

HENRY NORMAN WANTS TO KNOW

Will Interpellate Cranborne on
Pauncetote Proposition.

GERMANY IS STANDING PAT

But for Emperor's Action, British Am-
bassador's Proposition Would Have
Been Accepted by Other Powers.

London, Feb. 11.—The efforts of the German official and semi-official press to open the controversy concerning the attitude of the powers toward the Spanish-American war are rapidly leading to complications which at least will be entertaining and which possibly may have important developments.

Henry Norman, M. P., who on Jan. 21 first interpellated Lord Cranborne, in under secretary for foreign affairs, in the house of commons on this matter, will ask Lord Cranborne today whether his attention has been called to the statements widely made in the British press and alleged to have received official confirmation, that Great Britain on April 14, 1898, through her ambassador, proposed a fresh joint note in which the powers should declare that Europe did not regard the armed intervention of the United States in Cuba as justifiable and in consequence of Germany's refusal to accept this proposal, the step was abandoned. Mr. Norman will also ask whether Lord Cranborne can make any statement on this subject.

The Associated Press is in a position to say that if the cabinet allows Lord Cranborne to make a frank answer to Mr. Norman's questions, it will be giving anything but a flat denial to the allegations of the German press. If Lord Cranborne accepts Mr. Norman's invitation to make a frank statement on this subject, it is probable that the unofficial pour parlers which took place among the diplomats at Washington prior to the declaration of war, and of which the foreign office has no official record.

According to the foreign office, it is inevitable that Lord Pauncetote have entered into any such negotiations as are suggested by the German press and much less advocated than here. However, if the reply regarding this phase of the affair is made, it is not likely to be too definite on account of palpable anxiety exhibited here to make Germany produce those documentary proofs which she is alleged to have.

GERMANY STANDING PAT.
Berlin, Feb. 16.—The official North German Gazette this evening joins in the controversy regarding the attitude of the several powers previous to the outbreak of the Spanish-American war. It says Lord Pauncetote's proposition of April 14, 1898, to send a collective note to the government of the United States declaring American intervention in Cuba to be unjustifiable, a historical fact, and the Gazette proceeds to characterize as absurd the "warrant" now being made to obscure and dispute an event which did not occur in the presence of the representatives of only two powers, but on which the representative of all the powers at Washington, after reaching an agreement, reported to their respective governments, April 14, 1898, simultaneously and identically.

The German official declaration in the North German Gazette is a direct consequence of the incredulity expressed by American and English newspapers regarding the disclosures from here of the action of Lord

MANCHURIAN AGREEMENT.

Negotiations Between United States and Russia Progressing Rapidly.

Its Terms Are Intimate to American Interests—Undoubtedly It Will Be More or Less Modified.

Washington, Feb. 11.—Negotiations between the United States government and the government of Russia relative to Manchuria are progressing with the exhibition of a great deal of energy on our part, though the exchanges are in the kindest spirit. The attitude of the Russian government in this matter has shifted materially since the beginning of negotiations. The treaty was drawn up practically between Russia and China, providing for the evacuation of Manchuria by the Russian troops who have been in military possession of the country since the early days of Boxer outbreaks. This treaty contained a great many rather complex guarantees in Russia's favor, but a singularly objectionable provision placing the Russo-Chinese bank in practical control of the commercial and material interests of Manchuria. It was quickly proved that the provision, if executed, practically would exclude Americans from competition in Manchuria, which is very valuable as a market for our manufactured goods. Therefore Russia's attention was directed to our existing rights under treaty with China, and also to her own promises made directly to the United States government during the early days of the Russian occupation of Manchuria.

Apparently our representations were effectual, for the provision touching the Russo-Chinese bank was withdrawn from the treaty and the convention, save in some minor respects was regarded as unobjectionable. However, it has been discovered that the Russian government, following a practice known in European diplomacy has drawn up a secret agreement with China, conferring upon the Russo-Chinese bank all the powers contained in the original treaty provision. Therefore the United States government has renewed its objections, not only addressing itself to the Russian government, but making a persistent objection to China. It is expressly declared in so doing our government has acted independently, though it is a matter of common knowledge that our great commercial powers, whose interests in Manchuria are almost as considerable as our own, have addressed similar representations to both China and Russia.

KITCHENER'S BUSY WEEK.

Livestock with Heavy Losses for Both Sides for a Long Time.

London, Feb. 10.—A report received today from Lord Kitchener at Pretoria shows last week to have been the liveliest week, with the heaviest losses on both sides, for several months past.

