

NEWS OF THE SPORTING WORLD AT HOME AND ABROAD

INTEREST IS NOW IN TRACK SEASON.

'Varsity's Best Athletes Are Now
Getting Ready for the
Work.

PUTTING THINGS IN SHAPE.

Cummings Field Being Repaired by
Laying of New Surface—About the
Track Squad.

Interest is now centered at the University in the track season, scheduled to begin with meeting of the winter's sports, and for which the University's best athletes are now beginning to get into shape by long walks, and practice work at cross country running.

Fullback Bennion and his football stalwarts have made a contract with the University to prepare the track and the field for spring meets. Immediately after the football game of Thanksgiving day Bennion brought the plow of his ancestors up from Taylorville, and broke the crust of Cummings field. Excavations will follow in which rock drains will be located, and then a new surface laid on, in which a turf will be planted next spring.

During the Christmas holidays six members of the football squad will work leveling the track, and putting in a 220-yard straightaway. In addition to these improvements the railway company shows signs of meeting in its determination to force patrons of the games at the University to walk half a mile to see the play and may build a track into the south end of the field.

Of the track squad itself, only a small number of men are looked on for good records next season. Fred Bennion, track captain, is a good hammer and shot man. He has shown in poor form in past seasons, but is looked to as capable of big improvement under Maddock. His record at the shotput is 43.5 feet, and at the hammer throw, 124.7, with the single turn method. He will practice the double turn this season, and hopes to perfect himself in it in time for the spring track events. Maddock has an eye on him for an emergency relay man, in addition to his hammer and shot work.

Jimmy Wade is perhaps the best distance man in the college. He holds championships in long distance events over Colorado, Nevada and Utah. He holds the state record of 2:06 for the half, and 4:39 for the mile.

For the shorter running events Pitt is showing up in promising form. He took third in the state and third in the Colorado meet last year.

Harry, a half-mile, who has been away a couple of years, is likely to do some fast work this year. He has a long natural stride that covers ground in promising fashion. Just is another available half-mile, although he has not shown up much as yet.

In the sprints Whitney will have things his own way. His records of 10 seconds for the 100-yard and 22 seconds for the 220-yard dash are among the fastest on the books. "Fussy" Moore runs him a hard second, and will no doubt be a point winner in an interstate or state contest.

For the 440-yard event Butler has made good time. Bedford, rider, now at Wisconsin, left Utah. Butler was beaten only by him. He ought now to star as he has a good fast stride, and is a faithful trainer.

For the hurdles and broad and high jump, Swamp is a new man with promising material in him. He has done 21 feet in the broad and 5:08 in the high jump. He is as yet comparatively undeveloped, and ought to whip into good shape for excellent records.

The only other man registered with possibilities in the jumping line is Hunt, who is a fair hurdler and jumper.

Russell is looked to again to make a good showing at the pole vault and broad jump. He has taken on considerable weight during the past year, and may fall down in these events on that account.

With this material to begin work on, Coach Maddock has every prospect to anticipate a victorious track team that will in a measure sustain the reputation of the University in track athletics that he has won for her in football.

ASSOCIATION FOOTBALL.

Efforts are being made to organize a league here.

The following communication was received by the "News":

Since the association football game was played on Thanksgiving day and reported in your columns, much interest

has been exhibited by many who are familiar with the game.

If you can find space in your columns we would like it to be known to all concerned that there are already two teams organized, and these would like to encourage all others who would like to follow their example.

We would like to see this old game revived in this state, and wish to form a league.

From correspondence received from Eureka and other places, we find there are many old football players in Utah, and only help we can give them in organizing teams, joining for practice, getting up matches, etc., we are willing to push forward every effort.

The Salt Lake Scots have had this project in view now for some time, and only recently put it into practice, and would like all others interested to rattle up their friends and see what strength they can muster.

We will call a general meeting in the near future, which shall be announced in these columns.

Further information will be cheerfully furnished by Mr. Alex Shedd, 223 West Fifth South street, or Mr. Walter N. Russell, 178 H street, Salt Lake City. It is most gratifying to see so much activity and enthusiasm as has been exhibited in correspondence which we have received, and we see no reason why, if we get hearty support, the old game of football should not be revived, and come this time to stay.

CHARLES N. ADAMSON.

WALLER IS NOT DEAD.

Well Known Bike Rider Turns Up Very Much Alive.

Although he has been reported dead a number of times, Frank Waller, the famous six day bicycle rider, returned to New York last week in good health and looking none the worse for his two years' experience in Australia and England. Waller did some pace-making in Australia for Major Taylor and then went to England, where he started building motor cycles for Arthur B. Chase, the English pace follower who visited this country some years ago, without disturbing the feeling of fame of the American racing men.

