WATCHES JEWELRY

ABOUT three months ago all the watchmakers in this city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are underselling their colleagues and thereby proving themselves untrue to their written word. In consequence of which the undersigned has withdrawn his name from said agreement and established his own prices, cheaper than any other watchmaker's in Salt Lake City.

AN OPEN SECRET

AMONG THE LADIES

The brilliant, fascinating tints of Complexion for which ladies strive are chiefly artificial, and all who will take the trouble may secure them. These roseate, bewitching hues follow the use of Hagan's Magnolia Balm—a delicate, harmless and always reliable article. Sold by all druggists.

The Magnolia Balm conceals every blemish, removes Sallowness, Tan, Redness, Eruptions, all evidences of excitement and every imperfection.

Its effects are immediate and so natural that no human being can detect its application.

The Negro Exodus.

NEW YORK, 24.—The *World's* Washington special discredits the reports of the intended large movements of southern negroes to the north, and says the return of more prosperous times and higher wages in the south than they can earn in the north will prevent a large exodus. It also states that a counter exodus has been started, and arrangements are about completed by Mississippi and Louisiana planters, for importing colored labor from Missouri and the border states. Several railroad companies are about to issue tickets over their roads at excursion rates, for the purpose.

Political Notes

A Washington special to the Philadelphia *Telegraph* says: Gorham has been visited by a large number of friends, anxious to know if he has really turned democrat. He gives the most positive negative to all such inquiries, and says he is as much a republican now as he ever has been, and has never departed one jot from that faith. The course he pursued in the late California elections was dictated by local issues in which the question of politics did not enter. The field was so split in California as to lead democrats to vote for republicans, republicans to vote for democrats, and to mix things up generally. It was impossible to tell whether a man was a democrat or a republican, if his conduct in minor fights was taken into consideration. He would, he says, under similar circumstances, do the same as he did in California, and still remain as now, as staunch a republican as any in the party.

The *World* ridicules the position into which it says Carl Schurz was betrayed, at Denver, by those peculiar creatures, the Colorado republicans, who, besides pledging the State for Grant in Schurz' presence, afterward compelled him to make a speech approving the platform which he next day discovered contained a radically unsound plank.

The Tramp.

The popular interest in the great walk for the Astley belt seems to increase. Five thousand people were present by 7 o'clock this evening, and devoted themselves to energetically cheering the contestants. A constant clapping of hands and stamping of feet was kept up all over the garden. Guyon is keeping up a rattling pace and gets frequent and hearty applause. He finished his 265th mile at 8.23 p. m. and got a perfect ovation and a large bouquet. Rowell continues to keep his dangerous lead, varying from 10 to 25 miles, and the most strenuous efforts of his opponents fail to close the gap. In fact it is the other way, and the gap is slowly but surely widening. He is in splendid form, and the rumor that he was breaking up are entirely denied. Rowell, at the end of the 67th hour had made 290 miles and four laps, which left him just 9½ miles behind "Blower" Brown's best time on record, in the match in London. Hart, the colored boy, has taken to running and is trying to close up the gap between himself and Hazael. The latter took several short rests during the evening, which caused him to close up somewhat behind. Weston is doing some rapid work and flits around the track at a quick pace. He seems to care more for gaining applause for occasional bursts of speed than for distance. Rowell leads him nearly 60 miles. Ennis is falling behind, owing to his old complaint of a sick stomach. His friends hope the sickness will pass away soon and that by his speed and staying powers he can come to the front before Saturday. Hazael seems lame, but he leaps around the track at an astonishing gait, which gains him prolonged applause. Rowell finished his 295th mile at 8.54 p.m., making a mile in 10 minutes and 5 seconds, amid cheers and applause. Hazael's trainer says he never was in better condition in a six days' walk before, at this stage. Weston and Hart caused quite a stir by running four laps at a high rate of speed. They kept side by side the whole time. As Rowell approached his 300th mile he was almost constantly applauded. At 9.30 nearly all the men were on the track, most of them running and the cheering was deafening, there were nearly 8,000 persons in the gardens.

