

Paying the Printer.

There are people of every civilized country under the sun who have taken objection to the business of printing and the manufacture of newspapers. They believe that a newspaper can exist, thrive and flourish on itself, without any external aid, on the principle on which the bear manages to tide over the cold weather, without requiring sustenance or board. Many of the people of Oregon labor under this strange idea, however it comes that some of our brethren of the provincial press are driven half yearly to drum and clamor for what is due them, and to browbeat readers who believe that they can read their paper without money and without pay. Our brother of the Allison Star, of the 28th ult., makes an appeal ad miserandum, which is a fair sample of what printers are driven to by the wanton neglect and carelessness of those whom they faithfully serve. He says: "We want money and must have it. From the date of our commencement to the present, we have not urged upon our subscribers or advertisers the necessity of paying up. There is an end to all things, and we find that the time has arrived when we must refrain from asking for what should have been paid long since. Printers, like other people, require money. We have a large weekly outlay in the way of wages, paper, ink, &c. We therefore trust this hint may be sufficient." Every straightforward man will admit that there is something desperately wicked in the system which compels a decent man to turn humbug, and throw out such vivid hints and insinuations as the above. Every straightforward man will admit also that the parties who are the cause of such a transformation are guilty not only of uncharitableness, but downright dishonesty, and should be punished as swindlers of the poor and needy. The printer ought to be the last man in the world subjected to censure. His profits are small—for years often invisible—he has then to toll early and late, to slave often when men are at rest, to stear his bark through a multitude of abuses which, if justice were done, should fall on other shoulders, and—besides doing all this—he must never lose sight of the interest of his readers, nor cease to push them forward with might and main.—Toronto Telegraph.
