SCHOOL BOND PROPOSITION

Efforts of Civic Improvement League Promise Success—Site for School Building.

DEAF TEACHERS' CONVENTION

State Industrial School Closes Successful Year—Divorced and Remarried in 20 Minutes.

Ogden, May 22.—That another election to vote on bonds for a new high school will be held in the near future seems to be assured.

At the meeting of the board of education last evening, Messrs. Lewis, Wright, Nye, Spargo and Carver, the Civic League committee were present and expressed a desire to have the board of education resubmit to the taxpayers the question of bonding for a new high school.

When enough signatures are obtained, which will give assurance that the taxpayers will vote for bonds, then the board will go to the board. The board assured the committee that it would accept and consider any petition submitted to it on the question.

The treasurer reported having \$26,420.20 cash on hand in the treasury. More than 200 applications for positions as teachers were received and ordered filed.

In the matter of renewals of insurance on the various buildings the clerk was instructed to advertise for bids upon the same.

The offer of O. J. Stillwell to sell the block on an acre and a half of property on Twenty-third street between Van Buren and Jackson avenues for the sum of \$2,000 was accepted, and a warrant for this amount will be drawn.

It is proposed to erect an eight room brick building on this property so that it will be ready for the opening of the school year in September.

It will be one of the most important meetings ever held in the state, as it will bring together more than 250 prominent professors and instructors of the deaf and blind in the United States, Canada and Mexico.

Two of the features of the convention will be the addresses to be delivered by Dr. Henry Suzzalo of Columbia university, New York city, and Dr. William G. Anderson of Yale. The addresses will be of special interest in that they will be to the furthering of the methods of instruction for the deaf and blind.

F. M. Driggs, superintendent of the state school for the deaf and blind in Ogden, and his assistants, are working overtime in outlining the program and making preparations for the receiving of the delegates, who will be welcomed there.

Although the present school year closes May 25, at which time the commencement will be held, 25 of the pupils will return during the convention and will give practical demonstrations of the convention delegates of methods in vogue here and the achievements of the local instructors. Prof. Joseph Balmonte in behalf of the Ogden teachers choir has volunteered to tender a complimentary concert to the visitors.

Next Friday the pupils of the school as guests of President Simon Bamberg of the Salt Lake and Ogden road will journey to the Lagoon for their third annual outing, at which time a splendid program of sports and amusements will be given.

STATE INDUSTRIAL SCHOOL.

Close of the Most Successful Year of Record.

Next Friday night the State Industrial school closes for the year with appropriate exercises and the school work of the institution ends for three months. The year has been a most successful one and the inmates of the school made as fine a showing as any in the history of the school. A fitting program is being arranged for Memorial day, addition of the barber shop, one of this year's innovations, the school is now equipped with departments enough to give a boy a chance to learn almost any trade that he may desire. Some of the trades that are largely patronized by the boys are the carpentering, blacksmithing and the printing trades.

DIVORCED AND REMARRIED.

All in 20 Minutes—Mrs. Cromwell Makes New Record—Other Cases.

Ogden, May 22.—Divorced and remarried in 20 minutes is the new record established at the courthouse yesterday afternoon by Mrs. Annie S. Cromwell. The woman was granted a divorce by Judge Howell, freeing her from William Cromwell on the grounds of desertion. Within less than 15 minutes after securing the divorce Mrs. Cromwell, accompanied by Harvey W. Murdock, appeared at the county clerk's office and they were granted a license to wed. Ten minutes later they were united in bonds of wedlock by Elder George Folkman.

OTHER DIVORCE CASES.
In a suit for divorce filed in the district court Willard Milton Fowler alleges that his wife, Margaret Della Fowler, has treated him "during their married life, in a cruel and inhuman manner, and has offered indignities to his person, made his condition intolerable and life burdensome, driven peace and happiness from his home" and has deserted him. The couple were married at Harbourn, Okla., Nov. 13, 1901.

Default was entered in the following cases and decrees of divorce were granted by Judge Howell yesterday afternoon:
Anna Howard vs. Clyde E. Howard.
Jane Elizabeth Hamilton vs. Thomas J. Hamilton.
Martha Chatland vs. Thomas C. Chatland.

JUNCTION CITY BRIEFS.
Messrs. M. S. and J. M. Browning are planning to erect, on the lot south of the postoffice and the most complete and thoroughly modern garages in the city. The site was purchased several days ago and the work upon the new building will begin at once.

The Woodmen of the World of Ogden will on June 7 hold their annual memorial exercises in the city with appropriate exercises.

The defense of an alibi established by George Williams, who is at the county jail, held upon the charge of burglary, is likely to be the means of securing his freedom.

It has been found that Williams was released from the Evanston jail on the day of the crime and that there were no trains from Evanston on that day which could get the man into Ogden in time to participate in the robbery of the Steele home at 4:30 o'clock in the afternoon.

That burglars are pretty hard up sometimes is shown by the one that entered the office of Dr. Frank Parker early last evening and filled his pockets with a bottle of ink and writing material and was making further investigation about the office when Dr. Parker returned and caught him. The burglar made his escape before the police arrived.

The exhibit of the county schoolchildren's work was made in the schools yesterday afternoon and was very creditable and really surprising for the educational work in the county.

Great improvement noted in the county educational work, Supt. Thomas E. McKay and Clerk Samuel G. Dye visited the schools of Hooper and Wilson yesterday, where a field day was held.

HOSPITAL NEWS.
A number of operations of a minor nature were performed during the week at the Murray hospital. Those whose cases have been somewhat serious and whose condition many people are anxious to know are: Miss Maggie Ines, who is greatly improved; Mrs. Carl Johnson, who rallied after a serious but successful operation; Mrs. C. Williams, who has been critically ill, is much better, and an immediate recovery is anticipated.

BASEBALL IS WARMING UP.
Baseball interest is growing intense. The local boys have received enough financial aid to allow them to enter the state league. As a result, with the assistance of a representation of the league from Salt Lake, who were down Thursday evening, a local organization was effected, with Joe Smith as manager, Philip Bentz as president, Henry Thayne, vice president, Eph Christensen, secretary, Mahonri Spencer, treasurer, and F. C. Howe, substitute. Mr. Bentz is the representative of the state league, and met with that organization last evening.

This afternoon the Z. C. M. I. team meets the Murray boys, and tomorrow the soldiers will appear on the diamond.

NEWS BREEFS.
Lesita Tullison and a Jorgenson girl, two schoolchildren, received a severe electric shock Wednesday, after the high wind calmed down. A falling limb had broken a wire and the wire girls decided to make a swing of the loose ends. Their hands were badly burned and had it not been for some foreigners who quickly rescued them, their injuries might have been more serious. It appears that the full voltage did not take effect.
Mr. Merrill, a surveyor of Salt Lake, was down yesterday and with the state committee made a tour over the city for the purpose of platting the city.
While a portion of the citizens are in mourning, there are many who are rejoicing over the fact that the city will not be infected and overrun with dogs, as the dog catcher has made his annual round and yesterday made a slaughter of 49 head.
