they are enjoying it. As outlined, the parade given by the workmen was to have started from the Knutsford at 3:00 o'clock this afternoon, following the usual line of march: From the starting point to Second South, to East Temple, to First South, to State, to South Temple, to East Temple, to First South, to West Temple, to Second South, to East Temple, to midway.

The first division was the same as has been in all of the other parades, with Held's band leading, followed by the platoon of police, the queen, her retinue and the prime minister. Three bri-gades of the A. O. U. W. with their em-blems came next, accompanied by floats appropriate (*) the occasion. The third division was made up of the trades floats and members of the federated organizations

YELLOWSTONE EXCURSION. Short Line Has Made it Possible For

All to Go.

On August 14th the Oregon Short Line will start from this city its first per-sonally-conducted excursion to Yellowstone park. A very low rate has been fixed in order to make it possible for all to go. Hitherto it has been beyond the reach of common folk to take a trip to this region of nature's wonders, but the rate set by the Short Line brings such an excursion within capacity most people. The \$56 which the Short Line charges pays fare, for meals, hotel accommodations and other expenses in the park, all the great sights of which are to be visited. The trip is to occupy nine days.

CEASE TO CUT.

Stubbs Proceeds to Make Permanent Freight Rates.

At Chicago tomorrow will be held a meeting which will produce a very great change in freight rates on west-ern roads. Freight representatives of these lines will meet Mr. J. C. Stubbs, who represents Mr. Harriman, and he will there and then proceed to instruct these freight agents that they must no longer do any cutting of freight rates. Heavy stockholders in railroads have been watching the effect of the freight rate wars that have been waged within a few years past and they have con-cluded that the thing must stop. Mr. Harriman has himself given the matter much thought and attention and he came to this conclusion some time and the meeting of tomorrow is bound to bear the fruit which he is determined shall result. Agents will be apprised of the fact that their tenure of office parallels a close observance of

THE LOBSTERS.

Took Two Games from Bamberger's Importations Yesterday.

THE AFTERNOON CONTEST.

Hig Crowd on Mand and Witnesses One of the Best Events of the Season.

STANDING OF THE CLUBS. P. W. L. P.C. .794

When the Lobsters got through with the Farmers at Lagoon yesterday afternoon it was discovered that they had won another game through some more of their bull headed luck. There are a few individuals, however who assert that it is not luck, that after all the Lobsters really can play baseball a little bit better than any other aggregation hereabouts, but the vast majority of the fans are out for the luck theory. It may be that the luck idea has been worked a little too strong, but lets see. Now, take for instance some of the plays made yesterday. Several times the Farmers hit the ball awful wheits. On the start they looked good for at least two sacks and a tally, but here is where that annoying luck showed it-self, stopped the ball in its mad career, and on two occasions made the most astounding double plays on record Then this mysterious spirit sauntered out into left field and hovered over one Nagle. Newmeyer was at the bat and catching Borchers when he wasn't looking, sent one out to left that centainly looked safe. Nagle misjudged it but was pushed under it by luck. caught it, fell down and rolled over. The umpire called the runner out. Miserable luck!

Then there is that big fellow Borchers. Please explain what, if not luck, enables him to hold a team like the Lagoons down to f-... contemptable little hits?

"Why don't this luck stroll around some other place?" you ask. Don't know only that the Lobsters are so lucky that the luck stays with them all the time. Umplre Walter Seare was accused

of giving the game to Ogden, but there is one thing that can be said about Walter, and that is, if he gives anybody the worst of it, it is unintentional. He gives every evidence of desiring to be absolutely fair and impartial. One decision which caused considerable comment occurred in the fourth inning. Two men were out and Bluth came to the bat. He hit to Newmeyer, who gathered it in safely and threw to Un-cle Buck at first. It jooked like he had Bluth a mile as they say but Buck raised his shapely little foot just a tri-fie and Seare called the runner safe, t caused the Ancient captain's anger Boise, Ida., July 25 .- The morning to rise some. Another decision received ungratesession of the Mining congress was fully was when Stoney hit to Clark and devoted to the presentation of papers. the latter fumbled it but recovered himself in time to reach the sack. Election of officers and selection of the next place of meeting will occupy this afternoon. Prof. Londerbach, of Ne-Stoney alld tearing a big h ole in the side line but he was called out. Union Pacific Press Excursion.

Green River, Wyo., July 25.-The Union Pacific's press excursion left Rawlins this morning. Rain had fallen throughout the night, the first of any consequence in this section for many months, and the air was chilly. The observation car was patronized, however and the enthusiasm of the tourists was not dampened. The first stop was at Rock Springs where the Union Pacific coal mines were inspected.
