

FIRE LOSSES AT SAN FRANCISCO.

New York State Insurance Department Issues Statement
About Them.

ESTIMATED AT \$113,441,595.

In Most Cases If There is Any Impairment of Capital Stockholders Will Make It Good.

ALBANY, N. Y., May 13.—The state insurance department tonight made public the following figures, showing the losses in the recent California conflagration of the fire and fire marine insurance companies doing business in this state and reporting to the department, as given in reports of the companies called for in the department's circular of April 23. They show estimated net losses to a total of \$113,441,595, divided as follows:

STATEMENT OF LOSSES.
New York State Joint Stock, Fire and Marine Insurance Company, \$18,944,000
Joint Stock, Fire and Marine Insurance Company of the other states, \$4,857,499
Mutual Fire Insurance Company of the other states, \$1,000,000
Foreign Fire Insurance Company, United States branches, \$9,700,000
The report shows that in most cases any impairment of capital will be made good by the directors or stockholders. The New York state companies report losses as follows:

SECOND GREATEST PRINCE OF ALL INDIA ARRIVES.

New York, May 13.—The Maharajah Gaskwar of Baroda, accompanied by his wife and his brother, Sampratas, landed today from the steamer Celtic, which arrived from Liverpool. The Maharajah Gaskwar is the second greatest prince in all India and the direct descendant of one of the Mahatma generals who were the moguls or company rulers of India when the East India Company was in control of the country. He is the ruler of the state of Baroda, which has a population of 2,000,000 and an area of 8,000 square miles. His brother acts as his secretary. There were many persons on the pier to see the ruler of Baroda, but those who expected to see a man decked in oriental trappings and hung with jewels were disappointed. Descending the gangplank there came a dapper little man who would have been taken ordi-

narily for a prosperous East Indian merchant. He and his wife, followed by two maids, were taken to the Waldorf-Astoria hotel, where they will stop while in New York. "During my stay in the United States," said the maharajah today, "I shall visit most of your large colleges. I am most anxious to see Yale, Princeton, Harvard and Cornell, for I understand that there are a large number of Indian students at those institutions. After I have spent two weeks in New York I intend to go to Philadelphia, and then through the west to Yellowstone park, and on my return I intend to visit President Roosevelt. The maharajah takes deep interest in the development and uplifting of his fellow countrymen and toward this end has established a college in Baroda. He will send some of the graduates to the United States to learn the customs of the people here.

THE PULAJANES.

Ninety-five Per Cent of People of Samar Want Them Exterminated.
Manila, May 13.—Supt. of Schools Hoover of Samar and several native officials of that island have arrived here on their way to Baguio, province of Benguet, the summer capital, to visit Gov.-Gen. Ide. Mr. Hoover says that 95 per cent of the natives of Samar are anxious for the extermination of the Pulajanes and the establishment of absolute peace. The native officials, he says, are organizing bands of volunteers, guarding trails and capturing or killing outlaws. It is estimated that 300 Pulajanes still remain in the mountains. Gov. Curry of Samar has proposed to turn the Pulajanes districts over to the federal authorities for the establishment of martial law, and the extermination of the natives, and Gen. Wood agreeing to place two regiments assisted by naval gunboats in the island and the adjacent waters in order to guard against the Pulajanes, who are raiding neighboring islands. Gov.-Gen. Ide has reached no decision in the matter. The Pulajanes leader is 64 years old and has been in the mountains for 40 years.

FIREMEN'S FUND INS. CO.

New Corporation Being Formed for Protection of Policyholders.

San Francisco, May 13.—In view of the fact that the Firemen's Fund Insurance company lost its maps and records of San Francisco business in the recent conflagration, a new corporation is being formed for the purpose of protecting its policyholders, and agents by taking over all the company's outstanding risks and continuing its business. Mr. W. J. Dutton, president of the Firemen's Fund Insurance company, said today: "The new company was formed not on account of any weakness of the old, which is simply able to meet all its liabilities and have a surplus remaining, but only because the loss of their important records makes it impossible for the company to file sworn statements with the insurance commissioners, based on actual figures. This would leave its business open to constant raiding by competitors. The company's hold stockholders are to have the option of subscribing up to their present holdings, thus retaining their ownership in the company's valuable plant by practically a voluntary assessment, and preserving to such stockholders as could not meet an assessment if levied, their interest in the assets remaining to the old company after settling its liabilities. All the present San Francisco stockholders have already subscribed and so many applications have been made for such stock as may remain unsubscribed as to indicate a very considerable oversubscription."

