THE SALARIES QUESTION.

The regular business was interrupted
by a resolution, introduced by Jones, pro-
posing that the Legislature shall fix
the maximum salary of county officials,
not exceeding the salary of a lower
grade. This was a fairing bill, and
the House, after some debate, did not pass
the same. Still, some county
heads suffered, but other counties
were not so fortunate.

Committee on Education, bill 126, to
county 11, 12, 13, 14, 15, 16, 17, and
so on, state, fixing rates and
days over the proposition.

Clerks and City officials were
also at arm's length against the
committee on county offices by the
Legislature, and no voice was against
the bill.

McKay objected to Jones's state-
ment about Weber county people
being rate cuts and says
Jones' bill was equally good.

McKay.—We have no friends, and
we have, therefore, DISMISSED, & we

At this point the discussion of the