Lord Kitchener gives the Boer casualties at a total of 65 killed, 57 surrendered and 574 taken prisoners. The British captured 480 rifles one machine gun and a small quantity of munitions and live stock.

The most serious British loss during the week was the capture of 60 donkey wagons, conveyed by 160 troops. At a point 30 miles from Beaufort-west, Cape Colony, the enemy swept down on the donkey wagons and out up the convey for assistance arrived. They were able to remove only 12 of the wagons, and burned the rest. In this engagement the British lost two officers and 11 men killed and one officer and 47 men wounded, while the Boers lost 24 killed and 45 wounded. The Boers also captured a detachment of 109 men of Col. Dora's column the night of Feb. 3, when the British lost three officers and seven men killed and 17 men wounded.

Von Dorn, surprised Potgieter's laager near Wolmarstadt Transvaal colony, Feb. 7, killing three Boers and capturing 36, as well as 25 wagons and livestock.

Two Deserters Hanged.
Manila, Feb. 10.—Edmund A. Dubose and Lewis Russell, deserters from company E, Ninth cavalry, and who stole arms belonging to the regiment and joined the insurgents in August last, for which they were tried and sentenced by the military commission, were hanged Feb. 7, at Guimbotan, province of Albay, in the presence of 3,000 people. The execution was orderly. It was supervised by Capt. Henry H. Wright of the Ninth cavalry, commanding the post. Several native petitions were received urging clemency, but the authorities failed to see any reason to delay the execution, the men's crime constituting a flagrant breach of the military code in time of war.

Clockmakers Agree on Wages.
New York, Feb. 11.—In accordance with the plan of arbitration arranged a fortnight since, 6,000 clockmakers have reached an agreement as to wages and conditions for the spring season and there will be no strike.

Impairment of hearing robs one of many of the joys of life, exposes to danger, interferes with capacity for usefulness, limits ability to transact business and earn a living. Many anxiously abandon their plans, ambitions and hopes on account of loss of hearing. There is a matter of common knowledge that deafness is another feature that to many is more troublesome than the difficulty of hearing. The distinct head noises, these make such an impression on some as to almost drive them insane. The weariness, the ringing, the buzzing, the roaring or roar, distracts them by day and prevents rest at night.

One out of ten of head noises and progressive hardness of hearing are due to catarrh of the middle ear or of the tube leading from it to the throat.

It should be understood and constantly borne in mind that to restore the hearing, catarrh of the tube must be removed. It is not enough that will allow inflammation in the ear to subside, but the tube must be kept open for the free passage of air into the middle ear. No really applied medicine will do this, only a searching constitutional alternative and resolute will cure catarrh in the deep recesses of the head.

Two acquaintances of the writer were run down and killed by the cars in one year. Both had catarrh of the tube, which had extended up the eustachian tubes, leading from the throat to the middle ear, and were quite hard of hearing. In both cases the coroner's jury decided that they came to their death because of inability to hear and heed signals that were intended for them. What happened to them is a frequent occurrence and in three cases out of four might have been prevented by the use of Stuart's Catarrh Tablets. These tablets cure all kinds of catarrh. They can be bought at any drug store for 50 cents a box.

Stuart's Catarrh Tablets do not affect the system, but they cure the catarrh of the eustachian tubes and the head noises and deafness resulting therefrom. I used them, and have now perfect hearing. I heard as well as ever.

A my surgeon, C. S. Beverly, became so deaf that he was forced to resign his position and abandon his profession. He says: "Of course my inherent professional prejudice was hard to overcome, but knowing of the great benefit you had received, I hesitated no longer. I am now entirely cured and have no fear of the disease returning. I go back to my old post next month."

Stuart's Catarrh Tablets have done it. I do it will do it. Try them and be convinced. They are for sale at any drug store at 50 cents a box. It will put you to rest, it will give you a new lease of life, it will do for you. Send to F. A. Stuart Co., Marshall, Mich., for your free book about catarrh. A postal card will bring it. Teams, and Boating Crew—Under-
graduates to Have Majority.

New Haven, Conn., Feb. 11.—Yale is to have a new athletic committee, composed of representatives of the four leading athletic teams—the track, football and baseball teams, and boating crew—and of three alumni. It is expected that Walter Camp, athletic adviser of the University will be a member. A constitution is now being drafted for the committee and it will be presented soon to the undergraduate body for adoption. The undergraduate element will have a majority of one on the committee, this maintaining the old Yale tradition of undergraduate control of athletics.

ROY CLARK SIGNED.

He Will Play Centerfield on New York Team.

