CENTRAL PACIFIC AND TARPEY SUED

A. E. Snow Seeks to Recover the Sum of \$8,408.93.

PAID UPON CERTAIN LANDS.

Property is Situated in Boxelder County-Plaintiff Claims He'is Now Dispossessed.

A. E. Snow filed a suit against D. P. Tarpey and the Central Pacific Railroad company in the Third district court today to recover the total sum of \$8,408 .-98, alleged to be the money paid upon a certain tract of land situate in Boxelder county, value of improvements and damages for failure to convey the property.

The complaint sets forth that the defendant Tarpey, on February 11, 1890. entered into an agreement in writing with plaintiff, whereby defendant agreed to sell and plaintiff agreed to buy, 691 acres of land in Boxelder county for the sum of \$6,968. Of this amount \$696 was paid down and the remainder was to be paid in nine equal annual payments.

In pursuance of this agreement plaintiff says he took possession of the land and made improvements thereon of the value of \$1,250. Up to May, 1893, plain-tiff says he paid to Tarpey the pay-ments stipulated amounting in the aggregate to \$4,058.93, as well as the taxes amounting in all to \$100.

At the time of making the agreement Tarpey, it is alleged, claimed to be the equitable owner of the lands, the title being vested in the United States, and agreed to obtain from the governments the patent. Disputes arose as to the ownership of the lands and various persons instituted contests in the land of-fice and the department of the interior, resulting in the government refusing to issue to Tarpey a patent for the lands he had sold. The Central Pacific R. R. Co., it is alleged from Tarpey a large

alleged, received from Tarpey a large portion of the purchase price, but both refuse to repay plaintiff, or make any settlement with him.

Pisintiff further alleges that he was dispossessed of the lands without any fault on his part and he now asks that what he has paid out be made good to him by the plaintiffs.

CHILD-MOTHER'S DEATH.

Pathetic End of Young Cora Copenhaver Shannon and Her Infant.

Cora Copenhaver, the child mother, and her babe, both passed out of this life yesterday-the life, which to the girl mother, of 15 years, had given more of its store of varied experiences than to the average woman of thrice her years. Her death yesterday is the sad ending of a pitiful story. The first the public heard of Cora Copenhaver, was in the latter part of November last, when it was announced that Sheriff Howells had come from Pueblo, Colorado, having in ecustody Thomas A. Shannon, charged with having seduced the girl. Cora's mother swore to the complaint, and Shannon confessed his the girl. guilt, at the same time protesting great love for the girl, and offering to right the wrong, as much as possible, by mar-rying her. Those concerned assented to the marriage, which was effected on the 28th day of November by Justice Morris Sommer. Shannon was a mar-ried man at the time he committed the crime against the girl, although but 24 years old; he, however, secured a divorce about one month prior to his marriage to the hapless girl he so cruel-

y wronged. The poor girl was selzed with typhoid meumonia, a week or so ago, and while the disease was still upon her, the babe was born. Peritonitis followed, and yesterday the mother and child to-gether, more like a child and an infant brother or sister, one locked in the oth-r's embrace, closed their eyes to their final sleep. One whose little life, like a shooting star had shot across life's horizon only to go out in an instant, the other who had in her girlhood days drank of the bitter cup, which tells the life's story of far too many of the

aughters of men. Mrs. Shannon was the daughter of A. B. and Effle Tyner Copenhaver, and her age was 15 years, 8 months, and 14 days. The remains of the mother and child will be taken to Bingham Saturday, where they will be interred in one

grave.

Mrs. Gillette was seen at her parents' home, No. 665 south State street, by a "News" man this afternoon, and said to him that her Australian tour had been a most pleasant and successful one. Her engagement with the Hoyt-McKee Opera company terminated after a period of ten months. Her reception was a most welcome and enthuslastic one everywhere. Mrs.Gillette is now on her way to New York to join her husband, with whom she goes to Cuba. She has an offer from J. C. Williamson, the chief operatic manager of Australia, to return to Melbourne in July. She is yet undecided as to whether she will accept the offer made by Mr. Williamson. The latter is an American actor and played in Salt Lake in the seven-ties, in "Struck Oil."

Mrs. Gillette spoke feelingly of the death of Oscar Eliason, whose funeral she attended. She says that when he was being brought in to Sydney with the fatal wound in his body, that the team ran away, throwing the entire party, including Mr. Eliason, to the ground. The young magician was hopeful to the last and was loth to believe that death was about to over-take him. His popularity, says Mrs.

Gillette, was phenomenal. Mrs. Gillette will remain in Salt Lake for a few weeks only, when she will go on to New York.

The Division of Forestry of the United States department of agriculture is in consultation with three important railway companies over a contemplated innovation in American railway methods. These roads-the Atchison, Topeka & Santa Fe, the Chicago, Milwaukes & St. Paul, and the Zanesville & Ohioare considering raising the and pole timber on a large scale on their now non-utilized right-of-way lands. Other large western roads are also interested. This action is due chiefly to the failing of the natural supply of this material in all but the newer portions of the United States. About one million acres of timber are consumed annually by rallroads in building and repairing, and, at the present rate of timber depletion, the increased cost of such material will soon be a serious factor in railroad. economy. The Santa Fe line has already done some experimental planting, ready done some experimental planting, and the results have done much to stimulate interest. This road planted 1,280 acres in catalpas fifteen years ago. The total expense was \$125,000; but it is estimated by the railroad officials that in ten years more the tract will have produced \$2,560,000 worth of poles, ties, and posts, or at the rate of \$2,000 an acre.
