UTAH COMMODITY RATES.

San Francisco Merchants Will Control Salt Lake Business.

Agreement Was for the New Schedule to Go Into Effect June 25, But it Will Be a Few Days Later.

San Francisco Chronicle of Tuesday: The Southern Pacific company's new Utah commodity tariff was completed yesterday, and will be made effective as soon as it can be printed and the usual ten days' notice served on the Interstate Commerce Commission. The new tariff contains rates on all the principal commodities which are supplied to Utah from San Francisco, and, while much higher than the existing rates published in the special Ogden tariff, are sufficiently lower than rates from the East, it is thought, to enable San Francisco merchants to control the business of Utah.

The new rates apply on shipments from San Francisco to Utah common points, including Ogden, Salt Lake, Spanish Fork and intermediate territory. The new rates, as compared with the new rates from Chicago, are as follows:

ARTICLES	In cents Per 100 lbs. From San Francisco	From Chicago
Agricultural implements and wagons, straight or mixed carloads, plain powder, ammunition,	85	100
Furniture, carloads	75½	85
Tin cans, carloads, minimum weight 10,000 pounds	87½	103
Baking powder and baking powder compounds, straight or mixed carloads	90	115
Glass bottles (common) and common glass flasks	77	100
Beans or ground coffee, straight or mixed carloads	90½	105
Condensed milk, in hermetically sealed cans	75	100
Hay, loose, carloads	87½	115
Horses, mules and other cattle, loads	85¼	110
Structural iron, carloads	85	107½
Iron and jelly jars and glasses, carloads	77½	100
Earth or mineral paints, carloads, dry, in, weight, carloads	77½	100
Leaf tobacco, carloads	85	110
Leaves, in barrels or boxes	90½	115
Wood and spokes, carloads	77½	100
Posts when turned or plain, straight or mixed carloads	72½	110

These are the principal commodities on which the Southern Pacific company expects to do the bulk of the Utah business. In most cases they are 75 per cent of the rates from the Missouri river, according to the agreement reached at the recent conference of the trans-missouri lines in Denver. They are also less than 90 per cent of the rates from Chicago, the west distributing center with which San Francisco has to compete in the Utah markets, and the merchants and jobbers of San Francisco are now afforded an advantage over the East which Traffic Manager Curtis of the Traffic Association believes will give San Francisco control of the business in Utah.

It was agreed at the Denver meeting that the new rates with Utah should not be effective on June 15th, but owing to delays in the preparation of the tariffs it will be three or four days after that date before the new rates will be put into effect.

OPINIONS OF OUR LEADING MEN.

President Angus M. Cannon says of the Keeley treatment:

"I thought it impossible for one man to do what Dr. Keeley has done scientifically in counteracting the terrible evils of intemperance. His treatment strengthens men physically, mentally and morally. Under these circumstances they are given another opportunity to become men amongst men. Is there a man who loves his fellow beings that can fail to say: I view Dr. Keeley as engaged in a most commendable work? I trust his good work may continue."

NO MEETING HELD.

The Fire and Police Board Lacks a Quorum Because of Cohn's Absence.

Chairman Varian of the fire and police board, called a special meeting of that body last night to take action upon the court's order of reinstatement in the Kellogg case, but as there was not a quorum present, no action could be taken. The only members present were Commissioners Varian and Nohle, Mr. Cohn having apparently stopped away to avoid perhaps the necessity of his having to take another hot through the door, as on Monday evening. As Mr. Jennings is still out of town Mr. Cohn was left in the minority and it is for this reason that he is supposed to have stayed away. Chairman Varian, when he became aware that a quorum could not be obtained, had the following drawn up and entered upon the records of the board:

At a called special meeting of the board of police and fire commissioners for the city on this, the evening of June 3, 1896, at the office of the board, there were present U. S. Varian, chairman, and W. F. Nohle, commissioner.

The secretary and chairman stated that Commissioner Cohn had been notified of the meeting, and the chairman stated that he had personally notified Commissioner Cohn of the meeting, and the its purpose was to consider and take action in the matter of the suit pending in the Third district court on behalf of J. N. Kellogg to be reinstated as a member and sergeant of the police force.

Commissioner Cohn not appearing, the secretary stated that the commissioner had just communicated with him through the telephone, and stated that he—Commissioner Cohn—understood that Commissioner Jennings would be in the city in a few days, he would not attend the meeting of the board in justice to Commissioner Jennings.

There being no quorum, the board was not able to convene. Commissioners Varian and Nohle, however, rose and place on record as follows: They and each of them accept and obey the judgment of the Third district court in the suit of J. N. Kellogg against the board and chief of police, commanding the board to reinstate J. N. Kellogg as a member and sergeant of the police force, and hereby state their intention to obey said mandate when in their power so to do.

U. S. VARIAN,
Chairman.

Attest: GEO. F. FELT, Secretary.

Agricultural College.

The closing exercises of the school year—the third annual commencement of the State Agricultural College—will be held on June 7th, 8th, 9th and 10th. Tuesday, June 9th, students' day; at 8 p.m. exercises of Longfellow society. Wednesday, June 10th, graduation day; at 11 a.m. music and address; presentation of diplomas, Dr. John H. Park, state superintendent of public instruction; at 8 p.m. college ball.

The class of '96 with the degree of bachelor of science is composed of Carlotta Larsen, A. W. Merrill, Lottie A. Merrill, agriculture; W. S. Loughton, biology; W. W. Mclaughlin, J. L. Rands, civil engineering; J. H. Thomas, mechanical engineering; short commercial course, W. Gibson, L. H. Carver.

Died From Scorpion Bite.

LEHI, Maricopa county, Arizona, May 28, 1896.—Lorenzo, the infant daughter of William and Lorenzo Jane Crismon, died on Wednesday morning, May 27, at half past one o'clock. She lived about five and a half hours after being stung. She was stung in the neck, in the ear and behind the ear. Dr. Williams was sent for by telephone, but connection could not be made with the Mesa office; so a man was sent on horseback, the distance being about eight or nine miles. When the doctor arrived it was too late—the poison had too much start, but he did all he could in the case. The child was born March 22d, 1896, at Lehi, Arizona. T. E. JONES.

The Concert Last Night

Given by the Shaker Medicine company from their elevated platform on the vacant lot adjacent to the Knutsford hotel, on State street, was a grand treat to the many who availed themselves of the opportunity.

The tenor on the cow bells was appreciated by all, and shows that where there is a will there is a way, especially to get music.

The singing, which is the feature of the entertainment, was rendered in a style indicative of thorough mastership. Last but not least was the interesting talk of Mr. Smith, who gave a brief but descriptive talk on Shakers and Shakerism. The history of this peculiar sect but little known sect of people demonstrates positively that to the persevering comes success, in the undeviating course understood and to the closely belongs health. Their motto is, "Your heart to God and your hands to labor," and all from the youngest to the oldest must lead regular lives, having certain hours to retire, certain time to arise and everything is controlled with regularity and promptness, but they are by no means a long-lived race of people, but have certain hours for amusements and recreations which they enjoy equally as well as any other persons.

Mr. Smith announces that tonight he will put on the Japanese balloon riser, and insure that it will be the source of more boisterous, laugh-producing fun than was ever witnessed in the same length of time, but is entirely harmless and we would suggest that all who want to pass a pleasant evening with the entertainment tonight at the same place, and we advise you that if the company exert themselves for your entertainment this evening as they did last, you will be fully repaid for your time.