EX-PREMIER WITTE.

Rises in Council of the Empire and Justifies His Course.

London, May 14.—The Times' St. Petersburg correspondent says that at the meeting of the council of the empire Sunday Minister Dmitri Shipoff astonished the assembly by proposing to introduce in the address in reply to the speech from the throne a humble request that the emperor revoke the fundamental law, which, in his mind, was liable to be the source of a bitter conflict with the lower house of parliament. Several bureaucrats, who were inexpressibly shocked at M. Shipoff's audacity, declared that the sovereign already had made sufficient concession. "Former Premier Witte rose," the correspondent continues, "and delivered a forty minutes' speech. He said he had been compelled to do things which he himself disapproved. His motive always had been good, but the circumstances were too strong for him. He saw no objection to the proposals advocated by Prof. Bagaley of Kharhoff, who urged the council of the empire to work in unison with the assembly in the address to pray that his majesty in limiting amnesty be guided only by the goodness of his own heart. But with regard to M. Shipoff's proposal, Count Witte said it was irreconcilable with the character of a body like the council of the empire to make such a recommendation to the sovereign."

A BOMB FIND IN TIFLS.

Tiflis, May 13.—The police here today discovered an underground storehouse containing 250 loaded bombs.

TWO GIRLS DROWNED.

Atlantic City, N. J., May 13.—Rosie Davis and Kate Walter, both about 15 years of age, were drowned today at Clark's landing on the Mullica river by the upsetting of a sailboat. Frank Sharp and Henry Gries swam ashore.

JULIE BILLIETTE BEATIFIED.

Rome, May 13.—The solemn ceremony of the beatification of Julie Billiette, the French founder of the Congregation of Our Lady, who assisted the wounded in the battle of Waterloo, took place in St. Peter's today. During the afternoon Pope Pius X. conducted a service in honor of the memory of Julie Billiette. Thousands of persons were admitted to St. Peter's by ticket, including E. Roosevelt, editor of the Omaha Bee, and Capt. Brooks of the United States postal service.

ARGENTINE CONGRESS OPENED.

Buenos Aires, May 13.—President Figueroa Alcorta opened congress here yesterday. In his message he said a bill would be submitted to congress granting amnesty to those persons convicted of participation in the revolt of February, 1905. President Alcorta said that Argentina would support the congress of Rio Janeiro and the Hague and he would lead the Pan-American congress at Rio Janeiro in its endeavor to cement the basis of friendship between the nations of America. The conversion funds now amount to \$1,000,000. President Alcorta declared himself a partisan for the maintenance of the gold standard of the country. The president says that modern artillery must be bought and the auxiliary war material of the country increased. The president says he will submit the draft of a naval program which shall be completed in five years, to comprise additional defenses against the blockade of the River Plate and the acquisition of units destined to reinforce the fleet.

WATER PIPES WERE DESTROYED

Was One of the Causes of Destruction of Greater Portion Of San Francisco.

PRECAUTIONS UNAVAILABLE.

Reservoirs Found to be Absolutely Safe and Connections Re-established.

San Francisco, May 13.—One of the causes of the destruction of the greater portion of San Francisco was revealed today, when Mayor Schmitz and Engineer Schussler of the Spring Valley Water company, accompanied by other officials, made a trip down the peninsula to inspect the huge mains of the water company which furnished the city's water supply from Crystal Springs and other lakes.

Several big breaks were found in the mains, and this was explained why the city was without sufficient water supply to fight the flames on the days immediately following the earthquake. Engineer Schussler showed where the company had endeavored to obviate such accidents by pliable trestles, but that even this precaution had not availed in the seismic disturbances. The reservoirs of the company were found to be absolutely safe and most of the connections re-established. The city is now receiving a supply of water amply sufficient for domestic needs and for fire protection in the unburned districts.

