

Loss \$100,000, with partial insurance. Fire caught in an unoccupied portion of the Atlantic House, Chicago, 7.—The Journal's Jamesville, Wis., special says: A powerful storm set in from the northeast last night, and the thermometer fell to 25 degrees above zero, making ice a quarter of an inch thick. Tobacco has suffered severely. The mercury stood 85 degrees above zero to-day, which is the coldest ever known here in May.

NEW YORK, 7.—Mr. Kelly, newly appointed United States Minister for Austria, accompanied by his family, sailed for Europe on the steamship *Prinzess Alice*, of the Hamburg-American Packet Line, to-day.

WASHINGTON, 7.—Ex-Senator Blanch K. Bruce, Register of the Treasury, tendered his resignation. It is reported that the resignation was requested. Springfield, Ills., 7.—Latest advices from three counties in the southern portion of the State contained in the legislative district represented by Shaw, Democrat, recently defeated, have returned a republican majority. The district was counted 2,000 Democratic majority, but claimed the Democrats were lulled by the Republicans, and the crowd at the polls in the afternoon gained the election. If this case, the republicans will have a majority on joint ballot.

NEW YORK, 7.—The 117th annual report of the New York Chamber of Commerce shows that for the year 1884 there was a decrease in the imports of the country of \$57,813,000 from those of 1883.

NEW YORK, 7.—The two rebel leaders, Cabalero and Cabalero, who advised and assisted Preston in burning the board of the *Galena*, were delivered yesterday morning to General Reyes, commander-in-chief of the Colombian army, by Captain Kane. A court-martial was then held by General Reyes, and the rebel conspirators were sentenced to death. No delay occurred in carrying out the sentence of the court. In the afternoon the condemned men were taken to the middle of the ruins which were instrumental in making, and were in presence of thousands of soldiers, who had assembled to witness enforcement of the law. The place selected for the hanging by General Reyes was the exact spot where the rebels had started the fire on March 31st, which laid the city in ashes and destroyed nearly every building in it. General Reyes' prompt and vigorous action has already had a great effect. The hanging of Portazal and Cabalero struck terror to every rebel in the Isthmus.

FOREIGN.

After Gladstone had announced the arrangement in the House of Commons the conservative members called a meeting and decided that it would be impolitic to oppose the vote of credit.

The communication from the Russian government defines the scope of arbitration. The terms of the agreement indicate that the arbitrator's functions will be to find a formula of conciliation consistent with the *amour propre* of both sides. Emperor William will be asked to act as arbitrator, and it is expected he will consent.

PARIS, 4.—The eruption of Vesuvius presents a grand spectacle at night, and is viewed by crowds of visitors. Prof. Palmieri thinks there is no serious danger from the eruption.

LONDON, 5.—It is rumored on the London Stock Exchange that Earl Dufferin has resigned the office Viceroy of India.

LONDON, 5.—In the House of Commons this afternoon, Gladstone, in answer to questions, stated that Sir Peter Lumsden, British Afghan Boundary Commissioner, and Col. Stewart had been ordered to come home immediately.

LONDON, 6.—The *Times* this morning complains of the reticence and ambiguity of the statements of the government in regard to the Afghan question. It severely criticises the action of government in recalling Sir Peter Lumsden, as the frontier question will be all settled before he can possibly arrive in London, and that therefore any information he may have will be worthless.

LONDON, 6.—The *Times* this morning complains of the reticence and ambiguity of the statements of the government in regard to the Afghan question. It severely criticises the action of government in recalling Sir Peter Lumsden, as the frontier question will be all settled before he can possibly arrive in London, and that therefore any information he may have will be worthless.

LONDON, 6.—James Russell Lowell unveiled the bust of Coleridge the poet, in Westminster Abbey this afternoon.

LONDON, 7.—Edmund Fitzmaurice, Under Foreign Secretary, replying this afternoon in the House of Commons to Gibson, conservative member for Dublin University, stated that Gen. Ridgeway, with Captain Yates and others, would remain in charge of the Afghan Boundary Commission, now that Sir Peter Lumsden is coming to London.

"The instructions sent to Sir Peter Lumsden," Lord Edmund continued, "do not cancel his appointment. He has not been summoned to London to advise the government about the frontier boundary commission. The escort will remain with General Ridgeway, who will carry on the work of the commission on the spot."

Granville, in the House of Lords this afternoon, replying to a motion by the opposition for the production by the government of the papers in the Russian controversy, used the following language:

"I do not believe that if England was

issued a decree, creating two trans-Caspian reserve battalions.

LONDON, 6.—An Exchange Telegraph dispatch from Vienna states that Baron Von Schaffer, Austrian Minister at Washington, has been instructed by his government to object to the appointment of Kelly as United States Minister to Austria. It is supposed that the fact of Kelly's wife being a Jewess is the reason for the objection, although nothing definite in regard to the cause of this action of the Austrian government is known.

LONDON, 6.—Denmark is willing to act as arbitrator of the dispute between England and Russia, should her services be requested by both countries.

LONDON, 1 p.m., 6.—Consols opened at 98, shortly after noon advanced to 98 1/2, and are now quoted at 98 1/2. Russian securities 91 1/2. Stocks quiet, home and foreign securities steady.

LONDON, 6.—An Irish local government bill will probably be introduced in Parliament before the close of the present session. The new measure provides for a properly-elected council in each county, whose duty it shall be to conduct the administration of business hitherto relegated to grand juries. Provision is also made for a central council in Dublin to be elected by the county councils. This council will discharge the functions of the boards of education and public works, etc. It is also meditated to abolish the Lord Lieutenancy and create a Secretary of State for Ireland, but this is still undecided. It is not unlikely the measure will be passed this year.