New York, Feb. 11.—Roy E. Clark, captain of the Brown University baseball club, for two seasons, has been signed to play center field for New York during the coming season.

WILL HAVE AMERICAN CREW.

Challenge for Cup to be Tested Against Shamrock II.

London, Feb. 11.—Sir Thomas Lipton's third challenger for the America's cup will be tested against Shamrock II with an American skipper and crew on board the latter. This decision is the outcome of the statement that Sir Thomas has decided that after his new challenger has been thoroughly tried here against Shamrock II and another series of trials shall be carried out over the cup courses against Shamrock II in American hands. By this means it is hoped to show how far Mr. Watson's opinion of his boat was justified and give the third challenger such a finding up as to assure that she shall not suffer by being beaten to the starting line in an untried condition.

BOTH ELECTED MEMBERS.

Kaiser and Prince Henry Taken in By Atlantic Yacht Club.

New York, Feb. 11.—At the annual meeting of the Atlantic Yacht Club, which has just been held, resolutions were adopted electing Kaiser William of Germany and his brother, Admiral Prince Henry, honorary members of the club. This action was taken as a token of appreciation for the Kaiser's action in ordering an American yacht and his expressions of good will toward the United States.

FIGHTED AND WALKED.

Professional "Peds" Engage in Lively Fight in New York.

New York, Feb. 10.—Tom Finerty of the Williamsburg team in the six-day walking match at Madison Square Garden, and Guo Guerrero, the Cuban, had a fist fight on the track early this evening. Finerty claims Guerrero tried to shove him from a post near the rail at any rate. Finerty turned suddenly on the Cuban and knocked him down. Then the two went at each other. The garden was in uproar, and all the race and walking spectators, and the police, the walkers and the police, but the Cuban struck him in the face. This started another fight, but the police again intervened and then the match was resumed.

The "Indians" team—Davis and Carroll—are the favorites with the crowd. They kept at a steady pace and make lap after lap in fine time. The Hurst brothers, at a steady pace, a steady pace and do not join in the sprints.

The score of the leaders at 8 o'clock was:

JOE BERNSTEIN LOST.

Benny Yanger Got the Decision in The Sixth Round.

Chicago, Feb. 10.—Benny Yanger, the Chicago feather-weight, gained a decision over Joe Bernstein in the sixth round at the American Athletic club tonight after six rounds of the fastest kind of fighting. It was Yanger's fight from the beginning, and he scored a big lead in every round. Yanger paid little attention to anything but Bernstein's stomach, and after the first two rounds he had Bernstein on the run.

YACHT BROKEN UP.

But Every Port is Preserved and Can Be Replaced.

New York, Feb. 11.—It has been learned, says the World, that T. W. Lawson's yacht, Independence, which it was stated, had been ordered broken up and sold for junk, is so broken up that she can be put together at a moment's notice. Its parts are said to have been carefully stowed away. Every frame, every plank, in fact, every part of it dependent in numbering and the storehouse is watched night and day.

Mr. Lawson's plans for the boat are unknown.

LOCAL EVENTS.

WILL BE HERE TOMORROW.

"Silent" Rowan Expected Then—Will
Be Ready for His Bout.

"Silent" Rowan, the little brother of
"Dumpty" will arrive here tomorrow
morning from Montana, and it is ex-
pected he will be all ready for his com-
ing with young Phil Green in the
squared circle Friday night. The little
fellow has many friends here, and they
will expect to see him win from Green.
He has since the latter defeated Heuser
he has jumped into favor with the
sporting element, and if he loses to
Rowan, scores of persons will go broke.

Yesterday the youngster went three
fast rounds with Flynn, a heavyweight,
and he was handled rather roughly.
Green's wind is in fine shape and when
he steps into the ring Friday night he
will be strong, and able to stand the
man's rush. He will weigh about 150
pounds, and "Silent" will tip the scales
at about 125.

THE COLORADO RACES.

Probability of Some Local Horses
Entering the Events.

Entry blanks for the Colorado races
have arrived in this city and there is
some talk of local horses entering. Dur-
ing the thirteen days of races held in
Denver they will be given away in
purges of \$10,000. Throughout Colorado
there are to be twenty-seven days of
the "Sport of Kings." In the following
cities: Denver, Colorado Springs, Puer-
to and Trinidad.

After all the events are run off, the
horses will go to Butte for the races
there and thence to California.

RE-OPENING OF D. A. C.

Parker and Armstrong Will Meet in
The Ring.

