New York, Aug. 9.—Because he was not furnished a knife and fork with his meal sent to Harry K. Thaw, he quarreled with the prison caterer who has been furnishing him food. Thaw's breakfast today consisted of plain prison fare. He ordered his luncheon from a nearby hotel. The caterer said that Thaw insisted upon having a knife and fork, though knowing that it was against the prison rules to fur-nish them to prisoners charged with capital offenses. He said that Thaw complained so often to him that he determined to serve him no longer. It is said that when Thaw was first placed in the Tombs, Warden Flynn suggested he eat such food as could be easily eaten without the use of a knife and fork, as no exception would be made in his case.

CHASE OF SILVER BULLION.

Washington, Aug. 9.-It was an-nounced at the treasury department today that the department would at once resume the purchase of silver bul-lion for the subsidiary coinage. Ten-ders are invited at the office of the di-rector of the mint on Wednesday, the 15th inst., up to 1 o'clock, and every Wednesday thereafter until further no-tice. Said tenders are to be for delivery at the Philadelphia, New Orleans or Denver mints, settlement to be on the New York basis of bullion guaran-teed 999 fine. The treasury reserves the right to reject all tenders or accept such part of any tender as may suit its convenience. It is understood that anticipating its re-appearance as

a purchaser might temporarily dis-turb the market unduly, the treasury has already obtained control of considerable amounts for future delivery, so that it is in a position to drop out of the market for several months if desirable. The average requirements of the treasury throughout the year will probably not exceed 100,000 ounces per week and it will be the policy of the department, while keeping a reasonable amount on hand to so distribute its purchases throughout the year that its femands will be uniform and not an element of uncertainty in the market. The purchases will be made under authority of section 2526 of the revised

statutes. These are the first purchases made by the government since the repeal of the purchasing clause of the Sherman act Nov. 1, 1893.

Not a Borah Victory.

It is now generally conceded that the It is now generally conceded that the endorsement plan proposed by Borah will be ignominiously defeated. If this is the case, it is understood that Borah will withdraw from the field to either Chairman Brady or Judge Dietrich. When the Republicans find that the

convention fails to endorse our cool, calculating, silver-tongued orator, party affiliation will prevail over personal animosity and the welfare of the state will be taken into consideration. Though about one-half of the Fremont county delegates and probably fourteen out of the 20 Bingham primary elec-tors, will vote for the endorsement, it is very apparent the measure will uiis very apparent the measure will un-timately go down in defeat: for the majorities from the rest of the state will make these small portions of the descates look like a Chinese half-penny with a larger hole than usual.

For governor Gooding will receive an overwhelming majority. For the peo-ple, regardless of party affiliations, have plainly evinced their desire to continue him in office.
