This afternoon's game between the

U. of U. and the Pocatello Othletic club, 'on Cumming's field, marks the opening of the university foot ball season

season. Utah's team this year is made up mostly of green players. Many have played on the second team and class teams, and some have never had any experience. Snow, Conville, Olson, Grant, Home and Houston are the men of last year's team in school. Maddock has plenty of men to plek from, and will try two men in nearly all the positions to find out the positive strength of his team. The men today will put up a hard fight, for it is not only a matter of beating their opponents, but also a case of making good with the coach and beating each other to positions on the U team. on the U team.

It may look anything but encourag-ing to match a bunch of green play-ers against the sort of team the Poca-tello men are réported to be. Most of them are old college stars, and beof them are old college stars, and be-sides being a fast team, they have Utah beaten on weight. The Idaho-ans outweigh the U boys 15 pounds to the man; Maddock's team averages 160 pounds. The university has al-ways turned out the fastest team in the west, and Maddock says, "We'll give them a run they are not expect-ing."

Duck Hunters Watch Calendars As Open Season Approaches.

Flocks of decoy ducks in sporting supply store windows and the arrival of damp weather has set the shooter's heart to pit-a-patting with gladness. Much fine duck territory has been taken up by organizations or clubs but private corporations or sroups of individuals do not hold a monopoly on the attractive shooting districts by any means. Across the Jordan some distance are numerous happy hunting grounds open to all. Scores of hunters will leave the city for lake and marsh, after office hours on the night of Sept. 30. Parties are al-ready being made up so the price of a ride in a "livery-stable" carriage will be within reach. TALK NEW GOLF RULES IN GAME'S COUNTRY.

Glasgow, Sept. 23 .- The proposed new rules of golf, which have created much discussion during the last few months came up for consideration at : | extraordinary general meeting of the Royal and Ancient club, held a few days since at St. Andrews under the chairmanship of Lord Stair. This meeting was arranged so that amendments to the draft rules, drawn up by the rules of solf committee, could be proposed be-fore the formal acceptance of the code at the usual half-yearly business meet-

So turf and bench show will share honors with the girdiron and and a pond and Utah's autumn will be a lively one in a sporting respect. There is a general revival of sports and anusements of all kinds noticeable in Salt Lake anyhow. Bowling alleys re-port a big patronage earlier than ever before and all other places of amuse-ment are anticipative of a big season. Horse racing is to come into its own during fair week, for \$3,000 in purses has proved a mighty attraction for owners of fast borses throughout the intermountain region. Colorado, Idaho, Montana and even the Pacific coast horse owners have been watching Utah and now announce their intention of coming to Salt Lake and capping the big end of the prize-money. Instead of causing alarm among Utah horsemen, the locarl men only snile and say, "Let 'em come and try it." Some of the Utah horses are going to make any outsider who may stray here go some to get in the money at all.

The view found convidential form The view found considerable favor among golfers, because it was felt that an increase of punishment would lead an increase of pullisment there was a to ultra-careful play when there was a chance of a competitor hitting a ball out of bounds; but the argument of the committee that a ball struck out of bounds ought to be as heavily penal-ized as a ball lost or lying unplayable on the course, met with the meeting's approval. When Harry Vardon made his record of 72 at Holy-oke in the open championship of 1902, be drove twice out of bounds at the first hole. He did precisely the same thing at Prestwick this year.

An important amendment was that of J. T. Inglis: "If a ball on the putthe provide the second penalty, and placed by hand either di-rectly behind the spot where the ball lay in water, or in the nearest position, which affords a put to the hole without water intervening; but such tion must not be nearer to the hole than the spot from which the ball was This also was accepted. hole. In regard to section 3 of rule four, which reads: "When playing through the gieen or from a hazard, a player may have the line to the hole indicated to him, but no mark shall be placed nor shall any one stand on the proposed line while the stroke is being played." B. Hall Blyth proposed to delete every-thing after the words "indicated to thing after the words "indicated to him," and to substitute "by his caddie his partner, or his partner's caddie." This was, after discussion, defeated.

POSED AS DORANDO.

Smooth Imposter is Wined and Dined By Gullible Sportsmen.