Today was one of unusual quietude, and beyond the arrest of Policeman W. E. Cooney, who had in some unknown manner secured a supply of liquor, there was virtually nothing to disturb the Sabbath. Cooney became involved in a quarrel with a citizen and fired five shots at him. Cooney was deprived of his star and locked up. Chief Dinan declared that he would make an example of him. Church services were held on a broad-

HUSLER'S FLOUR

Is used.

or scale today. Temporary structures were used by congregations that had lost their churches by fire, and where the buildings had not been harmed indoor worship was resumed. The sightseers were not so numerous today, their curiosity, apparently, having been satisfied through the week.

LEAPED FROM WINDOW.

Child, Terrified by Fire, After Calling For Mother, Jumped Out.

West Newton, May 13.—Terrified by the flames and smoke, Martha L. Harper, 6, of 1 Greenwood avenue, after calling for her mother in vain, leaped from a second-story window at 4:15 this morning, and sustained a broken arm and other injuries, during the progress of a fire caused by an overheated stove.

The child was occupants of the house, which contains two families, were forced to form a human chain, clad in their nightclothes. The parents of the child in the confusion forgot their little daughter, and were unable to get back through the smoke into the burning dwelling and rescue her. The child was taken to the Newton hospital in the ambulance for treatment.

The fire started in the kitchen, and both families lost all their possessions.

KAW RIVER LANDS.

Occupants Must Pay Heirs of Original Owners or Vacate.

Kansas City, May 13.—By a decision rendered yesterday by the Kansas supreme court, property located just over the Missouri state line here and running to points on the Kaw river, valued at between \$2,000 and \$3,000, was awarded to the heirs of original owners. Much of the property, which is in what is known as the west bottom, is occupied by big

business concerns, who must vacate of business the land. The case in various phases has been in the courts for half a century. The land originally was settled upon in 1857 by Silas Armstrong, an Indian of the Wyandotte tribe, living at Upper Sandusky, O. Several whites settled upon some of the lands. Suits followed. Mr. Armstrong dispossessed of the greater portion of his property. In time the river cut a new channel and left part of the land an island. Later the river resumed its natural channel and the island with accretions was settled upon by numerous enterprises. By the decision now rendered by the Kansas supreme court the property reverts to the heirs of Armstrong and the whites to whom he sold part of the land. Among those who will benefit by the decision are three families of Wyandotte Indians—the Munjaton, the Rabitille and the Buzzard families—Descendants of Armstrong, who live on reservations in the Indian Territory and who will receive a small share each. Mrs. Anna B. Wood, 801 James, assistant general superintendent of the Metropolitan street railway of Kansas City; Mrs. Anna Pennington, wife of James Pennington of the Armour tanning company; Mrs. Virginia Pennington, whose husband manages the Macon (Mo.) collieries of the Armour company; Mary J. Wier, author superior of Loraine academy of this city, and C. E. Hochstetler. Those who will lose the heaviest by the decision are the Power Packing company, the National Waterworks company and Hunter M. Meriwether, all of whom settled upon the portions of the land and claimed the accretions left by the river when it returned to its old channel.

Germany and the Porte. Latter Regrets Exceedingly Detention Of the Odysseus.

Constantinople, May 13.—The porte today replied to Germany's protest against the boarding and detention of the German sailing ship Odysseus by Turkish officials recently while the vessel was discharging cargo at Chukla. The reply expressed regret at the occurrence and promises to punish the official responsible for it, but it proposes a reduction of the indemnity of \$3,500 which Germany demanded. The German protest described the seizure of the Odysseus as an act of piracy.

TWO YOUNG WOMEN DROWN.

Atlantic City, N. J., May 13.—Rosie Davis and Kate Walter, both about 15 years of age, were drowned today at Clark's landing on the Mullica river, by the upsetting of a sailboat. Frank Sharp and Henry Gries swam ashore.

FIRE AT GULFPORT, MISS.

Gulfport, Miss., May 13.—The enormous plants of the New Orleans Naval Stores company and S. Shetter & Co. were totally destroyed by fire today, six acres occupied by the refineries, yards, warehouses, commissary and storage

rooms being entirely swept by the flames. The fire is supposed to have originated in loose hay in the commissary.

Losses about \$400,000, with \$300,000 in insurance.