Denver is jubilant over the reopening
of the D. A. C. scheduled for Friday
night. It means the revival of the box-
ing game there. The Post has the fol-
lowing about it:

Hurray for the D. A. C. Again de-
they open up the boxing sport in this
city. They again establish themselves
as the place for all athletic events of the
West. Next Friday night they will give
their first smoker in two years. The
smokers of this organization used to be
the leading athletic events of the
year and always attracted a vast crowd
by the members. The contest next Friday
night promises to be the best ever held
at the club. The last smoker, strange
as it may seem, had Kid Parker for
one of the principals, and now they
are to have him again. Parker in those
days kept the spectators on their feet
throughout. He promises to do so
again. Armstrong is a sturdy unit
follow with all the confidence in the
world. He is a tough fighter. He can
defeat him never enters his head.
"Beat me," says Armstrong, "why, he
can't beat an egg." But when the re-
marks are carried to Parker by his hand-
somes and says "Wait until next Fri-
day night and Mr. Armstrong won't be
quite so gallant as he is at the present
time." Parker is not doing much talk-
ing. He is giving his hands and getting
into his former condition. "I want just
another year at the game and be as
good as I was two years ago. Then I
will retire and leave it for someone else
to try to top." If he defeats Armstrong,
handily he will take on "Buddy" King
and others in rapid succession. "The
money is all in fighting champions, and
when I find out that I am good again
I will do it. I am going to win after-
ward," said the Kid. That's the right
course to pursue. A champion is no
harder to knock out than a "sucker."
Parker has been hit in the proper spot,
Navy. He has demonstrated that fact
when he put the seemingly invincible
Terry McGovern to sleep in two rounds
at Hartford. The little Denver fighter,
instead of running away, kicked man-
ners from Terry and won. Terry and
Terry's why Parker was always so suc-
cessful. He is a mixer pure and sim-
ple, and those are the kind of boys that
make champions. Next Friday night,
therefore, the Kid will win and demon-
strate his old style of fighting, although
he has changed his training methods.
We are all anxious to see him go.

ABOUT THE M'GOVERNS.

Two of Them Are Fighters and One
A Jockey.

There is another member of the Mc-
Govern family about to begin life as a
fighter. Hugh McGovern, the little
brother of the champion, has taken to
the game like a duck to water, and
Manager Harris has promised to pit
him against some of the bantamweights
about Chicago in the near future. In
the training quarters with his celebra-
ted brother, young McGovern has shown
up in great shape. When boxing with
Terry he goes faster and harder than
any of the other trainers and it's worth
the price of admission to watch the two
bouts. The Kid will win and demon-
strate his old style of fighting, although
he has changed his training methods.
We are all anxious to see him go.

ONE WOMAN'S ADVICE TO ANOTHER.

Immediate Relief from the Use of
Paine's Celery Compound.

BOSTON, Jan. 13, 1902.

TO THE SUFFERING PUBLIC: It is with a feeling of extreme grati-
tude and thankfulness and a humane desire to benefit others that I write out
my own experience in the use of Prof. Edward E. Phelps' wonderful prepara-
tion, called "Paine's Celery Compound." Owing to a fall from a horse several
years ago, I became a nervous invalid, and last year I entered a hospital as
a patient, where I was operated on by a famous New York surgeon.

The surgical operation was successful, but nervous prostration followed.
A summer in Newport, with the best medical attendance, failed to restore my
nerves to their normal condition. I was absolutely unable to digest any solid
food, and this weak condition of my digestive organs, combined with insomnia,
caused the deepest depression. A constant tenderness and soreness in the
region of my stomach, with a dull headache and extreme weakness, created a
feeling of hopelessness, from which I was unable to rise.

It was in this melancholy frame of mind that I chanced to meet a Boston
lawyer, who said to me, "I was in almost the condition that you are now in, and
after spending hundreds of dollars without receiving any benefit I was induced
by a friend to give Paine's Celery Compound a trial, which I did, and it cured
me completely when everything else had failed."

I was rather skeptical about trying a prepared medicine, but I ordered a
bottle from my druggist and began to take it according to directions. Much to
my surprise I slept soundly at night and did not wake in the morning with the
usual dull headache. Then, too, I developed an appetite for solid food and soon
I was able to digest a course dinner without any unpleasant sensations. I am
now completely restored to health after about two months' use of the Compound.
Sympathizing deeply with all who may be suffering as I did, I take this method
of reaching strangers, after writing personal letters to my particular friends.

With the sincere hope that others may be benefited as I have been by the
use of Paine's Celery Compound, I am

Very truly yours,
