

SPECIAL BUSINESS NOTICES

"SINGER" SEWING MACHINES.

The Singer Manufacturing Company a few days since published a notice in these columns warning the citizens of Utah against "re-painted, re-japaned and bogus machines." Perhaps the public generally are not aware of the fact that, since the expiration of sewing machine patents, several different firms have undertaken and are now carrying on the manufacture of Singer sewing machines. These machines, which the Singer Manufacturing Company choose to call "bogus," are, in every part and piece, made after the Singer pattern, are absolutely new and first class in every respect. They are, in fact, an exact fac simile of the latest improved machine manufactured by the company, with the single exception that both machine and woodwork are finished in a more elegant and workmanlike manner than the machine put on the market by the company. I challenge the Singer Manufacturing Company or its agents to a comparison and test of the merits of these two machines before competent judges. The branch office of the Singer Company have during the past year represented or taken in account of old second-hand machines from customers who were unwilling or unable to pay for them, but who had had the machines in their possession and in use for months, and in many cases for years. These old machines have, by the Singer Manufacturing Company's agent here in Salt Lake City, been re-painted, re-japaned, re-varnished, and no doubt palmed off on the public for new machines. With this statement of facts I am willing to let the people decide as to who are the "pirates" and "swindlers" in the sewing machine business in Utah.

LOCAL AND OTHER MATTERS.

Preaching.—To-morrow evening

Elder T. B. Lewis will preach at the 20th Ward Meeting-house, and Elder Oron F. Whitney at the 18th Ward.

Religious Services.—Religious

services will be held in the Tabernacle to-morrow afternoon, commencing at 2 o'clock, and in the meeting houses of the several wards at the usual hours.

Situation Wanted.—A person

desiring to hire a boy about fourteen years of age, capable of attending to a cow and doing other ordinary work, can hear of such a lad, by applying to Mrs. Peterson, who resides on the western portion of the 20th Ward north bench.

Indian Relics.—A square mill,

for pounding grain, with part of an Indian mortar, found in Big Cottonwood Ward, have been added to the department of Indian relics in the Museum. They were contributed by Messrs. Howe, Stout and Preston Lewis. This is the second contribution from the same source.

Recreation.—The Second Ward

Sunday School, accompanied by Bishop Belmont and Superintendent W. L. Ball, spent yesterday at Calkins' Farm. There were 10 wagon loads of children. It was a most agreeable day for all who participated. The ample facilities for amusement afforded by the grounds and lake were put to active use.

Sunday School Notice.—The regular

monthly meeting of the Deseret Sunday School Union, will be held, pursuant to adjournment, at 7:30, next Monday evening, June 2nd, in the Seventeenth Ward Hall, Bishop John H. Smith and counselors, and Supt. James Dwyer, having kindly offered the use of the commodious and elegantly furnished hall for the occasion. The Seventeenth Ward choir will furnish the music for the evening.

A full attendance of superintendents,

teachers and other officers of Sabbath schools is desired, as business of importance will be brought before the meeting. Those who prefer good seats will please be punctual.

L. W. RICHARDS, Sec'y.

The Weather.—Mr. Thomas

Webb furnished the following weather record for May, accompanied with a prediction in regard to the present month:

"Total rainfall 2.53 inches; highest thermometer 89, lowest 34. During the first half of the month light, cool showers prevailed throughout the Territory, and much wind, while in the east heavy and cold storms prevailed. There were also frosts; on the 20th a cool storm, and unsettled month, the average temperature being 56 1/2. I have never witnessed colder skies so constant at this season of the year. There has been less electric disturbance of the elements here than usual for the month of May."

"I anticipate this month (June)

to be a cool storm, and unsettled one, rainfall very great, and temperature exceedingly low at times."

Ran Off With It.—On Thursday

night Mr. George W. Davis was visiting at a friend's in the 10th Ward. He left his horse and buggy upon the street, securely tied, but when he emerged from the house they were gone. He walked to his residence in the 20th Ward, thinking the animal had gone home.

From there he went to the store, on Main Street, but found no trace of horse or buggy. He was again annoyed by two and three o'clock yesterday morning, and there found the horse, minus harness or vehicle, standing upon the sidewalk. Yesterday the buggy and harness were found near the Warm Springs.

Evidently some person or persons who had been on a holiday "out" had taken possession of the outfit and driven it off. It was a contemptible act, and Mr. Davis will willingly pay \$10 for information that will lead to the discovery of the parties who perpetrated it.

Interesting Occasion.—On Wed-

nesday afternoon the Ladies Relief Society, of Payson, held its annual meeting and fair. Sister E. R. Snow, Z. D. Young, E. B. Wells, editor of the *Expositor*, and Elizabeth Howard, of this city were present, and addressed the assembly, which was very large and composed of gentlemen as well as ladies. The latter of course greatly preponderated.