Clearing-House Report.

The Clearing-House exchanges for the third week of September are altogether encouraging as to the standing of business, except on the Pacific Coast. San Francisco is the only city of importance in which the transactions are materially smaller than at this time last year, and the causes of decrease there are of a local character. According to the table to be published by the *Public*, to-morrow, the following towns show losses over the corresponding week last year: San Francisco, three-tenths per cent.; Cleveland, eight and four-tenths; New Orleans, two-eighths; Milwaukee, one one-tenth; Syracuse, four-tenths. All others have gained. The *Public* thinks there is nothing discouraging in these comparisons. They tell of a very great increase of the volume of business since September 1st, and yet it will be remembered that crops of unprecedented magnitude were then coming forward, and the demand from abroad was already enormous. Transactions outside of this city, notwithstanding the remarkable decline at San Francisco are larger than they have been at any time this year, except in the first weeks of March, April, May and June, and the monthly disbursements and settlements usually make the exchange of the first weeks larger than those of the other weeks of the month. The fall business has been entirely satisfactory thus far, and it is especially encouraging to notice the great vigor of trade in those cities which depend largely upon the iron interest and other branches of manufacture.

Massachusetts Prohibition Convention.

BOSTON, 24.—The Prohibitory State Convention was held to-day, Rev. A. Miner, presiding. Resolutions were adopted, and the following nominations made: For governor, Rev. Daniel C. Eddy; lieut. governor, Timothy K. Earl; secretary of state, Charles Almy; treasurer David N. Skillings; auditor, Jonathan H. Orme; attorney general, Samuel M. Fairfield.

Resolutions were passed inviting the co-operation of women in the wark of the party, and invoking her use of the ballot.

Murderer Captured.

MILWAUKEE, Wis., 24.—A special to the *Sentinel* from Madison, says: George Baumgartner, 16 years old, the fiend who so horribly murdered little Sandy White, at Fulton, yesterday, was captured this p.m., at Prairie Du Sac. When arrested he was riding the horse stolen from Mr. White. On being charged with the crime he said he must have been insane when he did it. The sheriff started with the prisoner for Lodi, and was met by sheriff Baldwin of Dane Co., with a posse, who brought the prisoner here to-night. Baumgartner will be taken to Janesville to-morrow. There is considerable excitement here to-night, but no attempt has been made at a rescue.

General News.

BOSTON, 24.—The jury in the case of the State *versus* Dr. Kimball and Madame Goodrich, for the murder of Jennie P. Clarke, whose body was found in a trunk, came in this morning and reported a disagreement. The jury were discharged. It is reported that 11 were for conviction.

New Orleans, 24.—An accident occured on the ship *Orient*, on Saturday, caused by the giving way of a hawser, by which the vessel was being towed. Edward Hanson, a seaman, and William Hall, stowaway, a boy, were killed, and two others badly injured.

Topeka, 25.—Senator Ingalls is almost unanimously endorsed by both democrats and republicans. He has asked no favors and demands the most searching investigation. The wonder now expressed is, that so small a number of characterless men could have caused the United States Senate to order an investigation.

Wichita, Ks., 24.—Secretary Schuiz arrived to-day, *en route* to Indian Territory, whither he goes with Indian Agents Miles and Whitemay and Captain Morse.

Scranton, Pa., 24.—A terrific explosion of fire damp took place here to-day, in Sloan colliery, by which five men were badly burned.

Providence, 24.—The sixty-hour walking match between Dobler and Crossland, terminated to-night. Crossland made 206 miles and 20 laps, and Dobler 202 miles and 3 laps.

Fort Scott, Ks., 24.—The President arrived this afternoon after a pleasant trip, having been warmly greeted at every station where a stop was made.

