It Will be Ushered in at Aqueduct Only men engaged in a severe outdoor manual labor can live a heavy meat diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the bulk f food eaten. But many of the most nutricious

oods are difficult of digestion and it i of no use to advise brain workers t eat largely of grains and vegetabl where the digestion is too weak to as similate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be tak-en after meals to assist the relaxed digestive organs, and several years ex-perience have proven Stuart's Dyspensta Tablets to be a very safe, pleas-ing and effective digestive and a remdy which may be taken dally with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they to not act on the bowels nor any particular organ but only on the food caten. They supply what weak stomachs lack, pepsin diastase and by stim-ulating the gastric glands increase the natural secretion of hydrochloric acid People who make a daily practice of taking one or two of Stuart's Dyspensia Tablets after each meal are sure o have perfect digestion which means perfect health.

There is no danger of forming an in-jurious habit as the tablets contain ab. solutely nothing but natural digestives: ocaine, morphine and similar drugs have no place in a stomach medicine and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies. Ask your druggist for a fifty cent

Shocking Murder of a Young Girl from Payette.

Special Correspondence,

Pocatello, Idaho, April 7 .-- Word has just been received here of what is believed to be one of the most atrocious crimes in the history of the State, that has come to light at Payette. It is believed that the 10-year-old daughter of Mr. and Mrs. James Hull, who live there, was outraged and either mur-dered to conceal the crime or died from its effects.

Butler, it is said, never left the casket until it was lowered into the grave, He returned to Baker, after paying all the expenses of preparing the body for burial and transporting it to Payette. His actions aroused the suspicions of Dr. A. T. Kimmell, who, with Dr. Ira R. Woodward, exhumed the body. They found absolutely no evi-dence of the girl having died from diphtheria, but they found, it is stated, unmistakable proof that she had been outraged. The result of the autopsy was laid before District Attorney White at Baker City, who has not, as yet, called it to the attention of the grand siderably

Walt Sear of the Rio Grandes of last year will play behind the bat and he will give an account of himself. Redmond of St. Joe, Mo., is scheduled for the box.