LOCOMOTIVE VS MOTOR.

Great Race Between Engine and Automobile.

Not satisfied with scuzzing around turns on two wheels and scorching the atmosphere with the terrific speed they have attained, some of the more daring of the motor racers are making arrangements for a race between a motor car and a locomotive, to take place at St. Augustine, Fla., immediately after the great Ormond Beach race meet in January. W. J. Morgan, who has made the Ormond meet a brilliant success, is making plans for the novel contest.

The purpose race will be the oddest speed contest ever thought of, even in these days of space annihilation. The promoters of the proposed race intend to use parallel tracks, on one side of which the locomotive will make its run and on the other the motor will carve the ambient. The motor is to have grooved wheels similar to those on a locomotive.

SIX DAY RACER.

Floyd Krebs will be one of the riders in the new six day race in New York. He is a veteran at six day racing and will be one of the front bunch.

FLOYD KREBS

big meeting that begins on the Ormond-Beach in Florida on Jan. 22. After consultation with makers, owners and drivers of racing cars, the following was decided upon:

- 1.—One hundred miles, open to all, for the Vanderbilt trophy. In case the number of starters exceeds six the cars will be started one minute apart and the winner determined by time instead of by position. In this case the start will be from a standstill.
- 2.—One mile record international, open to all, for the Sir Thomas Dewar trophy. Two cars in each heat; second round of heats if necessary; winners and fastest car to complete in final.
- 3.—Fifty miles, open to all. American built cars. In case the number of starters exceeds six the cars will be started one minute apart, and the winner determined by time instead of by position; in which case the start will be from a standstill.
- 4.—One mile, for steam cars only.
- 5.—Five miles, for steam cars only.
- 6.—Ten miles, for steam cars only.
- 7.—Five miles, time trials, stock cars, above \$1,000 to and including \$1,800.
- 8.—Five miles, time trials, stock cars, above \$1,800 to and including \$2,750.
- 9.—Five miles, time trials, stock cars, above \$2,750 to and including \$4,000.
- 10.—Five miles, time trials, stock cars, \$4,000 and over.
- 11.—Five miles, time trials, racing cars of all classes.
- 12.—Five miles, gasoline stock cars, \$500 and under.
- 13.—Five miles, stock cars, above \$500 to and including \$1,000.
- 14.—Ten miles, stock cars, above \$1,000 to and including \$1,800.
- 15.—Ten miles, stock cars, above \$1,800 to and including \$2,750.
- 16.—Ten miles, stock cars, above \$2,750 to and including \$4,000.
- 17.—Ten miles, stock cars, \$4,000 and over.
- 18.—Ten miles, Ormond Derby, open to all racing cars.

It is anticipated by the gentlemen having the unique race in charge that all speed records will be smashed to smithereens, and that the contest will afford more excitement even than the racing between the motor cars on Ormond's road and sweeping beach.

The race promises to be the most sensational feature of the winter's racing in Florida. It surely will be exciting enough to keep the most daring of speed merchants on their tiptoes.

BIG AUTOMOBILE MEET.

Program for the Ormond-Beach Beach Contest in January.

W. J. Morgan, manager of the Florida East Coast Automobile association, has assured a tentative program of the

"BATTLING" NELSON.

He has the likeness of probably the greatest fighter living, in the feather-weight division, or to be more accurate, 130 pounds ringside. Last Tuesday night at San Francisco, he met "Young Corbett," considered master of them all at that weight, and Nelson administered to him an awful beating, winning in ten rounds. Nelson got his start toward the championship in this city when he beat Spider Welch. Since then he has beaten Martin Canole, Eddie Hanlon, Aurelio Herrera and Young Corbett. On the 29th of this month he will fight Jimmy Britt, present claimant to the title, and that Nelson will beat him is freely predicted by the wise ones.

HEART FLUTTERING.

Undigested food and gas in the stomach, located just below the heart, presses against it and causes the heart palpitation. When your heart troubles you in that way take Herbine for a few days. You will soon be all right. 50c. Sold by Z. C. M. I. Drug Dept.

"PUGILISM NOT AS BAD AS FOOTBALL"

The Statement is Made by Bob
Edgren, Well Known Sport-
ing Authority.

SAW YALE - HARVARD CAME.