The hall was decorated with a very extensive collection of articles made by the sisters, consisting mostly of a wide variety of quilts, comforters, counterpanes, tidies, wax and other artificial flowers, silk goods, such as handkerchiefs, neckties, etc.

On the evening of the same day a joint meeting of the Young Men's and Young Ladies Mutual Improvement Associations was held, and was also addressed by the visitors from Salt Lake City.

A number of the brethren present also spoke at both meetings.

That Land Case.—We understand

that if those people of Bountiful who have been ruthlessly swindled out of their land in Bountiful do not recover the property of which they have been robbed, it will not be for want of trying. We are informed they purpose leaving no legal stone unturned in their endeavors to obtain their just rights. In this they are perfectly right, and every honest person will wish them success. If people tamely submit to let dishonest scoundrels fatten upon the fruits of years of their patient toil and industry, who will be safe from being preyed upon by unscrupulous swindlers?

Several of the men who were robbed by the Burnhams, aided by other parties, are by this nefarious transaction left entirely without land, and consequently comparatively without means of support for themselves and families. We are pleased to learn that some of the friends of such are stepping forward in a brotherly way and extending to them a helping hand.

Eleventh Ward.—Yesterday was

an interesting time at the 11th Ward school. The Principal, Bro. Alma Kendall, had a public examination of the classes in the morning and in the afternoon he took the children to the Museum. While there the excellent order that prevailed among them was a notable and creditable feature. The juveniles were quite pleased with what they saw. They wound up the exercises of the day with a party at the schoolhouse, in the evening.

In the course of the evening the pupils presented the Principal with a beautiful bouquet and a hand-somely bound book, "The Life of Brigham Young." The presentation was accompanied by a poetical composition, written by one of the pupils, for the occasion.

Sexton's Report.—Sexton's report

for May: Males, 13; females, 22. Of these, adults, 13; children, 32. Causes of death as reported: Lung disease, 10; diphtheria, 7; whooping cough, 6; old age, 4; still born, 2; paralysis, 2; inflammation of bowels, 2; convulsions, infantile, 2; brain disease, 2; typhoid fever, 1; aneurism of aorta, 1; crop, 1; killed, accidental, 1; heart disease, 1; dropsy, 1; lead poison, 1; marasmus, 1. Total internments, 45.

JOSEPH E. TAYLOR, Sexton.

Wanted.—We take the following

Information of Agnes W. Ballard and Phoebe Jane Brett, who left Liverpool for Utah, December 4, 1872, on board the steamship *Manhattan*, please address Mrs. Agnes Bradshaw, 16 Rose Street, Rickenhead, England.

Vacation.—The vacation of the

20th Ward Seminary will commence on the 21st inst. During the interim, the Principal, Prof. T. B. Lewis, will occupy his time in visiting the trustees of every school in the County, in his official capacity of County Superintendent of District Schools.

Good.—The workmen on the

Temple Block and some others, have subscribed over a hundred dollars for the benefit of the widow of the late William McEwan, who was accidentally killed the other day, while at work on the New Tabernacle.

Heavy.—That was a heavy rain

and hail storm that prevailed during this forenoon. The frozen particles were not large enough to do much damage to tender vegetation, and the extensive moisture caused the farmer to rejoice at the prospect of a bountiful yield of crops from the fruitful soil.

Convicted and Sentenced.—The

Ogden *Journal* learns that the Indian "Tamblago," who killed Rhoden, at the Fort Hall Agency, last year, was, on his own confession, convicted of murder in the first degree, at Malad, recently, and was sentenced to be hanged on the 25th of June.

Engine Company.—There will be

a meeting of Pioneer Engine Company No. 1, in the Firemen's Hall, on Monday evening, at half-past seven.

H. H. GODDARD, Secretary.

June 1st, 1878.

Benefit.—Do not forget the dramatic and musical performance at the

Theatre on Tuesday evening next, for the benefit of the New Tabernacle. All go and take your families. A big bill and a good object.

District Court.—Returned, June

1st. W. S. McCormick vs. J. A. Cook et al. Judgment by default, for \$13.

Deceitful Game.—The

deception sometimes at Camp Douglas were conducted yesterday.

The Metric System.

"William" said a Second Street woman the other morning as she laid aside the daily paper, "what is this new metric system proposed by Alexander Stephens?" "It is a very wise measure, indeed," she said," he replied. "Supposing you want a new dress costing \$1 per yard?" "Yes." "And they propose to make it a law, do they?" "They do." "Well, sir," she exclaimed, showing a red spot on each cheek, "when the metric system comes into practice in this family, divorce will follow, and Alexander Stephens is a fool, sir, a fool!"—*Detroit Free Press.*
