birds. The bill provides that no fish shall be taken from the streams in the Park except with hook and line. The only wild animals which the Senator proposes to have destroyed by hunters are wild cats, mountain lions, and a few others of the rapacious class.

The Chief of Engineers informs the House that about $5,000,000 of the appropriations will be available for the improvement of harbors; that amount being on hand at the close of the current fiscal year.

The House committee on war claims has agreed to report favorably the claims of Capt. N. J. Rigeley for $210,000, the alleged value of the steamer *Hercules* and tow of coal destroyed on the Mississippi at Memphis in 1863, and of Mary Jane Veixle for $5,000 for property taken by United States troops at Natchez during the war.

A party of Chicago capitalists have been negotiating with the Cheyenne and Arapahoe tribes of Indians for a lease of 2,400,000 acres of land for grazing purposes in the southern part of the Indian Territory.

It is claimed by Hale, Edmunds and other opponents of the measure, that really the distillers are to be made $60,000,000 richer by the passage of the bonded whisky bill; that amount is simply donated to them.

The New York *Post's* special thinks Secretary Lincoln's answer to Page's inquiry concerning expenditures under the river and harbor bill will satisfy everybody except Page of the outrageous character of the appropriation. In the face of this overwhelming exposure, even Page will perhaps hesitate to propose a similar bill for 1883.

The *Herald* also styles it a trenchant exposure, and concludes a leading editorial: We should like to hear from Senator Hoar on this report. He and the roaring Mr. Page, of California, ought now to speak out.

L. E. Holden of Utah is here to represent the interests of the mining industries of that Territory and prevent if possible the proposed reduction in the tariff on lead and lead ores. He was sent by the Utah Mine Protective Association. Several other similar State and Territorial associations are being formed for this purpose. The proposed reduction is from 1½ cents to 1 cent per pound. It is claimed that Utah has produced 22½ per cent. of all the lead produced in the United States. It is estimated 120,000 pounds of lead were produced in the United States in 1882, and of this Utah produced 30,000 pounds. Without the protective tariff it is claimed not a mine or furnace producing lead ore or bullion could compete with the Spaniards, they having cheap labor and water transportation. The duty collected on English lead is 5 cents per pound; it is proposed to reduce this to 4½ cents. The reduction proposed on lead made from Spanish ores is from 6 to 5 cents per pound. It is shown in a recent official statement in connection with the subject that the total value of precious metals, including lead produced west of the Missouri River during the four years, 1878 to 1881, was $321,176,476; total value of lead bullion, including gold and silver contents, produced during the same was $92,342,069.

Gen. Comstock, before the Mississippi river committee, estimated the entire navigation of the river couldn't be improved for less than $55,000,000 to say nothing of the levees.

The ways and means committee are working on the free list. The Tariff Commission report that they struck out quinine, and fixed the duty on preparations thereof at 3 per cent. ad valorem.

Mixed Marriages.

NEW ORLEANS, 5.—Rev. J. K. Gutherm, Rabbi of the chief synagogue, recently in his own parlors, united in marriage his lovely niece, Miss Cohen, a bright Jewish Belle, and Dr. Armstrong, a Protestant Christian, and assistant surgeon of the marine hospital service of this port.

Baltimore, 5.—Last Sunday at the Catholic Cathedral, Miss Lizzie McDonald, eleven years a Sister of Charity, teaching in Mobile, Chicago, Milwaukee and elsewhere, was married to Patrick Moore, of Washington. By permission, being ill, she left the convent five years ago. After recovering she nursed her father through a protracted illness. Going to Washington, she met Moore; it was love at first sight, and she did not return to the Sisterhood.

FOREIGN.

British Briefs.

LONDON, 5.—The *Times* says: The death of Gen. Chanzy, following so quickly that of Gambetta, must disturb many political calculations, and will increase the uncertainty prevailing as to the immediate prospects of the French political parties.

Dublin, 5.—The Commission Court has sentenced, for arson, the men in whose case the jury disagreed, to seven years' penal servitude.

John Givan, M. P. for Monaghan, is appointed permanent Under-Secretary for Ireland.

A husband and wife starved to death at Ballanaeloe. Sanitary works are being started at Kilrush to offer relief.

General Items.

La Francaise says that the death of Gen. Chanzy is calculated to make people pause and reflect. Is it possible not to feel with a thrill of awe the hand of the Almighty being laid upon us?

La France asks: What has France done to death? Has Bismarck signed a compact with it? General Chanzy's death is a great sorrow. The Germans feared him as they dreaded Gen. Skobeloff. *La Telegraph*: The memory of two glorious servants of the nation teaches us to be of good courage, and maintain a steadfast faith in our immortal land.

To-day while Paul de Romede was watching by the side of the catafalque of Gambetta, Mayer walked into the room. Roulede said, "you have no right to approach the bodies of the man you insulted during life." With these words, he struck Mayer, who returned the blow. Bystanders separated the combatants.

Dr. Shroeder is summoned to London to attend the Prince of Wales.

Wiesbaden, 5.—The Rhine is falling slowly.

Tunis, 5.—The remains of John Howard Payne was shipped to the United States to-day.

Warsaw, 5.—The river Vistula is rising.

Peoria is alarmed at the prospect of a cable railway. Its introduction would be regarded as a calamity, in view of the destruction of life which occurs in Chicago along its line. The ordinance is pending in council.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. Also excellent for human flesh. Read proof below.

FROM

COL. L. T. FOSTER,

YOUNGSTOWN, Ohio, May 16th, 1882.

DR. B. J. KENDALL & CO., Gents:—I had a very valuable Hambletonian colt that I prized very highly, he had a large bone spavin on one joint and a small one on the other, which made him very lame; I had him under the charge of two veterinary surgeons which failed to cure him. I was one day reading the Chicago Express. I determined to try it and got our druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial. I used it according to directions and the fourth day the colt ceased to be lame and the lumps have disappeared. I used but one bottle and the colt's limbs are as free from lumps and as smooth as any horse in the state. He is worth $1,000. The cure was so remarkable that I let two of my neighbors have the remaining two bottles who are now using it. Very respectfully,

L. T. FOSTER.

Kendall's Spavin Cure

Is sure in its effects, mild in its actions as it does not blister, and is the most powerful preventative to smooth every description of scar; to remove any bony growth or other enlargement, such as ringbone, spavin, curbs, splints, callous, thickened cords, or any unnatural enlargement of the tendons or limbs, or for rheumatism in man or for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mildly and yet certainly in its effects.

Send address for illustrated circular which gives positive proof of its virtues. No remedy has ever met with such unqualified success in our knowledge, for beast or human flesh.

Price $1. per bottle, or six bottles for $5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & CO., Enosburgh Falls, Vt.