ST. PETERSBURG, 6.—There is no appearance here of any abatement in warlike preparations. The mobilizing of rifle battalions in Finland continues.

LONDON, 6.—The *Daily News* is authorized to deny that Russia has stipulated that England shall not occupy Port Hamilton. The *News* believes Russia has offered England a positive assurance that she has no intention of taking Herat.

A dispatch from Simla to Reuter's Telegram Company says that Sir Peter Lumsden has resigned his position as British Afghan boundary commissioner because of his inability to agree with the policy of the home government.

Lord Churchill, addressing a conservative meeting to-night, protested against the commission on frontier demilitarization's removal to London to be dealt with by the imbeciles of the foreign office. Russia, he said, had always objected to the presence of Gen. Sir Peter Lumsden, and now the government had gratified Russia by recalling Gen. Lumsden. It was time for the Tories to endeavor to bring about a change in the advisers of the crown by refusing supplies.

LONDON, 7.—Wm. Ward, first Earl of Dudley, is died. He was 68 years of age. Earl Dudley was a liberal conservative.

LONDON, 1.30 p.m.—Consols opened at 98 13-16, and at this hour have advanced to 98 1/2.

2 p.m.—Consols 98 12-16 for both accounts.

TEHERAN, 7.—Advices from Sarakhs states that a small force of Russians, with four guns, now occupy Penjdeh. The same advice contains the statement that the Russians have completely won over the Sarakhs Turcomans. The telegraph line is now completed to a point 120 miles beyond Askabad. There is an apparent lull in Russian preparations for war, the Afghan troops along the Bala Murghab not having received any pay for a long time, are greatly demoralized.

LONDON, 7.—The *Times* commenting on the attitude of the Conservatives toward the government respecting the Afghan question characterizes the conduct of the Tory leaders as unwise. It says Lord Randolph Churchill is not justified in proposing to refuse supplies to government. The approaching election will give the conservatives ample opportunity to arraign the government at the bar of public opinion, the *Times* argues, and the Conservative party will be much stronger if it abstains from crude and extravagant statements that the government have mismanaged the Afghan business. The article concludes by giving advice which shows that the opposition is capable of doing better.

PARIS, 7.—The subject of the proposed international control of the Suez Canal is being discussed to-day by the International Suez Canal Commission. German, Austrian and Russian delegates favor international control; English and Italian delegates oppose it.

LONDON, 7.—James Russell Lowell unveiled the bust of Coleridge the poet, in Westminster Abbey this afternoon.

LONDON, 7.—Edmund Fitzmaurice, Under Foreign Secretary, replying this afternoon in the House of Commons to Gibson, conservative member for Dublin University, stated that Gen. Granville, in the House of Lords this afternoon, replying to a motion by the opposition for the production by the government of the papers in the Russian controversy, used the following language:

"I do not believe that if England was

going to wage war against Russia, we should wage it at a disadvantage, and with every advantage in favor of Russia."

Lord Granville denied that the government's military policy had been a failure, and denied also that Russia would go to Herat.

The motion for the production of the papers was withdrawn.

In the French Chamber of Deputies yesterday, De La Forge, Radical of the Left, was elected Vice-President of the Chamber by 146 votes, his opponent Develle, Opportunist, receiving 129 votes.

The opening speeches in the trial of Richard Short, for stabbing Captain Phelan, were heard to-day, and Phelan proceeded to give his testimony. He stated that he never threatened the life of O'Donovan Rossa, but had said he would see that Rossa would not publish articles against him.

THE LIVER AND ITS FUNCTIONS.

IT has become a well established fact that the larger portion of diseases to which the human family is subject arise in the first place from some derangement of the Liver. This organ is not only the largest, but at the same time one of the most important. The venous blood, on its return to the heart, passes through this organ, and in its passage the impurities, as also the secretions which are necessary for digestion as well as for a cathartic to assist in the renewal of waste material &c. are eliminated. From this it is easily seen that the Liver is liable to get out of order to a greater or less extent, and when this occurs it is impossible for it to properly fulfil its office of removing all objectionable matter from the blood, but allows it to pass through, carrying with it the poisons of which it should have been relieved.

With impure blood the whole system becomes affected, and no organ can properly perform its function unless it is supplied with PURE BLOOD to maintain its strength. Both the Liver becomes all important, and when one has the feeling of being continually tired, worn out, is constipated, with tenderness of the Headache, Sick Stomach, Sallow Complexion, Eruptions of the skin, etc. they may be sure their Liver is out of order, and a remedy is required to assist nature in relieving itself of all accumulations, and restore it to its original strength and vigor. For all the complaints of this kind there is no medicine that equals

DR. C. F. SHERMAN'S PRICKLY ASH BITTERS.

The result of years of study, experiment, medical research and practice of Dr. C. F. SHERMAN, its originator, and his success where ever used is sufficient guarantee for its merit. Drastic Purgatives and that class of remedies can have but one effect—that is by their violent action to derange and weaken the system. Prickly Ash Bitters acts directly on the Liver, Kidneys, Stomach, & Bowels, in a mild yet effectual manner, and is so pleasant to the taste as any cordial, and is as easily taken by children as adults.

PRICKLY ASH BITTERS is a medicine of rare value, and not an intoxicating beverage, and being purely vegetable in its composition can be used at all times with beneficial results. It is not claimed as a cure-all, but for derangements of the organs mentioned, it is a specific, and as a BLOOD PURIFIER ranks above other preparations. Ask your druggist for it, and give it a fair trial. If he has none on hand, ask that it be ordered for you.