St. Louis, 24.—The Kansas City and St. Louis passenger train, this morning, while approaching Centralia, Mo., switched on a freight train, and the reclining chair car was completely upset, and all the passengers more or less hurt. One woman is said to have since died.

Yellow Fever.

MEMPHIS, 24.—Ten cases to-day; two more deaths.

Washington, 24.—The National Board of Health, to-day, received a telegram from Prest. Plunkett, of the Tennessee State board of health, at Nashville, announcing the probability of an injunction being granted against that board restraining them from enforcing rule 6 of the rules established by the board, and inquiring whether, in such an event, the National Board would continue to give protection to the remainder of Tennessee. The secretary of the board at once replied that if the injunction is granted against the enforcement of rule 6, the executive committee, before taking action to the end of abandoning the work in and around Memphis, will watch the effect of the change.

WESTERN.

General Grant.

The announcement that General Grant would visit the Baldwin Theatre this evening sufficed to pack the building to the utmost capacity. The proscenium box designed for the occupancy of the General and party, was handsomely decorated with flowers. General Grant and party arrived shortly before nine o'clock, between the acts. A great crowd gathered at the entrance, cheering vociferously as he alighted. On making his appearance in the box, the whole audience rose to their feet and cheered and applauded for several minutes, while the orchestra struck up "See the Conquering Hero Comes," followed by a medley of national airs, accented by discharges of musketry from behind the scenes.

Great preparations are being made in Oakland for the reception to-morrow, including a procession, dinner and a camp fire of veterans of the war.

Next Tuesday the party will go to Stockton and from thence to Yosemite.

FOREIGN.

GREAT BRITAIN.

The Afghan War.

LONDON, 24.—The lines of communication in Khoram and Khorjyber valleys are being strengthened by considerable reinforcements, and various posts are being fortified in view of the possibility of local troubles.

European Notes.

Intelligence has been received from Tangir that a Spanish war ship had arrived at the port with important dispatches for the Spanish minister. It is generally believed that Spain has claimed from Morocco six million dollars for the use of the fishery grounds of Agadir, near Mogador, which the Moors ceded to Spain, but which were never used by the Spaniards. It is said that the Spanish government, fearing an accusation of negligence in the Cortes, desire to obtain some concession from the Moors before that body meets.

It is now clear that the object of the meeting of Andrassy and Bismarck was to maintain peace in Europe by a strong alliance, and to gradually separate Russia from the rest of Europe.

Lord Salisbury and Minister Waddington have agreed to reject the Russian proposal for a European commission of control over the entire administration of Egypt.

The Chinese ambassador and suite have gone to Livadia, to visit the Czar and exchange ratifications of the treaty between Russia and China, leaving a permanent mission at St. Petersburg, under one of his present staff.

John Henry Puleston, member of Parliament, sailed from Liverpool for Philadelphia, on a brief visit to the United States, to investigate subjects connected with agriculture in America in its relation to British interests.

CANADA.

Exhibition Opened.

OTTAWA, 24.—The Dominion Exhibition was formally opened, today, by his Excellency the Governor-General and Princess Louise. Twenty thousand people were present, including the governors of Ohio, Maine, and Vermont, with their respective staffs.

Will Not Accept.

TORONTO, 24.—Hanlon will start for Chautauqua Lake to-morrow morning. It is stated that Hanlon will not accept Elliott's challenge, because of his recent illness, but will return the sportsman's challenge cup.

MR. STAYNER'S Office will be pointed out to visitors by calling at the General Tithing Store, or the Deseret News Office, and parties will find it to their advantage to see him and get information before going to the Land Office or elsewhere.

PATENTS

Obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements and all cases arising under the Patent Laws, promptly attended to—Inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches, and secure Patents more promptly, and with broader claims than those who are remote from Washington. INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer in Washington, to Hon. Postmaster General D. M. Key, Hon. F. P. Power, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress; and especially to our clients in every State in the Union and in Canada. Address