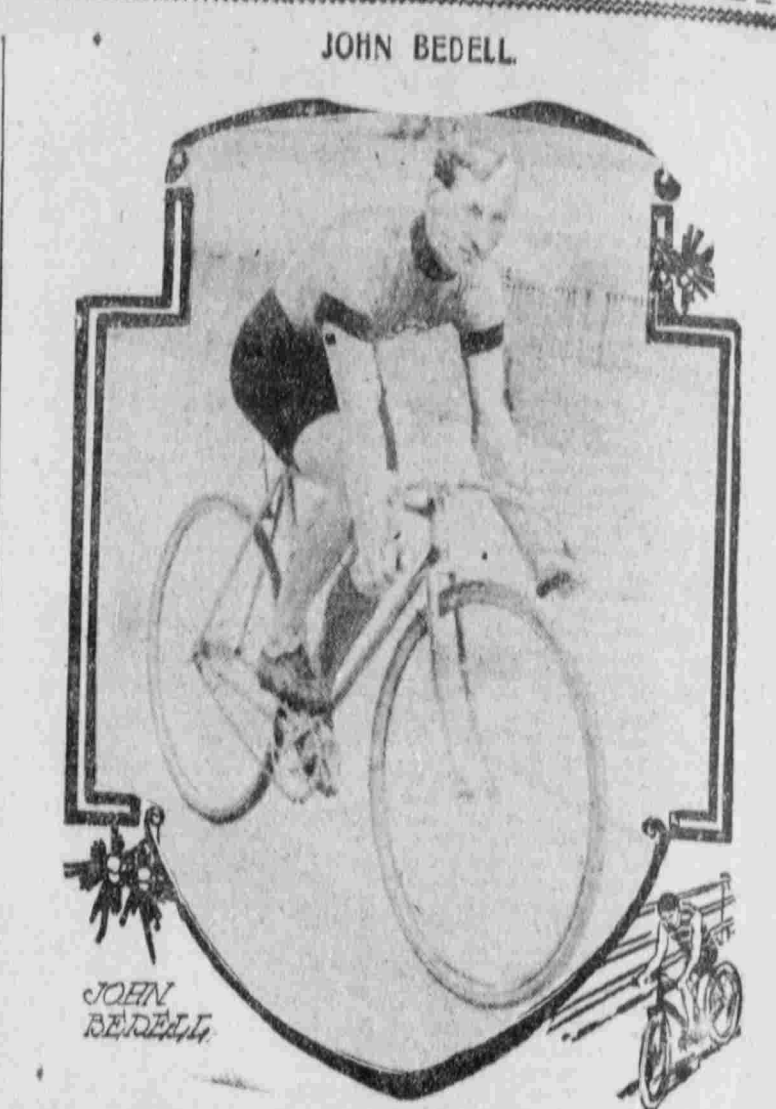

He Points Out the Difference Between
The Two "Games"—He Does Not
Knock Football.

Bob Edgren, the well known sporting writer and authority, has come to the defense of pugilism, declaring it not near as dangerous and brutal as football. Here are the conclusions he reached after witnessing the Yale-Harvard gridiron struggle recently:

"If there is any great difference between fighting with gloves and playing football it isn't apparent at a glance. There is more blood shed in a single game of football between two big college teams than there is in half a dozen championship battles.

"I have seldom seen men so badly cut up in boxing as Capt. Hogan was in the game with Harvard. The blood streamed from a cut over his eye and trickled from the corners of his mouth. His nose seemed to be broken. At any rate, it has been broken times before in playing football, and the blood was flowing from one or two cuts on the bridge of it. Tripp was hardly better off, and some of the Harvard players showed more crimson than the sleeves of their jerseys could account for. Hogan was not laid out at any stage of the game, and in fact he makes it his boast that he never has taken the count in a football competition. But some of the others were less fortunate.

"When a man is knocked out in a fight he has 10 seconds in which to recover. If he isn't fit to continue at the end of that time the affair stops right there. In the gentle game of football things are different. A man knocked out is given two minutes instead of 10 seconds. In the big game Saturday Matthews, the Harvard end, was knocked senseless in almost the first rush in which he participated. He lay limp while the trainers sprayed him with cold water and placed a sponge saturated with ammonia at his nostrils. Finally he was brought to consciousness. He got up and reeled back into his place in the line and the play continued. A few moments later some one punched him on the jaw so hard that he staggered like a drunken man, but he recovered enough to play on. Then when he battled Rockwell in the mid-rift, running at full speed and without slackening up as he struck, he was laid out senseless for two minutes, barely getting to his feet in time to hold his position.

John is the "get-there" member of the Bedell brothers team and will compete in the big six day race meet in New York. Johnny is a veteran rider and past experiences have taught him a thing or two.