Salt Lake was visited by a bogus Papke, Denver, by a fake Hayes, and Leghorn by a false Dorando. The story came from Milan a few days ago in the

following style: An unknown, person, who is gifted with a certain amount of audacity, has availed himself of the celebrity enjoyed by Dorando to deceive the sporting community of Leghorn. Repeating on a small scale the practical joke of the cobbler captain of Kopenick, this indi-vidual reached Leghorn on Friday last, within processing being beam made suitable preparation having been made in all good faith by the local newspapers. The youtht announced himself as Dorando Pietri, and on his arrival at the station was received with becom-ing honor by the sporting association.

"Dorando, who is now staying in Leg-horn," the local journals wrote, "re-lated to us with characteristic modesty the story of his heroic effort in Lon-don." After having been thoroughly well entertained, the youth departed amid the applause and ovations of the

athletic associations, which had vied with each other in giving him a wel-come. Then came a telegram from Capri stating that the real Dorando had never left his native village, and that the object of the festivities of the Leghornese was an impostor.

BURNS IS WISE.

Makes Money and Saves It and as Result is Getting Rich.

Buffalo, N. Y., Sept. 24 .- No champion in the heavy-weight class since the ad-vent of the Queensbury rules has picked up as much soft money in real fights as Tommy Burns, the king of the big fellows. John L. Sullivan always claimed he made \$500,000 out of the boxed by many; but it is positive that he earned a large sum meeting all comers

going around the country fighting men on the stage of a theater offering \$1,000 if he did not knock out his man. All he got out of such contests was his percentage of the gate money.

Burns was foxy enough to see the folly of taking on contracts of this kind, and any time he goes in the ring he is sure to get the big end of the purse whether he wins or loses, and the clubs must hear all the expenses at-tached to the cutertainment. Where Sullivan pulled down several hundred dollars and Burge schemes at the first several several hundred Sullivan pulled down several hundred dollars only Burns gets away with from \$5,000 to \$10,000 for each fight, and the promoters have to shoulder all the trouble and risk incidental to pulling

trouble and risk incidental to pulling off the big matches. Burns is today one of the best-fixed fighters in the realm of Queensberry, and is muking money faster than any fighter that ever wore the heavy-weight crown. Most of Burns' earnings have come from abroad, the field in America still being open to him when he re-turns. If he is matched to fight when he gets back home all he will have to do is to start on a theatrical tour preho gets back home all he will have to do is to start on a theatrical tour pre-ceding the match, and this alone will probably bring him in more money than Sullivan made in a year, his ring battle of the start of the start of the start of the start battle of the start of the sta battles, of course, being excepted. If John L, was a smart fellow, then Burns must be given credit for being a won-

Within a week's time Burns whipped Bill Squires in Sydney and Frank Lang in Melbourne, they being regarded as the best of the heavies in Australia. For these two snaps Tommy, it is said, received \$5,000, and after making one or two more fights, he will return home his carnings sulfed away, as all his expenses were paid by the syndicate pulling off the fights.

A TRAVELING MAN RECEIVED THE THANKS OF EVERY PAS-

SENGER IN THE CAR.

THE THANKS OF EVERY PAS-SENGER IN THE CAR. "I must tell you my experience on an eastbound O. R. & N. R.R. train from Pendleton to Le Grande, Ore, writes Sam A. Garber, a well known traveling man. 'I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said. 'There is a wo-man sick unto death in the car.' I at once got up and went out, found her very HI wild cramp colic, so bad, in fact, that I was almost afraid to take the risk; her hands and arms were drawn up so you could not straighten them, and with y death-like look on her face. Two or three faces were working with her and giving her whiskey. I went to my suit case and got my boltour to my suit case and got my boltour to, ran to the water tank, put a dou-ble dose of the medicine in the glass, poured some water noto it and stirred it with a pendit then i had aulite a time to get the ladies to lear me give if to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty min-utes I gave her another dose. By this time we were almost into Le Grande, where hands to leave the train I gave the boatle to the busband to be used in case another dose should be needed, but by the time the train Ta into Le Grande she was all right, and I received the tanks of every passenger.