"Others of the players were knocked out in similar ways during the progress of the game, and much time was taken out for their recovery. If a man unconscious for 10 seconds in a game of football had to be removed from the field, every big team in a big game would finish as an eleven of substitutes.

"This comment isn't intended as a knock for the great American game of football. In my estimation the college sport is a maker of men. It isn't a game for 'sissies' in the first place, like croquet. To become a successful football player any youngster must have some natural aggressiveness, judgment and self-reliance. Playing the game develops just these qualities to the fullest extent. Tiddle-de-winks won't do it neither will checkers. Drop a seasoned football player into the middle of the darkest province of China and he will come back fat and hearty, whereas the average citizen would disappear like a bubble on the Hudson river.

"Boxing, while it is a less strenuous sport, develops the same self-reliance. Almost any man who is a good football player could be a good boxer if he tried to. Shevlin of Yale is clever with his gloves. He had a set-to with Jim Corbett in the Yale gymnasium a few months ago and dropped the ex-champion twice in the course of a minute's boxing. When Shevlin leaves college and takes his start in the business world no doubt the self-reliance and aggressiveness that he has acquired in

BASEBALL GOSSIP.

Outlook for the Pacific National League Next Season.

Will Boise be included in the Pacific National Baseball League in 1905? asks the Boise Capital News.

The general impression is that it will be, and that it will be the forerunner to Boise being included in a much stronger league in 1906.

The present outlook is that the Pacific National league, the coming season, will include six teams, Boise, Salt Lake, Spokane and Butte, composing the league last season, with the addition of Ogden and Helena. With the addition of Helena and Ogden it is argued that the interest would be greater, as it would give a better variety of faces on the diamond.

John J. McClosky, who managed the pennant winners last season, is expected in the city at any time for the purpose of interesting our people in the new league. He left his Kentucky home the day after Thanksgiving for Boise, but it is thought that he will stop in St. Louis and Chicago for a few days to confer with baseball magnates in the major leagues. As soon as McClosky reaches the city it is expected that there will be something doing.

The Season The Reason!

Owing to a very backward season we are very badly overstocked and must unload immense lots of shoes at once. We must have money—we must have room. All lines are complete, this advertisement merely skins the surface of vast stocks—no matter what you want in a shoe way we can save you big money.

All solid dongola shoe for Children, patent tip, sizes 5 to 8, value 85c, at	50 cts.	Mat Calf Shoes, for boys or girls, they wear good, sizes 8 to 11, value \$1.65, at	\$1.13
Boys' all solid Satin Calf Shoes, neat style, with patent tip, round toe, shape or square toe, value \$1.85....	\$1.35	Women's Dongola Shoes, neat round toe shape, patent tip, value \$1.75, at	\$1.35
Women's Felt Juliette, red or black, hand turn soles, fur trimmed, value \$1.25, at	98 cts.	Women's fleece lined shoes, neat style, with patent tip, round toe shape, or square toe, value \$1.85....	\$1.35
Women's extra good \$3.00 shoe, in big variety of styles, value	\$2.35	Men's High Top Shoes, all solid, just the shoe for working men. Value \$3.50 at	\$2.85
Men's Shoes in Calf or Vice Kid, values to \$3.00. All sizes in many sorts at	\$1.95	Women's Shoes in big variety of styles, Value and style of \$3.50 and \$4.00 sorts, at	\$2.85

Made Life Look New

Miss Postlethwaite's experience with Wine of Cardui shows that all her former suffering was unnecessary.

Miss Postlethwaite's cure by taking Wine of Cardui is proof that the pains that hundreds of thousands of other women are enduring are equally unnecessary. And it should convince you that your sickness should not be allowed to go on another day.

Wine of Cardui made life beautiful for Miss Postlethwaite. It has made life new for over 1,500,000 sick women. It will make life new for you. It will give you health for your sickness and quick and permanent relief for your pains. A 25 cent package of Theodor's Black-Draught will give better health to every member of your family.

WINE of CARDUI

No 1312 Broderick St., SAN FRANCISCO, CAL., Dec. 8, 1903.

I suffered for over four years with ovarian troubles, which robbed me of the joy of life. My back and limbs ached so I could hardly stand up, and shooting pains made life at times unbearable. The blinding headaches I suffered were something no one can understand who has not had the experience. Wine of Cardui saved my life, released me from suffering and made life look new and beautiful to me. I took nearly twenty bottles in all before I was perfectly well, but I felt it was a cheap cure. This was all over eleven months ago. I am well and in perfect health now, and most heartily do I endorse Wine of Cardui as the best and most reliable remedy any sick woman can obtain.

Miss Postlethwaite
